Stirrings in the University of California system continued to grow this week as the Board of Regents voted to fire the University's Chancellor, Clark Kerr, and as a student protest developed into a full-scale demonstration.

The Board of Regents voted 9-2 on Tuesday to fire Kerr, who has been chancellor of the University of California for the past 12 years. Kerr has been under fire for several months due to his support for the University of California system's policies on race and sex. The vote came after a series of public hearings on the issue.

The vote was announced by the chairman of the Board of Regents, Dr. Ronald Reagan, who said the decision was made after careful consideration of the evidence presented to the board.

In other university news, the SIU faculty and students have been protesting against the Board of Regents' decision to fire Kerr. The protest has taken the form of a sit-in at the University administration building, where the faculty and students are demanding that Kerr be reinstated.

The sit-in has attracted national attention, with media from all over the country covering the event. Despite the controversy, the University administration has remained silent, refusing to comment on the situation.

In the meantime, the University continues to operate as usual, with classes and events scheduled as planned. However, the faculty and students remain determined to fight for Kerr's reinstatement, and the situation is expected to remain highly volatile in the coming weeks.
Tinker Bell a Flash  
Making Actors Airborne Creates Problem  
In Forthcoming Production of ‘Peter Pan’

By Wanda Barbas

How to launch actors and actresses in cross-stage flight is but one of the problems involved in the forthcoming production of “Peter Pan.”

Four of the characters in the play have “flying status” and how to make them airborne is one of the difficulties facing Samuel Selden, who is directing the production.

Selden, visiting professor of theater, said the presentation of “Peter Pan” on Feb. 10 to 12 and Feb. 16 to 19 involves a number of major problems. Among them are shifting of scenery; light, sound, music and motion effects; and the direction of the many children in the play.

Concerning the direction of the children, Selden said, “Training and managing the children is difficult, but it is a pleasant difficulty. It is a delight to work with them.”

Selden said the flying problem will be overcome by the use of thin wires attached to Peter Pan, Wendy, John and Michael. The movement of these characters will be controlled from off stage.

The flight of the fairy Tinker Bell will be denoted by moving light, thus overcoming a motion problem with a lighting effect.

The variety of moods of the play caused the lighting difficulty, according to Selden. The sound problem was the result of the many sounds that must be reproduced on tape for the play. These include the bell-like voices of pixies, splashing water, rushing wind and barking dogs.

Electronic music will be used in the play to give the right effect for the flight from London to Never Land. The sound of electronic music is like the sound of an electrical current, Selden said.

SIU Payroll Office Sends Out 15,000 W-2 Tax Forms

According to the SIU Payroll Office, over 15,000 W-2 tax forms have been mailed out to all of the University employees.

Over 10,000 of these were to student workers alone.

The forms were sent to the legal address of the employee, which is considered to be the community where he is registered for voting, or the home of a parent or guardian.

The W-2 tax form is the statement of gross earnings for the year, and the amount of federal tax withheld.

Do we really want peace?

We talk about it, plan for it, and hope it will come into our lives. But, are we willing to work for peace in our own hearts — where real peace must be won?

Christian Science reaches that a healing, satisfying peace can be found if we are willing to find for ourselves the spiritual peace that comes from God.

Hear a public lecture called “Peace is Individual” by Roy A. Linning, C.S., an experienced Christian Science practitioner. Admission is free, everyone is welcome.

California’s Clark Kerr

Victimized by Politicians

Most of the time, the mud slung in political campaigns turns out to be0 groundless. But the new governor of California seems to be bent on proving that what was said about him by the Democrats was not only true, but he’s proved it.

His platform of simple answers, simple problems, has claimed its first victim. Clark Kerr, Kerr is one of the most prominent and important educators in the entire country. His installation was observed by many a veteran talent however - political acumen.

Ronald Reagan was critical of Kerr during the election. According to Reagan, Kerr was a victim of Arnold Sterley riots all wrong. Reagan claimed in his speeches that the dirty little left-wingers should have been walked the campus of SJU.

If the new governor has learned anything, it was not only true, but he’s proved it.

Letter

Campus Rocks Could be Made Beauty Objects

Every student who has walked the campus of SJU would have to admit that it is a real beauty. With the exception of the temporary barracks which dot our campus, we have some of the most modern architecture, beautiful virgin forests, glistening lakes and mountains, a real aesthetically placed bits of bedrock.

One thing has occurred to me however, which President Morris has overlooked in his quest to save SJU a possible point for the lover of beauty and learning. President Morris does not, of course, realize at his disposal the means to make the entire campus of SJU a region of beauty to the surrounding countryside. Can any deny the beauty or usefulness of these landscaping wonders?

It seems strange that our President has never followed up the idea of using each rock into an individual work of art. With careful consultation with the department of botany he would find that while a "rolling stone gathers no moss" his botany rocks do exactly that.

One realizes this fact he should then appropriate several thousand more dollars to place upon each rock a group of lichens. Can you imagine how beautiful the campus would be with all this natural beauty covered with orange, yellow, and blue-green lichens?

This could even be mixed to form abstract rock artwork that people would travel many miles to see. The lichens would take care of themselves (like trees) so there would be no problem of upkeep.

President Morris, the student of SJU appeal to you to carry out this idea which must have crossed your mind.

Time Ripe to Abolish College

The time is ripe for abolishing the Electoral College. Talk of nothing new but the support it is getting is unprecedented. A Gallup Poll shows 63 percent of the American people would approve a constitutional amendment providing for election by popular vote and vice-president by direct popular vote. Only 20 percent would disapprove.

A poll of state legislators, who would be called upon to ratify this amendment showed only 0.7 percent against any change whatsoever. In 44 of the 50 states there was enough sentiment for direct popular election to have resulted in ratification of such an amendment.

The Electoral College was devised as a way to keep the people from choosing the president. In that objective it failed. But thereafter it has disturbed the machinery of the government. Sometimes fatally. Three times it resulted in the choice of a president who received less popular votes than their opponents. It would hardly be too strong to say that, in a bizarre situation, it robbed Samuel J. Todd of the presidency. On many other occasions, the thwarting of the popular will has barely been avoided. In short, the college is a highly dangerous anachronism. We know of no persuasive reason for keeping it.

Direct popular vote would appear the best alternative. It should strengthen the two-party system by making each state a significant battleground—one worth fighting for. It would, in effect, extend the one-man, one-vote principle to presidential elections.

It would mean that both parties in Southern states would eagerly court the Negro vote, hence it would boost Negro voter registration and participation. Influence of third-party candidates to swing elections would decline. Influence of cohesive minority interests in large, industrial, urban states, now disproportionately, would lessen. And there would no longer be the same compulsion to choose presidential candidates from these few states, with their large electoral voting blocs.

Feiffer

Mr. Hooper: This is the Secretary of State's Office. I've just had private checking out my telephone.

And they tell me it isn't tapped.

And distinctly overflowed you accept your state assurances that it isn't tapped because I've had your private tapped.

Mr. Hooper: It's the, you say you're interested. Let me tell you. I'm the only person who has private tapped.

I don't say you're interested. How can I tell, do you mean. I heard on my new dealing tape that he's going to make a statement about the deal.

I say how can I tell. I have a little tape which he's going to make a statement about the deal. I have a little tape which he's going to make a statement about the deal.

Senator Says Legislature Inefficient

By Sen. Paul Simon

Most Illinois citizens would be shocked to visit the last five days of the session, for the agenda was presented with the poise of major importance which should have received careful deliberation often are passed with no deliberation.

In four of the six regular six-month sessions in which I have served, the majority of bills acted upon during a session were acted upon during the final week! That means literally more than a thousand bills passed or defeated during that last week.

One hopes that this situation will change during the present session.

Rep. Harold Katz, a Democrat from Cook County, and Sen. Harrison cowell, a Republican from DuPage County, in the 165 session introduced bills for a commission to study this major matter of legislation. Katz was made chairman of the commission and Sen. Foster chairman.

The commission has presented the legislature with a thoughtful, thorough report—within the time limits—whether it will be substantially adopted or rejected. Its recommendations don't make very exciting reading, yet their adoption is essential if the citizens of the state hope to improve the caliber of performance of the legislature.

The recommendations of the commission are:

1. The number of committees should be reduced. (This recommendation has already virtually been shelved)

2. Constitutional amendments should receive more careful consideration by establishing new procedures. (At the present time constitutional amendments sometimes receive little debate or consideration. The period of the last week has been introduced in the House June 29th, passed the House the same day, and passed the Senate June 30th. It will have one more chance to handle anything so important.)

3. A preliminary report of all proceedings should be kept when measures are up for final passage. (Now there is only a record of the vote, and neither the public nor the courts ordinarily have any idea why a measure was passed or defeated.)

4. Deadlines must be established to insure earlier consideration of all measures. (Under present procedures, bills are not introduced during the final days or those introduced in January may not be considered until June 30th.)

5. Its recommendations don't make very exciting reading, yet their adoption is essential if the citizens of the state hope to improve the caliber of performance of the legislature.

6. There should be a staff of two persons for each of the five most important committees. (At the present time the two persons are staff, except for a clerk to call the roll. When you consider that the Appropriations Committee, for example, has 50,000 votes, left by laying over the testimony, never heard the $5 billion without any staff to examine the recommendation. Some of these procedures are unworkable and wasteful.)

7. Proxy voting should be virtually eliminated. (Legislators might have the experience of testifying to two or three legislators present to consider a bill; but a few proxy votes, left by laying over the testimony, never heard the measure.

8. The recommendations of the commission are:

To the editor

I thought Pegler was dead. A poor dumb optimist like me thought Pegler was buried in his own abyss, thanks to the legal acumen of Louis Nizer and the righteous indignation of Quentin Reynolds.

But today, when I look at Mr. Jenkin Lloyd Jones is the present Avator. His dispatch on India is defective in political poverty. I hope that this situation will change during the present time. Communal tension is a historical process and always accompanied the teething troubles of any society.

Mr. Jones should not be allowed to play the public disquiet due to the lack of a clearly established national championship. They made plans for a post-season play-off series, but not in competition with any Chamber of Commerce-promoted shower game. Instead, they should put money in and any TV commercials, they would make more money.

The play-offs would be reserved for the "big" college football. The six "big" conference champions and two "big" independents—to the outcome might be no more convincing that the orchestrated operations which determined the "top 10" week after week, regardless of possible powers beyond the pale. But the coaches are really worried that Notre Dame and Navy can make their "play-off" just as for more than 40 years it has refused to send its team into a bowl. But Notre Dame is not sufficiently appreciate of additional commercialism, the pro- fessional team owners see the value of the "play-off" just as more than 40 years it has refused to send its team into a bowl. But Notre Dame is not sufficiently appreciate of additional commercialism, the professional team owners see the value of the "play-off" just as for more than 40 years it has refused to send its team into a bowl.
Faculty Comment on Dismissal

(Continued from Page 1)

Reckless and irresponsible political interference can very easily ruin a great program back by decades."

Rebecca E. Baker, professor
in elementary education:
"That the turbulence in edu-
cation in California should re-
sult in these outrageous acts was
unexpected but not surprising
to those who have followed
the education picture in Cali-
fornia recently. Within the
last few years pressures from
extremists have disrup-
ted education at other levels.
I am especially aware of
this in elementary edu-
cation, which is my field.
L. F. Brackett, chairman
of the Department of
Speech Pathology and
audiology:
"For the moment I am in
a period of suspended judgment
concerning these dismissals.
The attitudes and events an-
cedent to his loss of position
are not clearly known. The
implications symbolized by
the dismissal are fraught with
possible change and inherent
danger to the tradition of
higher education in California.
"In our culture as well, I
shall not serve on this faculty
for whatever future benefit
may be derived."

Harry F. Perk, lecturer in
design:
"The University of Cal-
ifornia’s loss will be some
other institution’s gain. How-
ever inappropriately the tim-
ing and circumstances of
the Regents’ action, that is,
changing presidents along
with changing governors, I am
convinced that just as the Uni-
versity survived the loyalty
controversy of the McCarthy
era, so too it will survive the
administration of Ronald
Reagan.

Barry B. Sanders, assistant
professor of English:
"I don’t think we can talk
about Kerr’s sudden dismissal
without considering Reagan’s
temporary academic fees and to
lower budgets. There is the same
political context. Instead of solving
what Reagan considered to be
its own problems, the Regents
think it is obvious that he has
created new problems for the
University in the same political
context and not indeed for the
entire state."

James B. Lemert, assistant
professor of journalism and
former editor of the student
newspaper at the Berkeley
campus:
"On the whole Kerr was an
excellent president, in my
opinion. He made a very
deliberate effort to give back
of the nine campuses inde-
pendence and freedom to func-
tion on his part."

Many of the things blamed
on Kerr—student unrest and so
on—he had very little to do
with—under Kerr’s administra-
tion. He became the figure
identified with them because
the news media came to him
for comment."

E. Claude Goffman, profes-
sof of English and chairman
of the President’s committee
to study the role of the student
in the university and the uni-
versity in society:
"Governor Ronald Reagan,
having participated in the vote
of the Board of Regents which
finally unseated Clark Kerr,
left the campus and tried to
avoid facing the television camera,
but that was not a trial in the
true sense of the word."

"This was most disturbing
to me. It indicated a lack of
nervous control. He was clos-er
for whatever future benefit
do be to Berkeley to bring
up under Kerr campus de-
cisions. He became the figure
identified with them because
the news media came to him
for comment."

Odd Thing About Illinois:
North-South Accent Varies

By Kevin Cole

It isn’t hard to spot someone from the Chicagow area. Just listen.

Chicago-ese, the dialect common among residents of the upper fourth of Illinois, is classed as a north midland division of the north-mid-central dialect, according to Cameron W. Garbutt, professor of speech.

Springfield straddles the imaginary line separating the dialects of northern and southern Illinois. But the most obvious differences in speaking patterns are noticed in the northern and southern extremities of the state, he said.

One basic characteristic of the northern Illinois dialect is the broad, raw treatment of voiced combinations.

For instance, a sport often played in the Arena may be called BET—after-bowls in the north. To a Carbondale native it is BA-yel-bowls.

In the Cook County area a large structure for retaining water is a DEF-yam. In Jackson County it is a DAI-yum.

Harold E. Johnson, a sophomore from Homewood who is majoring in forestry, said the chief difference between the two dialects is speed.

“Judges in high school speech tournaments used to cut our team down for speaking too fast. We talked much faster than the people around here,” he said.

Johnson attributed the northern Illinois dialect in general to the predominance of peoples of foreign ancestry, “mostly Polish,” he said. “Residents from the area also use a lot of quaint little expressions that I had never heard until I came here. They put prepositions in funny places, like ‘get up of a morning’ said. Another difference lies in the use of words.

William Kindt said that in northern Illinois the first shot in a pool game is usually called a ‘break.’

But the student from Lansing who is majoring in journalism said that in southern Illinois, the hustlers “just ‘em.”

According to Kindt the southern accent in the area surrounding Carbondale will eventually disappear because of the great number of Chicago-area people infiltrating southern Illinois in recent years.

Transportation Essay Contest Announced

SIU students are eligible to participate in the National Defense Transportation Association’s fourth annual nationwide college levelessay contest on transportation problems.

The topic of the essay will be "an inquiry into a problem facing transportation, either military or commercial." This is the general topic. Essay entries should be on a specific matter such as the impact of high-speed rail transportation or the effect of supersonic transport aircraft.

First prize is $500, second and third prizes are $300 and $200 respectively. Essays are not to be less than 2,500 words, nor more than 3,000 words and must be typed and double-spaced.

Further information is available from Col. J. Novek (Ret.), assistant director of SIU’s Transportation Institute. Deadline for entries is Feb. 24.

Guerrillas Knock Out Copter During Attack on Navy Craft

SAIGON, South Vietnam (AP)—Viet Cong guerrillas attacked a U.S. Navy minesweeper in the harbor and knocked down a support helicopter, in the latest renewal of fighting along a vital waterway south of Saigon, a U.S. Navy official said Tuesday.

Two U.S. sailors and all four Americans aboard the helicopter were killed.

The flight broke hours after a U.S. helicopter reported in Saigon that the biggest accident on the way to the Palmer Cedar Falls—has been reasonably successful.

The communists have held the 60-square-mile area of jute fields and ravines along the coast and used it as a launching point for menacing attacks on Saigon itself.

Fighting widened elsewhere.

Nicaraguan Rebels Hold Americans

MANAGUA, Nicaragua (AP)—Nicaraguan rebels—led by a young left-wing political boss of the Somozas machine barricaded themself in a hotel on Monday and seized 20 North American guests as hostages, the government reported.

Two tanks that had opened up the hotel were being held by their fire while negotiations went on between the opposition and the government through an intermediary, troops surrounded the hotel, which covers a city block.

U.S. Embassy employees was allowed to pass through the barricade of beds and mattresses placed in the main hotel entrance. He reported that all the Americans are well. He said they are touring spots in the city.

Gunfire swept the streets most of the night and into the morning. There were reports picking up 12 bodies and more than 30 wounded. The government said three soldiers were among the dead and wounded.

The trouble began Sunday night at a political rally conducted by Fernando de Aguirre, the Conservative party candidate who opposes Gen. Anastasio Somoza Jr., an heir to Latin America's oldest political dynasty, Somoza is a presidential candidate of the ruling Nationalist Liberal party.

LBJ Wants Tax Increase

For Social Security Program

WASHINGT0N (AP)—President Johnson proposed Monday that instead of increasing Social Security benefits in 30 years, he said it would take 11 million older Americans out of poverty this year.

The President's proposals, sent to Congress in a special message, include increases in Social Security taxes that would double by 1974 the current deduction from paychecks.

The scope of the proposed benefit increases, from at least 15 percent for all recipients to 5 percent for those receiving minimum benefits, was outlined earlier in Johnson's Jan. 10 State of the Union message.

Monday, he spelled out the price which would be paid both by extending the amount of income on which Social Security taxes are levied and by raising the tax rate.

Currently, Social Security taxes, including medicare, amount to 4.1 per cent of income up to $6,600 a year, for an annual total of $269 for an individual receiving that much pay.

Johnson proposes that the taxable base be raised next year to $7,800, which would lift the maximum tax to $343.20. The tax rate, which had been scheduled to climb to 4.9 per cent in 1969, would go instead to 5 percent, for a maximum of $390, 00.

The President's message calls for further increases in the taxable base to $9,000 in 1971 and $10,800 in 1974, and for an increase in the rate to 5.5 per cent in 1973.

Thus, starting in 1974, a person earning $10,800 or more would pay $990.40 in annual Social Security taxes.

Estimates are, however, that the increase in the taxable base would affect only about 22 percent of those paying Social Security taxes next year, and about 15 percent for the 1974 increase made.

Republicans served notice that they would oppose close scrutiny, Rep. John W. Byrnes, R-Wis., senior GOP member of the House Ways and Means Committee, said Republicans will have to study the proposed benefit increases "and weigh" their desirability against any tax increases they would require.

In New York, Curtis, R-Mo., another committee member, said he thinks the final outcome may be a compromise public opinion for an 8.5 percent increase benefiting plus a cost-of-living escalator clause, without any tax increase.

Hoover Charges Red Consul's Spy

WASHINGTON (AP)—FBI Director J Edgar Hoover told a Senate committee Monday that Soviet spies operate actively from diplomatic missions. But said Soviet consulates in this country would present no problems if his men were incapable of handling.

Secretary of State Dean Rusk told the Senate Foreign Relations Committee, a long-standing congressional backed, that some Soviet consulates in this country would problems if his men were incapable of handling.

More to the point, Rusk told the Senate Foreign Relations Committee, a long-standing congressional backed, that some Soviet consulates in this country would present no problems if his men were incapable of handling.

Thompson Sees Soviet President

MOSCOW (AP)—President Nikolai V. Podgorny told the new U.S. ambassador, Llewellyn E. Thompson, Monday that Vietnam stands in the way of improving U.S.-Soviet relations.

It was Thompson's first meeting with the Soviet leader since his arrival here Jan. 11. He presented his credentials as successor to Foy D. Kohler. The new ambassador said President Johnson had instructed him to tell the Soviet president that Johnson is ready to cooperate on problems facing the two nations.
Mao Calls Out Army To Surpress Rebels

TOKYO (AP)—Chairman Mao Tse-tung's leadership was reported Monday to have called up the army into action for the first time to stamp out growing rebellion. As a first act, reports said, the army has seized control of Fangshan, a rebellious suburb of Peking.

The Japanese Press reports said wall posters told of "repressive action", assembling 60,000 in Manchuria to fight pro-Mao forces converging on the Manchurian industrial city of Changchun. These accounts said 40 Maoists were injured in clashes with workers and students in Changchun.

Wall posters in Hong Kong from Canton said Mao's opposition was collecting weapons and forming an army of peasants and workers in Kwangtung province, following reports of the success of a similar army in neighboring Kiangsi Province.

Wall posters said clashes occurred in Fangshan over the weekend and in Tientsin, 100 miles southeast of Peking, and Pao, mill southwest of the Red Chinese capital.

In an effort to divest Premier Liu Shao-chi and his anti-Mao backers of any semblance of power, reports said Peking and other wall posters announced creation of a city government of revolutionary city government of workers, peasants, soldiers, and teachers.

Japanese correspondents said wall posters announced that Premier Chou En-lai in an address rally announced the calling up of the army to suppress opposition to Mao's program for cultural revolution, as the current purge in Peking's power struggle is called.

Bulletins by the militant teen-age Red Guards said soldiers then moved into Fangshan and seized control of the Communist party's county headquarters and the security bureau. There had been earlier reports that Mao supporters had been arrested by security headquarters in Fangshan.

There was no way of checking the accuracy of this report or of other reports of spreading opposition to Mao throughout the countryside.

China watchers in Hong Kong said, however, that the "army" supposedly being formed against Mao in the southern province of Kwangtung probably was no more than a group armed with clubs and weapons fashioned from farm and factory tools.

A broadcast by the New China News Agency contended the anti-Mao faction is approaching "complete collapse under the furious impact of the great proletarian revolution."

On the other hand, the official Peking People's Daily said that despite "hurricanes of tyranny class struggle," Liu said his supporters are still in positions of power.

"Power and more power," the newspaper exclaimed, is the watchword of those who were "attacked, persecuted and suppressed" Maosists.

**Southern Illinois To Get $11 Million For Construction**

WASHINGTON (AP)—Rep. Kenneth J. Gray said Monday President Johnson will ask Congress Tuesday for $11 million for a comprehensive program for Southern Illinois.

The projects and amounts asked for are:

- Mississippi River work adjacent to Southern Illinois—$3,5 million; Mount City Lock and Dam, $210,000; Mount Carmel flood wall, $1,147,000; Prairie du Rocher flood control, $35,000; Rend Lake Reservoir, 55 million; Saline River and tributary flood control, $280,000; Smithland Island Lock and Dam, $250,000; Wabash River comprehensive planning, $371,000.

Gray said two important Southern Illinois projects—the Kaskaa River and the Big Muddy comprehensive study—are both funded in sufficient amounts to not need additional funds this year.

**Court Rules Communism Isn't Grounds for Dismissal**

WASHINGTON (AP)—The Supreme Court ruled Monday New York State may not fire public school teachers—or any other civil servant—solely because they are members of the Communist party.

The 5-4 decision described the state's scheme for barring subversives from the school system as "a highly efficient terror mechanism, and a menace to academic freedom."

The ruling dealt a fatal blow to New York's entire teacher-loyalty program, and the state's 1939 civil service law provision which made membership in the Communist party sufficient ground to fire—or not hire—a public employee.

They were declared unconstitutional largely as violation of freedom of association or freedom of belief guaranteed by the First Amendment to the U.S. Constitution. Parts of the teacher-loyalty program, known as the Feinberg Law, were struck down also as unconstitutionally vague.

"Our nation," said Justice William O. Douglas, "is deeply committed to safeguarding academic freedom, which is of transcendent value to all of us and not merely to the teachers concerned."

Veteran Teachers Testify

Faculty Opinions of Student Pen
Shows Quality Decline Over 40 Years

By Jo Ann Fiorel

Is "chicken scratching" a good synonym for students' handwriting? Is it good or worse over the years? Opinion seems divided among veteran SIU faculty members who must cope with students' handwriting.

Ted B. Ragsdale, professor of elementary education, has not seen much change in handwriting in his 42 years at Southern. According to him, some students' handwriting is good and some is atrocious, although men's writing seems to be larger and not as carefully executed.

"I have noticed one thing," he observed, "students constantly have to sacrifice quality for rate while taking notes in class."

In his 25 years at Southern, William H. Freeburg, associate professor of recreation and outdoor education, has noticed a decline in handwriting quality.

Faculty, Staff Publications Sought

A memorandum has been issued by the Office of Research and Projects to all SIU faculty and staff members requesting them to furnish information on all publications for listing in the supplement Research Related Publications.

Finding the name is incomplete, a new mailing was made to assure reaching all faculty and staff members.

Foreign Student Night

Set at Baptist Church

Foreign students at the Carbondale campus of SIU will be guests at the Baptist Student's annual international banquet at 6:30 p.m., Jan. 28 at the University Baptist Church, Oakland at Mill Street.

The theme to be followed in decorations, menu and program is "One World." An international menu is being prepared and part of the program will be provided by foreign students on campus, Beverly Miller, Marion, and Brenda Boren, Herrin, are co-chairman of the banquet.

University High Teacher Assists Geography Project

Arnold D. Burke, of the University High School, is one of 70 American teachers participating in the development of a course content improvement program for geography at the 9th and 10th grade levels.

The work is being done in conjunction with the High School Geography Project of the Association of American Geographers.

The primary goal of the program is the development of teaching materials and techniques that will help close the long-recognized gap between the ideas among professional geographers and what is actually being taught to the students at the secondary school level.

Burke's role in the program is to evaluate the materials, examine their appropriateness for the grade levels, determine the general interest of the students towards its application, and to make recommendations and suggestions for improvement.

**Film, Talks To Wind Up Religion Week**

Religion in Life Week will end Wednesday with two discussions and a film. "No Man Is An Island... Politically" is the subject of the monday chapel service to be held at 12:25 p.m. in the Baptist Fountain.

Paul Schillp, visiting professor of philosophy, will talk on "Pacifism in World Government" at 5:30 p.m. in dining room five of Lena Hall at Thompson Point.

The Student Christian Foundation, 913 S. Illinois Ave., will show an animated film depicting a modern man's reaction to the threats of nuclear war. The film, entitled "The Hold," will start at 9 p.m.

**Club Plans Tour Of St. Louis Firms**

The American Marketing Association Club has invited the Agricultural Economics Club on a reciprocal trip to St. Louis to tour theRalston Purina Company and visit the Gardener Advertising Agency. The Gardener Agency manages the Ralston Purina advertising.

The bus will leave from the University Center at 6:30 a.m. Wednesday. It will be returning between 6 and 7 p.m. There is to be no charge for Agricultural Economics members. Those interested can sign up at Room 226, the Agricultural Industries Office, in the Agriculture Building.

The club, a junior chapter of the Farmers Economics Association, had taken the junior chapter of the marketing association at Cairo, Ill., on a November trip.

**Grad Association Plans Activities OKs Constitution**

Graduate students in the College Student Personnel Program of the Department of Higher Education have recently approved a constitution for the newly organized College Student Personnel Graduate Association.

The social activities committee of the organization, headed by Robert Lauer, and the seminar committee, headed by Lawrence Jauch, have planned a series of lunchtime seminars. Sessions will bring guests from university and civic positions before the groups.

Officers of the graduate association, elected fall quarter, are Billy Hurry, president; Bill Mease, vice president; Janet Veach, secretary; and Dennis Donham, treasurer. The organization has also seen a representative to the new Graduate Student Council.

Donald Robinson professor or higher education and coordinator of Graduate Studies in college student personnel, is adviser for the group.

**'Rose Garden' Performances Scheduled**

"I Never Promised You a Rose Garden," an adaptation of the Hannah Green novel, will be presented by Interpreters Theatre. February 17, 18, 19, 24 and 25.

Adapted by Vance Fulker son, the play is a study of the world of insanity and one girl's fight back to reality. The world of escape, in the girl's mind, is inhabited with cruel and jealous gods that control her as if she were a puppet. The play deals with how she cuts the strings one by one and the falls that occur in the process.

"I Never Promised You a Rose Garden" will be performed on the Caliper Stage in Chamber Theater form.

has described Julian Bream as "the successor to the great Andrés Segovia himself." Nowhere is his brilliance more clearly displayed than in this performance on the lute of these 16th-century airs and dances by eleven composers. Such music as Dowland's Queen Elizabeth's Galliard and Besard's Air de Cour achieves its authentic flavor in Bream's hands. Here, in fact, in Bream's latest album, is a royal feast for modern ears—for every music lover!
Among Best in United States

Library Map Room Gains Fame

By Dean A. Rebulfoni

It is a well-known fact among SIU students that our various athletic teams are presently enjoying the very highest standing in nationwide sports polls. It is also a well-known fact that the total enrollment of Southern now places the school among the largest in the Midwest and that the very status of Southern as an institution of academic excellence is rapidly increasing.

What is perhaps less well-known among SIU students is that several of the less-publicized areas of the University are also gaining new stature, among these is the Morris Library map room.

The map room situated on the first floor of the library, presently has over 105,000 maps, a number which places it in the uppermost class among university map rooms, both in the total number of maps stored there and in the variety available to students.

The map room presently has copies of all existing popular types of maps, including political, economic, cultural, topographic and hydrographic. In addition there are over 400 atlases housed in the map room along with numerous street guides and gazetteers.

The map room, which is under the jurisdiction of the Science Library, is managed by Miss Thompson and three part-time assistants.

The map room circulates over 250 maps each month, with the majority of these issues being to geography, geology, agriculture and earth science majors. In addition, a large number of students who pursue hunting and fishing as a hobby use the topographic maps available in the map room. The "topos" are often the source of information on little known and seldom frequented outdoor areas for SIU outdoor enthusiasts.

The map room also serves as a depository for both the U.S. Geological Survey and the U.S. Coast and Geodetic Survey. Following World War II the U.S. Army Map Service also chose SIU as a depository library for its maps of foreign areas as part of a plan to distribute imported maps throughout the nation for defense purposes.

As many as 500 new maps are acquired each month, many of them provided free by various governmental and private organizations. Foreign maps, including national atlases, are purchased by the University.

Valuable donations of rare and unusual maps have also been made to Southern in the past. A collection of early maps of the Mississippi River Valley dating from 1530 to 1856 was presented to SIU in 1965 by Jean Gottmann, visiting professor of geography. Gottmann had photographed early French and English maps which were housed in the Bibliothèque Nationale in Paris.

Among the more unusual maps housed in the map room is one produced by R. Buckminster Fuller and Shojo Sadao. The map, a futuristic "Dymaxion Albionese World," is the only projection of its type in existence.

A copy of the controversial Vinland Map of "about 1440" is also on file in the map room. This particular map is said by some historians to furnish definitive proof that the Vikings discovered the New World long before 1492 and Christopher Columbus.

Interest in the map room has increased greatly in the past year according to Miss Thompson. One former student assistant was examining an old Illinois map which identified a city called Brownsville as the county seat of Jackson County. Later maps did not indicate the presence of the city, and the student began a search for the exact location and fate of Brownsville.

Aided with information provided by SIU historian John Allen, the student eventually discovered the ruins of Brownsville, which had been destroyed by fire near the turn of the century and never rebuilt. It was near the present site of Murphysboro.

Home Equipment Workshop Planned

A workshop on electrical household equipment for teachers, extension workers and interested homemakers will be held at SIU April 29 by the Electrical Women's Round Table, according to Betty Jane Johnston, equipment authority in the School of Home Economics.

Miss Johnston, who is chairwoman of the Department of Home and Family and author of a 1965 textbook "Equipment for Modern Living," will be cochairman of the workshop with Bernice A. Malmanger, Chicago, Sears- Roebuck equipment specialist.

Sponsored by the Chicago Chapter of the Electrical Women's Round Table, the workshop is expected to draw some 200 participants.

ON CAMPUS JOB INTERVIEWS

Following are forthcoming on-campus job interviews as listed by Placement Services. Students seeking appointments may make them at Anthony Hall, Room 218, or by telephoning 3-2391.

Jan. 26

CENTRAL INTELLIGENCE AGENCY: Interested in talking with candidates in the following disciplines: accounting, anthropology, area studies, chemistry, earth sciences, economics, electrical engineering, foreign languages, geography, history, international relations, journalism, law, mathematics, physics, political science, psychology and sociology.

SPRINGFIELD, ILLINOIS PUBLIC SCHOOLS: Seeking candidates in all areas of special education, remedial reading, and vocational.

GENERAL TIRE AND RUBBER CO.: Seeking chemistry, accounting, management, industrial technology, engineering technology, and engineering majors for positions in production and industrial management.

SINCLAIR PETROCHEMICALS, INC.: Seeking agriculture majors for positions in agricultural products sales. Also seeking chemical and mechanical engineering majors interested in production trainee positions.

SINCLAIR RESEARCH, INC.: Corporate recruiting for chemists (polymer, physical, organic, analytical), engineers (chemical, mechanical, industrial, electrical, civil, physical, mathematicians, business majors (business administration, accounting, management), technology for industrial management, and liberal arts majors.

UNIVERSITY CITY, MISSOURI SCHOOL DISTRICT: Secondary and elementary teachers. Please check with Placement Services for specific needs.

Jan. 27

SINCLAIR RESEARCH, INC.: Please see listing above.

CENTRAL INTELLIGENCE AGENCY: Please see listing above.

LACLEDE STEEL CO.: Seeking candidates interested in sales (any degree considered), accounting majors, electrical and mechanical engineers for plant and area assignments.

13 Initiated Into
Delta Zeta Fold

Delta Zeta social sorority recently initiated 13 members. They are Barbara Allen, Bonnie Bernhart, Evelyn Camp, Linda Camper, Mary Lou Earnheart, Rebecca Fulker, Laurie Morgan, Gail Nilsen, Margaret Perez, Yolanda (Dusty) Rodriguez, Judith Rank, Beverly Schrader and Gloria Sinclair. Several marriages, pinnings, engagements and lavellorings have also been announced.

Yolanda (Dusty) Rodriguez and Kenneth Atwood, Tau Kappa Epsilon, are married.

Engaged are Jeramie Clark and Ted Cregaris, Tau Kappa Epsilon; Sharon Kramer and Terry Ijams, Delta Chi; and Diane Thayer and Kenneth Highower, Theta Xi.

Pinned are Marcia Berk and James Walsh, Delta Chi; and Marcia Daab and Donald Ball, Theta Xi.

Lavelloried are Evelyn Camp and Ron Glenn, Theta Xi; Donna Clift and Roger Schelly, Delta Chi; and Mary Lou Earnheart and John Deem.

Grammar Scholar
To Give Lecture

Linguistic scholar Paul Roberts, author of a number of textbooks on grammar from the third grade through college, will give a public lecture Feb. 2 at 31U.

Roberts will talk about English grammar in relation to university-level language study and the carryover to English teaching in public schools. The talk, at 8 p.m., in the University School Studio Theatre, will be sponsored by the Department of English.

Composer wants to know the score on '67 compacts

DEAR REB:
I'm a well-known composer, and I need a new car. The trouble is, I'm just too Bizet to pick one out. And what's more, many of the new cars I see are Offenbach in the garage for repairs. But I do have a good friend who is pleased with his new '67 Dodge Dart. He was given an excellent deal on and Berlioz any money on it. My Bach is to the wall. Can you help me? LUDWIG

DEAR LUDWIG:
My advice is that you let yourself Ravel in the enjoyment of driving the sporty, all-new Dart for '67. You'll find its price is a lot lower than you'd expect. And even though it's longer outside and bigger inside this year, Dart's still an easy car to handle.

Sincerely, Reb

Here's the swinging, man-sized compact for '67 that's got three B's of its own: Bold, Brassy and Beautiful. Dart has been completely restyled this year, inside and out. It's longer, roomier, more powerful. But still at that snug compact price. Drop in at your nearest Dodge Dealer's and try it out for yourself.

THE DODGE REBELLION WANTS YOU
Southern Hands Wichita 77-55 Defeat

By Tom Wood

The Salukis quieted an enthusiastic partisan crowd Saturday night at Wichita, Kan., and sent many of them home early as they handed the Wichita State Shockers their worst home court loss in over six years, 77-55.

Paced by the hot hand of sophomore Dick Garrett, the Salukis bumbled the Shockers from both the inside and the outside and threatened the Shockers' 80-point-plus offense with an ironclad defense, Garrett scored 25 points in the night to grab scoring honors for both teams.

Southern broke open a close contest by scoring 10 straight points midway through the opening half. In the process they forced three consecutive Wichita turnovers with the man-to-man defense that has held 13 opponents to 57 points a game.

The Salukis took a 35-22 lead into the dressing room at halftime after outscoring Wichita 23-13 in the final moments. After the intermission, Garrett reeled off the first six points and the Salukis quickly opened up a 18-point lead.

Wichita could get no closer than 13 points after this, Coach Jack Hartman gradually cleared his bench with about four minutes to play and the bench warmers continued to pour it on the Shockers.

Southern enjoyed its most productive game since its Dec. 19, 1981, 83-76 loss to Missouri State and in doing so dealt the Shockers their sixth loss in five years at home.

The Salukis also had one of their best nights at the free throw line sinking 11 of 14, including their first seven attempts.

Frost Record Stands at 4-4

ST. Louis (AP)---Stan Musial, who was preparing for his rookie season with the St. Louis Cardinals 25 years ago, became the general manager of the National League baseball club Monday, succeeding Bob Howsam.

The 40-year-old Musial, who capped a 32-year record-breaking playing career in 1962, said after his appointment, "It's a funny that I never did want to set my sights on a job as field manager, but I always thought I'd like to be in some form-office capacity.

August A. Busch, president of the Cardinals, said Musial also would continue as club vice president. Busch said that in keeping with Cardinal policy Musial would not have a contract.

Estimates placed Musial's salary at about $5,000.

Howsam, who had been general manager of the Cardinals since 1946, accepted the position of general manager of the Cincinnati Reds Sunday. He has agreed to a five-year contract in Cincinnati at a reported $50,000 annually.

Musial, a native of a major league playing record, joined the Cardinals late in the 1941 season.

Walt Frazier contributed seven assists to the total and also had five field goals for 17 points. He grabbed eight rebounds to break the record behind Clarence Smith, who had nine and turned in another stellar defensive performance. Sophomore center Chuck Benson had the biggest night of his varsity career, scoring 14 points while alternating with Ralph Johnson, who had eight points.

The Salukis cashed in on 33 of their 60 attempts from the floor for 54 per cent. The Shockers hit 24 of 57 shots for 42 per cent.

The Shockers' leading scorer, 6-5 Mel Reed, was held to 12 points, nine below his previous average. Jamie Thompson led Wichita with 13 points, Warren Armstrong, who along with Thompson is a candidate for All-American, locked up in a duel with Frazier and was held to 10 points by the Salukis' own past All-American.

Swimmers Bow to Cincinnati Bearcats

Because of a disqualification in the 200-yard freestyle relay, the Saluki swimming team now stands at 2-1 for the season and not the other way around.

It happened in Saturday’s meet with the Cincinnati Bearcats and enabled the Bearcats to gain enough points to register a 50-48 victory.

The outcome of the meet brings the last loss for the Saluki team as they fired back against the Bearcats. They won in the 400-yard medley relay cause the third man in the Saluki relay team left the side of the pool for the water too early.

In the end, a very unhappy coach Ray Eusaia, stated, “We lost to a team we should have beaten but a couple of mistakes cost us the whole meet.”

The coaching staff was pleased with the win in the 400-yard medley relay and said that they expected this team to perform against the Bearcats.

The Salukis were able to put up a good fight against the Bearcats and were able to come close to the score.

Swimming Meet Entry Blanks Due Thursday

The intramural swimming meet is scheduled for 1:30 p.m. Saturday in the Student Activity Center, and all entries should be in by that time.

All men who wish to enter this meet must have an entry blank, with all events they wish to enter, and a health permit presented to the intramural office by 5:30 p.m. Thursday.

The meet will begin at 1:30 p.m. Saturday, but competition should be at 2 p.m. and be completed by 5:30 p.m.

A Scare. . .But That’s All

By Bill Kindt

Michigan State’s gymnastics team gave the Salukis a big scare Friday night in the All-Around, before finally succumbing to the tune of 190.70 to 190.20.

This was the 53rd victory in a row for Coach Bill Moeckel’s team and the first loss for the Spartans in 16 meets.

The Spartans started off the evening by scoring 27.80 in the floor exercise to the Salukis’ 27.15. This gave them a momentum lead, Toby Towney, a member of Blue Mound, Ill., took first place for the Spartans with 9.45 points. Michigan State’s Dave Thor was second with 9.3 and SIU’s Paul Mayer third with 9.2.

In the side horse event the Salukis grabbed 27.10 points and the Spartans managing a total of 26.95. Mike Boegler individual honors for the Salukis with a score of 9.4. Last week Boegler scored a 9.5, Michigan State’s Ed Witz and Dennis Smith tied for second with 9.15 and SIU’s Mayer followed with 8.9.

After the first two events the Spartans held a slim lead of half a point.

The Salukis took the lead for good in the trampoline scoring 27.70 to 25.60, Hutch Dvorak took individual honors for the Salukis with a score of 9.30. Dale Harst and Joe Dupert were far behind Dvorak’s norm with scores of 9.20 to tie for second.

The Spartan high bar team cut into the Saluki lead with the performances of Ed Gunny, Norm Haynie and Thor. Gunny registered a score of 9.25 which tied him for first with SIU’s Fred Dennis. Haynie took second with a 9.15 and Thor tied Saluki Larry Linauer for third with 8.95 points.

The Salukis still held a big lead after four events, 108.75 to 107.80, but the Spartans still didn’t give in.

The long horse event proved to be the best event of the evening point-wise. The Spartans scored 28 points in this event with Bill Diggins score of 9.0. Thor won individual honors with a score of 9.45 with Ron Auer second at 9.40 and Mayer third at 9.30.

The scoreboard now read—SIU, 136.20 and Michigan State, 135.80. Things were tightening up.

Southern won the parallel bars and, for all practical purposes, put the meet out of reach for the Spartans. Thor took first place with a score of 9.4 but Salukis Ron Harstad and Mayer tied for second with scores of 9.25 which gave the Salukis 27.25 points to State’s 27.05.

Going into the still rings, the last event, the Salukis held a lead of 163.45-162.85.

The fans were impressed with SIU’s Dennis in the rings. Dennis scored 9.40 to Gunny’s 9.0 which leaves some question as to who is NCAA champion.

Spartans Larry Goldberg and Tom Kinsey tied for second with scores of 9.20 and Joe Polizanno, of SIU had 9.05. In the all-around, Dennis fell off the parallel bars and finished with a score of 7.05. Thor scored 54.45 points to Dennis’ 51.65.

Nicklaus Wins Crosby Tournament

PEBBLE BEACH, Calif. (AP)—Masters champion Jack Nicklaus fired five birdies in a stretch drive to win the $104,500 Bing Crosby Golf Tournament Monday in a three-way duel with Billy Casper and Arnold Palmer.

Nicklaus, the 27-year-old star from Columbus, Ohio, shot a four-under-par 68 for his final round over the exquisitely 6,747-yard Pebble Beach course and a 72-hole total of 284.

Casper, the United States Open champion, who entered the round a stroke ahead of both Nicklaus and Palmer, finished second with 74-289.

UP AND OVER—Judy Wills shook off an injury and won the long horse vault Friday night in the Women’s gymnastics team victory over the Oklahoma Twisters. Miss Wills scored 9.233 for the individual honors. Her Coach, Herb Vogel, anxiously eyes Miss Wills result wanting to give her some help, although she didn’t need it.

Women Gymnasts End Evening With Victory Over Oklahoma

The SIU women gymnastics team put the finishing touches on a perfect night for Southern gymnasts Friday by routing the Oklahoma Twisters 144.- 773 to 137, 294.

The victory was the first dual meet triumph of the year for Coach Herb Vogel’s squad. In keeping alive their but four year undefeated record the SIU girls won the first three places in all but one event, the uneven bars.

Southern took the first four places in the all-around event, won by Donna Schaezner, the team’s most valuable performer last year. Miss Schaezner scored 36.365 total points by winning the uneven bars and free exercise events. She was followed by Mary Ellen Toth, 35.612; Joanne Hoshimoto, 35.451; and Linda Scott, 35.212.

The highest finisher for the Twisters was Mickey Hester who was fifth in the all-around and took third in the uneven bars.

In the balance beam Miss Scott finished first, followed by Janis Dunham, Miss Hoshimoto finished second in the bars and free exercise. Judy Wills won the vaulting competition for Southern, followed by Miss Toth.

The victory was by a much larger margin than either coach had predicted.

Vogel attributed his team’s strong showing to "a lot of pride and kids that are willing to work and sacrifice for success." He added that he may have a better team than ever before, judging by everyone’s performance Friday night.
