Homecoming Queen To Be Crowned Tonight

SIU TV-Radio Will Cover Homecoming

WSIU-TV and WSIU-Radio are preparing for their part in the homecoming festivities. WSIU-TV will videotape the Homecoming Parade and the SIU vs. Northern Michigan football contest. Tapes of the parade and game may be seen Monday at 7 p.m. and 8:30 p.m., respectively.

Housing Request Changes Accepted

Today at high noon signals the opening of applications for changes in housing on the SIU campus.

Priorities are involved, and first in line are Robert B. Scudder, his residence counselor and the area head. The priority for change be established by going through the residence counselor, and the officer responsible, and the proper procedure is a "first come, first served" basis.

The overassignment of students to Thompson Point early in the fall is expected to be cut out by last week, the officer reported. No openings were listed there.

The student seeking a housing change is presented a form signed by himself, the residence counselor and the area head. The priority for change be established by going through the residence counselor, and the officer responsible, and the proper procedure is a "first come, first served" basis.

In 'Teahouse':

Mary Helen Davidson

Subs For 'Lotus Blossom'

Illness has caused a late change in the cast of the 'Teahouse of the August Moon,' a Southern Player's production opening Friday for the entertainment of the SIU homecoming crowd.

Mary Helen Davidson, a veteran Southern Players performer, will play the part of2

University Press To Issue 5 New Books

Five new books in the University Press fall series will be published Oct. 28, according to Vernon Sternberg, Press director.

The new publications include: "Henry Miller and the Critique"; "The New University: Wit and the End of Modernism?"; "C.M. Dostoevsky, Dualism and Synthesis of the Human Soul"; "Remy de Gourmont, His Ideas and Influence in England and America"; and "O. B. Shaw, Creative Artist."

Harry T. Moore, research professor in the department of English, is the general editor of the five new publications.

These new works are five of 18 books that have already been published since January 1, 1963," Sternberg said. "They are a modern world literature effort on the part of publisher, and the purpose of people knowing what the great artists accomplished in their literary achievements."

The University Press, which recently celebrated its one hundredth publication, operates on a two-season basis, bringing out fall and spring lists of books. The Press will publish approximately 28 books during the 1963 year, Sternberg said.

"The books are fresh works and not reprints of older writings," Sternberg said. After this season the books will be available at the book store in the University Center.

"The London Stage, 1600-1800"; "Elements of Rhetoric"; "Plutarch's Lives".

Ceremony Starts At 8

In Shryock Auditorium

The queen who will reign over the Homecoming at SIU will be crowned tonight. The traditional ceremonies are scheduled for 8 p.m. in Shryock Auditorium.

The glittering crown will be placed on her head by the mysterious King Menes, and the coronation tradition will draw heavily on the theme of ancient Egypt.

The selection of a queen to reign over Homecoming dates back to the first official observance, in 1922. In the previous year, the event was interwoven with the annual Carbondale Homecoming "Silver Grass".

The queen's court will also participate in tonight's ceremonies, which will be followed by a reception in Shryock.

Music Man Tickets Go On Sale Friday

Tickets go on sale Friday for the Southern Illinois University music department's production of Meredith Willson's "Music Man." The lively musical comedy staged this summer by the Summer Opera Workshop will again be presented in Shryock Auditorium on the Carbondale campus Nov. 15, 16 and 17. Performance times are at 8 p.m.

All seats will be reserved and tickets, priced at $1.30, $1, and 50 cents, will be sold at the Information Desk in the University Center. Mail orders will be accepted at the Student Activities Office if a self-addressed, stamped envelope is enclosed.

The "Music Man" will remain in its summer cast, Rehearsals, under the direction of William Taylor, are already in progress.

Goldovsky, Met Commentator, To Appear At Convocations

A noted pianist, conductor, lecturer and operatic commentator, will appear today at day's convocations at SIU.

Mstislav B. Goldovsky, who was born in Russia and whose residence in the United States dates to 1920.

Goldovsky has studied in Moscow, Berlin, Budapest and Philadelphia. He made his concert debut in Berlin in 1912,菩提 creates some of the world's greatest composers, and has made extensive tours of the United States.

In addition, he has directed opera and has headed the opera department at the Berkshire Festival. In 1946 he started in his role as intermission commentator of the Metropolitan Opera broadcasts.

He is the author of "Sac History Opéra," published in 1953.

Boris Goldovsky
Plan Youth Problems Discussion

The Center for the Study of Delinquency, Crime, and Corrections has announced that "The Community and Troubled Youth" will be the topic of a regional conference to be held on the SIU campus Tuesday and Wednesday Nov. 5 and 6.

The conference is jointly sponsored by the Illinois Youth Commission, Division of Community Services, and the SIU Center for the Study of Delinquency, Crime, and Corrections.

Senator R.G. Criansberry of Murphyboro, chairman of the Correctional Services Advisory Board of the Illinois Youth Commission, will open the conference at 10 a.m. in the University Center.

Ben Frank, a member of the staff of the Center for the Study of Delinquency, Crime, and Corrections, will serve as chairman of the 11 a.m. session. Speaking on the topic, "The Delinquency Study Project and President Kennedy's Committee on Delinquency and Youth Offences," will be Martin Doelck of the Delinquency Study Project at SIU's Edwardsville campus.

Speaking at Tuesday's afternoon session will be Don Shoemaker of the Psychology Department of SIU whose topic will be "Understanding Juvenile Delinquency". At 3 p.m., the motion picture "Youth and the Law" will be shown and later discussed.

Wednesday's program will begin at 9 a.m. on the topic, "Cooperative Efforts in the Prevention and Control of Juvenile Delinquency". A discussion of this topic will follow featuring: Judge Peyton Kunce, State's Attorney William Ridgway; L.D. Norman, regional director of the Illinois Department of Mental Health; Edward F. Hooper, field supervisor for the Division of Community Services of the Illinois Youth Commission; Mrs. Martha Sue McKeck, Jackson County Juvenile Probation Officer and Floyd Cunningham, child welfare worker, Jackson County.

Hillyer, Elmstrom Investigate Water Needs of Tomatoes

Comparing two ways for finding the moisture needs for tomatoes growing in greenhouses is the subject of study by Irvin Hillyer, Southern Illinois University assistant professor of plant industries, and Gary W. Elmstrom, plant industries graduate student from LaGrange.

Both methods used are concerned with finding the amount of water present in the leaves of the plant at given rates of watering. One is the refractometer method in which a drop of sap is squeezed from a tomato leaf into an optical instrument. The water concentration in the sap is determined through a scale in the instrument.

The other system involves weighing a half-inch disc of tomato leaf to determine its water content by comparing the weights at three stages—the natural state as it comes from the plant, a saturated stage after soaking in water for 24 hours, and the dry-matter weight after moisture has been removed in a drying oven. Data collected will be analyzed and summarized by Elmstrom at a later date as part of the requirements for a master's degree from SIU.

The effect of three watering rates on tomato yields also is being noted. Waterings are at rates to provide 25, 50 and 75 percent available moisture in the soil. Two varieties of tomatoes for greenhouse production and two field varieties are being used in the experiments. Greenhouse varieties are two Ohio organizations, WR-3 and WR-7. The field varieties are Glamour and Moreton Hybrid.

Dance Tickets Still Available

Tickets for the annual Homecoming Dance Saturday night in the University Center ballroom are still on sale at the Center's Information Desk.

Les Elgarr and his orchestra will play for the dance which starts at 9 p.m. and ends at 1 a.m.

The ballroom will be decorated in the "Musical Fantasy" theme, in keeping with the general theme of the 1963 Homecoming.

The 1963 Homecoming Queen, her court and attendants will be formally presented at the dance at approximately 11 p.m.

Except for a few events Sunday, including another performance of "Teahouse of the August Moon" by the Southern Players, the last full week will wind up the 1963 Homecoming activities.

### Russians Halt British Convoy For 9 Hours: Red Aim Believed To Test West Reaction

**BERLIN**

The Russians clamped another squeeze on Berlin's highway lifeline Wednesday, for nine hours they held up a British military convoy on the outskirts of West Berlin where they blocked a U.S. convoy last week.

Then as tension rose once more in the isolated old German capital, the Russians finally waved through the convoy of nine vehicles and 28 men.

**WASHINGON**

A British spokesman said the convoy continued its journey "on our terms," this meant the British refused a Soviet demand for the British soldiers to disarm and be counted.

**BONN, Germany**

Ludwig Erhard was elected chancellor Wednesday, completing a smooth transfer of power from Konrad Adenauer and starting a new era for West Germany.

Erhard, carried into office by his popularity as economics minister, received 279 votes in the Bundestag election. There were 180 no votes, 24 abstentions and one blank ballot.

Erhard got 29 votes more than the 250 required. Adenauer won by only eight in the last chancellor election in 1961.

### Korean Strongman Park Wins Presidency By Thin Margin

**SEOUL, South Korea**

Strongman Chung Hee Park emerged victorious Wednesday in the presidential election on the basis of unofficial returns, but he failed to win the big majority he had demanded to continue his firm rule in South Korea.

Despite pressures from Park's military-political machine, the challenger, ex-President Yun Po-sun, had called the election the last chance for democracy in South Korea for years to come.

Yun had accused Park in campaign speeches of once being a Communist.

Park denied this and warned before the election that stern measures would be taken against politicians who had accused him of being a Communist.

City Council Report:

South End Of Poplar One Way

The south end of Poplar Street soon will be one-way heading toward the campus. An ordinance designating the street one-way between College Street and Mill Street was passed by the mandates of the City Council Tuesday night.

Mayor D. Blancey Miller said the new regulation will be in effect in about two weeks -- just as soon as signs can be obtained and installed.

Parking will be allowed along the west side of the street, but not with 100 feet of the Mill Street intersection.

Two of the four commissioners - William Eason Jr. and Virgil E. Barringer -- were at first reluctant to vote for the ordinance.

Eaton noted that the city's long-range traffic plan calls for Poplar to ultimately become a heavily traveled street in both directions.

Other members of the Council agreed that the street one-way is not a permanent solution to the problem. They said that Poplar probably will be widened in the future.

After a lengthy discussion, the Council voted unanimously to adopt the ordinance.

"We might as well give this a try," the mayor said.

The problem has been before the Council for nearly two months. Parking was banned in the two-block area last month after residents complained that the street was not wide enough for two-way traffic and that driveways were being blocked by parked cars.

Also approved by the Council was the new Housing Ordinance, which sets standards for city housing facilities.

Installation of street lights at nine places throughout the city was authorized by the Council. The new lights will include one on Rawlin Street between Freeman Street and Mill Streets, and several on East Park Ave.

**European Aesthetic Tradition**

**Related To American Fiction**

In light of the history of modern literary criticism the preceding paragraphs aim of Maxwell's American Function and the least apart from the particular analyses presented. For despite the big and the New Critics that a literary work is self-contained, many irrational students have continued to hold that a full understanding of the evaluation of a work involves elements beyond the text.

Maxwell, helped by his British perspective, has directed much study to the relationship of American fiction to the society and the universe. He has that he is dealing with 

American society or American literature, or both. The first of his conclusions, and at least $4.95.

The Edith Wharton analysis is reassuringly less involved, partly because the relationship of American fiction to the society and the universe is relatively clear in her work. Also, the complicating elements in American fiction to the various cultural ingredients just identified. Nor is the complexity lessened by the presence of another goal, the extraordinary fluidity of American fiction, to which the reader is drawn with all the strength of her personal background (for example, William Summer's thought) has been present in the preceding chapter on Mark Twain.

The Trajic Phrase: Melville and Hawthorne" is less successful thematically, for with a few exceptions the focus is limited to the relationship of the work of these writers to American history and to other American writers. As this chapter, however, is one of the most daring and original in the book, in particular, the Edith Wharton chapter, a number of conclusions are presented.

If one takes the development of the American fiction as the criterion for judging the varied chapters, which extend from Nathaniel Hawthorne to Mark Twain, we find in Puritan times to "Modern Fiction and Its Problems" in the present day, he finds a varying success. A number of the arguments are tautological and based only on self-assertion and on the generality of a few words such as "naturalism." The average American writing placed new constructions upon the varied result of the European imagination.

The sciences and the Humanist Tradition are not reviewed by Claude Coleman. **Director Plan A Program**

The term of sports and social activities have grown away the body of the education. Education has become largely a superficial device for concealing the ignorance within.

The general education courses provide simply a heavy foundation for small steps, built and climbed by amateur craftsmen in junior and senior years.

"Should not all education defeating vertical columns be eliminated from the college?"

"...I am simply proposing education by way of major general principles of biology by studies in traditional specializations or trunk systems rather as subjects."

"...I have sat through dozens of lectures where I understood less than half of what was going on... . The greater part of the audience was in my condition or even worse.

With just 1 per cent of the resources, fervor, and self-sacrifice that we devoted to the murderous enterprises of the world wars (1939-1945), we could construct a
developed background of Maxfield Parrish. The author presents Poe's romantic theory as found in his stories and designs his romantic practice, chiefly as represented by The Narrative of Arthur Gordon Pym. This short novel shows as directly influenced by Chas- ley's "Alatord" and Coler-idge's "Ancient Mariner" and even more so by Defoe's work. Having analyzed various romantic elements, the author concludes that Pym consists of a symbolic structure superimposed upon a realistic tale.

Reviewed by E. Earle Stibitz

**Department Of English**

Although one may question whether Poe's romanticism was an American as it is believed to be, his experimentation with all the arts--theStars--with all these arts, and his oeuvre, emitted a distinctive voice that made him a great writer.

The problem of the American as an artist and the humanist tradition as a "literary" tradition, whether dealing with American society or American literature or both, in any specific element in one or the other.

Even has begun to make it evident that in American Fiction, that we have a study of social and intellectual backgrounds that is a far broader and more comprehensive study of the intellectual and social background than, for example, William Summer's thought has been present in the preceding chapter on Mark Twain.

The Tragic Phrase: Melville and Hawthorne" is less successful thematically, for with a few exceptions the focus is limited to the relationship of the work of these writers to American history and to other American writers. As this chapter, however, is one of the most daring and original in the book, in particular, the Edith Wharton chapter, a number of conclusions are presented.

After coaching the USA Men's AAU swimming team to an impressive victory over Japan this summer, Ralph Casey, SIU's veteran swim coach, is discovering that U.S. swimmers can beat any world team.

"I think U.S. could beat any world team without any trouble," Casey said. "I feel our country has the finest swimmers in the world."

"Some of our kids, who we consider average here, would be tremendous stars in other countries."

The US delegation, composed of outdoor National AAU athletes, competed against the Japanese at Tokyo and Osaka. The swimmers and divers qualified the team at the 1963 Senior Men's AAU Outdoor championships held in Chicago, Illinois.

"It was a wonderful experience and we were beautifully entertained," Casey said.

"The Japanese did everything they could for us. We had fine accommodations and good food. They went beyond every belief we could even imagine to make it a fine trip for us."

The USA team won both dual meets at Tokyo and Osaka. In the first dual meet in Tokyo, the USA team jumped out in front in the scoring with a one-two finish in the first event and the sweep was on which resulted in the final score of 63-22.

At Osaka, the USA team won second place with a score of 56-18.

"The team did a great job for the United States and for the sport of swimming and diving," Casey explained.

"All together the team tied one and bettered nine World records, and almost rewrote the American and Japanese record books."

"We swam as well as we did, mainly, because we got so far out in front on the first day. We could gamble in the rest of the meet," Casey said.

"They weren't as good as we were, but they still swam good and did the best they ever did. They had a hard, long season. Two months ago they swam in an invitational meet."

Casey, who holds a doctorate from Columbia University, said he was the featured speaker at five swimming clinics this fall. He won't return until dual meets begin this fall.

Four Flag Football Teams

Share Top Spot in Leagues

Abbot first and Knockers Up took over first place in their respective Men's Retirement Halls intramural flag football leagues with victories Monday over Felts first 25-9 and Finkey Seven 27-7 respectively.

The other front runners remained unchanged as Sig Pi and Theta Xi share the Fraternity League top spot with perfect 2-0 records while Newman Club, Washington Laboratory, Magnificent 7, U.D.'s and the Animals top the five Off Campus Leagues.

Today will be the last day of this week's intramural play ball competition. All the league games have been scheduled for tommorow, Saturday or Sunday because of homecoming.

Today's 4:15 p.m. games at Thompson Point find the Animals battling the 69ers at No. 1; Delta Chi meeting Theta Xi at No. 2; the 49ers tanggal with the spotlighters at No. 3; U.D.'s dueling the Wesley Foundation at No. 4 and the Abbott Rabbits and the Warren Warriors tanggal at No. 5.

In the only game at Chautauqua fields No. 6 this week, the spotlighters will go against Thompson Point fields No. 4 and 5.

Parachutists Will Launch Homecoming Football Game

After scoring five touchdowns via the air lanes last week, SIU will appropriately launch Homecoming festivities Saturday afternoon with two outstanding parachutists attempting a landing in McKendree Stadium prior to the start of the 2:30 football game.

Skydivers Dick Roberts and Charles Hallam members of the SIU Sport Parachute Club, will jump from 7,200 feet two minutes before 1:30 game time and hope to land on the 50-yard line.

Regardless of the skydivers' success in hitting their exact target, SIU quarterback Jim Hart and Dave Harris are again expecting to fill the air with passes as the Salukis shoot for their third in a row. Hart, a sophomore from Morton Grove, completed 12 of 33 attempts last week, including three TD aerials, as the Salukis bombed Lincoln University 47-8 to even their season's record at 2-1.

Chief worry of Coach Carter Men's AAU Piccone this week is that his number one receiver, freshman end Tom Massey, may be hobblled by a back injury. Massey, a Rannonee, N.J., product, who has caught 10 passes for 200 yards and three touchdowns, spent Monday afternoon in the training room and is a questionable starter against the invading Wildcats.

Should Massey be unable to answer Piccone's call, veteran end Bonrie Shelton, Columbus, Ga., would move into the starting lineup. Shelton, a 6-4, 195-pound senior, had the best night of his collegiate career against Lincoln last week when he caught three passes for 53 yards and two touchdowns.

Other than Massey, however, Harry Bobbitt ranks as the favorite target for both Hart and Harris. The Carbondale junior, who operates from a flanker back's position, has caught 12 passes this season for 145 yards as the Salukis appear determined to capitalize on their new pro-type offense.
Charles Feinberg, Donor To Library, Visits Campus

A noted collector of Walt Whitman was a guest lecturer on the SIU campus last Tuesday.

He is Charles Feinberg of Detroit, who delivered three lectures Tuesday and who participated in other events during a three-day stay on campus.

Feinberg, whose vocation is the oil industry, holds an honorary degree from SIU. He has been a major contributor to the Rare Book Room of Morris Library, and assisted in the organization of the Friends of the Library group.

His contributions to SIU include many Whitman works, examples of fine printing, and private press books, according to Ralph E. McCoy, SIU director of Libraries and special assistant to Vice President Charles D. Tenney.

"He has been generous with libraries all over the United States," McCoy said.

The two lectures were to members of research methods in English classes, and the third to a modern poetry class. The subject of one was "Robert Frost," who was one of Feinberg's many literary acquaintances.

While at SIU, he also met with an advisory group on management use.

Ex-Prof, Kiwanis Join To Help Vietnamese Girl To Attend SIU

The interest and efforts of a former SIU professor have enabled a needy Vietnamese to come to this country and attend SIU this year.

William Weinberg, formerly with the Agricultural Economics Department and now with the AID mission in Laos, took an interest in the case of Miss Nguyen Thinh Phuong and initiated a move to sponsor her as a student.

He put up $300 of his own money, then appealed to the Carbondale Kiwanis Club, of which he is a member, for additional funds to help defray Miss Kim's living expenses for one year.

The Kiwanians raised $500 for the purpose, according to Herman Haag, chairman of the Agricultural Economics Department.

Beginning this year, the Kiwanians plan to sponsor a foreign student through one year of college at SIU as a new project of their Inter-Van Ormer Is President

Donald E. Van Ormer has been elected president of The Pantheon, a new off-campus housing unit.

Other officers are Dennis D. Kalichstein, vice president; Richard De Angelis, secretary-treasurer; Stephen Heitman, social chairman; and Richard Eisenmenger, sports chairman.

ELIZABETH O. STONE

Librarian Presides At Annual Meeting

Elizabeth O. Stone, associate librarian in the Morris Library will preside at a meeting of Illinois Library recruiting representatives during the annual meeting of the Illinois Library Association in Aurora Oct. 31-Nov. 2. She will also serve as hostess for all meetings of the college and reference sections, for the convention reception and the banquet.

Miss Stone is state representative for recruitment for the library administration division of the American Library Association.

Cadet Major Wins License And Wings

Cadet Maj. Vernon Musgrave has received his private pilot's license and his cadet wings upon completing his first solo flight under the AFROTC Flight Instruction Program at SIU.

Musgrave is the first cadet officer in a group of eight in the program to solo this quarter. The flight came after several hours of training in weather, navigation and Civil Aeronautics Administration regulations and after several hours of in-the-air training.

The flight was in a Cessna 150 light aircraft.

Maj. T. Bruce Buechler, project officer of the P. I. P., stated that the washout rate of AFROTC cadets taking this program is about 19 per cent.

Other candidates in the Air Force taking FIP have a washout rate of about 38 per cent.

The FIP was started at SIU in the year 1956-57 and 43 SIU cadets have completed the program in the last three years, according to Maj. Buechler.

Zoology Seminar Features Insects

Dr. Hermann J. Haas, associate professor in the SIU Zoology Department, will direct a zoology graduate seminar at 4 p.m. today in Room 205 of the Life Science Building.
