Univerlity workmen remove one fire hydrant, according to Albin J. Yokle, SIU coordinator of housing.

"Atomic in Action," a colorful display prepared by the U.S. Atomic Energy Commission, will be on exhibit at the SIU Museum May 1-June 15. Benjamin C. Hedrick, acting director of the Museum, has announced.

Several striking "Island" exhibits are featured: an animated model of an atomic power plant, an illuminated explanation of nuclear fusion, and a model of the United States Atomic Energy Commission, the nation's first nuclear-powered merchant vessel.

The exhibit is one of a number of travelling exhibits operated for the ABC by the information and exhibitions division of the Oak Ridge Institute of Nuclear Studies, Oak Ridge, Tenn.

The exhibit may be seen daily Monday through Friday from 8 a.m. to 5 p.m. and from 8:30 until noon on Saturday.

### Atomic Display To Be Exhibited Here

### Winds Reach 65 mph:

**Wind- Hull Storm Lashes Campus, Trees Uprooted, Windows Broken**

April showers changed to ice Monday night as rain and hail were escorted through the area by high winds which caused extensive damage on campus.

William A. Howe, Physical Plant Director, said the major effects of the wind and hail were broken windows in various buildings, holes knocked in some roofs, some large trees uprooted and numerous limbs blown down.

Howe said yesterday it is impossible to estimate the total damage yet because reports of damage continue to come in from his office and various points about the campus.

Two large trees were uprooted and the top portion of another broken off during the storm, Howe said. One of the fallen trees smashed a light fixture and pole just west of the University Center.

Windows in the Olympic Room of the Center were also broken by falling limbs. Workmen were busy yesterday cleaning up debris around campus.

The storm caused severe damage to many communities in Illinois. Losses were estimated at $545,000 by an insurance reporting agency.

Kent Shamdlin, a director of the Chicago office of the American Insurance Institute, said adjusters who surveyed the damage in these areas could find evidence of only two tornadoes.

"We think many of the tornadoes were accute, line squalls," Shamdlin said. "It's a common mistake," he explained. "The line squall is a wind that forms with dark black clouds and many people think they are tornadoes, but no funnel actually appears.

All of theSIU students who were interviewed yesterday expressed the opinion that damage to buildings would probably be not as severe as that caused by the hurricanes and storms which have recently hit the southern part of the state.

Students Split Over Possible In-Hike Fee In 1964

SIU students are clearly divided over the possibility of an increase in Student Activity Fee. Survey, an informal Daily Egyptian survey indicates.

1. The permanent council members have indicated that a hike might be necessary to cover "a financial gap.
2. Students questioned felt a fee hike should be applied to SIU and the individual.
3. Only about ten percent of the students felt that fees should be used to develop the SIU Health Service and expand its facilities.
4. Favoring a fee hike, Charles Kollross, math major commented: "I'm not afraid to pay for it."
5. Paul Stein, sophomore in Physical Education, said: "The only reason I'm not against the fee hike is because of the Health Service, I can see that a fee hike is the only way to fix our health problems.

Favoring a fee hike, Charles Kollross, math major commented: "I'm not afraid to pay for it."

Paul Stein, sophomore in Physical Education, said: "The only reason I'm not against the fee hike is because of the Health Service, I can see that a fee hike is the only way to fix our health problems.

Southern Illinois Clubwomen Study Home Economics School

Clubwomen of southern Illinois will gather on campus Thursday for the second in a series of Federation Campus Day programs.

Special object of study at the spring meeting will be the School of Home Economics. Last fall, 150 clubwomen from the 31 southern counties of the state examined the University's scholarships and scholastic recognition program.

Mrs. Richard Peeney of Coed Faces Liquor Charges Today

A 20-year-old coed was found innocent yesterday of illegal purchase of liquor and a similar charge against a 19-year-old coed was continued until Wednesday morning.

The cases were heard in the court of Carbondale Police Magistrate Robert Schwartz. The two were arrested early Saturday morning by Carbondale authorities in the 200 block of South Illinois Avenue.

Yorkville, state federation chairman of the education committee, said it is designed to familiarize clubwomen with the academic and physical facilities afforded students at Southern.

Thursday's program will open with registration at 9 a.m. at the University Center. The morning session will feature a panel discussion of the school drop-out problem in which Miss Peeney will be assisted by George Wilkins, former state superintendent of public instruction; Eugene McClimock, superintendent of the Centralia Township High School and Junior College; Jack W. Graham, SIU director of counseling and testing; Lorie Stitely, Williamson County Superintendent of Schools; and Charles Labrador, director of the Delligency Study Project at the Edwardsville campus.

Luncheon will be held at the Center Ballroom and features a style show by Home Ec students modeling their own creations. The afternoon programs will be spent at the School of Home Economics building with Dean Eileen E. Ogley and her staff as hosts.

It will include a tour of the building, constructed in 1959, a discussion of the new Home Ec Historical Collection, and a tea served in the Family Living Laboratory.

The series of programs is sponsored by the Illinois Federation of Women's Clubs and the University's Division of Areas Services and Division of Extension.

Friedelina Wagner, Granddaughter of German Composer, Loves Music But Not Canned Jazz To Sleep By

Wagner's Granddaughter Loves Music

But Not Canned Jazz To Sleep By

Wagner; the long-sponsored name of Wagner, was certainly not living up to the standards set by his great-great-grandfather; Richard Wagner and Miss Wagner, also the great-granddaughter of another German composer Frans Lanz, frankly explained after her verbal exchange with the hotel manager that she had arrived sleepless and fatigued from her day's work and was seeking a few well-deserved hours of sleep when the unexpected piped-in music began to flow into her room.

She said that she had politely asked the manager to turn the music off, but he refused. She went on to say that by 6 p.m. her patience was thin and she could no longer stand the "torture" that the "insignificant" female manager inflicted on her. That is when she had her run-in with the manager. Miss Wagner explained that it is not a custom for her to pick on hotel managers but "when they try to drive me crazy with hideous music you have to do something to defend yourself."

An American citizen since her escape from Nazi Germany in 1941, Miss Wagner is presently on a lecturing tour of North American universities and is scouting for young opera talent to bring back to her opera workshop in Bayreuth, Germany later this spring.

Along with her obvious distaste for canned music, Miss Wagner also expressed little love for an Old American operatic institution, the New York Metropolitan Opera.

"The Met," said Miss Wagner, fulfills its function but it is totally lacking in the old tradition and its sets look as if they were designed in the twentieth century."

But his explanation was to no avail; Miss Wagner left the hotel to find him that he had just lost a customer.

Miss Wagner, also the great-granddaughter of another German composer Frans Lanz, frankly explained after her verbal exchange with the hotel manager that she had arrived sleepless and fatigued from her day's work and was seeking a few well-deserved hours of sleep when the unexpected piped-in music began to flow into her room.

Activities Roundup

St. Louis Excursion
Planned Saturday

An excursion to St. Louis is being planned for this Saturday, April 26. The trip is offered by the Displays and Service Committee of the University Center Programming Boards for seven days. A charge of $1.00 is made for the round trip travel. It will be necessary to sign up by 5 p.m. Friday, according to the committee chairman.

Want to look into American Youth Hostel offerings for travel in Europe this summer? The Activities Center has all the information. 66 and 28-day trips by bicycle, train, hiking and bus.

The Special Events Committee will meet at 9 p.m. in Room C of the University Center today.

Also today, WRA class and varsity volleyball will be held in the Women’s Gymnasium at 4 p.m. WRA house volleyball will be held at 6 p.m. WRA tennis is scheduled for 4 p.m. on the New University Center tennis courts. This weekend holds a modern dance meeting at 7:30 p.m. in the gym.

Alph Kappa Phi, business fraternity, is meeting tonight in the library about 9 o’clock. The Future Farmers of America will meet tonight in the Quad at 9 p.m.

The College Bowl selection will meet today from 11 a.m. to 3 p.m. in Room B of the Center.

The Spoleunking Club is also meeting today, Room C at 9 p.m.

The Spring Festival Steering Committee will meet in Room D of the Center at 9 p.m. today, and the Miss Southern committee, planning for the Miss Southern Pageant, will meet in Room D at the same time, 9 p.m.

Inter-varsity Christian Fellowship has set a meeting time of 10 a.m. today in Room F of the University Center. Kappa Phi will meet in the Weasley Foundation at 9 p.m.

The Men’s Glee Club will rehearse in the University Center Ballroom at 7 p.m.

The National Society of Interior Designers will install officers in the Family Living Lab at 7 p.m.

Representatives of Campus Chest will be in Room H of the Center all day today answering questions about the work of the organization.

The Music Department is sponsoring a recital and lecture at Shroyer Auditorium at 8 p.m. today. Irwin Freundlich will play piano in the recital.

The Education and Cultural committee of the University Center Programming Board will meet in Room B of the Center from 9 to 10:30 p.m.

In Men’s Intramural activities, the Judo Club will meet in the Quenston Hut at 5 p.m.; Shuffleboard in the Gymnasium from 3-8 p.m.; weight lifting in the Quenston Hut from 7-10 p.m.; volleyball in the gym from 8-10 p.m.; and softball on the Thompson Point and Chauffera Fields from 4-5:40 p.m.

Obelisk Editor
Interviews Today

The Journalism Council is now considering applications for the position of Obelisk editor and associate editors of the Obelisk.

Anyone who would like to be considered for appointment to the meeting of the Journalism Council at 9 p.m. today in the Mississippi Room of the University Center. All applicants are required to have a copy of their transcript of grades and their application with them.

Applications may be obtained at the Obelisk Office and interested persons should contact Manion Rice, Obelisk adviser. One person has applied for the editor position and six persons have applied for the four associate editor positions. Student Body President Bill Fenwick said yesterday...

The Southern Illinois University Newcomers Club, a branch of the SIU Women’s Club, will install officers at 10 a.m. brunch to be held at Giant City Park Lodge May 3. Reservation forms should be made by April 30.

In Shroyer:
“All Stars” To Back Up Jazz Show Friday Night

The SIU “All-Stars” directed by Glen Daum will provide the music for a special concert at 8 p.m. Friday in Shroyer Auditorium.

The concert is sponsored by the SIU chapter of Phi Mu Alpha, the national sinfonia fraternity, and tickets are available at the University Center Information Desk for 25 cents each. Purpose of the concert, according to James Doyle, president of the chapter, is to raise funds for scholarships to the Music and Youth two-week summer camp sponsored by the Music Department.

Members of the SIU “All-Stars” include Tom West, Larry Jauch, Gary Chon, Ed Waldron, trombones; Mike Scruggs, Fred Berry, Bill Hudson and Mike Rice, trumpets; Robert Cates, Earl Walters, Harry Rogers and Robert Rose, saxophones.

Also Gordon Chadwick and Furti Aubuchon, French hornists.

Maurice Coats, tuba; James Doyle, string bass; Floyd Jones, drums; Susan Fleming, Jan Carner, Pam Powell and Nancy Jent, girl’s basketball; Jerry Lynn, journalism; Kathy Apolin, coming; and Merle Howard, member of ceramics.

Early Swimmers
Given New Jobs

Two students got into Lake-in-the-Field for a swim last week and at the same time got into hot water with University disciplinary officials.

The campus lake has not yet been opened for swimming this year. Authorities said the two students, a 20-year-old junior from Hollindale and a 21-year-old junior from DeKalb, were each assigned 20 hours of work at the lake because of swimming.

The work is to be done on Saturday and Sunday afternoons.

New SIU Research Programs
To Be Discussed On WSIU-TV

In a special monthly feature
tonight on WSIU-TV, Delyte W. Morris will present a re­
port on the services of the
University to the southern
Illinois area.

7 p.m.

TECHNIQUE follows Glenn
Gould, Canadian pianist,
through a typical day in New
York as he tapes a record for
release.

7:30 p.m.

BOLD JOURNEY takes a
"Global Safari" to Alaska,
South America, Africa and
India to shoot exciting traveling
films.

8 p.m.

TURN OF THE CENTURY
presents "Stand Close
Said," the story and songs of
the early recordings of
music and the beginnings of
the phonograph.

8:30 p.m.

FROM SOUTHERN ILLINOIS
UNIVERSITY is a special
monthly feature. This evening
Delyte W. Morris, president
of SIU, presents John Anderson,
Coordinator for Research
and Associate Dean of the
Graduate School on campus.
Anderson will discuss new
research and experimenta­
tion programs being conducted
on campus at the present time.

9 p.m.

PLAY OF THE WEEK, in
"The Old Foolishness," tells
the Irish tale of a lovely young
girl and three brothers who
all love her.

Faculty Meets May 9

A general meeting of the
University faculty for the Car­
bondale Campus is scheduled
for 5 p.m., May 9 in Uni­
versity School's Pur­
Auditorium.

The main item on the agenda
will be a brief presentation of
benefits and services that are
available to the University
faculty. A large number of
faculty members proposed
this topic for discussion.

Educational Council Of 100
To Meet On Campus Sunday

The promotion of education
in southern Illinois will re­
ceive organized attention on
the Southern Illinois Campus
April 28 when the Educational
Council gathers for a semi­
annual meeting.

Russell Rendleman is ex­
ecutive secretary of the group
composed of educators and
laymen interested in promot­
ing education in southern
Illinois. President Delyte W.
Morris and Arthur E. Lehn,
dein of the College of Educa­
tion will be on the program.

Rendleman said the group
from 31 southern-most coun­
ties will gather in the Univer­
sity Center Ballroom at 3 p.m.
A social hour will precede the
program.

Mrs. Grace Duff of Castro,
superintendent of schools in
Pulaski county, will review the
history of the organization.
George Counts, a visiting pro­
fessor here, will talk on

"Meeting the Challenge of
These Times in Education."

Two student teachers have
been invited to discuss educa­
tion from the beginners point
of view. The University Opera
Workshop Group will enter­
tain before the meeting closing
at 5 p.m.

16 Grad Students Granted Fellowships

Sixteen graduate fellow­
ships have been granted to
students in various fields.
They are as follows: Ger­
ard L. Karr, economics; Mrs.
Charles E. Stevenson, botany;
J. E. Ozment, botany; Gary
W. Elmstrom, plant indus­
ties; Ronald Saunders, phy­
si
cal education; Larry R.
Cobb, philosophy; Gary E.

FFA Meeting Tonight

The SIU chapter of the
Future Farmers of America
will meet at 7:30 p.m. today
in Room 224 of the Agricul­
ture Building. The program
will feature W. E. Koepfer,
dean of the School of Agricul­
ture, who will discuss his work
and travels during his recent
two years with the United Na­
tions Food and Agriculture
Organization.

BEEFTE- FATIGUE?
Try this one!

This Rambler American 440 Convertible comes
equipped with lots of inside room, yet with compact
outside dimensions you can fit in tiny parking
spaces. Surprising performance, too.

It's a good-looking way to get away from it all.
Bucket Seats and Two-Side Door Flap are sporty
low-cost options. Power-operated top is standard.
Rambler prices start real low and you won't go
barefoot to keep one running. A Rambler American
440 with overdrive lagged 28.19 m.p.g. in the
'63 Pure Oil Economy Performance Trials. And
Ramblers are more service-free than ever before.
Rambler quality keeps it on the road, not in the shop.

Truce Team Tries Talking In Troubled Laos

VIENTIANE, Laos

The three-nation commission, barred from operating within lines of the pro-Communist Pathet Lao, is sending a truce team either today or tomorrow into the neutral zone in the Plain of Jars.

Pathet Lao troops are expected to press ahead with their drive to force the neutralist troops of Gen. Keng Le out of northern Laos, although there was truce talk yesterday.

According to Gen. Phoumi Nosavan yesterday threatened to send his troops into the action if the pro-Communists complete their conquest of the Plain of Jars.

Washington officials said additional units of the 7th Fleet would be sent into the Gulf of Siam as precautionary moves.

WASHINGTON

A Pentagon communications official outlined Tuesday a plan to put five or more satellites into orbit with a single rocket to build a system that would flash messages to command posts around the world.

Rear Adm. Jack S. Dorey said the Defense Communications Agency hopes to be ready in about two years to demonstrate the feasibility of its communications satellite plan. Preliminary contracts may be let within the next two weeks, he said.

WASHINGTON

The Post Office Department, reacting sharply to budget cuts by the House, ordered rigid economy cuts yesterday in its operations in 68 big cities.

The order included a ban on hiring new employees, overtime limitations and the threat of eliminating plans to extend delivery of mail to new office buildings and housing developments.

WASHINGTON

Disarmament chief William C. Foster said today he does not believe Soviet Premier Kosygin will withdraw the Soviet Union's offer of limited on-site inspections to police an atomic test ban.

Foster said the United States still hopes the Soviets will join in a treaty to outlaw nuclear explosions and be declared this would be in Russia's own best interest, as well as America's.

The U.S. Arms Control and Disarmament Agency administrator spoke at a foreign policy briefing for newsmen.

NEWPORT NEWS, Va.

David Monroe Troutman, a soldier stationed at Ft. Eustis, pleaded innocent by reason of insanity today as he went to trial in Corporation Court on a charge of murdering his 13-month-old son, Troutman, 21, of Carbondale, Ill., is accused of crushing the life out of little Lance M. Troutman the night of Sept. 23.

SPRINGFIELD, Ill.

The Illinois House passed unanimously Tuesday two bills to outlaw certain type pinball machines as gambling devices.

Specifically, the bills identify the right of replay as evidence of winning on a gambling device when the right can be exchanged for money, property or the right to receive property.

DAILY EGYPTIAN
An Individual Conformity

William McKeever, vice president for academic affairs at the University of Texas, is accustomed to a faculty that give college life that factorlly compare to the classroom. Instructional television is one concept that may never be acceptable. He points to the technological revolution and new arts creating positions demanding young men. The college graduate today will enter a position different than the position his parents would have taken. Rarely does the parent have anything to offer youth with respect to his vocation or aim in life.

The conformity reaction of the individual to his peer-oriented environment is contributed to an attempt to get ahead inside the system. McKeever feels that conformity comes from a realization on the part of college—whether the impact of one person on society is small. If one can't change society why fight it?

McKeever sees a number of effects on youth that result from the trend to look for personal achievement. There is a tendency to subordinate interests and experience. This naturally accompanies the impatience of college youth for he is in seeking studying industrial representatives, he has found himself to be a president's position of their own ability. They are prepared for a job, and they would probably accept a vice president's position upon graduation if it were offered.

He feels college-age youth will face world problems more as a whole. They are not as close to the ballot box. They are interested in making the society better.

Next Issue: Television Talk-back, No Such Thing!

Cathy Drummond

IRVING DILLIARD

A Victory for Conservation

The country can rejoice at the overwhelming vote in the Senate for the Kennedy Administration-backed wilderness preservation bill. Here was a landmark rollover for the long-range benefit of the American people and it carried 73 to 12.

Actually every one of the 108 senators was recorded for or against the bill. In addition to the 73 who voted No had the Kennedy Administration blocked passage. It is a lesson more impressive and comprehensible, the author of the bill, Senator Dillard of Tennessee, pointed out, that instructional television could sufficiently and rewarding serve as a classroom supplement, but to be given a first place position as a substitution to the classroom would be the cause of the impact of one person on society.

Well-1h 23 years old...

...I guess I'm not going to make the big leagues...

Repredict from Chicago's American

Letter To The Editor:

In reading the recent article concerning Jim Durree's ineligibility, I find it rather strange that Mr. Durree didn't declare his ineligible at the end of Winter Quarter when grades were issued instead of five weeks later in middle of Spring Quarter. If he was eligible for previous track meet results and colorful ad libbing are elements which are unjustly confused from the script. Current events used for exemplification or contrast often make a lesson more impressive and comprehensible.

THE COUNTRY... Richard N. Engman

Third In A Series

Distorting The Cause

Long after we graduate from SIU we will recall with fond memories our first contact with great minds, where we formed lifelong friendships. Such memories are closely associated with college life, they have a glow.

College life is a social as well as intellectual experience. As an illustration this realization that makes the sleepless nights, the cramming before finals, the last minute term paper even more rewarding. It is the classroom situation, the meeting with classmates and the friendly greeting from the professor that give college life that added glow. These are the formalities and traditions long associated with college life. Every day more and more people are realizing the personal rewards which accompany a college degree, and every year, more and more people are attending colleges and universities across the country.

A great innovation has been introduced to attempt to substitute for the discomfort of the college classroom situation. Instead of the memorable student-teacher relation that are being confronted with the study of the subject. Instructional television is still on the introductory level, but beyond the textbooks and the classroom setting students have a more precise concept of how it will come about.

Then, if they have a genuine thirst for knowledge, they may perceive how they could choose anything but the latter.

Instructional TV could satisfactorily serve as a supplement to textbooks and the classroom lecture, but it does not substitute for the free give and take situation between the student and professor. Students are accustomed to a different kind of teaching than educational television can offer. They are used to bringing questions, many students enjoying the classroom interaction, Television is regarded as a place to look for entertainment, not a place to study with a professor. We need diversity in education, and instructional televisions that fit the time for diversity or controversy, Thus the presentations on a superficial basis, never allowing time to penetrate the subject. Instructors are forced to prepare scripts and stick to them of the personal experience and knowledge related by the instructor to his classmates is subtracted from the televised presentation. Timelessness, spontaneity and colorful ad libbing are elements which are unjustly confused from the script. Current events used for exemplification or contrast often make a lesson more impressive and comprehensible.

THE COUNTRY... Richard N. Engman

A lesson more impressive and comprehensible, the author of the bill, Senator Dillard of Tennessee, pointed out, that instructional television could sufficiently and rewarding serve as a classroom supplement, but to be given a first place position as a substitution to the classroom would be the cause of the impact of one person on society.
Qualls Leads SIU Batters With .391

Pratte Second With .353, Walter Is Leading Pitcher

Jerry Qualls, SIU sophomore, is currently leading SIU's baseball team in hitting with a .391 batting average.

Mike Pratte, SIU catcher, is in second place with a .353 percentage. Pratte is a junior and a two-year letterman on Glenwood's high school baseball team, which has a 5-4 season's record.

Qualls has been hitting the ball at a .500 percentage since coming back from a dismal spring tour. During the trip in the south the young sophomore controller collected sixty-nine hits in sixteen times at bat.

Since the regular season started, Qualls has hit safely fifteen times in 30 appearances at the plate. For the entire season he has collected eighteen hits in 46 plate appearances. Qualls is leading the team in that category also.

The Salukis have played nine times this season with a season's record. Qualls has hit safely in eight of the games. The only game in which Qualls was a hit was the second game against St. Joseph's.

John Siebel is currently in the throes of a dismal batting slump.

The sophomore outfielder has only hit three times in his last ten appearances at the plate. For the regular season Siebel has collected six singles in 31 at bats.

For the entire year he has 17 hits in 54 times at bat for a .315 batting average. Ed Walter, 18-year-old freshman pitcher, is leading the team in strikeouts with 40. He struck out 19 hitters in one game recently for a new personal record.

Walter has a 1-1 pitching record. Doug Edwards is 1-0 for the regular season. John Hare, Joe Ramirez and Gene Vincent have received the other Salukins' pitching victories.

Varsity-Alumni Game To Draw 20 Ex-Salukis

Glen Martin, SIU baseball coach, has announced that the match will be played Saturday at Chauteauaque baseball field.

Wally Westbrook will be on hand for the game and he holds SIU records for the most hits in a season and runs-batted-in during a single season. He hit safely 52 times in 1961 and drove in 44 teammates with the hits.

Other SIU record holders planning to play are Roy Ayers, Dick Dillingen, Richard Jones and Bob Hardcastle.

Ayers holds the single season record for the most three in a season. He hit safely 52 times in 1961 and drove in 44 teammates with the hits.

The game will be played on the 4th of May.

Pratte Second With .353, Walter Is Leading Pitcher

Jerry Qualls, SIU sophomore, is currently leading SIU's baseball team in hitting with a .391 batting average.

Mike Pratte, SIU catcher, is in second place with a .353 percentage. Pratte is a junior and a two-year letterman on Glenwood's high school baseball team, which has a 5-4 season's record.

Qualls has been hitting the ball at a .500 percentage since coming back from a dismal spring tour. During the trip in the south the young sophomore controller collected sixty-nine hits in sixteen times at bat.

Since the regular season started, Qualls has hit safely fifteen times in 30 appearances at the plate. For the entire season he has collected eighteen hits in 46 plate appearances. Qualls is leading the team in that category also.

The Salukis have played nine times this season with a season's record. Qualls has hit safely in eight of the games. The only game in which Qualls was a hit was the second game against St. Joseph's.

John Siebel is currently in the throes of a dismal batting slump.

The sophomore outfielder has only hit three times in his last ten appearances at the plate. For the regular season Siebel has collected six singles in 31 at bats.

For the entire year he has 17 hits in 54 times at bat for a .315 batting average. Ed Walter, 18-year-old freshman pitcher, is leading the team in strikeouts with 40. He struck out 19 hitters in one game recently for a new personal record.

Walter has a 1-1 pitching record. Doug Edwards is 1-0 for the regular season. John Hare, Joe Ramirez and Gene Vincent have received the other Salukins' pitching victories.

Tulsa Hands SIU Golfers Second Defeat In A Row

After winning its first six outings of the year, Southern's golf team dropped its second match in a row, as the University of Tulsa ended the Salukis Monday afternoon 9 1/2-2 1/2 at the Tulsa Country Club in Tulsa, Okla.

Carter Ham paced the Hurricanies over coach Lynn Hold er's Salukis, as the Tulsa ace shot a 72 to defeat Bob Payne 3-0. Payne found the going rough as he turned in a 77.

Jim Place was the only individual winner for SIU as Southern's leading golfer defeated his teammate by a 74.

The Salukis now post a season's record of 6-2, SIU travels to Memphis State Friday night to meet the State Tigers.

The results:
Bill Emmons, Tulsa, 76, de feated Al Kruech, SIU, 79-2-1
Mike Norman, Tulsa, 76, defeated John Krueger, SIU, 80-2-1-2 1/2.
Place, SIU, 74, defeated Holmstrom, Tulsa, 78-3-4
Jim Ingram, Tulsa, 75, de feated Jerry Kirby, SIU, 76-3-1.

6 Softball Games Scheduled Today

Here is SIU intramural soft ball schedule for today, Games will be played at Thompson Point Field at 4:15 and Chau taqua field at 5 o'clock.

Thompson Point Field -- I Field 2 -- Charlie Brown vs. H.S.O.V.; Field 3 -- Brown 3rd vs. Doran Devilis;
Chautauqua Diamond -- Field 1 -- Alpha Phi Alpha vs. Kappa Alpha Phi; Field 2 Sig Tau Vs. Phi Sig; Field 3 -- Delta Chi vs.

NOW YOU CAN BE YOUNGER THAN SHE IS

It is a scientific fact that girls much emotional maturity earlier than boys. For this reason, freshmen girls are more to make romantic alliances with freshmen boys, but instead choose men from their own age group.

Thus the freshman boys are left datable, and many is the night the entire freshman dorm solo itself to sleep. An equally noticeable situation between upper and lower class boys. Upper-class men being mapped up by freshman girls, the poor ladies of the upper class are reduced to varying extents of monoply and home permanent.

It pleases me to report there is a solution for this morbid situation—indeed, a very simple solution. Why don't the two great age-group nongroups—the freshman boys and the upper-class girls—find solace with each other?

True, there is some age differential, but that need not matter. Take, for example, the pair of Albert Payson and Siglma and Eustasia Yee.

Albert Payson, a freshman in hand and grader at Valdal College, was walking across the campus one day, weeping softly in his loneliness. Blinded by tears, he stumbled upon the suqipe form of Eustasia Yee, a senior in wicker and ruffles, who was the usual large wisp from her grasp.

"Why don't you watch where you're going, you minor youths?" said Eustasia prevailingly.

"I'm sorry, lady," said Albert Payson and started to move on. But suddenly he was stopped, struck by an inspiration. "Lady, you are beautiful, don't think how beautiful, but I know why you're miserable. It's because you can't get a date. Well, neither can I. So why don't we date instead?"

"Surely you jest?" cried Eustasia, looking with some upon his tiny hand and body.

"Oh, I know I'm younger than you are," said Albert Payson, "but that doesn't mean we can't find lots of fun things to do together."

"Like what?" she asked.

"Well," said Albert Payson, "we could build a Snowman."

"Huh?" said Eustasia, grinning her teeth.

"All right then," said Albert Payson, "we could go down to the road and make some frogs."

"I don't," said Eustasia, shuddering her entire length.

"How about some Run-Run-Rip?" suggested Albert Payson.

"You are cute, clever, and immature," said Eustasia, "and I will thank you to remove your unnecessary presence from mine eyes."

Sighing, Albert Payson lighted a cigarette and started away.

"Watch me," cried Eustasia.

He stayed.

"Watch me, Mr. Irresponsible Cigarette you just lighted?" she asked.

"What else?" said Albert Payson.

"Then you are not immutable!" she exclaimed, clumping him to her clavel. "For to smoke Mulberry is the very essence of wisdom, the height of American know-how, the incontrovertible proof that you can tell gold from dross, true, age-solved talismans from pale, pathetic substitutes. Albert Payson, I will tell you, is the only youth for me."

"I will," he said, and did, and today they are married and run an excellent bakers' wickler and wicker establishment in Dalbu, Minnesi.

Kristoff Hopes To Wrestle His Way To World Games In Bulgaria

Sofia, Bulgaria is a comparatively small place, but to Larry Kristoff, Sofia is the biggest place in the world. On May 17, Kristoff, wrestler, football player and husband, will leave for West Point, N.Y., where he competes with the finest wrestlers in the country to represent the United States in the World Games starting May 27.

The American Wrestling Foundation, a non-profit organization, will send teams to Bulgaria, Turkey, Czechoslovakia, England and Sweden in the World Games.

Kristoff is determined to be among the two teams representing his country.

"I'm going with the idea that I'm leaving for Bulgaria," he said.

"Kristoff went through some kind of turmoil during the National AAU meet," said his wrestling coach Jim Wilkinson. "It gave him confidence and all of a sudden he became offensive instead of defensive."

LARRY KRISTOFF

Kristoff proved that, as he sought his way to the top and captured the heavyweight crown. The AAU championship and a second in the NCAA championships earned him the right to try for the World Games.

According to Wilkinson, "Kristoff has been working 7 days a week since last October. He'll work anywhere, morning or night. But he'll take time out to go to church on Sunday morning and relax."

"Ken Houston has been working with Larry and has helped him a lot. They worked all through the Christmas holidays and really knocked each other around. I think they took off Christmas day, though. I was away, but they continued to work. They'd go home after a morning workout to eat and then come back and work some more.

Kristoff seems to thrive on hard work. He runs around the lake every morning, goes to football practice from 3:30 to 5:30 and then runs over to the gym for wrestling practice until 7 o'clock.

"But he never gripes," commented Wilkinson.

KRISTOFF TO COACH AMERICAN TEAM ON JAPANESE TOUR

Jim Wilkinson, SIU wrestling coach, has been invited by the Japanese government to coach a team of heavyweight wrestlers from the United States next fall.

The team will visit Japan for about three weeks.

"The Japanese are among the world's best wrestlers at the lower weights because they have some time to grow with their great strength," Wilkinson said.

"But it is in the higher weight brackets from 175 pounds and above that they do not fare as well. So they are inviting only heavier wrestlers for this particular tour. Other heavy wrestlers will probably be invited from Russia, Turkey, Syria and Iran for a round robin tournament," Wilkinson commented.

"In many of the European countries wrestling is about the only major sport open to big men. Those countries do not play football or basketball and the big men usually turn to wrestling," he said.

The Japanese government is interested in helping to prepare these Japanese teams for the 1964 Olympic Games which will be held in Japan.

The U.S. heavy weight wrestlers will come from the athletes who competed in the AAU championships.

SIU's Larry Kristoff is eligible for the trip on the basis of his place finish at the AAU championships. But he will not try and go to Japan because he doesn't want to miss a term of school.

Faculty Bowling Leaders Upset

Industrial Education upset Athletics in the SIU faculty men's bowling league Monday night. Industrial Education's upset victory tightened the race for the team championship. Chemistry II now trails Athletics by one point with four games remaining.

Chemistry II rolled 750, 216 and 214 in their first three games, but in the final game Athletics took 750, 198 and 213 to outscore Chemistry II, 657 to 646.

The Bowling Institute, in third place with 571, 273, 189 and 220, will try and catch Chemistry II for second place. Athletics holds first place with 626, 243, 212 and 225.

Rehabilitation Institute is in third place with 571 1/2 points. Industrial Education is in fourth with 525 points followed by University Center with 50. Chemistry IIrolled the team high series with 2873 pins. Henry Villami's 852 series took the individual honors for high series.

Rehabilitation Institute's 987 game was tops among teams. Thomas Parish rolled the individual high game of 222.

"When Marj and Pete became engaged, Pete started right in planning for their future. One of the things he did was take out a College Life policy —THE BENEFACTOR.

"That was 12 years ago. Last week I read in the alumni news that Pete is gone. But Pete's planning is paying off for Marj and the kids. All of Pete's College Life insurance won't cost them one penny because . . .

All BENEFACTOR premium payments are refunded as an extra benefit if death occurs within 20 years.

"Pretty nice extra, isn't it? But this refund of premium is just one of nine big benefits you get with THE BENEFACTOR."

You get more for your money from College Life's BENEFACTOR because College Life insures only college men and college men are protected and risks.

Get the complete BENEFACTOR story from your local College Life representative.
