FACe OF DEaTH—This motorcycle carried an SIU freshman to death Tuesday afternoon. Martin E. Moyer, 20, of Decatur, was killed in collision with a delivery truck on Old Route 13. Except for the front-end damage the other parts of the cycle were almost intact.

Tickets on Sale Friday

Trumpeter-Showman Al Hirt Slates Winter Show Feb. 10 in SIU's Arena

Al Hirt, billed as America's greatest trumpet showman, will present a winter show at 8 p.m. Feb. 10 in the Arena.

The show is sponsored and promoted by the SIU Arena. Tickets for the show will go on sale Friday at the information desk of the University Center.

Ticket prices for the general public are $3.50, $2.50, $2 and $1. Prices of tickets for the general public have been increased because a performer of Hirt's stature demands a higher box office gross, according to W. Dean Justice, Arena manager.

Students' IDs and fee statements will serve as a discount card. The tickets will be sold in blocks of 11 or more from 8:30 a.m. to 8 p.m. Monday through Saturday at the information desk of the center.

One ID and fee statement must be presented for every four tickets purchased, Justice said. For example, an organization buying 100 tickets must present 25 sets of IDs and fee statements at time of purchase.

Students wishing to buy fewer than 11 tickets may purchase them from 9 a.m. to 8 p.m. Monday through Saturday at the information desk of the center.

Ticket mail order blanks will be available to area residents for their further convenience, he said.

Al Hirt, formerly headquartered in New Orleans, has entertained in night clubs, on television, and in motion pictures. His 12 best-selling albums include "Sugar Lips," "The Greatest Horn in the World," "Our Man in New Orleans" and "Al, He's the King, Hirt!".

His trumpet and orchestral selections include jazz, Dixieland, blues, and popular tunes.

and a fee statement for every four tickets purchased, Justice said.

Dorm Leasing Brings Troubles to Residents

SIU is seeking to lease another apartment building on the corner of Old Route 13, across from the College Square dormitory group for use as office space.

C. R. Richmond, SIU's legal counsel, said the University is in the process of negotiating a contract with the dormitory owners.

Grundy said a contract was forwarded to the dorm owners Monday, but he had no idea if or when it would be accepted.

Meanwhile, a number of the students involved have petitioned the University Housing Office, the Business Office and the legal counsel for information concerning their future.

Joseph Zaleski, assistant dean for off-campus housing, said if the students were forced to move it would technically constitute a breach of contract on the part of the dormitory owners.

Zaleski said the University is trying to aid the students in reaching an agreement with the Rome freshmen will be beneficial to all concerned.

Gus Bode

Gus says the warm weather hasn't cooled his plans for Florida in March.
Services Set for Leroy Brooks, 67

Leroy Brooks, Sr., 67, of Carbondale, died at 12:36 p.m. at Holden Hospital, Surviving are his wife, Toy, a son, Leroy Brooks Jr.; three brothers, Clay Brooks of Flint, Mich., Clarence Brooks of St. Louis, Mo., and Jim Brooks of Blytheville Ar.,; two sisters, Mrs. Annie Reed and Mrs. Clara Brown, both of Carbondale, and nieces and nephews.

The body is at Algee Funeral Home in Carbondale where friends may call from 7:45 to 10:30 p.m., Thursday. Funeral services will be held at 2 p.m., Friday at the Church of God and Christ on North Marion Street. Services will be conducted by the Rev. Ruben Cawthon and the Rev. G.W. Gillespie.

Ag Group to Meet

The monthly meeting of the Agricultural Economics Club will be held at 7:30 p.m., Thursday in the Seminar Room of the Agriculture Building.

A representative of South's Department of Speech will discuss debating techniques.

Activities

Gymnasts, Audubon Scheduled

Religion in Life will feature a lecture on "Pacifism in World Government" by Paul Schlip, visiting professor of philosophy, at 5:30 p.m. today in Lentz Hall. Campus Senate will meet in the River Room of the University Center at 7:45 p.m. The noon movie, "Olympic Elk," will be shown in the Memorial Library Auditorium at 12:15 p.m.

An Audubon program, "Teton Trails," will be presented in Furr Auditorium at 8 p.m.

WRA Basketball Club will meet in the Women's Gym at 7 p.m.

WRA Climatics Club will meet in the Women's Gym at 9 p.m.

Alpha Kappa Psi will meet in Room 208 of the Wham Education Building at 9 p.m. The Department of History will present a seminar on Latin America in the Home Economics Building at 5 p.m.

A written lifeguard test will be given in Lawson Hall 141 at 7 p.m.

Young Republicans will be in Room H of the University Center at 8 p.m. Little Egypt Student Grotto will meet in Room 216 of the Agriculture Building at 9 p.m.

Inter-Varsity Christian Fellowship will meet in Room E of the University Center at noon.

Panhellicnic Council will be in Room B of the University Center at 4 p.m.

Religion in Life film, "The Hole," will be presented at the Student Christian Foundation at 9 p.m.

The German Club will meet at 7 p.m. today in the Studio Theatre in the University School. Films and recordings will be presented.

Home Ec Center

Schedules Shows By 14 Graduates

A series of five exhibits including the works of 14 graduate art students will be held at Mitchell Gallery in the Home Economics Building beginning Feb. 22.

The initial exhibit will feature works of Bruce Sedorick, P-Jean Evins and Carol Flaherty, and will last through Feb. 28. The exhibit will include paintings in oil and acrylics and graphics.

The exhibits are a part of the degree requirements for master of fine arts degree candidates and will be reviewed by the students' faculty committee. One work of art from each student will also be selected for the permanent collection of University Galleries.

Chemist to Speak

Loren Hepler, professor of chemistry at Carnegie Institute of Technology, will present a seminar at 4 p.m. Wednesday in Parkinson 204. The subject will be "Thermodynamic Theory of Subsequent Effects and the Hammett Equation."

Operas Based on Liz Borden

On WSIU Television Today

An opera based on the real life of Lizzie Borden, who was acquitted of the murder of her father and stepmother in the mid 19th century, will be presented by the New York City Opera Company and telecast at 10 p.m. today on WSIU-TV, Channel 8.

Other programs:

4:30 p.m., What's New.

5:15 p.m., Industry on Parade.

6 p.m., Men of the Senate.

8 p.m., Passport 8, Kingdom of the Sea: "Survival at Sea."

LITTLE MAN ON CAMPUS

HAS SEEN BY

HIS GIRL

HIS INSTRUCTOR. HIS MAJOR ADVISOR. HIS PARENTS

Book Reports, Grosse Fuge Scheduled on WSIU Radio

"Atoms for Peace," discussed by Rene Morel of the International Atomic Energy Agency, will be presented on "Scope" at 2:30 p.m. today on WSIU Radio.

Other programs:

6:30 p.m., News Report.

6 p.m., Georgetown Forum.

8:35 p.m., Composer: Johannes Brahms.

10:30 p.m., News Report.

11 p.m., Moonlight Serenade.

12:25 a.m., News.

Scouts Visit Geologists

SIU Geology Club members and geology faculty members were host to 12 Explorer Scouts from Mound Vernon Saturday. The group, under the supervision of Charles Tucker, visited the department's laboratories and offices, were briefed on geology work, and toured the campus.
HELP Can C’dale Food Prices Be Lowered?

In the January 17th issue of the Daily Egyptian, Mr. Harry W. Week did knowingly that food prices in Carbondale were higher than in neighboring communities. I presume this defense of the Carbondale merchants (conclusively made by a spokesman of the Carbondale Chamber of Commerce) was made only after an up-to-date survey of prices in the area had been undertaken.

Surprisingly, after conducting just such a survey in towns of Carbondale, Marion, Herrin, Carterville, and Murphysboro, only two weeks ago, I arrived at a very different conclusion, a conclusion substantiated by a group of price-conscious housewives. Needless to say, these latter studies indicated prices on many food staples to be several cents higher in Carbondale than in nearby towns.

In his article Mr. Weeks declared that, "Grocery prices of all the chain food stores, national and independent, are the same for the stores of each chain in this area." Our survey found this statement to be extremely erroneous. As evidence of the discrepancies in prices existing among chain food stores in this area I cite the following data extracted from a food survey report made on January 7, 1967, price of ground chuck, choice grade at the Carbondale Kroger's store—790/1b. Price at Murphysboro Kroger's—695/1b; price of 1/2 gallon New Era 100% Milk at Carbondale A&P—446, price at Marion A&P—436, price of liver—60¢/lb grind, Chase and Sandborn Coffee at Carbondale Kroger's—99¢, price at Herrin Kroger's—85¢. These were only a few of the many price differences among identical items of different stores in the same food chain in this area.

To combat the inflated Carbondale food prices and to reward those Carbondale merchants who indeed render service to the community, the S.U.I. Student Senate Committee for Lower Food Prices will begin next week to print weekly charts listing price comparisons among Carbondale food stores. These charts, prepared after consultation with members of the S.U.I. Home Economics Department of Food Research and HELP (Housewives' Effort to Lower Prices), will be distributed to students and townspeople free of charge.

It is my sincere hope that this campaign to lower Carbondale food prices will be a community effort. Indeed it must be if food prices in Carbondale are ever going to be compatible with those in the rest of the area.

Sincerely,
Bill Potter

**No Man Is an Island**

Except During Convo

For the debut of religion in Life Week, the Interfaith Council turned to that institution for broadening cultural awareness—Freshman Convocation. And what a debut it was!

I slowly walked (rather I was shoved along by a multitude) in earnest pursuit of cultural expansion and appreciation upstairs to the balcony, so that I might have an unobstructed view. As I convocated I imagined, slightly dubiously of course, that perhaps this time because of the nature of the program I would be "Culturally enlightened."

There I sat while in the deep recess of my unconscious, John Donne's immortal words echoed repeatedly. "No man is an island entire of itself; every man is a piece of the continent, a part of the main."

My hopes of cultivating my cultural taste soon shattered as my view became obstructed by Daily Egyptian and nodding heads; my ears caught only snatches of the War on Poverty, Viet Nam, Harlem, police brutality, race riots and injustice among the snore and whispers of my neighbors. Not that my neighbors were to blame for my disillusionment. Far from it!

After all, my fellow conversationalists and I were united in the cause of abolishing the cultural enlightenment we endured each Thursday 10 to 11. We were a continent, a main; the speaker, struggling through pages of hashed and rehashed material that he read word for word, was indeed an island. Ah, such a paradox—stating that "no man is an island" while completely isolated from the 2500 united islands composing the continent. As the bell tolled the hour, the continent rushed forth, tripping, babbling, stumbling, and grumbling. Such inspiration I had never seen before on the faces of the conversationalists—to desert the no man's land of Convocation with fervent vows never to return! Ask not for whom the bell tolls; Freshman Convos, it tolls for thee!

**Credo of KA**

KA is an independent publication, free of outside financial aid and subscribed to by all students. It is published weekly, Friday, and is mailed to all members of the University. It is distributed in the University and on the street by students at their own expense. Articles of opinion do not necessarily reflect the views of the KA staff. Contents are not necessarily responsible for the opinions of the KA staff. Contents should be submitted to the Editor, Daily Egyptian, 301 Jordan Hall, Carbondale, Ill. 62901. All material is subject to copyright. No reproduction without permission. Orders should be sent to the Daily Egyptian, 301 Jordan Hall, Carbondale, Ill. 62901.
**The Lady Doth Protest Too Much**

One of the finest contem­porary social and political commentators, Al Capp, has of late ascended the readers of "L'il Abner" with the exploits of one Joanie Phoanie, a pro­testor who is the poster child for the country, bringing warmth and joy to little children's hearts. The children love her even if she is certain that Joanie Phoanie share her abundant supply of gourmet food with them, but Joanie realizes that nourishment of the soul is more important, and such unselfish devotion to the spiritual needs of others brings her immense satisfac­tion.

Two weeks ago, a small gathering of the students of the University of the Egyptian, headed by "Campus Speeding To Bring Change" and Joanie Phoanie, assistant dean of student affairs, and several others, was protesting the 20 mph speed limit in the campus which seemed to some to be a thinly veiled motor vehicle privileges on campus.

Subsequently, KA reported in the local paper that the operators were mangling it somehow by implying that the protest was unreason­able, or disciplin­ary action, or the possible loss of the car or its driver. Fortunately, and as Dean Zaleksi himself informed KA's editors, this is not the case.

It seems that Miss Baez might have been talking from her head and come down when the rest of us mortals who take our chances of criti­cism and censure as an es­sential element of life in a free­society. Fair weather liberals we have enough of, where we what are more who are willing to let their gargantuan views even when they pinch the feet a little. It is a pity that Miss Baez doesn't qualify.

Stanley Dry

**What the Hell is Going On in Student Government**

Let us examine the issue closely. This statement was issued by some of the Student Affairs. Perhaps it should not be expected to deal with it in its entirety, or even mention what penalties faculty and staff face when they exceed the campus speed limit. Yet one central office, the student government, has all motor vehicle decals. It seems that there would be a University policy on the problem of the campus speed limit, reason governs not at SIU.

To my suspicious mind, ow ever, there is a piece of evidence supporting the charge against the Student Affairs. SIU is of least importance to the Administration, his safety, his health, and the maintenance of his education, are not allowed to suffer. He is also considering as efficiency, economy, and esthetics. If traffic became a problem on campus in the middle '50s, the faculty is not aware of what the students were, Why? Cer­tainly, the Administration could have maintained that working at a state university is a privilege, not a right. Well, they could have. They didn't.

But efficiency is a means— not an end. Efficiency must lead to an end—a goal. Wonder what those goals are now. I wonder what the university is going to do with these goals. And I wonder if I can change them. Creative alternatives is the method that could be used to bring about change. Alternatives aren't deviations. They are solutions.

This is what the university should promote. This is what the government should do for the entire educational system. Education is not just mental, but the environment—education is freeing the mind.

Freedom produces dis­content—it produces conflict. When conflict is free to oper­ate, solutions—solutions for a dynamic society— are produced. And that society progresses.

**The End**
New Building Completion
Date not Set

The Physical Science Building, directly south of the University Center, will be constructed in two phases. The first phase, now under construction, consists of various classrooms and laboratories pertaining to chemistry and physics.

The completion date is not yet definite for the first phase, according to Willard C. Hart, associate University architect.

Bids for the second phase of the building should be called for sometime in November, said Hart.

The second phase of the building will entail a faculty wing and lecture auditoriums. It will be located directly south of the present building, Hart said the hope is to finish the entire building by the summer of 1969.

Chemistry Seminar
A physical chemistry seminar will be held at 4:30 p.m. Thursday in Parker 204.

David Koster, professor of chemistry at Mellon Institute, Pittsburgh, Pa., will discuss his research interests.

Variety Show
Deadline Moved

The deadline for applications for tryouts for the 39th annual Theta Xi Variety Show has been extended until Friday, Jan. 26.

The deadline for master of ceremonies has also been extended until Friday. Both forms may be obtained at the information desk in the University Center.

Act categories consist of individual, one or two participants; intermediate, three to eight; and the goup acts, nine or more.

Persons interested in trying out for master of ceremonies should prepare a five-minute act to show they are prepared when they appear, according to Cheryl Hulse and Vern Kramer.

The show will be presented March 3 and 4 in Sylvester Auditorium. Further information may be obtained by calling 3-2525.

Services Pending
For Mrs. Miller

Mrs. Willie Mae Miller, 64, of Carbondale, died Sunday morning at Styrus Nursing Home in Carbondale.

She is survived by two sons, Edward Tanker of Chicago and Elijah Patterson of Kansas City, Kan., a sister, Mrs. Julia W. Hogan of Carbondale; three grandchildren and four great-grandchildren.

The body is at Jackson Funeral Home, Carbondale. Funeral arrangements are pending.

For Mrs. Bridewell

Mrs. Katherine Bridewell, 79, of Carbondale, died at 9:15 a.m. Tuesday at St. Joseph's Hospital in Murphysboro.

A resident of Carbondale for 50 years, Mrs. Bridewell lived with a daughter in Murphysboro for the last four years.

Mrs. Bridewell was the daughter of Mike Hulst and Nell Miskel. She is survived by her daughter, Mable Hulst, of Murphysboro; three sons, William, George, and Leroy, and a sister, Mrs. Mary Gurgerson of Carbondale.

At the marriage ceremony, performed by the Rev. Edward L. Hoffman, pastor of the First Methodist Church, the bride had as her bridesmaids Miss Elena Decima of Rosario Argentina. The groom was attended by his brother, Peter Morris of Stillwater, Okla.

On Thursday preceding the wedding, Mr. and Mrs. Morris were honored for a reception from 5 to 7 p.m. to introduce the bride to friends of the groom and his family.

Sorority Reports

Social Happenings

Newly initiated members of Sigma Kappa social sorority are Rose Astorino, Sue Cramer, Jenna Harrison, Beth Nixon, Barbara Norris, Sue Pearcy, Barbara Smith, Susan Stredl, Gail Glore and Michelle Wentz.

The sorority has also announced a roll-on marriage and engagements.

Christine Rozez is married to Ron Thomas, Theta Xi. Engaged are Connie Zeller to Gary Leach, Tau Kappa Epilson Sue Secrist to Dick Grace, Renee Schmitz to Dave Bedner, Phi Sigma Kappa; Janice Jacobs to Royce Fichte, Delta Chi, Nancy McPherson to Jim Gulley, and Rose Astorino to Roland Gill, Phi Sigma Kappa.

9 Seek Council Posts

J. Groves Files for Mayor:
Four on Feb. 28 Ballot

Joe S., (Jesse) Groves of 1021 N. Park-Herrin became the final candidate to file for city office Tuesday.

Groves, 53, is a candidate for mayor. He filed his nominating petitions about 3 p.m. Tuesday.

Groves said he hopes to see open student housing rates and bring about proper drainage in the city. He said the City Council and the mayor of the Conservation Society

To Hear Agronomist

Ralph Hays, professor in the University of Illinois agronomy department, will speak at the winter meeting of the Egyptian Soil Conservation Society at 7 p.m. Friday in the Seminar Room of the Agriculture Building.

Hays, secretary of the Illinois Land Improvement Contractors Association, will discuss "The Role of Land Improvement Contractors in Conservation." He has been working closely with manufacturers of farm equipment.

Robert Basinger, president of the society, said the meeting will be open to all interested persons. The society membership includes persons interested in water and soil conservation.

Drinan to Urge
Second Look at
Housing Report

Bob Drinan, student body president, will urge senators to evaluate the recent report on Housing at SIU when the Campus Senate convenes at 7:45 p.m. today in the Ballrooms of the University Center.

He said he will urge a long look at the Board of Trustees' ruling on off-campus living requirements.

Ann Barto, assistant to the president, will present an agenda discussion on rewriting the SU Student Guidebook.

Porgy, Bess’ Opens
For 2 Shows Feb. 1
The American folk opera
"Porgy and Bess," George
Gershwin, will be presented in
two performances Feb. 1 in
Shryock Auditorium.
They are scheduled for 4
and 8:30 p.m., and the produc-
tion will star the same per-
formers who this month are
playing in the folk-musical
at the Chicago Opera House
and will appear in St. Louis
just prior to coming to SIU.
In a review appearing Jan.
8 in the Chicago Sun-Times,
critic Robert C. Marsh said
"the cast is a strong one,
and all the well-known Geral-
win songs strike home to re-
mind you how long you’ve
known them and loved them."
Marsh continued: "I sus-
pect the best voice is that of Val
Prlingle, who looked nine feet
tall and dangerous as Crown.
Lavern Hutcherson was con-
sistently sympathetic and con-
vincing in the difficult role of
Porgy, and Joyce Bryant’s Bess
was the kind of per-
formance that makes you want
to see what she can do with
other roles. Avon Long’s
abilities as Sportin’ Life are
long since a matter of record,
and Lillian Haymon was a ‘-cal
charmer as Maria."
The score is filled to brim-
ning with songs that have
become classics of the Ameri-
can musical theater. Among
them are “Summertime,” “I
Got Plenty O’ Nuttin’,”
“Bess, You Is My Woman
Now” and “It Ain’t Necess-
arily So.”
The story tells of the goat
boy, Porgy, whose love for
Bess touches off the resulting
tragedies.

Reagan Defends Kerr Action

SACRAMENTO, Calif. (AP) — California Gov. Ronald Reagan Tuesday called the firing of state university President Clark Kerr necessary but ill-timed, and said Kerr would lanç the abrupt action that surpris-
ed the state.

The new Republican governor also took strong exception to criticism that politics played a part in the 14-hour vote against Kerr at the University of California regents meeting that fired Kerr immediately.

“I voted as one of 14,” Reagan told a crowd of 1,000 at a news conference. He added a parenthetical note: “as governor, there will be no ‘arm-twisting’ of the regents on his part.”

Administration of the 87,000 student, nine-campus system won’t be bulled by par-
tisan politics because this

Powell Compares His Fall.

To Demise of Julius Caesar

NEW YORK (AP) — Adam Clayton Powell doesn’t hesi-
tate to compare his fall from grace — temporary though it may be — to the fall of Julius Caesar. The outspoken congressman to Powell, is that he lived to tell the story.

“Caesar was stabbed to death by a band of his col-
egues in the Senate,” Powell said at a news conference Wednesday. “I knew that.”

Powell was referring to the 46th state congressmen on his record album: “Keep the Faith Baby.”

“My dear colleagues, many times we have stood together, many times we have fought against you and I came forward to prevent that sword, that dag-
gar, from being plunged into you.”

“... was always there to rescue the Republican side of the aisle, Republican or Democrat, to maintain which region of the nation, North or South.”

But the one time I need ed your help, that one time we were not there. I wonder how many of you are here today in the hall of the modern Caesars? But I forgive you because I know not the cowardice of your deeds. I forgive you because I’m keeping the faith.

“Julius Caesar survived the attack, even though his body was buried, because history vindicated him.”

Powell may not have to wait for history. He may not have to wait for the congressional seat he was denied for the dura-
tion of a probe into his activi-

Tornadoes Strike Missouri—Kansas City, St. Louis Areas

ORRICK, Mo. (AP) — A tor-

nado destroyed the Orrick High School building Tuesday, killing one student and injur-
ing 14 other children and a teacher.

Also injured were two other persons in this town of 800 about 35 miles east of Kansas City were injured when the twister dam-
aged other structures.

Tornadoes also struck in other parts of Missouri.

Two tornadoes touched ground in the St. Louis metropolitan area Wednesday. St. Louis county police said, and the U.S. Weather Bureau confirmed one twister was sighted in the northwestern suburbs.

Several houses in suburban Maryland Heights were re-

ported by police to have been leveled. They said they feared

[...]

Water, Gas Shortage, Disease Threatening Rio de Janeiro

RIO DE JANEIRO, Brazil (AP) — Floods and mudslides that killed 150 persons threaten-
ed Rio de Janeiro and 16 sur-

rounding communities Tuesday with the prospect of electric power losses, water and gas shortages and typhoid epidemic.

Rio de Janeiro’s famous Copacabana, Ipanema and Leblon beaches were ordered closed by health officials be-
cause of pollution from backed up sewage.

Rio de Janeiro is a city circu-

lated in between moun-
tains and the sea. Many of its three million residents live in hilltop slums called favelas.

The floods and mudslides were set off by torrential rains Sunday.

With 150 bodies already re-
covered from the mud and debris, searchers continue to probe for bodies and possible survivors. Many foreign victims were reported.

For Weston Reduced

WASHINGTON (AP) — The Atomic Energy Commission disclosed Tuesday a $135-

million reduction in the initial construction funds for the giant atom smasher at West-

ton, Ill.

AEC officials said the 200-

bill million electron proton accelerator is to be put into operation for $240 million, with expansion planned later. The originally estimated cost was $575 million.

President Johnson’s budget request included $10 million to design the facility.

GOV. RONALD REAGAN

for contacts
TOYKO (AP) — Radio Peking said Tuesday military leaders the nation over had vowed to help Mao Tse-tung wrest party, government and financial power from his foes. Anti-Mao emigres in fact Maoists seized control of Shanxi province, next door to Peking.

The first broadcast seemed to be a declaration in a Mao's enemies are solidly entrenched in the party and government apparatus. Other reports told of Mao's forces claiming they were in a minority.

The roster of military "commanders and fighters" who pledged to help Mao fight "those in authority who are taking the capitalist road" was impressive, if Radio Peking could be believed. There have been somewhat similar pledges of support before, but so far this party has taken little action in the Chinese tumult.

The radio said the pledges came from Manchuria in the northeast, Inner Mongolia in the north, Sinkiang Province in the far northwest, Yunnan Province in the southwest, Kwangtung in the south, Chekiang in the southeast and from many parts of central China, among others.

In nearly all these areas, fighting between supporters of Mao and his chief foe, President Liu Shao-chi, has been reported in wall posters or by the official New China News Agency. In some areas, such as Sinkiang and Manchuria, the army has been reported standing aside, or helping Mao's enemies.

Radio Peking said "hundreds of millions of revolutionary workers, peasants, students and cadres" were ready "to unleash a massive onslaught" on the anti-Mao faction.

It was just such a mixture of organizations that took over the party apparatus and government of Shanxi Province and its capital, Taiyuan, Radio Peking said. Taiyuan is 250 miles southwest of Peking. Counterrevolutionaries were blamed for trying "to make Shanxi a strategic base for revival of capitalism in China" and for encouraging strikes that halted production. The takeover in Shanxi was reported to have taken place Jan. 12.

But the New China News Agency reported resistance to Mao in wide areas, including Kiangsi Province in southeast China where earlier reports told of an anti-Mao army forming from workers and peasants.

McNamara Says Antimissile Issue Rests With Russia

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara said Tuesday this country does not intend to produce or deploy an antimissile defense system if the Soviet Union agrees to avoid a race in this field.

At the same time, he de­clared that the Soviet is ahead in the antiballistic missile field.

He also disputed criticism that there had been deception or coverup on the mounting multi-billion-dollar costs of the Vietnam war.

McNamara supplied these comments to newsmen as he stepped outside closed sessions of the Senate Armed Services Committee and the Senate Defense Appropriations Committee.

Bomber Reduction Expected During Heavy Storm Season

SAIGON, South Vietnam (AP) — Heavy storms from the northeast monsoon, already in evidence, are expected to reduce air raids on North Vietnam for the next six weeks, a U.S. spokesman said Tuesday. This could mean re­ spite of a sort for the move­ment of Red troops and sup­plies.

The truce for the lunar new year begins, which coincides with the beginning of Lent, into put the American bombers and fighters into action for four days, Feb. 5-8, weather rains swept much of Vietnam Tuesday.

Ground fighting in South Vietnam lapped into a series of small clashes between allied troops and Communist guerrillas.

The guided missile cruiser Canberra and other vessels of the U.S. 7th Fleet moved into coastal waters to provide support for on call on shore observers. Up and down the coast, the destroyers Man­ney, De Haven, Hollister and

Defense Budget Includes Missile, Vietnam Hikes

WASHINGTON (AP) — President Johnson announced Congress Tuesday the largest defense budget since World War II. It includes $375 mil­lion for the possible produc­tion of the vital Nike-Zermaline defense system and a more than 10 per cent boost in Vietnam expenditures.

Johnson, outlining details of his $47 billion 1968 de­­fense budget, stipulates that the Nike-X production funds are to be spent only in case of failure of the current nego­tiations with the Soviet Union aimed at ending the antimissile race.

The President's budget pro­­vides also for $21.5 billion to support the Vietnam war, only $225 million more than the 1967 budget. Defense officials said the relatively small in­crease in line with Secretary of Defense Robert S. McNamara's repeated as­­sertion that the rate of build­up will show this year. Viet­­nam expenditures zoomed from $5.8 billion in 1966 to an estimated $10 billion for the current spending year, which ends June 30.

The budget calls also for five new nuclear-powered vessels for the Navy, including an aircraft carrier and a frigate; a hefty increase in helicopters for the Army and Marine Corps, and more than $1.74 billion for "procure­ment of the TFX airplane."

Turning to Vietnam costs, Johnson says the $21.9 billion request — barring unforeseen developments — "should be adequate to support operations for the entire year and to assure the capability to critical long-lead items until fiscal year 1969 are approved."

He added that he will send Congress a $12.3 billion sup­plemental budget for the current fiscal year. The supplemental will add $9.1 billion to the war costs by June 30, with the other out­lays to be spent in fiscal 1968 and later.

The supplemental request followed the budget message within an hour.

In a letter to Speaker of the House John W. McCormack, D-Mass., Johnson told Congress "you will want to continue your firm support of U.S. fighting men."

"These funds are needed," he wrote, "to sustain our combat operations and to sup­ply our field forces with the aircraft, weapons, ammunition and equipment they must have to fight aggression in Vietnam."

The President gave this breakdown of the new spending authority he seeks:

$2.0 billion to equip military units and to replace aircraft, ordnance, ammunition and other local loss of consumed in battle.

$1.4 billion for pay and allowances of military personnel and stepped up training personnel.

$624.5 million to build or improve airfields, roads, troop barracks and other facilities.

$1.65 million for research and development efforts re­lated to the war.
Campus Drive Parking Gets New Trimming

The SIU Traffic and Safety Committee has eliminated parking on Campus drive immediately in front of the Technology building along the south curb.

On Monday a number of tickets were issued to cars parked West of the Technology building up to the edge of Thompson Point housing area.

Members of the Traffic and Safety Committee stated that the new restrictions did not include all of this area, but only about 50 yards front of the Technology group.

The restricted area was created as a potential safety hazard at that point. As the Technology building has been extended and more students have been crossing Campus drive at that point, Cared parked there limited visibility for incoming motorists, said a committee spokesman, Joseph Zaleski, one of the members, a saloon owner who received tickets in the unmarked area. He called it to the attention of the parking section when they appear with the violation.

University Art

Gallery Notes 700th Work

More than 700 works of art are included in the permanent collection of University Galleries at SIU's Carbondale campus and several more are at the Carbondale campus as a result of steadily increasing donations, according to Irving Johnson, galleries curator.

Art patron as far away as New York, as well as members of the faculty of the Department of Art, presented several hundred works in his own creation. Nicholas Vergetto, head of the ceramics department, and professors Milton Sullivan, Bruce Irwin and Harvey Harris have given examples of their work to the galleries collection.

The Henry Allen Moe family of New York has also donated to the collection. Among their donations were over a hundred original graphics and drawings, a sculpture by Maldarelli and silk painting.

Cuban Talk Set

David D. Burke, director of the Latin-American Studies Program at Indiana University, will speak on "Cuba Since the Missile Crisis" at 8 p.m., Thursday in Davis Auditorium in the What Education Building.

Lectures, Entertainment

Paul Hidds, coordinator of special programs, reminded department heads of a Feb. 1 deadline for submitting events to be sponsored by the University Lectures and Entertainment Committee. Suggestions for programs should be sent to 202 Shryock Auditorium.

Autonoimous Situation Studied

The SIU Motor Vehicle Traffic and Safety Committee has issued a parking and traffic questionnaire to all University faculty and staff members to seek their opinions on the autonomous situation.

The questionnaire is part of a larger study the committee is conducting to determine possible solutions for the growing motor vehicle problem.

Within the next week the committee hopes to have a similar questionnaire prepared to send to the students.

Selective Service Deferment Tests

Applications for the Selective Service College Qualification Test will be held on March 11, March 31 and April 8, are available at the Coordinator's Office.

Registrants who intend to seek a student deferment from Selective Service and have not taken the test are reminded by John H. Hammeck, state director, that Feb. 10 is the deadline for filing an application to take the test in March and April.

To be eligible to take the test, an applicant must be a Selective Service registrant who intends to request deferment as a student and must not have previously taken the test.

According to Hammack, the test score itself will not determine eligibility for deferment but will provide the local board with evidence of a student's aptitude for continued college work.

Mrs. Plochmann's Works on Exhibit

The first showing of Carolyn Gasson Plochmann's art exhibit, "Paintings on Paper," created in the medium of polymer resin, will be on display until Feb. 10 at the Student Christian Foundation.

The exhibit will be open from 8 a.m. to 5 p.m. from Monday through Friday at the Foundation, at 913 S. Illinois Ave.

Mrs. Plochmann, a graduate cum laude from the University of Toledo, has presented more than a dozen one-artist shows in Ohio, Wisconsin, Illinois, Missouri and Michigan.

She received the master of fine arts degree at State University of Iowa where she was a George W. Stevens Fellow.

Stage II Life-Science Building Scheduled

Construction of the $9.8 million Stage II of the Life-Science Building probably won't start until the first week in August, according to Alme Bianchi, administrative assistant in the office of the vice president for business affairs.

Bianchi said bids for construction will be ready the first week of July. By the first week of August, the contracts should be awarded and site clearance should begin, he said.

The building, to be situated directly west of the existing Life-Science Building, will cover a large portion of the old Chautauqua barracks housing area. These barracks, which are now used for departmental annexes, will be used only through spring quarter. Bianchi explained, The exceptions are barracks H26-H27. These will be used until the end of summer quarter, he added.

The building, which will enclose more than five acres across a parking lot, is designed primarily for graduate instruction and research in botany, microbiology, physiology, psychology, and zoology. It will include faculty research and office space for those departments, as well as the Cooperative Fisheries and Cooperative Wildlife Research Laboratories.

Irish Studies Committee Organized

An Irish Studies Committee is being formed at Southern. According to Edmund Epstein, associate professor of English and chairman of the

City Hospitals

List Patients

The following admissions and discharges of patients were reported Tuesday:

Health Service

Admitted: Rita Wolf, Neely Hall, Carbondale.

Discharged: Robert Sanders, 401 F. College;

Admitted: Jewell Tillor, Carbondale; Lucille Hayle, Carbondale; John Jean Wimp, Cartherville; Carla Burkh, Carbondale; Cleland Riggs, Carbondale; Erast Webster, Carbondale.

Discharged: Nikki Cape, Iffert; Wilma Brewer, Murphysboro; Stella Ios, Carbondale; Jacqueline Brashaw and son, Cornerville; Louise Brewer, Carbondale; Will Dilling, Carbondale; Mary E. Varnum, DuQuoin;

Doctor's Hospital

Admitted: Norval Dunn, Johnson City; Mrs. Mary Grisham, Anna; Sarah Hinkel, Carbondale; Lewis Young, West Frankfort; Mrs. Marion Elders, Carterville; Mrs. George Kopp, Elkville; Samuel Davis, Murphysboro.

Discharged: Frank Cover, Cambria; Harley Pinkham, Benton; Mrs. Wayne Phelps, Carbondale; Mrs. Ronald Collier, Carbondale; Mrs. Robert Taylor, Carbondale.

Geology Club to Show

3 Movies at Meeting

Plans for the spring field trip of the Geology Club will be discussed during the club's meeting at 7:30 tonight in Room 166 of the Agriculture Building.

Three movies to be shown are “The 1955 Eruption of Kilauea Volcano, Hawaiian Islands,” “The Alaskan Earthquake of 1964,” and “The Barrier Between.”

Graduate students and faculty members are invited to be present. This photograph is of last year’s Glee Club. John Cameron Swayze, news commentator, will be presented in the 1-3 Convocations.
The seven or eight small fires, he explained.

positions available include counselors, unit heads, arts and crafts director, woodworking instructor, waterfront director, swimming instructor, boating instructor, and drama, dance, and music specialists.

The program director will also talk to persons interested in employment in the centers on a full time basis. In addition, he will talk to students

Prospective Nurses

Speak the Major

According to Margaret T. Shay, chairman of the Department of Nursing at SIU's East St. Louis branch, nursing students who plan to register for the "Experience With Children" course for spring quarter must make their declaration of major and be accepted by the Department of Nursing before the end of winter quarter.

Mrs. Shay said forms for a compulsory physical examination are now available at the Department of Nursing, T-40. The results of the examination must be returned to the Department of Nursing office, 530 North St., East St. Louis, before the beginning of spring quarter.

Medieval Art

Paper's Topic

Thomas W. Lyman, associate professor of art history at SIU, will present a paper on medieval stone carvings at the 55th annual meeting of the College Art Association of America in Cleveland Thursday through Saturday.

Others attending from SIU will be Herbert L. Fink, chairman of the department who is currently on leave; Gerhardt H. Magnus, professor; Harvey Sherman Harris, associate professor; and Nicholas Verge, associate professor.

The meeting will be highlighted by special exhibitions of medieval sculpture and recent acquisitions of the Cleveland Museum of Art.

Lyman's paper is entitled "Bernardus Gelliusin and Romanceque Stone Carvers in Toulouse."

When a tree dies, it is cut down and allowed to decay. The fallen trees soon become homes for many insects and small animals. In 1960 about 400 beech and maple saplings, as well as larger trees, were planted. These can be identified by their brownish low hanging branches.

Each year the University spends thousands of dollars to maintain the woods.

ethel, will you please go out there and tell those fools to turn off that darned light?

Bird, Animal, Insect Sanctuary

Campus Woods Useful Animal Refuge, Natural Cooler for Nearby Areas

By Robert Eisen

Thompson Woods is a miniature wildlife sanctuary in the midst of the SIU campus and its 18,500 students.

William M. Marberry, assistant professor of botany, said the woods is home for more than 50 types of birds and animals including squirrels, raccoons, oppossums, field mice, shrews, and chipmunks.

Along with the animals, he said, reside reptiles and numerous insects. The three kinds of non-poisonous snakes found in the woods are the spreading adder, black snake, and the more common green grass snake.

Late last August, Marberry sighted a large buck and doe in the Lake-on-the-Campus area. These were the first deer he has seen there in his 31 years as director of the SIU Greenhouse.

In 1953 sidewalks and a lighting system were placed in the woods for the safety of the coeds and the convenience of the faculty and student body. Marberry, who was opposed to these measures, said he believed that this intrusion on the wildlife would "destroy the natural habitat and could result in dangerous fires."

He said his fears did not materialize to a large extent. The seven or eight small fires which have broken out were quickly detected and extinguished, he explained.

Marberry described the woods as being "not too terribly agreeable for wildlife." He considers the 8 1/2 acres as being in a "seminal condition--native trees but not in the right proportion." The most numerous trees among more than 40 kinds are the red and black oak. These are of the deciduous or leaf-shedding species.

The trees are quite functional Marberry explained. They cool the area in the summer, help control erosion and are vital as a refuge for the animals.

NO TICKET—The first ticket to the Aerospace Ball went to President Delyte W. Morris, here receiving the ticket from Thomas Anton, commander of the Arnold Air Society, honorary military organization for cadets, and Velda Smith, commander of Angel Flight, women's organization associated with the Arnold Society. The Aerospace Ball, to be held in University Center on Feb. 4, is sponsored by the Arnold Air Society and Angel Flight.

Morris Proclaims Feb. 3-5 Aerospace Weekend

President Delyte W. Morris has proclaimed the weekend of Feb. 3-5 the Aerospace Weekend.

In his proclamation Morris stated that the university community realized the importance of aerospace studies.

Three Represent SIU in Atlanta

Three SIU faculty members will attend a meeting of the American Crystallographic Association Wednesday through Saturday at Georgia Institute of Technology in Atlanta, Ga.

Representing SIU are J.L. Amoros, professor in charge of materials science; Mrs. Marjorie L. Canut-Amoros, associate professor of materials science and David Bork, graduate assistant.

Papers by Amoros and Bork will be presented at the meeting. They are "Temperature Dependence of Atom-Atom Potential and Thermal Expansion of Molecular Crystals," and "The Direct Difference Fourier Transform (DFT) Method for Crystal Structure Determination."

U.N. Chapter To Hold Talk

The annual meeting of the Southern Illinois Chapter of the United Nations Association will be held at 6 p.m., Friday at the Logan House in Murphysboro.

One of the highlights of the dinner meeting will be a panel discussion on "The Problems of the United Nations and the Citizen." Included on the panel will be Lewis Hahn, professor of philosophy and a member of the U.S. National Commission for unesco, and Oliver Caldwell, dean of the International Services Division and former chairman of the U.S. delegation to the annual world conference on public education.

Precipitation 4.63 Inches

December Wettest Since '57

According to SIU's Climatology Laboratory's monthly report December in Carbondale was the wettest one since 1957.

The campus was wet during the Christmas month with 4.63 inches of precipitation compared to the long-term average of 3.10 inches. Snowfall measured 3.5 inches a little above the mean of 2.6 inches for the month of December.

No one day in December had a normal temperature mean. However, the temperatures came close to the monthly mean with 37.2 degrees, as compared to the long-term mean of 37.5 degrees.

The month's high and low temperatures were 70 and 11 respectively. Last month's high was not far from the record high of 74 which was reached on several dates. The low was 12 degrees, compared to the record low of -10 set in 1917.

Ex-Student Completes Training for VISTA

Stephen E. Dempsey, a former student at SIU, recently graduated from a VISTA training program.

During the six-week training program, Dempsey completed classroom studies and gained field experience. He will work for one year with the Greater Erie Anti-Poverty Action Committee in Erie, Pa.

Dempsey was enrolled at SIU during the 1965-66 school year. He majored in psychology.

Bell System Companies
will interview on campus

February 1, 2

Would you like to work with a company that starts you in a responsible position? Insists that you move up in your job? Promotes from within? Gives you a present, as well as a future? Then the Bell Telephone System may offer just the opportunity you’re looking for.

You’ll learn the exciting field of communications . . . with advancement dependent on your ability. You’ll develop your ability to direct and work with people . . . and you’ll be working with one of the fastest-growing, most vital industries in the world.

In your work, you’ll be associated with the companies that have developed the Telstar satellite and the transistor.

If you have an academic background — with either a technical or a non-technical degree — Bell System interviewers are very much interested in talking to you. Simply make an appointment at your placement office.

Distance Runners Have Yearly Workout Program

By Frederick Blatchford

Members of many college athletics teams have successfully completed the summer’s workout program, which is designed to build endurance and strength for the season. The program involves daily running sessions, which are scheduled individually and take into account the peculiarities of each athlete’s physical condition. The goal is to prepare the runners for the demands of the upcoming season.

The nucleus of the track and cross-country team’s distance men is Oscar Moore, a sophomore from White Plains, N.Y.; Al Ackman, a senior from Robinson, Ill.; Jeff Duxbury, a junior from Hurstville, New South Wales, Australia; and Dave Chisholm, a junior from Sidney, Australia.

The day after the track season in the spring marks the start of the buildup for the long-distance competitions. This involves covering more mileage to prepare for the customary six-mile race.

The group spent the summer running from 10 to 20 miles a day. Moore and Ackman put in their distance on the rural roads and fields surrounding Carbondale while attending summer school at SIU.

Duxbury trained in the parks of St. Louis where he had a summer job, and Chisholm participated in a high altitude training camp in Colorado.

A week before fall quarter started, they stopped this endurance-building phase and started a concentrated program. It was designed to polish the rough conditioning of the summer and bring them to a peak for cross-country. A look at the training schedule is an indication of the remarkable dedication they have.

Monday, a.m.—7 1/2 running miles; p.m.—running 8 quarter miles.
Tuesday, a.m.—running 5 miles; p.m.—running 20 quarter miles.
Wednesday, a.m.—running 6 miles; p.m.—running 10 half miles.
Thursday, a.m.—running 7 1/2 miles; p.m.—running 4 one mile.
Friday, a.m.—running 6 miles; Saturday—6 mile run.

This regimen paid off for the team as shown by a seventh place tie with Oregon State in the NCAA championships.

The end of the cross-country season did not signal a letup for the Salukis. They had to start preparing for the indoor track season with the same early morning workouts and changing afternoon training to high speed repetitions for the faster paced track events.

Unfortunately, Southern does not have an indoor track, so all training must be done outside regardless of rain, cold, or snow. SIU thalciids try never to miss a training session. This is a tradition under Coach Lew Hartzog.

The tempo of the training and competition continually increases as the season progresses and slackens only after the national track championships in mid-June.
Carbondale Ranks Fifth in AP Poll

SPRINGFIELD (AP) — Benton	toned its grip on first place and moved into the runner-up spot Tues-
day in The Associated Press weekly poll of 33 prep basketball teams.

Rockford West sealed a notch, from second to third, and was followed in order by Waukegan, Carbondale, Law-
renceville and Pekin.

For the fourth consecutive week, Benton's Rangers remained at the top of the Poll, moving into the No.
1 position, collecting 253 of a possible 256 poll points and receiving 13 first place nominations.

Rockford West got two first place votes, while third first place ballot went to Wauke-
gan, another unbeaten quintet.

Peoria Central and Quincy lost ground although each squad made an effort to return to contention.

Dropped from the ratings were Lockport Central and Moline. They were replaced by twice-beaten Elmhurst York and undefeated Moline.

The top 16 teams with won-
lost records and poll points:

1. Benton 1-0 351
2. Carbondale 1-0 347
3. Rockford West 1-0 228
4. Waukegan 1-0 196
5. Carbondale 1-0 192
6. Lawrenceville 1-0 170
7. Mid-Illini 0-1 149
8. Danville 0-1 134

9. Springfield 1-0 128
10. Homewood-
Flossmoor 0-1 98
11. Peoria Central 0-1 90
12. Chicago 0-1 80
13. Quincy 0-1 79
14. Dixon 1-0 78
15. Elmhurst York 1-0 75
16. Madison 0-1 73

Other teams receiving votes: Lockport Central, Chi-
hago Catholic, Moline, Elmhurst York, St. Francis, Rockford
South, North Chicago, North Aurora West and Roanoke-
Benson.

Salukis Own 3-1 Record Against MVC Opponents

By Tom Wood

It is interesting to note that Southern's 4-2 record has been quite impressive against big time opposition and this alone produces a wealth of discussions about the strength of the ball-
Salukis.

However something more on the concrete side which could be employed against dis-
believers is the strength of the Missouri Valley Confer-
ence, which has been said by the polls to be the strongest overall record against the 13 other conference teams listed.

The Salukis own a 3-1 slate against Valley opponents, which would place them atop the conference race if their game against Chicago Catholic and Indiana were to count.

The two Salukis would also have all their games with the Cards out of MVC, which would have to play all the second division teams twice.

Southern, of course, would list its series with Louisville.

A conference championship would place the Salukis in the NCAA University Division coaching bracket and the likes of UCLA, Princeton, Northwestern and Iowa State.

Wichita State, provided these teams either win their conference and go to the NCAA tournament, could very long inargue, as in the case of Texas Western winning the defend-

ing NCAA titlists who bowed to the Salukis in December.

Forward Concord Smith is averaging 9.5 points and 6.1 rebounds, centers Ralph John-
son and Chuck Benson are scoring 8.5 and 9.5, respectively.

The Salukis are currently scoring 64.0 points and allowing 61.4 points.

Southern has held 13 opponents to 51 points a game, while scoring 67.3 points a game.

The Salukis would be 1-1 in MVC.
SIU Grapplers Win Triangular, Defeat Moorhead State

SIU's wrestling Saluki defeated Moorhead State-College in the Arena Monday night, 17-12, and in so doing moved their dual meet record to 2-0.

Over the past weekend the Salukis won the Central Missouri Triangular by defeating Central Missouri, 35-6, and then shutting out Fort Hayes, 35-0.

In the triangular Coach Jim Wilkinson was well pleased with the work of both Dan Ross and Eli Carr who each had a shot at the 130-pound class, vacated by Larry Baron.

Ross competed in the 130-pound weight class against Central Missouri and defeated Peru Couplidruck, 6-4. Wilkinson entered Carr against Fort Hayes and the sophomore pinned Walt Johnson in the second period.

Despite dominated the Saluki, the Saluki 167-pounder, and Dave Pflor, 145-pounder, both with demonstrations who beat them last season. Dominated Rew Coages of Central Missouri, 8-7, and Pflor defeated Bill Graham, also of Central Missouri, 8-7.

Dean Ohl won his two matches in the 137-pound class. He defeated Bothy Gines, of Central Missouri, by a pin and another Bob Day of Fort Hayes, 6-4.

Al Lippert was a double winner defeating Matty Cook of Central Missouri, 13-2, and Bill Ramsey of Fort Hayes, 6-0. Both Al Boll and Rich Selever won twice in the triangular, although one of their victories was tainted. Both recorded pins against Central Missouri. Boll pinned Phil McCune at 1:29 and Seveloper pinned Gary Givens at 5:11. Al Boll accumulated 14 points in the 177-pound class and Seveloper is the Saluki heavyweight.

Against the Fort Hayes team they the each recorded victories because of forfeits.

Tony Turek also won in the triangular by beating Jesse Barnes of Fort Hayes in the 160-pound division, Sinclair Brown, 160-pounder, loist his only match to Tom Choi of Central Missouri and Steve Suroyay, 115-pounder, also absorbed the other Saluki loss, 6-2, to Jim Earl of Central Missouri.

The victory over Moorhead was attributed to Saluki strength in the heavyweight. Southern trailed all the way until the 177-pound match won by Tom Choi for the Salukis.

Ohl made the score 6-3 as he defeated Mike Fitzgerald in the 185-pound division. Rich Stueverman defeated Mike Portrait in the 185-pound division.

Al Lippert then pinned Bob Hall in the 175-pound class to tighten up the meet to 9-5. Dick Redfoot then defeated Saluki Turek in the 160-pound class and that made the score 12-5 in favor of Moorhead. It was also the last win for the Moorhead.

Dombrow brought the Salukis within a point of Moorhead for the second time in the meet by defeating Gary Gunderson in the 167-pound class. The score with two matches remaining was 11-11 in favor of the Dragons.

Al Boll won both matches defeating Gary Flattard, 10-6, and Brett Mandrel in the 177-pound class, and the Salukis took the meet, 11-12. Seveloper's 11-1 victory over Larry Lundberg in the heavyweight match was the match of the meet and he was able to bring the final score to 17-12.

A Saluki wrestler won the 1966 home season as an afternoon-only team and will continue as such this fall.

But in the future SIU may return to night football at a new stadium. Rowdston said, "A Cleveland, Ohio contract firm will meet with the SIU Athletic Commission on Feb. 9 to discuss possible plans for a new stadium."

That meeting will help determine if SIU will build a new football stadium, and if the new stadium will be lighted.

Former Track Star George Woods Wins Shot Put Event at NAIA

Former Saluki track star, George Woods, competed at the National Association of Intercollegiate Athletics (NAIA) Indoor track championships in Kansas City, Mo. and Saturday and came out with first place honors in the shot put.

Woods, competing in the open division of the meet, put the shot 61 feet 3 inches breaking the old mark of 61 feet 2 inches which he also held in winning the event.

Woods was a standout performer for the Saluki track team for three years under Coach Lew Hantzog, has said that men of his caliber come around once in 10 years.

Another ex-Saluki trackster, Tom Ashman, was second in the open high jump meet. Ashman leaped 6 feet 6 inches for second place, John Thomas of Boston won the high jump with a leap of 7 feet breaking Mitch Livingstone's old record of feet 6 inches. Livingstone is another Saluki trackster member. Judy Tooneboehm, a senior at SIU, was third in the women's 440-yard run, Miss Tooneboehm finished for the Ozark Track Club.

From a Lighting Standpoint

Football Team Faces Dim Season

By Art Peterson

SIU's football team faces the prospect of another dim season from a lighting standpoint.

The Salukis were impressive in defeat of Michigan State that McAndrew Stadium lighting system was knocked out in the first period and was never recovered. The system's failure forced the Salukis to line up the last three quarters of the Louisville game in semi-darkness, and to play Youngstown during the afternoon.

The 1967 grid season will be the third in the stadium facing six opponents at McAndrew Stadium, but without any field lights. All of the games will start at 1:30 p.m.

The lighting system could not be repaired, estimated cost would be $19,000. Don Dickerson, director of athletics said, "President Morris decided that it would be too costly to repair or replace the lighting system.

Vital to the decision was the possibility of establishing a new stadium in the future. But until a new stadium is built, SIU football games will be scheduled during the daytime.

Old age is the factor that caused the failure of the lighting system built in 1950. The stadium is partially encircled by underground 2400-volt power lines which supply the eight light poles. Each pole has a transformer and 24 lights, with each light having a 1,500 watt output.

Thomas Ingram, Physical Plant electrical engineer, said, "The lights failed because the deteriorated the power line insulation, causing a phase-to-ground fault." He explained that a "fault" means an escape of electricity which comes from a power line section to the surrounding ground. The result was a series of blown fuses and the blackout.

A single fault bear the cause of one light pole caused the failure, but that lone fault caused enough damage for the lighting problem. "Light testers showed that possible faults existed throughout the underground wiring system," Ingram said.

Fears that attended the SIU home football game will remembered that three light poles eventually went on to furnish light for the remainder of the game.

Ingram said, "This was accomplished because there are Office Cite Hierarchy For Intramural Contest

Students who wish to enter the Intramural swimming season—least of which will be expected to meet the eligibility requirements that are stated above—must apply in person in order to compete, intramural officials report.
