10 Hurt in Fray at Camp Breckinridge

**Edwardsville Science Labs' Sites Shifted**

Students on the Edwardsville campus will have to go to either the East St. Louis or Alton branch in order to take science classes in fall term, according to the Edwardsville registrar.

The science building at Edwardsville will not be completed by the opening of the fall semester, except for the strictly lecture-type classes, all science courses with laboratory work will be offered at the two centers.

Science course programs have been set up at Alton and East St. Louis to accommodate students who are not enrolled at one of the Edwardsville centers immediately.

**SIU to Buy Water at Edwardsville**

Water for the Edwardsville Campus of SIU will be provided by the City of Edwardsville at 22 cents per thousand gallons, according to an agreement recently approved by the Board of Trustees and the Edwardsville City Council. The agreement foresees a connection between the campus and the city's water system.

The agreement requires a violation of the original contract by the city's water authority and would run for two years. The University would have to pay a fee of $2 per thousand gallons for water used.

This agreement follows the abandonment of an earlier SIU plan to build its own water treatment plant.

**Retraining Funds Sought by SIU**

SIU plans to ask for an estimated $750,000 in federal funds for a retraining program for the unemployed in Franklin and Jackson Counties. The additional funds would cover administrative expenses for the next three years to continue the $2.2 million program. The current agreement expires Sept. 30.

The Vocational-Technical institute is under contract to provide retraining classes.

Administration of the program is under the Department of Psychology, William Weisberg is program director.

**Gus Bode**

Gus says the architects can have their skyscrapers, but he favors high-rise dresses.
Art Students Display Work Done for Master’s Degrees

Three art students, all candidates for the master of fine arts degree at the Aug. 27 commencement, have their graduate exhibitions on display in the University's main gallery.

Kathleen Shukair from De Soto, Mo., is showing a collection of paintings, mostly watercolors of figures, some charcoal drawings and some landscapes. Miss Shukair is a graduate of Wisconsin State College.

Mike Croft of Hobbs, N.M., who has specialized in metalwork, is displaying a wide variety of jewelry in both gold and silver, including collars, necklaces, earrings and rings. Croft is a graduate of the University of New Mexico.

TENDER, DEEPLY MOVING

The Miracle Worker' Tells Poignant Story
Of Girl's Rescue From Blind, Silent World

Tender, Deeply Moving

By Anita Povich

The Southern Players' presentation of "The Miracle Worker" is a fitting climax to an excellent season of theater offerings by the summer company.

In this tender and deeply moving play, a highly professional cast under the direction of Sherwin F. Abram, associate theater director, moved the audience to tears, joy and laughter as the Helen Keller story unfolded on stage. Judy Mueller beautifully portrays the seven-year-old Helen, who wanders recklessly and defiantly throughout the stage, rummaging over furniture and into objects. Her handling of this difficult role is a credit to her theatrical ability and will long be remembered by the audience.

Claire Malis in the role of Annie Sullivan, the highly skilled, strong-willed teacher who was once blind herself, gives a dynamic and dominant performance—her presence on stage is immediately asserted not only by her rich voice but by her actions as well. Her feelings toward Helen are clearly seen throughout the play, growing in intensity and reaching a climax in the scene at the water pump. The other characters in the Keller family are vividly portrayed by Nancy Locke, Helen's father, who shows the agony and emotions of a mother watching her helpless child, and Halder Laughlin, Helen's father, who brings a good touch of humor to the many family scenes. Al Young as James, the son, does a good job of showing his frustrated and sometimes bitter feelings.

The play moved along quickly at a high emotional level. When the curtain fell, it closed upon an audience still deeply moved by an agonizing last scene in which Helen at last begins to associate "things" with language, to the audience.

Abrams, who also directed the season's opener, "Period of Adjustment," has done a fine job with a difficult play. His direction of the six-minute fight scene in the second act is especially good.

"The Miracle Worker" may be seen at 8 o'clock tonight and Sunday night at the Southern Playhouse. Tickets, at $1.25, may be purchased at the theater box office or show nights from 7 to 8 o'clock and from 10 to 11 a.m. and 3 to 4 p.m. daily.

The Daily Egyptian Book Scene:

Of Honest Toil, Efficient Toilets

The "area of darkness" is India as seen through the eyes, intellect and temperament of the brilliant Trinidadian writer V. S. Naipaul—and seen darkly.

If you think of India you hear a treacly, 78-rpm version of "Song of India" or "Ode to India." Write to me and I'll send you the record. It's a"there was nothing, and it was night." Or: "He was a virgin, and his innocence was like a complicated machine."

"The events leading up to his death and the explosion that gave the prison aparth an end are described in all their brutality by Rigby. It is fascinating reading but it is not theatrical or melodramatic. It is certain to land on the stage and have its own success in short order. But perhaps what is more important is that it has frightened some of those who control the military establishment, and the need for real, not phony, reform in our prisons."

The Sad and Tragic Made Sordid, Unreal

Honest Toil is a shocking, brutal, violent story that may be one of the greatest of its kind in its brief span.

The book is amusing, and delicious to both writer and reader. In one of its many and pithy commentaries, V. S. Naipaul says that "the world and sometimes scrooging, exacting a personal repayment for a national generosity...India, the world's largest nation, had an added attraction: 'Cultural' humility was sweet, but 'spiritual' humility was sour."

Naipaul is on the side of honest toil and efficient toilets, and there being nothing mystical about toilet and toilets, he seems to be quite down to earth. The Hill, the book he has written, seems to be a new type of American whose privilege was to go slumbering about the world and sometimes scrooging, exacting a personal repayment for a national generosity...India, the world's largest nation, had an added attraction: 'Cultural' humility was sweet, but 'spiritual' humility was sour.

Astronauts Set Again For 9 A.M. Launching

CAPE KENNEDY, Fla. (AP)—Two important American astronauts went through another simulated mission Friday and Thursday, a green light for the real thing Saturday. The flight, on an eight-day flight that would smash the world space endurance record.

Engineers and scientists, working through the night and into the hot afternoon, said all the troubles that plagued the Gemini 3 countdown Thursday had been solved and the decision was "go" at 9 a.m. (Caribbean time), the checkout that followed the scrub was that the memory banks of the spacecraft were not scrambled by a lightning caused power surge through the launch complex during Thursday's thunderstorm.

An auxiliary power unit installed as a safeguard that the computer down and programmed damage. And this failed, it would have been necessary to remove the computer from the spacecraft for reprogramming.

Underground cables damaged by a chemical fire were repaired. A programmer was replaced in the system and it was being warmed up, ready to move into an abbreviated count—a checkout of computer, beam and spacecraft.

WASHINGTON AP—President Johnson described last week's Los Angeles rioting as a baffling and unparalleled outburst of violence and hatred that had no connection with the civil rights movement.

"It bore no relation to the orderliness and struggle for civil rights that has ennobled the nation," he said. "Every leader in that struggle has condemned this outrage and has condemned it again and gone to the courts"—he said. "They are both more or less within the law. It is more or less the law that has been violated by violence against these laws of the land." The White House rose garden was opened to the press Friday against violence.

"Whatever the violence comes from the riders of the Klan or the snipers and looters in the Watts district," he said, "and that as long as he is president intends to enforce the laws that protect all our citizens." A rioter with a Molotov cocktail in his hands is not the "real thing in the Watts district"—he said. "They are both more or less within the law. It is more or less the law that has been violated by violence against these laws of the land." The White House rose garden was opened to the press Friday against violence.

Los Angeles Riot Unrelated To Civil Rights, Johnson Says

PUBLIC SAFETY KCN, Fla. (AP) — The famed Iowa showman, about 700 men that had no connected with the Watts district—was said to have no affect on flight plans, however.

The weather at the Cape was expected to be the same as Thursday, ideal for launching during the morning hours, but again building up to afternoon thunderstorms.

Gymnastics Coach Bill Meade Expects Team’s 4th Straight Undefeated Season

By Joe Cook

When Southern's gymnastics team takes the floor in November, it will be protecting a 37 consecutive dual meet victory string, but Coach Bill Meade is confident Southern can make this its fourth straight undefeated season. Meade has lost only one member, captain Bill Wolf, from last year's team, which posted a 11-0 dual meet record and finished in a third-place tie with Iowa State University in the NCAA finals.

Losing a performer of Wolf's ability would hurt most teams, but Meade will have eight new members this year, who should more than compensate for the loss. Coming up from his freshman team, which Meade considered his best ever, are Dale Hardt, Paul Mayer, Fred Dennis, Ron Harstad, Alan Alexander, Jack Hultz and Joe Poliziano. Also joining the team will be transfer student Rich Ballard.

These eight new faces blending in with veterans Frank Schmitz, who holds NCAA titles in free exercise and trampoline, and Larry Lindauer, Rick Tucker, Brent Williams, Mike Boegeker, Tom Cook, Hutch Dever, Steve Whitlock and Tom Seward, should give Meade his most balanced team yet at Southern.

With 16 capable performers it might seem that Meade would have difficulty deciding who to use in each event, but the NCAA gymnastics rules committee has helped him. This year a team will have four performers, including the all-around man, working each event with the three highest scores counting toward the team's point total.

This rule was established to help some teams use more of their excess talent and it appears Southern will be one of the teams benefiting the most.

"We'll have a well-balanced team, but free exercise and trampoline should be our two best events," Meade said.

Meade has five capable free exercise men and four good trampolineists. Schmitz was tops in both for Southern last year, but will have to work harder to be on top this year. In free exercise Mayer will be the top threat to Schmitz, who will also be challenged by Williams, Becker and Whitlock.

In trampoline, Meade has Schmitz, Hardt, Williams and Dvorak. Meade believes no team has four better trampolineists around. Hardt appears to be the chief threat to Schmitz.

Meade has said on occasion that Hardt has the greatest repertoire of tricks he has ever seen and only needs to work on form to be great.

The weakest event, if the Salukis have one, is side horse, but Meade has three experienced performers — Boegeker, Lindauer and Tucker — and two sophomores, Hultz and Mayer.

"It should be an interesting season and we should go all the way," Meade said.

It's easy to see why the coach is so optimistic.
