Final Religion Week Talk Tonight

Henry Wieman, professor of philosophy at SIU, will give the closing public lecture of Religion-In-Life Week tonight at 7:30 p.m. in Morris Library Auditorium.

Wieman, a renowned theologian, will speak on "The Basic Questions of Religion." His most recent books are "Marx and Christianity" and "Intellectual Foundations of Faith."

The Rev. Donald Deffner, keynote speaker for Religion-In-Life Week, spoke yesterday to two convocations. The Rev. Mr. Deffner, assistant professor of religious education at Concordia Seminary, St. Louis, Mo., told SIU students that the philosophies of life which denied God were "answers that are no answers" to our spiritual dilemmas.

He warned that the bland optimism "makes status his prop. Generous Electric in his God. His facade, though, is but a thin shell."

He advised students who did not accept Christianity to take a serious look at the faith, to read the gospel of Mark "not with your preconceived notions but with an open mind and heart."

For twelve years the campus Lutheran pastor at the University of California, Berkeley, the Rev. Mr. Deffner said that many students are in "bootcamp for this stereotype."

Fenwick Cites Need To Improve University

Outlines Nine Areas For Immediate Attention

Student Body President Bill Fenwick has taken a good long look at the state of the campus and discovered that there's plenty of room for improvement.

In a speech to the Student Council last night Fenwick called for:

Housing Found For Fire Victims

All but one of the remaining six students who were driven from their 204 West Mill Street residence by fire last Monday have found permanent housing accommodations for the remainder of the term.

After spending the last few days at Dowdell Halls, the boys received information from the Housing Office that permanent quarters had been located for them.

Francis Lloyd, Robert Mrazek, and Albert Alomari are moving to 312 West Monroe Street. Jerry Alberston will live at 703 South Illinois Avenue. Richard Auth has already moved to a house in the 500 block of Stoker Avenue.

Geoffrey Ryan has no positive address, as yet, but is living off campus with some friends.

The seventh boy, Stanley Brian, has withdrawn from the University this term.

Jack Frost Nipped 60 Pairs Of Ears

Some 60 students have a not-so-gentle reminder that it has been cold this week— they were treated for frostbite this week at the Health Service.

Dr. William J. Swinney of the hospital said that the area most affected by frostbite is the ears.

Men Agree Wives Are Better Built - To Shovel Snow That Is . . .

"Let the wife shovel the snow!" That was the advice given out this week by Dr. Oglebay Paul, head of the radio department at the University of Illinois.

Dr. Paul advised his recommendation on his theory that the wife keeps less physically fit than her husband.

The husband was more concerned with mental rather than physical tasks.

Ronald Beazley, professor of forestry, not only seconded Dr. Paul's recommendation, he encouraged women to shovel snow of their own because: "They need the exercise," he said, "that will get them thinking about getting in shape."

The Rev. Mr. Deffner, assistant professor of religious education at Concordia Seminary, St. Louis, Mo., told SIU students that the philosophies of life which denied God were "answers that are no answers" to our spiritual dilemmas.

He warned that the bland optimism "makes status his prop. Generous Electric in his God. His facade, though, is but a thin shell."

Kennedy Seeking $3.2 Billion Tax Slash

WASHINGTON--

President Kennedy urged Congress Thursday to cut taxes by $3.2 billion as the first step in his program aimed at cutting everyone's bill an average of 18 cents by 1965.

The big package Kennedy sent to a lukewarm Congress would reduce taxes at a net of 39 per cent at the bottom of the income scale and nine per cent at the top over a three-year span. He asked that the bill not be made retroactive to Jan. 1.

What Kennedy termed the most thorough overhaul of tax rates in more than 20 years was geared to such revolu-
tionary changes in the system as a 5 per cent income floor on itemized deductions. If Congress institutes the 5 per cent floor the government would gain an estimated $2.3 billion of revenue from the present floor of 20 per cent. Withholding rates would drop from the present level of 14 to 6 per cent.

Kennedy recommended a minimum standard deduction of $300. He preferred this to an increase in the present $60 personal exemption.

He proposed a rate schedule ranging from 18.5 per cent at the bottom of the scale to 4.5 per cent, down from the present scale of 20 to 91 per cent. Upon enactment it should be done quickly to create the climate for economic growth and on the assumption taxes would drop from the present level of 14 to 6 per cent.

For 1965 he proposed the final decrease, a scale of 14 to 6 per cent withholding would remain at 13.5 per cent.

WASHINGTON--

President Kennedy said Thursday that there would be "no military influx" into Cuba recently except for one Soviet ship.

Rusk will be accompanied by an unnamed official of the Central Intelligence Agency at the closed inquiry ordered by Chairman Wayne Morse, D-Den.

Today's temperatures were expected to range between 15 and 25 degrees.

Rain showers are forecast for Friday and Saturday.

"Harvest of Shame" film exposes exploitation of migrant labor

NEW YORK--

The film was produced by the United Farm Workers Union with proceeds going to the Strike Fund for the United Farm Workers Union.

Weber and Rusk in Cuba

WASHINGTON--

Secretary of State Dean Rusk will be the first witness today in the opening of a Senate investigation into reports of a new Soviet military building in Cuba.

President Rusk was accompanied by an unnamed official of the Central Intelligence Agency at the closed inquiry ordered by Chairman Wayne Morse, D-Den.

"I...find it very difficult to respect an institution that creates such a structure and then lets it become antiquated for carefully trying to preserve it..." Hope Student Council and the University Council will take steps to improve the present situation.

"I also urged revision of the night or Saturday class set up because it works a handicap on many students," he added.

"...there are many areas to be explored: aid to education, medicare, the McCarran Act, the House Union-American Activities Committee is others," he added.

"...he pointed out that there had been much confusion over women's hours regulations. But an investigation by the Student Rights Commission indicated that a majority of the committee did not see a change. The majority he said are against later hours.

"repeatedly throughout his speech Kennedy called for improved communications between the Student Government and the students.

"and the Council to use every possible means of communicating with the students. He suggested developing two half-hour radio shows a month for WSU-FM; a similar program over WSIU-TV; and regular news releases to the local newspapers and Information Services as well as all radio stations in the area.

"I also suggest that student government should be a part of the library system..." he said.

"The image of student governent is not what it would like, and as a result of the lack of interest in student government we are short of people," he said.

The United States public has recently and suddenly "rediscovered" Latin America. The general atmosphere of tension produced by the "Cold War" has momentarily receded. It has been replaced by a realization of the shocking experiences of the Great Revolution in South America in 1959, the Cuban revolution resulting in the establishment of the Castro and the subsequent dramatic events of this region. This knowledge in the United States that Latin America actually exists and is not just a story in a book, that "The native" and the "politicized" are very numerous, and that what happens in Latin America is of concern and of great importance to the United States.

This popular discovery of Latin America in the United States has led to an upsurge in reading public for material on Latin America. The "rush" of "popular" books to supply this new market has been enormous. It has been well summarized for the "average" reader by each author in his introductory impressions and analyses of Latin America in simple language with quite the burden of extensive scholarly footnotes or the requirement of extensive knowledge for its comprehension. The Voice of America and the United States and Latin America, by Dexter Perkins, Latin America Beyond the Eagle and the Bear, by Salvador de Madariaga (which was published under the title of Egyptian 16 November 1962), Latin America, the Balance of Power, by the United States Information Agency, and Ten Keys to Latin America, by Frank Tannenbaum, have made manifold efforts to fill this new demand for reading material on Latin America.

Each of these books illustrates in its own way that the ability to generalize wisely and summarize soundly is not come by easily, Voltaire's knowledge of Latin America can be written only after many years of study and reams of notes. He well knew that the "people it describes, 'Youthful and ambitious authors often feel that they must "rediscover" Latin America to resist and thus frequently hasten to publish rush, drama-some stories of their travels or impressionist generalizations on which they impose the universality of prime forever.

It can be found in literature some of the subject of Latin America and to interpret accurately its history and culture. A well known American reader, surely Dr. Tannenbaum is correct in his "Prefatory Note," when he says, "Voltaire's book can be written only after many years of study and reams of notes. Cyclones Unbeaten This Season

Swimmers Challenge Iowa State
At University Pool Tomorrow

Unbeaten Iowa State calls at SIU Saturday for a 2:30 p.m. swimming meet in which several pool and SIU records could be shattered. Iowa State holds victories over Air Force Academy and the University of Colorado. SIU has won one and lost one. The Salukis beat Oklahoma but then last weekend lost to Cincinnati. Ralph Casey, SIU swimming coach, has added a special attraction for Saturday's meet. Thom McAneney, freshman swimmer from North Miami (Fla.), will be trying to better a freshman record in the 50-yard freestyle.

SIU will be trying to avenge last year's 50-45 loss to Iowa State's Cyclones. Rod Wellman, freestyle expert, and Bud Pierce are Iowa State's top two swimmers and will be trying to keep SIU from winning Saturday.

Wellman is expected to challenge John Flaschebeck and Dale Cunningham in the 50-yard freestyle and Ray Padovan in the 100-yard race. Padovan has never lost a dual meet race in the University School pool.

Padovan has been moved out of his usual 50-yard spot in favor of the longer 200-yard freestyle event. Casey wants his senior swimmer in the Pan-American games and there is no 50-yard freestyle in AAU competition, Padovan from now on will be swimming in the 100 and 200-yard freestyle races.

Jack Schultz, SIU captain, will swim the individual medley and the 200-yard butterfly events. He will also swim the butterfly stroke on SIU's medley relay team.

Andy Stoody and either Gerry Anderson or Darrell Skipp Green will challenge Pierce in the 200-yard backstroke event.

"It should be a real interesting meet," Casey said Tuesday at swimming practice. "Iowa State is tougher than they were last year so we have our work cut out for us Saturday."

"Iowa State had better watch out," warned captain Schultz. "Last year they beat us but it will not happen again because we will be ready."

"Our boys were not ready psychologically," Schultz added, "but this year we are in no position to be confident."

SIU Cagers Seek Wins Over CTC and Toledo

SIU figures to have an easy time winning Saturday night against Chicago Teachers College in Men's Gymnasium at 8 p.m.

But Monday night Jack Hartman's SIU basketball squad will run into a strong Toledo cage squad which is highly regarded by Hartmen.

Toledo is the seventh major-college team the Salukis face this season. Toledo holds a victory over Butler, who beat the Salukis Tuesday night 70-58 at Indianapolis.

The only other time SIU met Toledo was in 1960 when the Salukis, then coached by Harry Gallatin, slowed play by walking down to a walk and won 59-54.

Chicago Teachers is coached by Isadore (Spin) Salario, who formerly coached high school basketball at Marshall High School in Chicago where he won two straight Illinois state tournament basketball championships.

Hartman probably will go with the same starting lineup which he has used in the last five games. Dave Henson and Joe Ramsey at forwards, Center Lou Williams and guards Harold Hood and Paul Henry.

Hartman hopes his Salukis will be able to regain their shooting form which upset Tennessee State Saturday.

The Salukis continue to be a streak ball team. They win one, lose one and then win again. SIU has won nine of 15 games and only three of those nine wins have come at home.

Henson will be trying to regain his scoring form of early in the season when he jumped out to the lead in team scoring. Henson still is SIU's top scorer but his last two games have been far from impressive.

Rod Linder and Frank Lentfer will see considerable action Saturday night after their fine performances Tuesday when they came off the bench to spark an SIU comeback which brought the Salukis to within nine of Butler but it wasn't close enough.

Lender has played three good games in a row and appears ready to end his college career in a flourish.

You'll make the wisest choice
no matter which Chevrolet you choose!

These four different cars are alike in one important way. Each is a product of Chevrolet Division of General Motors. So each will give you more performance, beauty, comfort and good news at trade-in. But each is tailored to a certain kind of buyer. Our big Corvette has the Jet-smooth ride, luxury and styling you'd expect only in costly cars. Chevy II features parkable size, perky performance and outstanding fuel economy. Corvair gives you rear engine maneuverability and sports car flair. The new Corvette Sting Ray can best be described as dramatic. With a choice of 33 models, there's one Chevrolet that will suit you best.
