Saluki Cagers Win Season’s Final

* * * Exam Schedule On Page 8

The final examination schedule for winter quarter has been prepared and is published on Page 8 of today’s Daily Egyptian.

The schedule from the registrar’s office shows finals starting on Wednesday, March 11, and continuing through Tuesday, March 17.

Examinations for one and two-credit hour courses will be held during the last regularly scheduled class period prior to the formal final examination period.

New Loan Fund Established Here

Creation of a new revolving loan fund for students was announced today by Kenneth R. Miller, executive director of the SIU Foundation.

To be known as the C.A. Robertson Memorial Fund, the fund was established by the Robertson family in memory of C.A. Robertson, a native of Flora, Ill., who died Jan. 19 at Paducah, Ky.

A 1923 graduate of the Paducah Rotary Club and a member of the Boy Scouts, his four children attended Southern.

Mr. Robertson was especially interested in helping needy students," Miller said. "During most of his service on the Board of Directors he was also a member of the Trustees and Loans and Loans Committee. Because of his interest in this field we have decided to establish the C.A. Robertson Memorial Fund, which will be administered by the Foundation to provide loans to students.

MIT Biologist to Lecture

SIU Club of Sigma XI, society of scientists, will present Francis Otto Schmitt, biologist at Massachusetts Institute of Technology for more than 20 years, in a public lecture Friday evening in Morris Library Auditorium.

Dewey Amos, SIU assistant professor of geology, head of the program, said Schmitt will speak on "Molecular and Genetic Aspects of the Problem of Memory" at the 8 p.m. meeting.

Defeat Kentucky Wesleyan; Still No Tournament Bid

By Alan Goldarb

In a must game last night, Southern’s basketball team pulled out an upset victory over seventh ranked Kentucky Wesleyan at Bowen Gym, 41-77.

In the last regular season ball game for the Salukis, Joe Ramsey emerged the hero as he scored a career high of 30 points to keep Southern’s hopes of an NCAA bid alive.

Ramsey only needed four points however, the last four he put through with 54 seconds left to sew up the game for SIU in the hotly contested game which was tied 13 times.

The Salukis trailed at the intermission by four points after blowing a seven point lead with seven minutes to go but Southern roared back in the second half as Danie Warning picked up the slack that was left by Ramsey’s inability to hit.

Magazine Article Describes Saluki

The Saluki, mascot of SIU, was one of a number of relatively rare breeds of dogs mentioned in a Time magazine feature story in the Feb. 21 edition.

The story described a number of breeds that are relatively few in number in the United States.

The Time story calls the saluki “the world’s oldest dog... which appears in Sumerian carvings as early as 6,000 B.C. The Arabs call him ‘el Hoo’ the noble one, and use him to hunt gazelles. Another unusual dog men in the story is the Rhodesian ridgeback, ‘an African breed that is pouted from tail to head because his fur grows that way.

VOICE WINNER – Ludlow Hallman, standing, discusses award with Margorie Lawrence and chairman Robert E. Mueller.
This Sort of Thing Is Fine for oliveR

By John Matheson

Whatever else his scholastic or political accomplishments, Revilo Oliver of the University of Illinois may have unwittingly or politically accomplished that Revilo, spelled from right to left, comes out oliveR. In

full, the name comes out revilo P. oliveR, if one pronounces from the left and reverses the order of things. This works out quite well with a last name like OliveR. But the backward -spelling process is more successful with a last name like Birch. Who could handle a first name Birch? Or Welch spelled backwards—Helm?

This works fine with Anna. Anna.

Another possibility for examination is Rockwell. LewiR. Not so good. Smith yields itme and this is quite pronounceable.

Moving away from the far right, Coldwater spelled backwards comes out Retawdlog. This comes closer to making sense because this might work better by using the chemical symbols, Au,4 for coming up with 2 AuCl. Very close to Oahu, which is pretty far out from the mainland.

This works fairly smoothly for a name like Illini—Illih, or even Saluki—Kibah.

But for a wide range of American names the results are less favorable. Johnson—Nonshoig Dirksen—Nonshoig R. Johnson—Nonshoig B. Johnson, Nenkri Dirksen, Reuken Kerren. Nothing quite matches the ring of Revilo P. oliveR.

The precisely executed word dances, presented as though one were picking up bits of conversation at a cocktail party, were unique in their presentation as well as in their humor.

The six word dancers formed a talented sextet, and could have merited well on the first syllable alone. Mr. Ann Strathberg, Mr. Lou Randis and Barbara Bennett hardly gave the male members of the audience a chance to take their eyes off the stage, with their "attractive humor."

One of the sextet, Dave Mabry, failed to keep pace with the quick—wit—the-wit dancers. His slow—mind—hesitation provided many laughs throughout the rest of the performance, however, and his roles as Thurber and Lee's Aid and Benbow won him countless laughs. His acting seemed all he was natural for the parts.

The FOUR FABLES of Our Time were amusing stories on the morals of fables, and although they were each performed excellently, the credit must be given to Thurber himself.

Thurber's stage appearance, however, was something less than excellent. Howard Strifford as Thurber, hardly did justice to the humorist—essayist. It appeared he had misplaced his homework and was forced to read his part, in the longest and least—entertaining segment, "File and Forget," a piece he claimed to love at that.

Wally Sterling tried the same stunt in his monologue, "Nine Needles." The result wasn't so sharp; a dull lecture, in fact. He repented of his unpronounceable sin, however, with his portrayal of Walter Mitty. He was never more witty. Like Mabry, he was natural for his role.

The Lemmings flopped on stage and gave spectators a glimpse of satire, but the best piece of the night was "Eclipse". With a series of slides of Thurber cartoons, entitled "World War II in a Nutshell," the result was too funny. Unfortunately, it was too short.

The most hilarious scene was undoubtedly "Mr. Preble Gets Rid of His Wife," Howard Strifford and Marilyn Koch teamed up in comic man—wife situation which portrayed man's innocence, or should we say, ignorance.

Physical facilities of the auditorium handicapped the performance somewhat. As Shriver described Davis Auditorium: "The beautiful auditorium with a horrible 7 1/2—foot deep stage." The 63 characters were portrayed by 19 performers and if you don't think that ain't fun,"—try to fitting them onto the stage, said Shriver.

The technical elements—such as costumes—were purposefully kept to a minimum and their simplicity further emphasized them into an attractive and useful set.

The over-all performance was delightful and successful in presenting the campus audience with a new and welcome type of theater.

by Ric Cox

U-n-eat. That's the word for "A Thurber Carnival," presented last weekend by SIU's Interpreter's Theatre.

Logic will tell you that you can't combine poor facilities, ill-prepared performers and a slow-moving act into a successful production, but your attendance at the Thurber Carnival would have told you differently.

Despite the above—mentioned faults, the come-to—life caricatures and essays of James Thurber gave members of the audience an enlightening and entertaining glance at themselves and their fellowmen.

The unique style of presentation, a mixture of oral interpretation and full—scale theater, effectively delivered the humor of Thurber, and when combined with a talent cast, produced a laugable evening.

As director Gary Shriver had noted earlier, "If they come to laugh, that's fine. But the thing is, there's something deeper.

And that's the part we enjoyed most. Nothing is more pleasing than comedy, than to discover that learning can be fun. And laughing at oneself was, in my opinion, the most enjoyable part of the evening.

THE PRIZE WINNERS

By John Matheson

Getting Rid of His Wife. Loyd Jones of Davenport, Iowa, was the large prize winner.

Third Place went to Jack E. Howard of Mentor, Ohio, for his essay on "Peking University and Its Students in the United States.

A special award for "Best Personal Essay" was given to William R. Mabry of the Geophysical Union, for his essay on "Project Mohole.

The "Most Original" award went to Howard Bell of the United States Geological Survey, for his essay on "Project Mohole.

Texas Court Refuses Test on TV Jurors

AUSTIN, Tex. — The Texas Supreme Court refused Monday to hear arguments that television viewers who saw Jack Ruby shoot Lee Harvey Oswald in the murder trial of the Dallas night club operator.

A representative for Ruby’s legal counsel asked the court for a hearing on an order that would ban a prospective juror who saw the shooting on television.

The request for the hearing was presented by William H. Sullivan, an attorney and a professor at the Southern Methodist University School of Law.

U.S., Panama Resume Talks

WASHINGTON—The United States and Panama have resumed secret talks aimed at solving their controversy over the Panama Canal, a qualified Latin-American source reported Monday.

A meeting between the two nations’ ambassadors to the Organization of American States, Ellsworth Bunker of the United States and Miguel G. Moreno of Panama, took place over the weekend at the Panamanian Embassy, the source said. Ambassador Juan Plare of Panama heads a five-member OAS delegation sent to investigate the spot Panama’s charge of aggression by the United States.

Malaysia Fears Indonesian Attack

KUALA LUMPUR, Malaysia—Prime Minister Tunku Abdul Rahman declared Monday that Indonesia is mounting “acts of physical aggression” against Malaysia and hostilities may break out any time.

Rahman referred to the grave situation along the 900-mile frontier between the Malaysian states of Sarawak and Sabah, and Indonesia on the island of Borneo.

“The acts of physical aggression mounted under the guise of a ‘conference’ could explode into a disaster of major proportions,” Rahman told the opening session of the Council on World Tensions, a group of private citizens from 18 nations in Asia, Africa, Latin America and the United States.

Cyprus Debate to Resume At U.N. After Weekend Talks

UNITED NATIONS, N.Y.—U.N. Secretary-General U Thant reached a crucial stage Monday in diplomatic talks on his plan to ease the crisis on Cyprus.

Thant brought British delegates, including Prime Minister Sir Edward Heath, and Cypriot Foreign Minister Spyros Kypriacos together for the first time since the 90-minute Sunday conference in his office.

U.N. sources said Thant had reached a “difficult stage” in his efforts to get agreement on an international peace force for Cyprus.

The Greek Cypriots said they were preparing to repel threatened invasion from Turkey, 40 miles off the island’s north coast.

Turkish Cypriots said they were getting ready to repel a Greek attack.
Priest From Ireland, Via Africa, Studies at SIU
Journalism Work to Assist Nigeria Church Publication

The Rev. John Ralph was preparing to begin Mass in a mission church in Nigeria. He was following the altar boy through the sanctuary when the boy paused; the priest stopped to see what the boy was looking at and Father Ralph then noticed the snake over which they were to pass.

This was but one of the recollections of the Irish priest who is now a student at SIU. He is a product of boyhood and preparation for the priesthood started at boyhood. Nearly 70 years later, Father Ralph, 68, and his service since 1955 as a missionary in Nigeria.

He has traveled over the entire United States, where he is taking advanced work in journalism at St. Louis University. The purpose is to afford him training in church-publication work.

Father Ralph was born in Newtoworneys, County Longford, in the central area of Ireland. He described it as a small village where he grew up. He attended school there and included two brothers and two sisters; their father was a government official.

He said his vocation for the priesthood started at boyhood, and after completion of his secondary education at age 18, he entered the seminaries of Ireland.

In 1929, he described the seminaries as places where everyone was a student.

Father Ralph said his vocation for the priesthood started at boyhood and preparation for the priesthood started at boyhood.

He was ordained on Easter Sunday, April 10, 1955, and said his first Mass in his home church.

Later that year, he was assigned to Nigeria.

His first assignment was to be a parish priest with two other priests; later he was appointed to another parish.

The area he was given his assignment was about 35 square miles of relatively primitive area that did not conform to his pre-conception of jungle.

"We call it the bush, as distinct from being in town," he explained. This was Nigeria very flat, and largely covered by palm trees, he said.

His section included about 20 villages with a population ranging from 300 to 2,000; mission churches had been established in 17 of the 20.

The churches were largely constructed of mud and bamboo, with mud roof made from palm tree leaves.

Of the parish which father Ralph supervised some problems for Father Ralph. Each month, he organized what he called "a bush tour" and this was first by motorcycle and later by Volkswagen. He attempted to reach each of the 17 churches at least once a month.

His parishioners learned English in school, but Father Ralph had to know enough of the native dialects for use in the confessional, for example, and for other purposes.

However, he delivered his sermons in English. He was aided by an interpreter and he pointed out that his homilies had the effect of doubling the length of the sermons but the people didn't mind.

Sociologically, the people were nomadic in the remote areas that included numerous elephants, monkeys, leopards and many snakes, and insects.

These are part of the story. For example, Father Ralph recalled another priest who had married Mass when he was attacked by a swarm of insects. The priest had to leave and rid himself of them.

On another bush tour, he slept during the night on a canvas cot. When he awoke in the morning, he discovered a snake under his bed.

At one time, he was also administrator of six schools with about 50 teachers. Part of the work involved paying the teachers.

He was introduced to publications work in 1961, when he was sent to a post community in Nigeria to relieve the priest-editor, who went on leave. He returned home on leave in Nigeria.

In addition to his temporary editorship of the magazine, "Catholic Life," Father Ralph handled incidental duties. One of them was the chaplaincy at a prison, where he attended a number of executions by hanging.

In 1962, Father Ralph went home on leave, but he returned in 1963 to relieve another priest stationed in a remote area. After three months there, he was reassigned to "Catholic Life" with parish duties on the weekends.

Nearly Ton of Mail Distributed Here
Each Day by Campus Post Office

Everyone knows the code of the mailman: "The mail must go through." Sunny or rainy, snow or bright, it makes no difference, and the SIU student mailmen are no exceptions.

Managed by three civil service employees and 32 student employees, including 15 mail carriers, the SIU Post Office handled 10 to 15 tons of mail a month.

Each day at 8 a.m. and 6 p.m., the SIU post office receives its mail from the Carbondale post office. The mail is sorted and distributed among carriers on nine routes, eight on campus, and one at VFL.

According to Mrs. Katherine McClusike, mailman service supervisor, one of the biggest problems is that people fail to address campus mail completely.

"Sometimes, enough dogs don't come when a parcel is delivered," she said.

The mailmen are never outnumbered, with the current staff amounting to 15 men.

The student mailmen delivering the mail don't have to walk more than half a mile to reach most dorms.

Panic-stricken, he went inside the office to see if someone had taken it. The mail was there, but no one had refused to give the poor mailman his sack of mail.

Finally, one of the supervisors of the post office was called in to get the mail back. After a lengthy discussion, the supervisors finally consented. He was "protecting government mail."

"From the mailman?"

Running Debate on Shelley, Etc. Goes Another Round

After reading the lengthy somewhat tearful reprimand by the learned member of the English Department, "In Support of the SPU's Request Here Would Shuckle Shelley," Feb. 19, I became quite convinced that the author ideed be the soul of wit. With this position, I shall con­fine my comment to three brief points.

First, I was stunned at the gentleman's comment that I had barged into a com­mittee meeting. To base, according to Webster's Inter­national Dictionary, means to thrust or to juggle. I must assure my well-meaning anti­agonist that I did not thrust or juggle myself into a meet­ing which might have damaged school property. I merely opened a door and left after a brief request for assistance.

Secondly, the purpose was merely to see if the example of Shelley's writing would have been continuous to him in English 101 had he taken the course here at SIU. Since the English department writer would not have passed, it created some doubt as to the English ability of the students. To have stated this purpose before hand would quite certainly have ruined the results. When the an­swer was given, the response of the student were simply reported as facts. I certainly would not have done so had I been told that the eminent instructor was about to make some "spontaneous, barbed remarks."

Finally, the results indi­cated that poor Miss Shelley has failed English 101, and I further believe that some future "John Safeguard" might show his light of inspiration smudged out by a similar dogmatic brand of failure. However, because of his statement of criticism I hold the instruc­tor in high regard even though his verbose indictment showed an expression of logical, critical, and objective thinking.

David Hansen

Our high school principal has a rule that students are not to run to get in the lunch­room line. They don't exactly enforce it, but there was a new gate, between a trot and a fast walk--guess you'd call it a "trot walk." (Ark.) News Observer

Letters to the Editor

Public Right to Question

I must congratulate you, Mr. Clark; you have shown not only ability to read the printed word, but also the power to interpret the printed word. The only phrase and catchword "(Motives of Peace Union in ROTC Issue Defended," Feb. 19, are meaningless to the student's own, "wholly irrespon­ sible," and I must add another, "ridiculous." It seems strange that your "smeary" statement of defense of the Peace Union members who were "working for the abolishment of compulsory ROTC"--alone were so insignificant and so dedicated that Bill Moore had to force their resignation (and yours, Mr. Clark,) on grounds that "they were giving the CACR a bad image." Strange how those insignificant four members almost brought the Committee to Abolish Compulsory ROTC by their mere presence.

Your "smeary campaign"

Gus Bode

I know why I was not able to read the printed word, but also the power to interpret the printed word. The only phrase and catchword "(Motives of Peace Union in ROTC Issue Defended," Feb. 19, are meaningless to the student's own, "wholly irrespon­ sible," and I must add another, "ridiculous." It seems strange that your "smeary" statement of defense of the Peace Union members who were "working for the abolishment of compulsory ROTC"--alone were so insignificant and so dedicated that Bill Moore had to force their resignation (and yours, Mr. Clark,) on grounds that "they were giving the CACR a bad image." Strange how those insignificant four members almost brought the Committee to Abolish Compulsory ROTC by their mere presence.

"The world owes you its thanks..."

"The world owes you its thanks..."

H. B. "Max" Rosen

"I have a magic wand and could grant Southern Illinois University anything you wished, what would you request?"

That question, put to student leaders last month by members of the new accreditation team from the North Central Association of Colleges and Secondary Schools, came to mind Frid­ay. Henry Dan Piper, dean of the College of Liberal Arts and Sciences, was analyzing the reasons why SIU was de­nied a charter of Phi Beta Kappa.

Lack of student interest in the organization was a major factor, Dean Piper says.

At the earlier North Cen­tral meeting students had sug­gested the usual improve­ments--faculty salaries, re­search opportunities, physical facilities. A significant point, however, was that which one young lady made. A worthy use for the accreditors' magic wand would be to inspire greater student interest in the organization as she suggested.

We grant you--student moti­vation is a subject as fre­quently discussed on college campuses as student art--and probably with even less result. A glance through exchange newspapers from other cam­puses or through old files of the Illinois State Journal and New­spaper writers elsewhere be­moaning the same sin.

However, there are grounds for the criticism of student motivation at SIU. A tale circulated on campus at the time the Phi Beta Kappa team was here indicates the student body may quietly agree. The team reportedly had waylaid a student returning late from ear­ly Playhouse.

"Where is the Library?" they asked. The student re­plied that he did not know. Whether or not the student is true is unimportant. That students could tell--and perhaps wereomer--such a thing about each other is a matter of minute, perhaps, but telling: the

Touted Hoosiers Dunk Salukis, Register 38th Straight Victory

By Richard LaSusa

Double victories by Southern's Thom McAneny and Darrell Green were chalked -up in vain here Saturday, as Indiana's high -powered Hoosiers easily downed SIU's swimmers, 57-38, before one of the largest home crowds in Saluki swimming history. More than 400 persons packed the 200-seat University Pool, which watched Indiana's classy defending Big Ten champions sweep six of 11 events and hand Ralph Casey's Salukis their first dual meet defeat of the season.

The story of the meet, in which six new pool records were established, was Indiana's overwhelming depth and Southern's lack of it. Four of the Hoosiers' five individual victories were registered by reserve swimmers.

SIU's McAneny was one of the stars of the meet as he won both the 200 and 500 -yard freestyle events and anchored the winning freestyle relay team. The big sophomore from Chicago's Beverly Beach, 21, turned in a time of 1:46.7 for the 200-yard, and pool mark of 1:47.6 set earlier this season.

Green added to the Saluki cause by winning the 50 and 100-yard freestyle races and swimming a leg on the winning 400 -yard freestyle relay team, which recorded a time of 3:20.3 to eclipse the old pool record of 3:22 set by Michigan in 1962.

The top individual performances turned in by the Hoosiers were by Fred Schmidt in the 200 -yard butterfly and Ralph Kendricks in the 200 -yard individual medley. Schmidt smashed the old pool butterfly mark of 2:01.8 by swimming the distance in 1:56.5, while Kendricks swam the medley in a quick 2:01.5 to break the pool mark of 2:02.6, set by SIU's Jack Schultz earlier this season. Schultz placed second in the event Saturday.

Indiana's Tom Trecheway also won the 200 -yard breaststroke in 2:16.1 for a new pool record, while the Hoosier medley relay team logged a record time of 3:41.2 to break the pool mark of 3:41.3 established by Minnesota in 1963.

Saturday's meet closed the regular season for the Salukis. A varsity - freshman meet is set for March 7 as a tuneup for the NCAA championships Friday and Saturday in Los Angeles. The meet is set for March 7 and 8.

Chicago Meet
To End Season

Southern's undefeated freshman swimming team will travel to Chicago to meet Fenwick High School this Saturday. Previously it had been incorrectly announced that the meet was scheduled for last Sunday.

Saturday's contest will be the final dual meet of the season for the Saluki swimmers.

Zoology Seminar

Thomas R. Glushon of McLeanboro will talk on "The fish in the Graduate Zoology senior seminar slated for 4 p.m. Tuesday in Room 205 of the Life Science Building.

Gymnasts Romp to Victories Over Two Colorado Schools

The largest crowd in the history of University of Den­ver gymnastics witnessed the first loss of the Pioneers in four years -- after 34 straight victories -- Saturday night.

Southern's gymnasts ad­ ministered the blow in the partisan crowd of 3,500, as the Salukis extended their own victory streak of three years to 26 by winning, 61-50.

The Salukis had an easier time the next day in Boulder, as the skeleton squad of only five performers man­ handled the University of Colorado, 66-46.

In capturing their seventh and eighth wins of the season, the Salukis captured 12 of the 14 events, with the two losses coming in the only two events Bill Meade did not enter his squad, the trampoline.

Ralph Mitchell and Bill Wolf had field days, as Mitchell racked up five blue ribbons and Wolf four. Mitchell took both free exercise events, both parallel bar events and added a first in the parallel bars against Denver.

Wolf took both high bar and still rings competition while his brother Dennis took the parallel bars against the Buffaloes Friday night.

Steve Pustemak was the other first-place winner for Saluki, with two wins in the side horse events.

SIU SWIMMERS WHO COMPETED SATURDAY WERE (LEFT TO RIGHT) THOM MCAZZENY, SKIP GREEN, JACK SCHULTZ, TED PETRAS, AND DAVE WINFIELD.

GSA 101, 102, 103.......................................7:50
and Wednesday...........................................7:50
Classes which meet only on Monday night.
Examinations will start at same time as the class sessions ordinarily start.

General Examination Information

Examinations for one and two-credit hour courses will be held during the last regularly scheduled class period prior to the formal final examination period. Three, four, and five-credit hour courses will meet at the times listed above.

A student who finds he has more than three examinations on one day may petition, and a student who has a regularly scheduled examination at one time should petition, his academic dean for approval to take an examination during the make-up examination period on the last day. Provision for such a make-up examination period does not mean that a student may decide to miss his regularly scheduled examination and expect to take it during this make-up examination period. This period is to be used only for a student whose petition has been approved by his dean.

A student who must miss a final examination may not take an examination before the time scheduled for the class examination. In the event a student misses a final examination and is not in situation covered in the preceding paragraph, a "W" followed by the number of credit hours must be entered on the grade report by the instructor. A "W" grade must be completed within one year of the end of the term involved; otherwise, it must remain as an incomplete grade.

A special note needs to be made relative to examinations for evening sections for those classes which have been granted special time for examination all sections. As some students attending at night may not be able to attend the regularly scheduled examination period scheduled for the daytime, each department will make specific examination periods for such students. This problem involves those night students who are employed during the day and who are taking night courses because it is the only time they are able to do so.

Baseball Squad, Yet to Drill

Outside, Faces March Opener

Coach Abe Martin is hoping for some cooperation from the weatherman to allow his Saluki baseball players to get outside for practice before the start of the 1984 season.

The team is currently practicing indoors, but Martin says the team will be outside for practice as soon as the weather permits.

Left without a baseball diamond in Carbondale, the Salukis will play their home games at Riverside Park in Murphysboro. Chautauqua Field, the former home of the Salukas, has been torn up to make room for the new Communications Building. Thompson Field has been repaved with construction of the Technology Building now going on off the field.

When warm weather returns, the Salukis will practice at the city reservoir in Carbondale.

The Salukis begin their season over spring break when they leave Carbondale March 17 for southern trip. The team will open the season in games against the University of Houston on March 19, 20 and 21. They will wind up the southern jaunt in the Lone Star State with games against Sam Houston State College on March 25, 24 and 25.

The first home game will be March 28 against Illinois State.

Little Pigs Cut Out Menu

SANDWICHES
