Two 'Little Women'

Sandwiches, Beans, Soup, Score in Kitchen
As SIU Males Bravely Invade the Galley

A kitchen is to a woman as a car is to a man, said a gentleman who has the "little lady" around the house to do his cooking, preparing meals can sometimes be a most arduous and frustrating task. Such is part of the daily ritual for SIU male students living off-campus.

Barry Blonde, a junior from Chicago, said that he fixes a lot of canned goods, but also prefers pork chops, meat loaf and chicken for a change. "Trying to follow the recipes is my major problem," said Blonde. "Without a measuring cup and trying to guess the correct heat makes the recipe half done." He is a member of the Sigma Chi fraternity.

Campus Senate Seeking Closer Office Liaison

The Senate is urging the administration to improve communication between the president's office and student government.

The bill pending before the Senate to censure President Dylye W. Morris for his action in delaying the registration of three students was not acted upon.

In a speech to the Senate, Al Blumenfeld, west side dorm senator, charged that student government "petty politics has run rampant." In opposition to the coming elections, Blumenfeld said, "Politics has restricted student government to competing egos."

The Senate accepted a change in the University by-laws encouraging resident of University City dorms to run for office in student government.

A bill to allocate $175 for travel funds to Alpha Delta Sigma, SIU Folk Arts Society and the SIU Veterans Club was passed.

In a speech to the Senate, Al Blumenfeld, west side dorm senator, charged that student government "petty politics has run rampant." In opposition to the coming elections, Blumenfeld said, "Politics has restricted student government to competing egos."

The Senate accepted a change in the University by-laws encouraging resident of University City dorms to run for office in student government.

A bill to allocate $175 for travel funds to Alpha Delta Sigma, SIU Folk Arts Society and the SIU Veterans Club was passed.

Preparations for campus elections are nearly completed, according to Jeff Yates, Campus Senate election commissioner.

Out of a total of 31 seats on the Senate, five will be filled May 18 for half-year terms and 10 for full-year terms plus any vacancies. Each senator represents one member of the student body. Yates said students who wish to run for student government office can obtain petitions for candidacy at the information desk in the University Center. With completion of the form and the required signatures, the candidates submit their applications to the student government office. The students' names will then be placed on the ballot.

Debates for Senate candidates require that they be in good standing and have a 3.5 grade point average. Candidates for student body president and vice president must have junior or senior status.

"I don't mind preparing my own meals, but waiting so often to use the kitchen facilities can be aggravating," said Hopper.

One of the few people to solve his cooking problems completely is James Kitzmiller, a junior from Rockford, who explained, "My roommate cooks for me."

Kitzmiller said that his meals usually consist of sandwiches, but he is served dinner once a week.

Kitzmiller's major problem is getting his meals prepared. "Finding my whip," he said.

SIU Poet-in-Residence Wins Top Irish Award for Verse

Thomas Kinneala, poet-in-residence at SIU, has won Ireland's highest award for poetry.

The Arts Council of Ireland formally announced Kinneala as winner of the Denis Devlin Memorial Award for Poetry, described by Department of English chairman Robert Vanier as the equivalent of America's Pulitzer Prize.

Kinneala won the honor for his volume, "Wormwood," which was adjudged the best book of poetry in English by an Irish citizen published during the period 1964 to 1966. The award is made every three years.

He was awakened by a 5 a.m. telephone call at his Carbondale home to get news of the award from Ireland. Formal confirmation came in a letter from Arts Council secretary Mervyn Wall, which arrived after Kinneala had left for a lecture and reading tour at other U.S. college campuses.

The award carried a cash prize of $300, or about $1,000.

Kinneala had achieved notice as one of Ireland's ranking young poets when he accepted the resident artist position at SIU in 1963. He is a member of the Irish Academy of Letters.

The role SIU is playing in helping to develop educational systems in underdeveloped countries was outlined Thursday by Robert W. MacVicar, vice-president for academic affairs.

He recently returned after a month's round-the-world mission to inspect SIU educational projects at work in Afghanistan, Nepal and Vietnam. He also described a trip to Lebanon.

MacVicar spoke at a press conference in the Communications Building. He praised the progress which had been made in education in the countries he visited.

The university in Nepal, called the National Technical Education Center, is just beginning, he said. It is a two-year program based on high school graduation. The university and a demonstration high school across the street are both under the guardianship of one administrator.

"Nepal is an absolutely fascinating country," MacVicar said. "The people in Nepal are the most grateful people and mountains are the world."

In Quigon, South Vietnam, a university has been in operation for six years, he said. The system being emphasized is elementary education.

According to MacVicar, this university is "extraordinarily successful in getting the students to make their own decisions."

An example of the progress was the idea of the Vietnamese to have elementary and secondary schools start and cease at different times, he said. This will allow a university student to spend a two-month period working for his hometown school.

Says the meals served at the dorm are fine for a King. King is the resident manager's dog.
Faculty, Staff Checks Face Delay

Staff and faculty members can expect a delay in paycheck distribution during part of the year 1967 and 1968.

This was disclosed in a bulletin from the Office of Business Affairs, Fiscal Division. The bulletin outlined the following information about the paycheck procedures:

- Normally, paychecks are distributed on the first calendar day of the month. The exception is on Saturday, Sunday, and legal holidays, when no departments would be open to receive checks. In that case, paychecks will be distributed on the next working day.
- During the remainder of 1967, the first of the month falls on a Saturday, and on a Sunday in October. In December, 1968, the first of the month falls on a legal holiday in January, Saturday, and Sunday in November and December. During these months paychecks will be delayed.
- Staff and faculty members, to minimize inconvenience or hardship in 1967 and June, 1968, should choose the most appropriate method of paycheck distribution.
- The staff or faculty member may have the paycheck mailed for deposit in their bank, or to have it delivered to the Personnel Office or have it delivered to the Faculty To Meet.

The concert is open to the public free of charge. Music will be provided by the Wind Ensemble Plans Concert

The University Wind Ensemble will present a concert at 7 p.m. Sunday in Shryock Auditorium. Mel Stenzer, director of bands, will conduct.

The Wind Ensemble will be joined by Gabriel Vaughan-Williams, followed by Gordon Jacob's "White Original Suite." A.W.A. Mozart selection and "Concerto in F" by Balakirev will be presented.

The concert is open to the public free of charge. Music will be provided by the Wind Ensemble.

Article Published

An article by Van A. Huboltz, assistant professor of economics, has been published by the Administrative Management Society. In his article, "Money-If and When You Need It," Huboltz writes of how to deal with the "tight money" situation.

House of Representatives Must Now Deal With Powell

As expected, Adam Clayton Powell has won re-election overwhelmingly in a primary election in the House of Representatives. The small turnout of voters, however, suggests that the ordinary citizens of Harlem are not so good at least a campaign about Mr. Powell's punishment by the House and many leaders of Negro organizations had urged them to do.

The time when the voters repudiate Mr. Powell has unfortunately not yet arrived, but he is already wasting his time in urging his welcome among the people. He has been exploited for so long.

The House of Representatives has now the opportunity and the responsibility to rectify the error it made six weeks ago in voting to expel him. He has been duly elected to a position of high and important trust. The House can punish him for his past abuses by putting into effect the recommendations of the special committee headed by Rep. Representative A. R. C. chairmain of the Judiciary Committee. It can properly depose a member of dubious merit, surging him, firing him, and depriving him of his seniority, and it is to deny the constitu­ents of any district the right to elect their own representa­tives providing he is legally qualified and has not achieved too serious a criminal fraud.

But if Mr. Powell's transgres­sions merit criminal penalties, that is for the Justice Depart­ment and not the courts to decide. The House of Representatives exists only as the necessary for the orderly conduct of its parliamentary business should not con­sider to its functions with that of not getting involved in abstract the jury.

Briefly Editorial

An associate professor of English at Indiana State Uni­versity denied he was com­mitting an unscripted act when he burned an American flag in his class on Saturday. It was not unscripted, he said, rather an abstract question about the government of the United States, but was merely burning a piece of cloth and a stick.

The professor, Dr. Scott A. Chisholm, 31, was relieved of his duties pending a hearing on charges of unprofessional conduct. The head of the uni­versity, who was not available for comment, called him "an impulsive and foolish young man."

The news of an un­derstatement. Most of us learn from the study of the chartered symbol of our country early in grade school with­out riddles or contrivances. A college professor who hasn't learned it is mixed up, to say the least. No wonder there are so many mixed-up youths on college campuses today.
**WHAT KIND OF WORLD?**

**Distribution of Wealth Perhaps Modern Age’s Greatest Problem**

By Robert M. Hutchins

The most recent papal Encyclical, Populorum Progressio, On the Development of Peoples, forcefully presents the greatest problem of the modern age: the ever-widening disparity between the rich nations and the poor.

The emphasis must be on “disparity.” There are, it is true, some who feel there will be differences in wealth and inequities in its distribution. The present gap is unprecedented.

We use the word “gap,” however. This was thought to be uncomplicated. “Underdeveloped” came into our vocabulary only to be discarded for the same reason. Now we talk about the “developing” countries. But they are not developing.

In spite of all the aid they have received, the poor countries get poorer while the rich get richer. The poor nations have actually gone backward since independence. In all the slow rate of progress has slowed down.

The Pope summarizes the reasons. The poor countries produce raw materials and buy manufactured goods. The prices at which they sell are falling. The decline in the prices of the goods they sell and the rise in the prices of the goods they buy have exceeded all the aid they have received.

This aid, moreover, has loaded them with debt. Too much of it has been military. Too much has been given with strings attached. Too much has been tied to purchases in the donor country. These factors, together with the population explosion, have rendered any hope of development illusory.

Meanwhile private investment has shunned the poor countries. Americans have preferred to buy up the industries of Canada, England, France and West Germany instead of following the principles by which the Communists have been conducting their war. They have been following the correct course of the war, deliberately and unilaterally stated by North Vietnam’s highest military authorities in a series of articles in official army and Communist Party publications.

They say the North Vietnamese are forcefully asserting that there will be no turning back from the classic third stage of Mao Tse-tung’s “revolutionary warfare” doctrine—which they followed to victory over the French and which they have been following in a long series of bloody defeats by the Americans.

The articles are by Gen. Vo Nguyen Giap, chief of staff of the North Vietnamese army, Gen. Hoang Minh Thao, commander of the North Vietnamese Military Academy, Gen. Nguyen Chi Thanh, Giap’s second in command, who is believed to be in Saigon preparing to end the war with our Communist victory.

U.S. and South Vietnamese army affairs experts believe the clear forecast of the war, deliberately and unilaterally stated by North Vietnam’s highest military authorities in a series of articles in official army and Communist Party publications.

Legal Counsel Demands Advertisement Retraction

Strong exception to part of a political advertisement that appeared on Page 8 in the April 18 edition of the Daily Egyptian has been taken by C. Richard Gruny, University legal counsel.

His name, and an excerpt from a news-story quotation attributed to him, appeared in the ad for the "Blue Ribbon Slate." Gruny said he was in no way connected with the placement of the ad, which bore the names of the committee for the slate.

Nor was the text brought to his attention prior to the publication, Gruny said.

Following is the text of Gruny's statement on the advertisement:

"In your April 18 edition appeared a half-page ad which, upon close scrutiny, appears to have been placed by the Committee for Keene, Kirk and Nelson. Unfortunately, this designation appeared only in the box which occupied the right-hand two-thirds of the ad. A separate box in the left-hand third of the page contained what looks like a letter beginning with the salutation "Residents!" and with my signature and job title. The letter contained an oversimplified synopsis of voting residency requirements in the first paragraph, and a second paragraph in quotation marks which was yanked out of context from some interview with me months or years ago. "Gentlemen, this is libel! The false innuendo (in the precise legal sense of that term) is that I wrote that letter during and for the purposes of this political campaign, I didn't even write it. The false innuendo is that I encourage students generally to vote locally. You wouldn't think so if you read the rest of the interview from which this statement was culled. The false innuendo is, since my name is not tied solely to the quoted matter by spacing or paragraphing and no name but mine appears at the bottom of this box, that I placed, paid for, and signed this ad.

"Further, that I signed it as a lawyer in breach of professional ethics condemning advertising. There may also be a false innuendo that I am an avowed supporter of a political slate, and further that I support them in my public capacity and as University policy. All the above I unequivocally deny. I have a surplus of witnesses, if I can just remember all the people who greeted me this week with "Hello, I saw your ad in the Egyptian."

"I demand that you print this denial and that you further publish a public statement in the Daily Egyptian that I was in no way connected with the placement of that ad, and that the text of it was never brought to my attention by any member of your staff prior to its publication. Any apology should be to your reading public for sloppy journalism. I further demand from the committee which apparently false innuendo complained of placed the ad a similar public statement retracting all the false innuendo complained of above."

C. Richard Gruny

MacVicar Reports Following Overseas Trip

(Continued from Page 1)

Two benefits can result from this, he said. It will provide much-needed additional personnel for two months and give the student a chance to pick up new ideas. "Our progress in (Kabul) Afghanistan is to assist in the establishment of the technical school called the Afgina Institute of Technology," said MacVicar.

The four-year program involves grades 10 through 11. It is a multipurpose institute, he said, with about half the graduates continuing their education and half joining the working force.

In Beirut, Lebanon, the University of Beirut provides education for the natives of the Middle East, he said, in an "American type" school. It is also for a university where a department of English is being set up.

Expansion has been considered and welcomed by most of the countries, MacVicar said. In South Vietnam and Nepal expansion programs have already been established. "If we can weld together a college of education . . . Island in Space Race

Britain once considered the 34-square-mile island of Ascension, in the South Atlantic, as a man-of-war with a naval officer as governor. Today several nations have communications facilities on the island. It plays a vital role in the United States space program as a missile tracking station on the Eastern Test Range.

December Tops For Marriage

By Tom McAlevey

Traditionally, spring leads to June weddings but the cold facts are that the most popular month for filing marriage license applications in Jackson County in 1966 was December.

In this month, 40 applications were filed at the office of the county clerk. This was three more than June, traditionally the favorite month for weddings. The following are the monthly totals for 1966, when 327 applications were filed:

January 17
February 18
March 26
April 33
May 37
June 37
July 24
August 30
September 35
October 35
November 14
December 40

The figures show that the spring totals were the highest for any of the 4 seasons of the year, followed closely by the summer months. The fewest applications are filed before and after December.
WASHINGTON (AP) — The SEATO Foreign Ministers Council—in minus France and U.S. Jets Hit Power Plant

SAIGON (AP) — Scores of U.S. Navy jets plunged Hainphong into the fury of the air war Thursday. They blasted an electric power plant within the 300-foot buffer zone outside the city outskirts and left that part of North Vietnam darkened in the night.

The attacks, launched from the carriers Kitty Hawk and Ticonderoga, were described by the Navy pilots as tremendously successful. They estimated, on the basis of reconnaissance photographs, that their bombs destroyed or damaged 80 per cent of the two targets.

The strike within Hainphong, on a power plant inside a cement factory officially described as 1.1 miles northwest of the port's commercial center, was the first deliberately aimed within the limits of a major North Vietnamese city. Rear Adm. David C. Richardson, commander of Task Force 77, told reporters the planes hit within Hainphong, "where we had not done before."

Pilots said some of the bombs were dropped from 15,000 feet, missed the target area, but none landed more than 500 feet away and the closest that any fell to houses was 150 to 300 feet.

The other plant, which supplied power for the port and adjacent industrial area, is on the south bank of the Cau Cam River. The spokesman described it as 2.1 miles northeast of Hainphong's commercial center and outside the city limits.

Pilots returning after dark from reconnaissance missions reported "there are no lights tonight in Hainphong or Hanoi" or a sister city 27 miles to the northeast.

Mexico Police Asking For Criminal Files

MEXICO CITY (AP) — Mexican police are asking foreign police departments through the embassies for files on major criminals in each country to prepare for an expected invasion of crooks who may try on 1968 Olympics games visitors here.

A police official said he expects Mexican crooks to have an "Olympic consciousness" and desert from operations for the duration.

SEATO Secretary-General Jesus Vargas told a news conference that increased attempts at subversion are being made in Thailand and the Philippines. If these threats are not properly contained, he said, armed struggles may flare again in both countries.

A police official said he expects Mexican crooks to have an "Olympic consciousness" and desert from operations for the duration.

Since President Paul von Hindenburg was buried in Berlin in 1934.

President Johnson, President Charles de Gaulle of France and Prime Minister Harold Wilson of Britain will head the list of political leaders who plan to come to pay their respects.

In will be the first such gathering of world leaders since the funeral of President John F. Kennedy in November 1963. Johnson and De Gaulle met for the last time on that occasion.

SEATO Backs U.S. Refusal to Halt Bombing

WASHINGTON (AP) — The SEATO Foreign Ministers Council — minus France and U.S. — has endorsed the U.S. refusal to halt bombing of North Vietnam.

In a communique marking the end of the 12th council meeting of the Southeast Asia Treaty Organization, the six foreign ministers thus strongly endorsed the U.S. policy of requiring some political action from Hanoi before halting the bombing of North Vietnam.

Representatives of Australia, New Zealand, the Philippines, Thailand, Britain and the United States "reaffirmed their determination to maintain, and where possible to increase, their efforts in support of Vietnam in accordance with their respective constitutional procedures," the communique said.

It left the door open for any decisions that might later be made to step up the number of troops sent to assist South Vietnam.

With only a small shifting of gears, the SEATO meeting

Adenauer Funeral Preparations Start

BONN, Germany (AP) — The West German government on Thursday prepared for the biggest and most impressive state funeral in a generation for Konrad Adenauer, its first chancellor and a founding spirit of the North Atlantic Treaty Organization.

The body of Adenauer, who died Wednesday at the age of 91, lay at his home in Rhonhord, where members of his family mourned privately. Funeral services will be Tuesday.

Chancellor Kurt Georg Kiesinger went to pay his respects early in the day but other officials and the public were kept away.

Official Bonn made ready for four days of ceremonies that will precede Adenauer's burial in a family plot at Rhonhord, the village on the Rhine where Adenauer lived since before World War II. It will be the largest funeral

since President Paul von Hindenburg was buried in Berlin in 1934.

President Johnson, President Charles de Gaulle of France and Prime Minister Harold Wilson of Britain will head the list of political leaders who plan to come to pay their respects.

In will be the first such gathering of world leaders since the funeral of President John F. Kennedy in November 1963. Johnson and De Gaulle met for the last time on that occasion.
Wallace Starting Drive For 1968 Presidency

MONTGOMERY, Ala. (AP) — Former Gov. George C. Wallace, the Alabama Democrat who established his image as a segregationist with an automobile road show 18 years ago, is planning a new campaign for the White House this fall.

Wallace's first step in the week-long tour is in Washington as guest of NBC's "Meet the Press" show Sunday. The former governor speaks at Syracuse University next Wednesday night; at Pittsburgh, Pa., the following night; Cleveland, Ohio, Friday night and at a Parent's Day meeting at Rose Polytechnic Institute in Terre Haute, Ind., on Saturday.

More out of state speaking trips will follow as the 1968 presidential campaign draws near, said his former press secretary, Bill Jones, who is running a recently opened "Wallace campaign" office in Montgomery.

Coppolino Defense Launches Attack on Murder Charge

NAPLES, Fla. (AP) — The defense, calling one of its expert medical witnesses, launched an early attack Thursday on the state's claim that Dr. Carl Coppolino killed his wife, Carmela, with a needle-injected drug.

Dr. John Smith, research chemist at New York City's Montefiore Hospital, testified that radioactive succinylcho­line injected into the muscles of a rat killed the animal quickly but only a tiny trace of it reached the brain.

The state's first-degree murder charge is based on the testimony of Dr. Charles J. Umberger, chief New York City toxicologist, that he found large amounts of the paralyzing drug in the brain of the 32-year-old Carmela. Smith, whose entire line of testimony was challenged by assistant prosecutor Frank Strode, was on the stand when Coppolino claimed illness.

The lunch recess was called 15 minutes early for that reason.

Surveyor Sends Back 390 Photos of Moon

PASADENA, Calif. (AP) — Surveyor 3 took two featherlight, slow motion bounces—one to a height of 33 feet—landing on the moon Wednesday night, and its final resting place was on a slope inside a 20-foot deep crater.

Put down for its hop-skip-­jump touchdown, the spacecraft has some back-up 900 photos of terrain where astronauts may land, and it was expected to test its tiny soil­sampling shovel late Thursday night or Friday. Many of the pictures were indistinct due to sun glare.

Bird’s a Wolf Whistler

Feathered Celebrity Entertains Workers, Guest at Greenhouse

By Nathan and Norris Jones

George, stage name Pepi, is the new celebrity myna bird performing at the Physical Plant greenhouse.

With his singing and short sayings, the bird has become friends with the workers and a number of visitors.

Although he is a timid bird, George has a repertoire of some nine phrases, Steve Heritz, owner of the bird, said. If he knows his audience George will greet them with “Hello, how are you,” Heritz added. However, this friendliness is often edged with wisecracks.

**Theological Student To Speak Sunday**

Wyman A. Rousseau Jr., graduate student at Meadville Theological School of Lombard College, will speak at 10:30 a.m. Sunday at the Carbondale Unitarian Fellowship.

The program will be the fourth in a series on the subject of “Conscious of University Students.” The public is invited to attend.

**Concert Held April 16**

The date of the concert of the Southern Illinois Symphony was incorrect in the cutlines accompanying the orchestra’s photograph in Wednesday’s Daily Egyptian. The concert was presented April 16.

“Naughty, naughty, naughty on you,” is one reply George has for those who touch his cage.

“Shut the door,” is shouted out to others, George has given the wolf whistle to passing coeds, leaving male members of his audience to catch dirty looks.

The bird also gains attention through his singing and short sayings. The bird knows his audience, he knows his audience to catch dirty looks.

To his delight and company to the greenhouse, hundreds of students who visit.

In the lush fragrances of the greenhouse, along with the myna’s natural habitat of high temperature and humidity, George is happy and brings delight and company to the hundreds of students who visit him, Marberry said. The bird helps to eliminate the lonely feeling of the greenhouse.

For a youngster of only nine months, George is not doing badly. His shyness will have to be overcome before he can take over the role of his predecessor, Frank, however.

Frank, who had a larger following of friends, was more outspoken and a better showman, lost his life to a cat during fall quarter.

George, who belongs to the starting family of birds, is black with a golden wattle around his neck. The wattle is like the comb of a chicken and is still small, showing that his name is appropriate. The myna bird comes from India. Mynas are easier to train than a parakeet, Marberry added.

In the morning George’s friends from the library and microbiology bring him grapes and bananas, and throughout the remainder of the day he sings and utters his short sayings.

The 29th of a series of concerts held at Fort Carlyle Building.

Students Will Meet

The Visiting International Students Association will meet at 8 p.m. today in the seminar room of the Agriculture Building.

**Driver Charged Following Mishap Involving Cycle**

The driver of a car who reportedly narrowly missed a motorcyclist Wednesday night was charged with immediate driving and released on a $25 cash bond Wednesday in Carbondale.

According to the SIU Security Police report, John A. Myers, a soldier stationed at Fort Campbell, Ky., was picked up for questioning following a report issued to the police by an SIU student.

Carl Courtnier, 9404 S. Rawlings St., told police that a car narrowly missed him at Grand Avenue and Marion Street. Police picked up Myers and two passengers in his car later in the evening.

According to Courtnier, the car made an attempt to run him down before veering to one side and striking several trees.

**Ted’s Girl of the Week**

Miss Diana Beltran, an eighteen year old freshman from Westchester, Illinois, is Ted’s twenty-ninth girl of the week. Diana is sitting pretty in her yellow and white cotton checked swimsuit. It’s a lively spring quarter for parties at the beach so why limit yourself to only one beachwear outfit? Buy any at Ted’s and save. Come in soon and liven up your spring wardrobe with sportswear and swimsuits from Ted’s.

**Passover Holiday Celebrates Jewish Flight From Bondage**

By Cynthia Kandelman

Monday evening at sundown marks the beginning of Passover, an eight-day religious Jewish holiday.

This holiday commemorates the liberation of the Jews from their bondage in Egypt and their flight to freedom. In their haste in leaving Egypt, there was no time for preparation of bread. Instead, the people baked unleavened bread, or matzoh, to take with them on their journey. Jews in America today remember this by refraining from eating bread or any other leavened food for eight days.

The holiday begins with a seder, a special dinner at which the oldest male recites the story of the Exodus. Special foods are served which are symbolic of the bricks that were shed. Matzoh represents the many tears caused by the last of the plagues, and salt water is served which is symbolic of the bricks in which the people were forced to work. There is no time for preparation of bread, or matzoh, to take with them on their journey. Jews in America today remember this by refraining from eating bread or any other leavened food for eight days.

SII to Host High School Mathematics Field Day

Sixty-nine high schools and 915 students will attend the annual high school mathematics field day Saturday at SII. The field day is co-sponsored by the Department of Mathematics and Phi Mu Epsilon, honorary math fraternity.

The activities for the day include a morning session in which the students will take a one-hour objective test that will be computer graded. During the afternoon the students will return to the Arena and take another subjective examination.

Certificates of excellence will be given to the top three students in each class, freshman through senior, as well as to the top three schools in the competition Chapter of Mathematics to the top student in each class, freshman through senior, as well as to the top three schools in the competition.

A tuition scholarship will be offered by the Department of Mathematics to the top student determined by scores on the exam.

The schools to be represented include: Alton Senior High School, Assumption High School, East St. Louis; Belleville Township High School; Benton Consolidated High School; Breese Community High School; Cashokia High School; Carlinville High School; Carthage High School; Centralia Township High School; Century High School, Ullin.

Christopher Community High School; Clase High School; Clay City High School; Columbia Community High School; Carbondale Central High School; Nashville Community High School; Coolidge Jr. High School, Granite City; Crossville Community High School; Dahlgren High School; Dongola High School; Dupre Community High School; East St. Louis High School; Edwards County Senior High School, Alton; Edwardsville Senior High School; Fairfield Community High School; Freeburg Community High School; Gibault High School, Waterloo; Granite City High School; Grayville High School; Harrisburg High School.

Herrin High School; Highland High School; Johnston City High School; Lincoln High School, East St. Louis; Marion High School; Mascoutah Community High School; Marquette High School, Alton; Mater Dei High School, Breese; Metroplis High School; Mount Vernon Township High School; Noble Community High School; O'Fallon Township High School; Patoka High School; Pinckneyville Community High School; Roxana High School, St. Paul High School, Highland; St. Henry Prep, Belleville.

St. Teresa Academy, East St. Louis; Shawneetown Community High School; Sparta Community High School; Southwestern High School, Piasa; Trico High School, Campbell; University School, Carbondale; Vienna High School; Waterloo High School; Wayn City High School; Weber Township High School, Bluford.

Wesclin Jr. High School, New Baden; Weldon Junior High School, Carbondale; Wesclin Sr. High School, Trenton; West Frankfort Community High School; West Wilber Truman Jr. High Junior High School, Alton, and School, Bethalto.

Student Services Workshop Set for Junior College Staff

SII will conduct two workshops this summer for junior college staff, especially for those who work in student services.

Higher Education 516 is a two week workshop July 3-14.

Group to Survey Living Standards

Alpha Kappa Psi, professional fraternity, and the President's Office, will conduct a survey during the remainder of this week. The survey will be a comparison of the standards of living at Southeast Missouri State College, a small college, and SII, a large university. A questionnaire will be distributed to a select group of students.

The survey will attempt to investigate the hypothesis that SIU students come from higher income families, spend more money (excluding tuition and housing expenses) and work fewer hours while attending school than the students at Southeast Missouri State.
SIU Track Team Faces Tough Kansas and Drake Relays

SIU’s track team will continue to rub elbows with the best runners and field event men in the country the next two weeks when the Salukis participate in the Kansas and Drake Relays.

Coach Lew Harrizzo’s squad is in Lawrence today for the opening of the 42nd Kansas Relays. Two Salukis will be defending titles they won last year at Lawrence.

Distance runner Oscar Moore set a Relays record in the 5,000 meter run last year. Moore ran the event in 14:22.2. Among Moore’s challengers this year will be Oklahoma State’s Charle McCubbins, who defeated Moore in the three mile event of the Texas Relays, held March 31.

John Vernon will have to come up with his best performance of 1967 to better his 50/9 1/2" triple jump record in the 1966 Kansas Relays. Vernon pulled a leg muscle late last season and his best jump since then was a 48'7" leap, which was good enough to win the Kentucky Relays triple jump.

Milt Livingston and Chuck Benson will probably need personal highs in their event, the high jump, to score among the leaders. Livingston made his initial appearance of the season last weekend with a record 6'8 1/2" jump. He had been nursing a bad leg for several weeks.

Benson is still hobbled by a knee, which has kept him out of action both the high jump and the 440 and 880 relay teams. His top performance this season in the high jump was 6'7 1/2".

Harrizzo also plans to enter Bill Burt in the hurdles and Grover Webb in the discus. Both gave encouraging performances in their events in Saturdays triangular meet with Oklahoma and Kansas State.

The distance medley relay team of Moore, Al Ackman, Rose McKenzie and Robin Covenry will be among the top distant squads at Lawrence.

These top Saluki performers will run up against competition of the Jim Ryan, Charlie Greene, Randy Matson caliber at Lawrence and Des Moines. Harrizzo has always believed in competing against the best and he’ll get his chance today.

Cyclists Invited to Compete in Observed Trials Meet

Cyclesport, Inc., will hold its second scheduled event University Pool, Gym Open During Weekend

The University Pool will be open for recreation activities this weekend. The pool will be open today from 7-10:30 p.m.; Saturday from 1-3 p.m.; and Sunday from 1-8 p.m.

The University School gym will also be open for recreation today until 1-5 p.m. Saturday and Sunday.

Students participating must present their activity fee card, for the year Sunday in the form of an observed trials meet under the sanction of the American Motorcycle Association.

The meet will start at 1 p.m., with registration to begin at 12:00 at the Horseman’s Point area southwest of the Carbondale city reservoir. There will be a $1 donation asked of spectators to help defray costs of the event and competitors will be charged an additional 50 cent entry fee.

Trophies will be awarded in each of the various classes to low point riders for skill in the operation of cycles through 10 traps laid out over rough and irregular trails. The club expects riders from all over district 15.

Cyclists Open During Weekend

TENNIS TROPHY—The Saluki tennis team went to Oklahoma City, Oklah. last weekend and came home with the Oklahoma City Invitational Trophy. Clustered around the trophy, from the left, are Joe Villarette, Mike Sprenglemeyer, Al Peru, Coach Dick LeFevere, Jay Maggese and Johnny Yang.

Gymnasts, Meade Look Forward to More Competition

"The United States Gymnastics Association, if history is any guide, will not win a championship this year," said Dr. Ivan V. Kratter, the Los Angeles Lakers' head coach, who is also the head of the Los Angeles Lakers' gymnastics team.

Kratter, who was named to the Los Angeles Lakers' coaching staff last year, said that the team's success this season will depend on the performance of its gymnasts.

"We have a lot of new talent coming in," said Kratter. "We have some of our older gymnasts returning, and we have some new ones coming in."
