**Morris Asked to Give Active Role to Student Group**

The Carbondale Student Council has asked that the proposed Commission on Student Rights and Responsibilities be permitted an active rather than a passive role in University affairs.

The request was made in a letter to President D. W. Morris, signed by John Paul Davis, Carbondale campus student body vice president and temporary chairman of the University Student Council.

In the letter Davis noted that the "events which occurred on the Carbondale campus with regard to particular sentiments on the part of that student body during the past year underwrite the need to be made by this Group (the Student Rights and Responsibilities Commission)."

The letter continued: "The relevance of a faculty oriented study on student-University relations is recognized. However, it is hoped by the Carbondale campus Student Council that the forthcoming commission will function with the capability to make recommendations, beyond principle alone, in areas where it is felt, by the commission, that such recommendations would be constructive to broadening and improving relations between the expanding physical University and its growing, interested human community of students."

Enclosed with the letter were the names of six students which the council approved to serve on the committee.

Morris earlier had asked (Continued on Page 8)

**No Classes Monday After Holiday**

**Pobationers Meetings Set**

All students who have entered SIU for the first time and are on academic probation must attend one of two meetings scheduled for today, according to Mrs. Dorothy Ramp, probation supervisor. The meetings are set for 10 a.m. and 1 p.m. in Morris Library Auditorium. Her goal is to explain to probationers the purpose is to explain to probationers the importance of the probation officer, the summer term.

Meetings are set for 7 a.m. Tuesday from its home at the corner of South Washington Avenue and East Freeman Street. The meeting will be on modified schedules.

**Student's Tethered Hawk Missing**

Orn, a 12-week-old red-tailed hawk, has flown the coop.

The hawk, it can't even fly yet, mon. Jolly had some help in raising. Dennis O. Lane, an SIU student who is assistant of the bird, said it was taken sometime between 7 and 8 a.m., Tuesday from its home at the corner of South Washington Avenue and East Freeman Street.

Lane said when he went out to get the hawk on Tuesday, he found its steel tether stake missing. The bird and its cord were missing.

"For the bird to have gotten away by itself is almost impossible," Lane said. "It could only flop around for about five feet by itself."

The bird was taken to the Glen Oak Zoo in Peoria Friday. "Right now the hawk is invaluable because no others are available," said Lane.

Although the bird is understandably tame, Lane said it wouldn't be a very good idea to fool with it very much.

Lane, which Lane said means "the eagle," takes the hawk for a walk in the woods daily. "It wouldn't be a very good idea to fool with it very much," Lane said.

Lane said the hawk is a rather special bird and if it is ever found it will be released near the area it was found.

In the reception room of Area A in Woody Hall, a clutch of girls was waiting to answer the phone.

It was about 12:30 a.m. Tuesday when the phone in Beverly Curri's room in Woody Hall rang. Steven J. Dale from Felts Hall, first floor, was on the line.

The conversation that followed was reasonably short. A few sleepy yawns, a chuckle or two and they both hung up. A few hours later a phone call was placed from phone number 453-2595 on the first floor in Felts Hall to 453-2077 in the reception room of Area A in Woody Hall. A clutch of girls was waiting to answer the phone.

Thus began an effort by a handful of SIU students to establish a new college record—the world's longest, uninterrupted telephone call.

No one is exactly certain of the record, but Dale, a freshman from Carbondale, thinks the record is something like 21/2 weeks. It was established at the University of Illinois, he thinks.

Dale emphasized that this isn't just another one of those goofy college students' projects. There's a real purpose behind it—besides just setting a record, that is.

He explained it this way: "You get a lot of us were having trouble meeting girls and we decided we ought to do something about it. So after a floor meeting Monday night, we decided we'd try the telephone bit."

Now we introduce ourselves over the phone to the girls on the other end, tell about ourselves, find out what she's like and if it sounds interesting, make a date to meet in person."

Dale said the boys on the first floor in his hall falla 30-minute turns. "We have a blackboard in the classroom in the hall and we've set up a calling schedule," Dale explained. "We go in, call, and the guys just go in and sign up for the time they want to talk."

He said he wasn't certain how the girls in Woody were handling the end of it but there always seems to be someone on the female end of the line.

Marathon SIU Phone Call Seeks To Break Previous Record of 2/3 Weeks of Yakking

It was about 12:30 a.m. Tuesday when the phone in Beverly Curri's room in Woody Hall rang. Steven J. Dale from Felts Hall, first floor, was on the line.

The conversation that followed was reasonably short. A few sleepy yawns, a chuckle or two and they both hung up. **Library and Beach Will Remain Open, Offices to Close**

Students and staff members will get a holiday Monday because Independence Day falls on a Sunday this year.

Classes will not meet, and most offices and facilities will be closed. Those that remain open will be on modified schedules.

Morris Library will be open from 7:30 a.m. to 10 p.m., its regular summer hours, but only the circulation desk will be staffed. Entry and exit will be through the south doors only.

The Oasis and Olympic Room will open at 11 a.m. and close at 10 p.m. The bowling alley will be open from noon to 10:30. The information desk will be staffed from 11 a.m. to 11 p.m.

The Health Service has not announced its hours for the holiday.

---

**Gus Bode**

Gus says he still remembers the Saluki Patrolman putting a ticket on his skateboard just because he parked it outside the classroom door.
Police Photo Trainees Cramming 11-Hour Class Into Day's Work

Traffic analysts,restaging of accidents, documentation of intoxicated individuals, scene searches after such crimes as robbery, arson, homicide or suicide—these are only a few of the uses of photography in police work.

Seven members of police units from around the state, including three members of the Illinois State Police and a member of the Illinois Division of Narcotics Control, are taking a cram course in photography as a tool in police work.

The Police Photography Workshop gives trainees in 11-hour daily dose of classes, demonstration sessions and laboratory assignments in still and motion picture techniques.

James Aaron, safety center coordinator; Thomas L. Leffler, security officer; C. William Horrell, associate professor of printing and photography; and Charles R. Wood Jr. of the Federal Bureau of Investigation will conduct the workshop sessions.

The workshop is sponsored by the Department of Printing and Photography.

Coed Softball Team Is Being Organized

Coeds interested in summer softball are asked to attend practice at 7 p.m. Tuesdays and Thursdays on the Wall Street field.

Sharon B. Farquer, graduate assistant in the Department of Physical Education for Women, and Larry D. Seibert, student advisor for the Women's Coed Softball Team, are the field directors for this softball club.

The workshops will be used to operate a statewide network which will link existing stations at Carbondale (WSIU-TV), Chicago (WTTW), Champaign-Urbana (WILL) with the proposed station at Springfield.

The new station in Springfield will probably be a community operation, owned and operated by the Chicago public school system in cooperation with several universities in that area.

The Chicago station is a community station also, according to Dybvig. He added that the approved funds would be used in a cooperative effort to set up the network rather than in maintaining the individual stations' present operating facilities.

Bill for Statewide TV Network For Education Now In Senate

Plans to set up a statewide educational television network are awaiting approval by the Illinois House after passing in the Senate.

If the $3 million bill is approved, $1 million will go toward setting up a transmitter in Springfield. The remainder will be used to operate a statewide network which will link existing stations at Carbondale (WSIU-TV), Chicago (WTTW), and Champaign-Urbana (WILL) with the proposed station at Springfield.

Homer E. Dybvig, operations manager of WSIU-TV, said, "The proposed program, when completed, will create network operation which will eliminate the necessity of mailing scripts and tapes from station to station.

The Chicago station is a community station owned and operated by the Chicago public school system in cooperation with several universities in that area.

The new station in Springfield will probably be a community station also, according to Dybvig. He added that the approved funds would be used to set up the network rather than in maintaining the individual stations' present operating facilities.

Little Man on Campus

I don't understand why I'm not permitted to enroll—thereafter that scores alone prove I need in education more than the right of those eligible.

Howards to Attend SMU Conference

Irving Howards, director of the SIU Public Affairs Research Bureau, is one of 30 persons picked to take part in a conference on mathematical applications in political science at Southern Methodist University July 18-Aug. 2. Original papers and lectures will deal with the use of factor analysis, scaling and other mathematical techniques as applied to political study.

Last year Howards was one of 23 political scientists and sociologists who received NSF grants for a six-week research institute at Stanford University on the use of mathematical theory for analysis of human behavior.

Judy Garland Sings on Stage

On WSIU Radio Tonight

Judy Garland will star in On Stage, a program of recorded performances from night clubs, Carnegie Hall and other appearances, at 7:30 tonight on WSIU radio.

Other programs:

8 a.m. The Morning Show.

10 a.m. Paris Star Time.

12:30 p.m. News Report.

2 p.m. Anatomy of a Satellite: "Beyond the Stars," a look at the big, range goals of our space program.

3 p.m. Concert Hall: Today's concert features Concerto in E Flat Major for Violin and Orchestra by Mozart, Symphonies No. 5 in C Major by Beethoven and No. 8 in F Major by Schubert and Sonata for Two Pianos by Stravinsky.

8:30 p.m. Concert: Department of Music Presents: Will Gay.
Edward VII: Playboy to King

Older readers will experience a distinct sense of déjà vu reading this vivid recreation of English life in the Edwardian Age. Merivale is a skillful raconteur, and his basic life story of our twentieth century ruler, King Edward VII, who, the author suggests, should occupy a unique place in English history.

Mr. Minsey has drawn on his personal knowledge and that of others relative to Edward, and has culled the files of The Times, London News, as well as memoirs, biographies, and other material.

Marlowe’s Tamburlaine

An Excellent Readout...But Nevertheless a Retreat

Last year, from Stratford-on-Avon to Bloomington, Indiana, the centenary was celebrated with special zeal. For of all the dramatists of the English theatre, whose works are so much in favor with our time, there was but one who could compare with Shakespeare in intensity, value, and originality. True, a biography of Christopher Marlowe had been published by A.J. Rowse, but this has been overshadowed (of late, as some literary historians might say, discredited) by his somewhat presumptuous and life of Shakespeare. But the coincidence of the bicentenary of the birth of the great English poet and actor, with that of his contemporary and successor, was a happy one.

Marlowe’s Tamburlaine is a more dubious investment than usual for Elizabethan scholars. One attempt to appeal to Marlowe fans is in the reprint of Roy Battenhouse’s notable work, Marlowe’s Tamburlaine: A Study in Renaissance Moral Philosophy. Professor Battenhouse is nothing if not timely. Other reviews have no doubt published doctoral dissertations for a general public, pleading unusual relevance (in the original edition of 1944 Battenhouse’s notable work, Marlowe’s Tamburlaine: A Study in Renaissance Moral Philosophy). Professor Battenhouse is nothing if not timely.

Robert A. Harper

A dinner on the veranda of a rundown hotel, or a jeep ride on a sandy beach. Along the way, Stratton toesses together, for a moment, the faces of plants, animals and, of course, people—singular and plural. He finds a rather stumbling course that led to the island’s independence as the Malagasy Republic in 1959. This book can be read for its characterization of a little-known place and its unfamiliar people, or it can be read just for the fun of enjoying the work of a skilled literary craftsman. But its real worth is in the glimpses it offers of man’s dealings with his fellow men and the resulting full-circle of tragedy-comedy that one finds nowhere else, as well as on Madagascar.

Camping Areas for Handicapped Set Up at Little Grassy Lake

During the week of July 4 the first groups of campers will come to Camp Atkewasne and Little Giant, two distinctly different camping areas developed by SIU at Little Grassy Lake.

By the time the camping season is over on Sept. 4, more than 1,000 campers will have spent at least a week at one of the two camps. About one fourth of the campers will be handicapped in some way. The first wave of campers will include 32 high school students in the first of six successive one-week conservation workshops and 100 handicapped children.

Little Giant, designed specifically for the handicapped, will be home for six weeks to 35 children with defective speech. They will receive therapy and attend special classes, SIU specialists and speech correction students will be their counselors.

Camping for the physically handicapped will be in three two-week sessions. The last one will be for adults.

On July 27 the first group of schoolchildren between the ages of eight and 13 will come to Camp Atkewasne (land of the quail) for a week of supervised camping. Four groups of 116 will spend a week there. Also scheduled are a special "Teen Camp" designed to teach high school-age campers counseling skills; a camp for adult cerebral palsy victims, Aug. 22-Sept. 4, and the annual SIU Alumni Camp sessions, beginning Aug. 8.

4 U.S. Marines Killed In Viet Nam Fighting

SAIGON, South Viet Nam (AP)-U.S. Marines suffered four dead Tuesday in a sharp clash near the strategic Da Nang air base while, far to the north, the first joint force of American, Vietnames and Australians futilely hunted the Reds in the jungles outside of Saigon.

The Leathernecks engaged the Viet Cong 53 miles south of Da Nang in one of their bloodiest duels with the Viet Cong since their arrival to defend the sprawling base. Four Marines were wounded.

In the Communist-infested Da Zon jungle, 30 miles north of Saigon, more than 2,000 U.S. and Vietnamese paratroopers and Australian infantrymen joined in the first such international action against the Reds.

The international offensive made history as the first such joint operation by U.S. paratroopers, Vietnamese airborne soldiers and Australian infantrymen. Artillery boomed and aerial bombs exploded on suspected guerrilla positions in the zone, 30 miles north of Saigon, but visual contact with the enemy was slight.

No masses of Viet Cong troops were uncovered and the opposition, as in past strikes that enemy stronghold, was limited largely to sniper fire. Some Communist stores were found and destroyed.

A Viet Cong grenade killed a youth of 18 years old near the strategic base.

Kosygin Says Reds Nearer Viet Victory

MOSCOW (AP)- Premier Aleksei Kosygin boasted Tuesday that Communist forces are closer to victory in Viet Nam than ever before.

The Soviet leader repeated stiff Communist demands, including an American withdrawal, as the only basis for peace in Viet Nam.

Addressing a Kremlin rally, he ridiculed American peace proposals as maneuvers designed to delude world public opinion. "For about four months American aircraft have attacked the Democratic Republic of North Viet Nam," Kosygin said. "But the imperialists of the United States failed and they continued to fail to break the heroic spirit of the Vietnamese people.

Kosygin pledged further military aid to North Viet Nam if the war expands, but did not spell out what kind of aid.

Opposition to Remap Plan Voiced by House Republicans

SPRINGFIELD, III (AP)- A Democratic map to redistrict Illinois House districts drew criticism Tuesday night from both Senate and House Republicans.

"Prospects of reapportionment are dim in view of the would stand firm on its use."

Arrington joined Republican House members who earlier had rapped the remap proposal as being lopsidedly in favor of the Democrats. The Remap Plan is the result of a Senate resolution to add districts to the 132 House districts.

Arrington said his party had "a map" offered by the Democrats, said Sen. W. Russell Arrington, Republican Senate leader.

Survey Gets To the Bottom of Things

WASHINGTON (AP)- Even with her grades on the average American woman has a broader "waist breadth" — that is, she's broader across the derriere — than the average male, a new government survey shows.

A average difference is only four-tenths of an inch, girls — with women averaging the beam as compared with 14 inches for men — but there it is.

The truth came out Tuesday with the release of results of a new survey of weight, height and "selected body dimensions" of American civilian adults ranging in age from 18 through 79 years. Almost 7,000,000 persons, representing a cross-section of the population, were examined.

The average American female weighs 142 pounds, or 26 pounds less than the average for men. Her height averaged 6 feet, 3 inches, or 5.2 inches less than the guy she supposedly looks up to.

To get back to the "seat breadth" disclosure:

Measurements were taken in the seated position, with computer programming made "across the greatest protrusion on each side of the rear end," said the report.

To get back to the "seat breadth" disclosure:

Measurements were taken in the seated position, with computer programming made "across the greatest protrusion on each side of the rear end," said the report.
Salukis Generous With Runs, Errors

Southern's baseball team was a very generous host to the St. Louis University Billikens.

The statistics show that the Salukis made 19 errors in the four-game series, which accounted for 10 of the 20 Billikens' 19 runs scored.

On the other hand, the Billikens were a little more stingy in giving up runs as they made only two errors, accounting for just one Saluki run.

Southern's pitchers were the most impressive in the series. Two relief pitchers Ed Olenec and Gary South, didn't allow an earned run.

Senate Unit OK's Exempting 4 Sports From Antitrust Law

WASHINGTON (AP) — The Senate Antitrust and Monopoly subcommittee approved legislation Tuesday to give professional baseball, basketball and boxing limited exemption from the antitrust laws.

The subcommittee also recommended its bill to place big-time professional boxing under stern federal policing by a national boxing commissioner, but did not make any recommendation either for or against that measure.

The team sports bill, approved unanimously, would be amended to exclude boxing.

The two bills now go to the Senate Judiciary Committee for further study.

Sen. Philip A. Hart, D-Mich., subcommittee chairman and chief sponsor of both bills, says the boxing bill is designed in large part to drive what he calls underworld elements out of boxing.

It would create in the Justice Department the office of boxing commissioner, with broad powers to license and revoke or suspend licenses of boxers, managers, matchmakers and promoters.

Olenec appeared in three games and pitched 4 2/3 innings, and South pitched one inning of relief.

Two of Southern's starting pitchers, Mike Stafford and Bob Ash, also played good games. Stafford pitched five innings of the opening game Saturday and gave up only one earned run for a 3.40 earned run average, while Ash pitched 6 1/3 innings Sunday and gave up two earned runs for a 2.22 earned run average.

The other two pitchers who saw action, George Poe and Mike Lyle, finished their games with 4.20 earned run averages.

In the hitting department, shortstop Dick Hacker and outfielder-catcher Young lead the team with a .400 batting average.

Hacker has hit safely four times in 10 trips to the plate. Included in his hit total are two doubles and a triple. Young has appeared at the plate five times and has hit safely twice.

Other batters who are hitting .250 or better are outfielders Roger Schneider and Mario Solis and third baseman Lee McRoy.

Schneider and Solis are each batting .273 and McRoy is hitting .250.

The team's overall batting average is .246.

Softball Rosters Are Due Today

Intramural softball competition begins July 6. But before action can begin, all intramural team managers must submit their rosters to the Intramural Office by today.

Managers should specify whether they prefer men's or women's teams.

All games will be played at the University School field, 1015 W.구.

Intramural regulations and procedures are available in the Intramural Office.

The team with the best overall record will be declared champion, regardless of the number of games played.

COACH VOGEL WITH JUDY WILLS (LEFT) AND NANCY SMITH

Vogel Seeking AAU Reversal Of Ruling Against Judy Wills

The question of whether Southern's women's gymnastics team will compete in the AAU National Championships this weekend in Cleveland, Ohio, rests on the shoulders of Donald Hull, the executive director of the AAU.

Hull ruled last week that Southern's Judy Wills, the women's national tumbling and trampoline champion is ineligible to perform in the championships because she competed in the United States Gymnastics Federation championships earlier this year.

At the same time Hull ruled that her teammate, Nancy Smith, who had participated in the same championships, was eligible.

An angle: Coach Herb Vogel spent most of Tuesday trying to get in touch with Hull to try to get him to change his decision, but was not successful. The executive director was in route to Cleveland for the meet and could not be reached.
Frisky Filly Is Top Nog

Computer Turns Tout For Hambletonian

Armbro Flight, a frisky filly that won 20 of 26 races last year, will win the 1965 Hambletonian, an SIU computer has predicted.

E. Robert Ashworth, manager of the research and instruction division of SIU's Data Processing Center, fed the IBM 7040 computer data relating to the two-year-old careers of the top 25 horses eligible for the race and let the machine do the rest.

The computer gave the race, which will be run Sept. 1, at the DuQuoin State Fairgrounds to Armbro Flight, and confidently predicted Noble Victory would come in second.

Other odds-makers see it differently, in fact, Noble Victory has generally been regarded until now as the solid pre-race favorite to capture the Hambletonian, often called the Kentucky Derby of harness racing.

But apparently Armbro Flight's record impressed the machine. After all, she won $107,452 in those races last year and became the only trotting filly in the history of harness racing to bring home $100,000 or more.

The computer's predictions surprised a lot of people, including Don Hayes, president of the DuQuoin State Fair.

"I had thought, along with practically everyone, that Armbro Flight was pretty much of a cinch for this year's Hambletonian," Hayes said. "Now it looks like we've got a real battle on our hands."

The computer ranked the first eight horses in the top 25 with no problems, but it had trouble separating Davey Hanover, and Spinning Song. It decided they would finish in a dead heat for ninth.

It also decided that Newport Venture and Philomena would dead-heat for 12th, and Mr. Magoo.

Here's how the computer ranked the top 25:

1. Armbro Flight
2. Noble Victory
3. Egyptian Candor
4. Jean Sampson
5. Floridian Flash
6. All Aflame
7. Perfect Freight
8. Poplar Jamie
9. Spinning Song
10. Davey Hanover
11. Nimble Boy
12. Newport Venture
13. Philomena
14. Mr. Magoo
15. Maximo Hanover
16. Spud Coalton
17. Blazing Song
18. Atlanta Georgia
19. Suspension
20. Victory Cade
21. Hercules Hanover
22. Phoenix Hanover
23. Short Stop
24. Leonardo
25. Intrepid Flyer

Haag Gets Grant From Foundation

Herman M. Haag, professor of agricultural economics, has been notified of Ford Foundation support for a 12-month assignment in Mexico, beginning Sept. 1.

The Ford Foundation will pay maintenance, travel and special language instruction expenses in addition to a $3,500 grant for a marketing study in northern Mexico.

Haag said he will spend the first five months in Mexico City with the agricultural economics section of the Mexican Ministry of Agriculture to advise and to develop teaching materials in agricultural marketing and prices.

Haag also plans to supervise studies of marketing in two important producing areas of Mexico to supplement information he gathered in southwestern Mexico during a Ford Foundation grant in 1964.

Council Asks Morris to Give Active Role to Rights Group

(Continued from Page 1)

the two councils to submit six names of qualified students to serve on the commission to him. He will now select from each list the names of the students he wants to serve on the commission.

The six students selected by the Carbondale Student Council were Joe K. Beer, Robert J. Rohr, John H. Huck, John C. Henry, Earl F. Williams and Davis.

Beer, a recent graduate of Southern, majored in history. He plans to do post graduate work here. Beer has been a member of the Campus Judicial Board, Sphinx Club, New Student Week leader, Order of the Pyramid (T.P. Activities Honorary), Campus Elections Commission and was Brown Hall's outstanding resident for two years.

Rohr, a senior majoring in English, has been a member of the SIU Student Peace Union.

Huck has been chairman of the Off-Campus Judicial Board and a member of the University Foundation Advisory Board.

Davis is a junior majoring in government. He is the student body vice president, temporary chairman of the University Student Council, and is a resident assistant at Thompson Point.

Henry is a senior majoring in government. His activities include membership on the campus Judicial Board, Thompson Point senator, International Relations Club and New Student Week leader.

Williams is a senior majoring in English. He has been the on-campus senator and a member of the Action Party. Those selected by the Edwardsville Student Council to serve on the commission are Kathleen M. Stephens, Nancy Marie Jones, Roger Val Zimmerman, Theodore M. Haas, Ronald W. Buck and Edward Musgrove.

Handball Will Be Added To Phys Ed Curriculum

Handball, a popular sport which dates back to 19th century Ireland, is coming to SIU.

Bids have been submitted for the construction of four to 12 outdoor handball courts at the field east of the Arena.
