Trustees' Meeting Called Off

The Board of Trustees' regular monthly meeting, scheduled for today, has been called off. No official explanation was given, and a new date was not announced.

The board had no regular meeting scheduled for July. However, there was speculation that it may call one during that month to handle business matters that were scheduled to come before the board today.

Composition of the board is "in flux at this time," a response from Republican members of the Illinois Senate who must confirm the appointment. Hitt is a Democrat and Wham is a Republican.

The Senate's Executive Committee has postponed action on the nomination.

Traffic Blamed On Workshops, Seminars, Visitors

Though parking and traffic conditions seem crowded for this summer, relief is in sight.

Figures are not yet available to indicate whether there has been any great increase of registered cars on campus, but Edward F. McDevitt, supervisor of parking, may have the answer. McDevitt said that the many summer seminars and workshops cause a great influx of traffic during the first few weeks. In addition, many parents are here enrolling their children and sightseeing.

McDevitt said that he expects the number of cars to diminish once the seminars are concluded.

Meantime, there is a parking problem.

Carbondale, according to the Security Office said tickets would be issued to cars parked unnecessarily and illegally because of the number of workshops going on those vehicles not bearing parking stickers would be checked out. If the owner of the car is neither a student nor a staff member, he will be given a warning rather than a summons for the first offense.

Mercury Hit High of 91 Monday Afternoon, Well Below Record for Date Set in 1936

If you think it was hot Monday, you are right—it was. In fact it was 91 degrees at 2 p.m. at the SIU Climatology Laboratory.

But it really wasn't much to brag about. After all it was the same on April 21 and 22 and just 19 days ago it was 75.

Even those figures aren't much to talk about when you take a look at the Climatology Laboratory's records. In fact a quick check and you are apt to agree with that oft repeated phrase "they don't make numbers for winters, if you prefer" they used to.

The record high for June 28 on campus, for example, is 104, set in 1926, and the record for today is 106, set in 1931. And these are just isolated cases. The month of June has always been a hot one in Carbondale.

Since records have been kept by the laboratory, the temperature has reached 100 or more one time on 25 of the 30 days in the month. The highest was the previously mentioned 106, registered both in 1926 and 1931.

And if all that is slightly discouraging, just brace your self for July and August. Both months are notorious for their heat.

PLAYING IT COOL—Barbara Ronges (left) and Jeanie Cords have found a way to beat the heat—they simply rented quarters at a private home that provides a swimming pool. Now if they could only talk the prof into conducting his classes at a poolside they would really have it made.

Could Be Worse...

12-Week Program Begins Saturday

SIU will begin training approximately 74 Peace Corps volunteers Saturday for duty in African nations of Niger and Senegal.

This is the second summer that Southern has trained groups of volunteers for duty in those two nations.

George Curran, project director, said that the first of the volunteers will arrive here Saturday and be quartered in the Small Group Housing area while undergoing their 12-week training program.

"They hope to wind up their work here on Sept. 25," he said.

The volunteers will work 12 hours a day, six days a week. They will be taught French and the native language, either Hausa or Wolof, of Niger and Senegal.

When they complete their training they will be assigned to the two Africa nations to work in agriculture, rural construction, literacy training, physical education and social welfare. Instructors at SIU will hold classes on a large number of instructional tools.

The volunteers will serve 21 months in Africa.

The Republic of Niger is a former French overseas territory in West Africa. It became an independent state in 1960, and the nation supports itself chiefly from agriculture and peanuts are the principal cash crop.

Senegal also is a former French overseas territory in West Africa. However, it is on the island and its capital is Dakar.

Those who will arrive Saturday will be the seventh group trained by SIU for the Peace Corps. In addition to the groups previously trained in Niger and Senegal, SIU has trained volunteers in the following countries: Honduras, Tunisia and Nepal.

Mercury Hit High of 91 Monday Afternoon, Well Below Record for Date Set in 1936

If you think it was hot Monday, you are right—it was. In fact it was 91 degrees at 2 p.m. at the SIU Climatology Laboratory.

But it really wasn't much to brag about. After all it was the same on April 21 and 22 and just 19 days ago it was 75.

Even those figures aren't much to talk about when you take a look at the Climatology Laboratory's records. In fact a quick check and you are apt to agree with that oft repeated phrase "they don't make numbers for winters, if you prefer" they used to.

The record high for June 28 on campus, for example, is 104, set in 1926, and the record for today is 106, set in 1931. And these are just isolated cases. The month of June has always been a hot one in Carbondale.

Since records have been kept by the laboratory, the temperature has reached 100 or more one time on 25 of the 30 days in the month. The highest was the previously mentioned 106, registered both in 1931 and 1936.

And if all that is slightly discouraging, just brace your self for July and August. Both months are notorious for their heat.

Both months have had temperatures of 100-degrees or more at least one time for each day during the periods records have been kept.

Record high temperatures for July, for example, range from 101, set July 5, 1921, to 112, set in 1930, 1934 (twice) and 1936. The worst year apparently was 1930 when the temperature was more than 100 for 99 days, ranging from 103 to 111.

August of that same year will be a memorable one for the real old timers. It got up to 113 on Aug. 9, 1930, the highest ever recorded for that month.

Record high temperatures for July, for example, range from 101, set July 5, 1921, to 112, set in 1930, 1934 (twice) and 1936. The worst year apparently was 1930 when the temperature was more than 100 for 99 days.

Deadline for Fees Is 4 p.m. Friday

Final deadline for payment of deferred fees for summer term is 4 p.m. Friday, Herbert W. Wohlwend, assistant registrar, has announced.

Registration of students who do not pay fees by then will be canceled.

Normally, students deferring payment, who register by the last day of class, are given approximately 12 weeks to pay fees by late last week, Wohlwend said.

"We used to send notices reminding students of the deadline," Wohlwend said, "but now that there are 400 to 400 students deferring payment, we don't have time to do it any more."

Coed 'Ivy Tower' to Be Air-Conditioned; Men in New Dorms Limited to Table Fans

Five thousand years ago an Assyrian merchant cooled his courtyard by having his servants spray water in a room in warm weather. If it doesn't appear to be working a great deal of the time.

At SIU for example, most new building now under construction will have central air-conditioning—including the 17-story women's residence hall in University Park. However, the three-story dorms for men in the area will not be air-conditioned.

"They will have a ventilating system, however," William A. Volk, associate university architect in charge of construction said. Volk said to his knowledge there are no immediate plans to air-condition such dorms as Woody Hall and those in Thompson Point. So residents will just have to settle for table fans. Even if a student could afford his own window air conditioner, it would not be permitted. "Room air-conditioning," as well as small appliances such as pop corn poppers are outlawed in the dorms, according to Harold L. Hakes, assistant coordinator of housing.

If they are "discovered," they are stored by the University until the student can take them home or dispose of them in some way, he explained. The main reason that appliances other than table fans or radios are not permitted is that the electrical wiring could not accommodate, safely, the extra load required to operate all the appliances students might bring to campus," said George F. Connell, supervisor of physical facilities at Thompson Point. He said that to air-condition the present University dorms would require changing the present wiring to accommodate the appliances and to go to a central unit.

Connell said that the period of time that air-conditioning would be used, would not justify the expense, which in most cases amounts to as much as one half of the original cost of the structure.

If air-conditioning is added other features of the dorms would suffer—the lounges in the University dorms are among the largest constructed in any university housing," he said.

A junior upon hearing that the High Rise Dormitory in University Park will be the only dormitory to be air-conditioned in University Park said: "They not only put the female in a 17th century dormitory, but give her air conditioning to boot; and then they wonder why the American male is unappreciated."

**SIU Contest Seeks Best Stage Designs**

More than 60 stage designs by collegians from coast to coast have been received by the Department of Theater in its fourth annual Intercollegiate Scenic Design Competition. Archibald McLeod, department chairman, said superior entries will be placed on display at the convention of the American Educational Theatre Association in Miami Beach, Fla., Aug. 25-26. The winners will be announced at the opening of the exhibition. McLeod said.

A $200 prize will be awarded for the best design by a graduate student and the same amount for the best design by an undergraduate.

Jury members to select the winners are Mordecai Gore, SIU research professor of theater; George A. Hussey Jr., oboe; C. Robert Rose, clarinet; Lawrence J. Intravala, bassoon.

Charles Griffe's Poem for Flute will be performed by Sheryl Gay Bottje, flute; and Frances M. Bedford, piano, quartet for flute, oboe, clarinet and bassoon will be performed by Bottje, Hussey, Rose, and Intravala.

Concluding the program will be "Ritmo Jondo," by Carlos Sarnacha, Performers will be Byron D. Gregory, clarinet; Larry K. Franklin, trumpet; Samuel A. Floyd, xylophone and tambour; and Michael D. Hayden, marimba in. The winners are the Florida School of Theater; Gene Callahan, film art director; and Andrew J. Kochman, head of the fine arts division, SIU Edwardsville Campus.

The exhibition is jointly sponsored by the Department of Theater, the Phul Electric Co. and the Gothic Color Co., McLeod said.

Activities

Board Meeting Set, 'Pollyanna' Scheduled

The Summer Programming Board will meet at 4:30 p.m. in Room D of the University Center.

The Department of Foreign Languages Russian Institute will sponsor a movie, "Farewell, Doves," at 8 p.m. in Morris Library Auditorium.

The Department of Music will present a faculty concert at 8 p.m. in Shryock Auditorium.

Outdoor Education Sets Workshop

The staff of the Outdoor Education Center at SIU will conduct a one-day workshop in teaching outdoor education for more than 300 elementary school teachers at Winona State College in Minnesota July 12.

Making the trip will be Thomas J. Rillo, coordinator; Clifford E. Knapp, assistant coordinator; William Abernathy, faculty member, and Robert Christie, graduate assistant.

Russian Film, Lecture Series Beginning Tonight at Library

"Farewell, Doves," a film of contemporary Russian life that was awarded a prize in the Lucerne International Film Festival, will be shown at 8 p.m. tonight in the Morris Library Auditorium.

Students in the first in a series of five movies and lec­ture-slide presentations on the Soviet Union. The programs are designed for participants in the intensive Russian study program but all interested persons are welcome to attend, free of charge, according to Joseph R. Kupcek, associate professor of foreign languages and director of the study tour in Russia this August.

The schedule for the five programs:

June 29, "Farewell, Doves.
July 5, Lecture by Kupcek on SIU and a slide program showing the proposed itinerary for the summer tour.
July 20, Lecture slide program by Kupcek on various aspects of life in Moscow, Leningrad and other cities.
All films are in the Russian dialogue with English subtitles.

A review of news from the United Nations will be featured on This Week at the U.N. on WSIU radio at 2 p.m. today.

Other programs:

8 a.m., Morning Show.
10 a.m., Paris Star Time.
12:30 p.m., News Report.
1 p.m., Readers' Corner.
3 p.m., Concert Hall: Suite for Harp and Chamber Orchestra by Smetana, No. 6 in E major by Beethoven and Symphony No. 5 in D minor by Mendelssohn.
6 p.m., Music in the Air.
7:30 p.m., International Sounds: Music from all over the world.
8 p.m., Forum: Guests from the SIU faculty and staff and from the SIU area discuss topics of current interest with host Fred O. Criminger.

Little Man on Campus

Study of Racist Street-Rioting Scheduled for WSIU-TV Today

A study of two cities hit by racial riots in Negro sections last summer will be shown on "The Second Summit: Call or Chaos" at 8:30 p.m. today on WSIU-TV.

The cities to be studied are New York City's Harlem and Rochester, N. Y.

Other programs:

3:30 p.m., Industry on Parade.
3 p.m., What's New: The art of painting by canoe and preparing for a camping trip.
5 p.m., Encore: "Spectrum."
6:30 p.m., Bold Journey: "We Lived With the Eskimos," showing a hunt for polar bears and seals.
8 p.m., The Creative Person: "John Ciardi," a portrait of the poet, his life and his work.

Exhibit Offers Tips

On Food Budgeting

Six pointers on how to keep food costs low were offered by the Department of Food and Nutrition at SIU in an exhibit in the Home Economics Building.

These tips are: (1) plan meals in advance, (2) make and use a shopping list, (3) buy for use intended, (4) buy by weight (cost per ounce) rather than by size of package, (5) read labels, (6) use low-cost foods in interesting ways.

Another pointer listed actual cost of one week’s food based on figures from the Family Economic Review of October, 1967, on low, moderate and liberal spending plans. For a family of four, the low-cost plan was $52.80, the moderate-cost plan was $53.30, the liberal-cost plan was $53.00.

For a family of only two—applicable to many apartment-dwelling students—the cost for each level was proportionately somewhat higher: $47.70 on the low-cost basis, $49.80 on the moderate-cost plan and $53 for liberal spenders.

The historic flight of Gemini 8, however, throws a new gloss on the old law in our multi-billion dollar space program. Officials have raised the original estimate of $1.72 billion to $2.1 billion. It is now likely that the problem could become more serious. When long flights are attempted, the program is the costliest single course in what an astronaut, who takes even a brief ride, can cost. And the depths of outer space, says radio-telephone to the wife of an astronaut, are vast.

The trouble developed on the 18th, when two U.S. space officials in Houston suggested to the astronauts that the attractive wives living in low gravity conditions nearby were ready to chat with their husbands, who were hundreds of miles overhead.

"Are you being good boys?" inquired Mrs. Armstrong, whose wive always do. "It looks like you are having a wonderful time," said Mrs. White in tone wives always use. And the two astronauts, just as they were working hard and asking how they will all make the kind of run out of things to say. Just the way husbands who travel together do. Mrs. Armstrong was the first to mention that the wives would have to be told to look at the children, their husbands, who were away, and she was surprised. "Then arm yourself with a razor overheard.

Three weekly newspaper editors have been nominated for the 1965 Elijah P. Lovejoy Award for courage in journalism.

The award is presented annually to a weekly newspaper editor who has displayed outstanding courage in public service, and Norman W. Dufresne of the Lowell (Mass.) Optic; Kleeth A. Howard of the Yellow Springs (Ohio) News; and Foster M. Russell of the Colourg (Ont.) Sentinel-Star.

The award is named in honor of the Alcoe, Ill., abolitionist who died Nov. 7, 1837, while defending his press.

Howard R. Long, chairman of the Department of Journalism, said Dufresne was nominated because he "rocked the boat" and criticized activities of a politician, but instead of bouquets he got brickbats for "cop calling."

Howard's paper survived economic pressures in his championing of civil rights. A supporter of his nomination said he "worked for local unity, never losing sight of the social justice issue."

Foster fought the closed shop, pointed out what a jurisdictional fight between unions was doing to the community, and maintained that even if he was proved wrong he was entitled to express his point of view.

Elsa Kula's Design
In Chicago Exhibit

A retrospective showing of the design work of Elsa Kula, lecturer in design at SIU, is now on exhibit at Gallery 500-D in Chicago.

The exhibition covers 15 years of professional design activity by Miss Kula, ranging from design campaigns for large corporations to personal mailing pieces. Paintings, prints, and drawings also are included. The show continues through July 9.

The new gallery, sponsored by the Frederic Ryder Co., is planned to showcase the contribution of designers to the visual arts.
Both Sides Agree on Reapportionment

**Cong Downs Transport; At Least 2 GI’s Dead**

SAIGON, Viet Nam (AP)—Witnesses said Monday at least 16 persons were killed in the crash of a C123 transport hit by Viet Cong fire 13 miles east of Saigon. U.S. spokesmen were reluctant, but confirmed a U.S. Air Force officer and an enlisted man were dead.

The twin-engine plane plowed into a farmhouse Sunday night.

Nationality of the other victims and such details as the total number of casualties were veiled by official secrecy.

In Washington, the Pentagon said it had no information on the case.

However, Vietnamese and American military men and civilians who witnessed the scene at daylight said they saw 16 bodies taken from the wreckage. One military source reported he understood there had been 20 Americans aboard. He said his information was all that were killed and four bodies were missing.

There was speculation that the plane might have been one of the few C123s operated by the Vietnamese air force for special Vietnamese commando drops.

The crash was similar to one last Dec. 11, when another C123 hit a mountain near Da Nang on a classified night mission. That crash killed 38, including two Americans. Unofficial but reliable military sources said the group was training for drops into enemy territory.

Aguard and in the air, the war went on.

A pamphlet riddled with seven bomblets strikes on North Viet Nam. Eight U.S. Air Force planes dumped 2.5 million cartoon leaflets over five cities urging the people to oppose the Communist government.

A U.S. spokesmen said the drops were the beginning of a major leaflet campaign to be carried out "below a certain line" south of Hamil. The northernmost city of the five was the Roman Catholic community of Phat Diem.

The leaflets, with a cartoon on one side and text on the other, charged that Ho Chi Minh's regime is taking rice from the people to feed its troops in South Viet Nam.

The crash was similar to one last Dec. 11, when another C123 hit a mountain near Da Nang on a classified night mission. That crash killed 38, including two Americans. Unofficial but reliable military sources said the group was training for drops into enemy territory.

Aguard and in the air, the war went on.

A pamphlet riddled with seven bomblets strikes on North Viet Nam. Eight U.S. Air Force planes dumped 2.5 million cartoon leaflets over five cities urging the people to oppose the Communist government.

A U.S. spokesmen said the drops were the beginning of a major leaflet campaign to be carried out "below a certain line" south of Hamil. The northernmost city of the five was the Roman Catholic community of Phat Diem.

The leaflets, with a cartoon on one side and text on the other, charged that Ho Chi Minh's regime is taking rice from the people to feed its troops in South Viet Nam.

**Drawing of Maps Remains; Plan Has Approval of Daley**

SPRINGFIELD, Ill. (AP)—The Illinois Senate republicans, majority leader, W. Russell Arrington, announced Monday night "We have, I hope, accomplished reapportionment.

Arrington said the agreement, which Speaker John Touhy, Chicago Democratic House leader, supported, depends on the drawing and legislative enactment of maps which Gov. Otto Kerner would sign.

Touhy said the agreement had the endorsement of Chicago Mayor Richard J. Daley, a Democrat.

Arrington said enactment of reapportionment would mean passage of Daley's program to double the half-cent city sales tax, an increase in city liquor and cigarette taxes, and enactment of the state subsidy program for the Chicago Transit Authority.

The agreement was announced after almost six hours of conferences among leaders of the two parties and a representative of Mayor Daley in the office of Lt. Gov., Samuel Shapiro.

Arrington said the agreement included voting in the House 21 districts in Chicago, 9 in Cook County suburbs and 29 downstate.

Of the 21 Chicago House districts, 10 would go to favor Republicans, Arrington said that in the Senate, the agreement calls for 20 Chicago districts, 9 in Cook County suburbs and 29 downstate.

In the Chicago Senate districts, three would be drawn to favor Republicans.

Senate Republicans and Democrats will have four districts each, Democrats and Republicans in the legislative body has been hinges mainly on Democratic demands for 21 Chicago Senate seats, while Republicans have said Chicago should get 20 and downstate 29.

Touhy stood by Arrington as he made a statement on the agreement and voiced his support.

Arrington said Gov. Kerner's revenue program was not involved in the remapping question. Earlier, the GOP majority and the Senate Revenue Committee voted on the floor the Democratic administration's bill for gasoline tax and cigarette tax increases.

The leaders said that neither government nor the contemplated amendment of the Illinois state Constitution was involved in the agreement.

They said that legislative House committees would begin drafting the maps for the House and Senate reapportionment proposals this morning.

**House Okays Bribery Probe**

SPRINGFIELD, Ill. (AP)—The Illinois House approved bills Monday calling for a legislative probe of bribery allegations and right rejections on lobbyists.

Lawyers' passage was given the bill to set up a six-member House commission to look into bribery charges that have been raised by tape purportedly recording conversations of three Chicago currency exchange lobbyists.

**What kind of person reads the DAILY EGYPTIAN?**

One who likes to have fun. He and others like him (99 per cent of the single students, 98 per cent married and 84 per cent of faculty and staff) read the Daily Egyptian. He finds in its pages places to go and things to do. In his average yearly personal expenditure is $25. He includes in his budget his personal spending, friend.

It's really not difficult to reach him with your entertainment advertising, you know. Actually, your phone can bring a Daily Egyptian advertising consultant to you in a matter of hours. Don't be long, though. Someone else may be getting your slice of the fun.
Judy Wills Declared Ineligible For AAU Trampoline Event

Herb Vogel, coach of Southern’s defending national and defending championship team, may pull his team out of this week’s AAU championships in Cleveland, Ohio. Vogel is perturbed because the AAU committee has ruled Judy Wills, the women’s trampoline and tumbling champion, ineligible for this week’s national championship meet.

“They ruled Judy ineligible because she competed in the United States Gymnastics Federation championships this year,” said Vogel. “I note a lack of consistency here, since her teammate, Nancy Smith, competed in the same meets and has been ruled eligible by the AAU committee,” he continued.

Vogel, whose team has already been weakened by the loss of two Canadians, Gail Daly and Irene Haworth, can ill afford to lose another performer.

The two Canadians are competing this week in the Canadian AAU championships in Saskatoon, Canada. “The girls were able to perform for us last year because the meets were held at different times,” Vogel said. “We could have used them this year but Gail in the three-time Canadian women’s championship, and we just can’t ask her to give up her country’s championship. Besides, both girls have selected a couple of meets up there every year in order to remain eligible to represent their country at the next Olympics,” he continued.

Both girls will be competing individually. Vogel expects a better showing from Miss Haworth, who finished fourth last year. She is in much improved form this year and has been ruled eligible to compete in the National championships, said Vogel. Both of the Dunham sisters, along with Miss Schaerer, will be entered in the all-around. Judy Dunham and Miss Schaerer will be in the tumbling championships too. Miss Wills will perform on the trampoline, long horse and tumbling and Nancy Smith will work the trampoline.

“If Judy is not reinstated we’ll all go up to the Canadian championships,” said Vogel, although the team will not be eligible for the championship there.

Salukis Lose 3 of 4 In Weekend Baseball

By Joe Cook

Southern’s pitchers will have grounds to sue for non-support if their teammates don’t start scoring some runs.

The Salukis lost three of four games to St. Louis University last weekend and in the three losing games, Southern could score no more than one run in each game.

Southern lost the first game of the series Friday 6-1, the second game of a doubleheader Saturday, the Salukis exploded for 10 hits and 10 runs to win 10-6.

Lefthander George Poe was the beneficiary of the team’s only big explosion of the four-game series.

Southern presented Poe with five runs in the first inning on an error, a double, a walk, a hit batsman and five singles. Poe’s wildness in the second caused the game to be tied up. Five walks and two hits did the trick.

The score remained tied until the fifth when Southern exploded with its second five-run outburst of the game.

Three hits, including a second double by shortstop Rich Hacker, a walk and an error gave Southern another five-run lead.

Pinch hitter Tyler Young, who batted for Poe, got the big hit. With two out, runners on second and third and the game tied, Young delivered a sinking line-drive single to right field which brought in the two tie-breaking runs.

Southern added three more in the same inning. Another lefthander, Ed Olenec, replaced Poe in the sixth and yielded the final St. Louis run in the seventh.

In Saturday’s Wednesday cap Mike Lyle pitched effectively until a three-run sixth inning sent him to the showers.

Southern scored its run in the top of the sixth on a triple by Hacker and a sacrifice fly by first baseman Frank Limbaugh.

The game Sunday was much like the last one Saturday. Neither team could manage many hits.

St. Louis got seven, however, and that was five more than Southern could muster.

Bob Ash, who pitched the first six innings, was the victim of the light-hitting attack. The Salukis didn’t get their first hit off Wally Lombeck until the fifth when Young beat out a slow roller down the third-base line.

The second hit came in the seventh inning when the Salukis had the only real scoring chance of the game.

Limbough led off with a single, was forced at second when Roger Schneider grounded to short. Walks to Young and Mario Solis loaded the bases but Dave Filipg ended the game by hitting a double-play ball to second. Rookie Coach Rich (Itchy) Jones was fairly pleased over his team’s showing, especially in the pitching department where Southern was believed to be the weakest.

“If we improve our hitting and cut down on our number of errors I think we can fool a lot of people,” Jones said.

Southern will next go to Champaign this weekend for a possible-play ball to second. Four-game series with the University of Illinois.

Students From Six Countries To Get Ag Orientation Monday

SIU’s fifth annual orientation program for foreign graduate students in agriculture will begin Monday with Gerald Karr, coordinator of the eight-week course, said the program is designed to teach students conversational English and common agricultural terms which will be helpful in adjusting to study in American universities.

The program combines concentrated study for six hours a day with several field trips to area farms and markets.

Students will study practices, terminology and conditions applying to animal husbandry, crops, soil, farm management, marketing, credit and other phases of American agriculture.

The language orientation phase of the course is being provided by the English Language Center on campus.

Students are from Colombia, Japan, Cyprus, Mexico and the United Arab Republic. Two will be attending SIU in the fall. The others have been accepted to study in other universities throughout the United States.

Collinsville Youth Gets Scholarship

The annual $100 Illimoky Advertising Scholarship to an incoming freshman at SIU will go to Constan Papatak, 1305 West Main Street, Collinsville.

The Dan Hopkins Memorial Advertising Scholarship provided annually by the Illimoky Advertising Club is open to high school seniors from Southern Illinois, Southeast Missouri, and Western Kentucky who plan to enter the SIU advertising program here.

The recipient is chosen on the basis of a statement on why he or she wants to pursue a career in advertising and a letter from the high school principal relative to the ability of the student.
