Hearing Planned For Today On IC Train Suspension

Students have the opportunity to voice their opinions on the proposed elimination of six Illinois Central trains to St. Louis during an Interstate Commerce Commission hearing scheduled today. Those who want to testify may sign up beginning at 7 a.m. in Room II of the University Center or beginning at 7:15 a.m. in Room 102 of the Agricultural Building. The hearing will begin at 9:30 a.m. in Muckelroy Auditorium. Members of the group shown left to right are Howard Brown, Judith Nelson, Robert Heinrikson and David Eisenbad. The concert will be sponsored by the University Department of Music. Admission is free to the public. (Photo by Steve Mills)

Race Relations Bill Discussed

The Senate has asked its finance committee to "draw a line to allow students' spouses who are not in school to participate in University activities." The Senate has decided to establish the plan was passed Wednesday night and seeks a means for the non-student spouses to pay the SIU activity fee and receive an ID card. The bill says that at present the non-student spouses are excluded from many activities or must pay a high price to participate.

The Senate debated for more than 30 minutes on a bill concerning "race relations and the role of the Senate and white students." The bill cited racial discord as "the result of centuries of white oppression and white ignorance." The bill was amended to remove the references to whites, but adjournment was voted before final action could be taken.

The Senate hearing committee was directed to publish a booklet housing available to students. The booklet would include a variety of facts, impressions of former residents, and observations of Wilson to Discuss Theater's Function

Kendrick Wilson, visiting professor in the Theater Department, will discuss "The Function of the Theater in Society" at the Cardonale Theater on Sunday, February 26th at 1:30 p.m. Wednesday.

Wilson, who is presently on the University of Nebraska faculty, is a nationally recognized authority on community theaters.

SIU Security Office Serving As Depository for Funds

The SIU Security Office is now being used as an overnight depository for University funds collected too late for deposit with the Bursar.

Any SIU office or organization may use the service by bringing the money to the Security Office, which is located at Washington Avenue and Park Street, or, if large sums are involved, by calling the office for transportation assistance.

Security officials emphasized that the service is for overnight deposit only and all funds must be taken to the Bursar's office immediately the next morning for regular deposit.

IN ENSEMBLE RECORDS—The Solo Ensemble of the College Musician of the University of Chicago made a recording Thursday on campus that will be produced by the University Press. The group will present a concert at 8 p.m. tonight in the Home Economic Auditorium. Members of the group shown left to right are Howard Brown, Judith Nelson, Robert Heinrikson and David Eisenbad. The concert will be sponsored by the University Department of Music. Admission is free to the public. (Photo by Steve Mills)

Grant to Support Braille Inventory For Youngsters

Development of a Braille Information Reading inventory for blind children in grades one through six will be supported in part by a federal grant of $26,000 just received by SIU from the U.S. Office of Education.

The project, which will take three years to complete, will be headed by Allen Berger, assistant professor in the SIU Reading Center.

Existing standardized tests in Braille are achievement rather than diagnostic instruments, Berger explains, and the new HRI will for the first time provide a means of obtaining certain information about the reading strengths and weaknesses of blind children which can not be mined by tests now in use, Gus Bode

R. Buckminster Fuller Gets Royal Gold Medal

LONDON (AP) — R. Buckminster Fuller, 72-year-old American architect who built the giant dome for the U.S. Pavilion at Expo 67, has been awarded the 1968 Royal Gold Medal for architecture by Queen Elizabeth II. It was announced Thursday.

The award, recommended by the Royal Institute of British Architects, is for the promotion of Fuller, research professor of design at SIU, has lectured around the world on his philosophy of structures, examples of his new system—which he calls tensegrity structures—were exhibited in New York's Museum of Modern Art.

He is probably best known for his geodesic dome forms—made of metal, glass or cardboard—which he uses to create the largest possible enclosed space in relation to the surface area. The domes characterized the U.S. Pavilions at World Fairs in Montreal last year and at Kabul, Afghanistan, in 1966.

The medal will be presented to Fuller by Institute President Sir Hugh Wilson June 18,
Forestry Article Published

Dwight R. McCurdy, assistant professor of forestry at SRI, and Herbert Eichelberger, Health Education Club Organizing

A pre-professional organization for majors and graduate students in the departments of Health Education and Health Science is in the process of being organized.

The meeting will be held at 7:30 p.m., Tuesday, in Arena Room 124, for the purposes of getting acquainted and organizing.

Arrangements will be made for all health majors to be excused early from Tuesday night classes.

Coeds May Tryout For WSIU Radio

All SIU coeds are invited to audition Saturday at the radio station from 9 a.m. to 5 p.m. for a full day celebration of leap year which will be held Thursday over WSIU (AM).

H. William Haines, student station manager, said coeds will operate the equipment, announce and host all programming for one day. Girls will even write, edit, and present the news. Haines said, 'Neo-Nazism' Will be Topic of Jewish Confab

A discussion on the subject of 'Neo-Nazism' will be sponsored by the Jewish Student Association at 10 a.m. on Sunday at the Holden House, Bldg. N, Washington.

The discussion will be lead by Sinai Appleton of Murphysboro.

Daily Egyptian

The article is based on the author's study of arrangements for leasing private rural land in Illinois for recreational usage. McCurdy also participated in the Rocky Mountain-high Plains Park and Recreation Conference at Colorado State University, Fort Collins, Tuesday to Friday. He served on a discussion panel and conducted a study with representatives of the U.S. Department of Interior's National Park Service and the Colorado Forest Research and Education about the groups' cooperative study on carrying capacities of national parks.
Radio Concert Will Feature Beethoven, Brahms Selections

The Festival Quartet and The Budapest String Quartet will play Beethoven and Brahms selections on Chamber Concert at 6:35 p.m. on WSUI(FM).

**Letters**

**Why Take Grad Students?**

To the Daily Egyptian:

In reference to the recent enlightening by the head of the Selective Service System concerning the insanity of obtaining a Ph.D. degree, it is only fitting that those of us who are working toward or have attained that degree should re-examine our academic heritage.

Before Mr. Hershey's proclamation on the worth of graduate education, it would have been unthinkable that graduate schools would be so optimistic, so deceptive and so ruthless as to foster in us graduate-students the motivation to attain a Ph.D., a degree which we have now been advised is unnecessary and which has here-tofore stood in the way of our development as military men.

It is even more alarming to note that we, the future academia of America, were not able to realize as Mr. Hershey did that "Henry Ford didn't have a Ph.D." and to draw the subsequent obvious conclusion that we, too, could be successful without the cumbersome ordeal of five years of graduate education.

**William G. Dryer**

**Did Not Sign Committee Letter**

To the Daily Egyptian:

In the Feb. 13 issue of the Daily Egyptian, a letter was published which was supposedly signed by me. I had never seen the letter until it was published.

Although I agree with much that the letter said, I do not give it my full support. I wish to have my name retracted from the letter.

I also wish to suggest that more care be taken in the future to insure that no letters are published in the names of others who have nothing to do with them.

**Letter from Lenti**

**Egyptian, Obelisk, Social Rules**

To the Daily Egyptian:

I would like to take this opportunity to discuss two current student government issues with you. These two issues are the use of activity fees to support the Daily Egyptian and the Obelisk, and social rules.

The Egyptian has contended that we want to cut fees to end the paper. This is not true. Our goals are positive. We simply want to make the Egyptian a student newspaper.

At present the Journalism Department picks the staff and establishes the tone of this campus newspaper. Most American campuses have student-run student newspapers. This is true at Illinois and Harvard, for example. You pay for the Daily Egyptian with your activity fees. Why shouldn't students run the newspaper?

We are asking only to name a student editor and a majority of the editorial board through an impartial board selected by the student senate. The Egyptian, therefore, would be three levels removed from political control. It is now questionable whether the paper is at all removed from such control. Some contend that the paper's quality would be hurt. This assumes that there are not among the 15,000 non-journalism students on this campus as many qualified writers as there are among the less than 600 Journalism students.

How many of you have seen inaccurate coverage in the present Egyptian? There is no reason, then, to assume lesser performance under a student-journalism department system of cooperation. The Egyptian should be a free paper under these circumstances. We have only asked for this change to make a student-financed paper a student-run newspaper. That is so much.

The issue of the Obelisk is simple. Again, we are not asking for an end to the Obelisk, but simply a financial change. At present, every student pays for the Obelisk whether he is a senior or not. Student activity fees (your money) finance the paper. The student may then buy the paper at a lesser cost. The point is simple: those who do not want an Obelisk should not have to pay for it.

We want a simple sale of Obelisks to all students who want them without subsidization by the students who do not want them. In those ways we hope to save student money for projects, especially educational projects, which benefit all students.

The question of social rules is one which affects most, if not all students. Frequently we are furthering two proposals—one a student judiciality proposal and the other a student conduct review board proposal, which give student control over issues from social lives.

These proposals establish student courts with exclusive and final jurisdiction in all cases of honor that come to the courts. The second will give students the final power over a procedural change to make rules themselves. We are seeking to help them use such measures which are crucial for education and learning. More student Senate action is needed.

**Should Have Reviewed Play**

**To the Daily Egyptian:**

Once again you have demonstrated that the present managers of the Egyptian are incapable of adequately or accurately covering the activities of a great, modern university.

The theater of the Egyptian is reviewing its performance of the Play Off Who Lasts the Longest. It is important to know that this review was not made by the department of direction. It was the review of a professor who was not familiar with reporting on plays. The newspaper's error is that the student's article, Oliver Douglas, special sets shows a lack of comprehension of what a university's newspaper should do.

This was one of the most important artistic events to occur on campus in recent years and the many people who attended were naturally eager to hear the professional reviewer's comments, as were the people who put so much effort into making this an important event. It was that. You chose not to report it and published an article written by both groups of your readers.

**William Howard Cohen**
Peace at Stake

Hunger Is the Enemy

By Anmero Pietila

This is the story you don't see on the front page of your daily newspaper. Again today, an estimated 10 to 70,000 people will die of hunger. Two thirds of the people of the world will go to sleep tonight undernourished.

The UN estimate puts the world population at 5.4 billion. By the turn of the century it is believed it will reach 6.8 billion.

More ominous is that 5.4 billion of the 6.6 billion in the year 2000 will be living in what we call "developing" countries, as compared with the 2.5 billion living there now.

World population growth has been heaviest in the developing areas and is considerably larger than projected increased food production. By the year 2,000, the population of Latin America is estimated to grow 194 per cent. The figure in Africa is 181 per cent, in Asia 99 per cent. The figure in the United States 78 per cent, and 24 per cent in Europe.

900 Million Children

There are some 900 million children under the age of 15 living in the world today. Half of them will starve to death.

The population structure of the world is changing even more disadvantageously. This is a somewhat natural consequence of new medical and public health programs.

A marked reduction has occurred in the infant death rate. The world population is increasing younger, with higher proportions in the lower age categories and that place a heavy burden on educational facilities.

Mankind Losing

The UN Food and Agricultural Organization warns that mankind is losing the race between population growth and food production.

The agency estimates that human need is 25 grams of albumen a day. In India and Red China the people get six grams a day, in Peru 14 grams, in Egypt and Pakistan 11 grams, and in the Congo five grams.

It is ironical that the main industry of most countries suffering from undernourishment is agriculture. But primitive tools, lack of fertilizers, prejudices deriving from ignorance, conditions of land ownership bar development.

In past years the United States has poured more agricultural aid into developing countries than any other nation. Now, even this aid is decreasing drastically because of domestic economic problems and war in Vietnam.

In theory, the revolutionary population growth could be stopped or mastered by birth control. In practice, however, hunger, illiteracy, unemployment, poverty, and ignorance are fatally allied with traditional moral and religious taboos and prejudices against the use of contraceptives.

Birth control on a larger scale is only today becoming possible and accepted in the industrialized Western world, where overpopulation and undernourishment are not such problems.

There is going to be enough space in this globe for the 6.6 billion people in 2,000, but in order to feed those people, food production in the Far East must be more than quadrupled. In the Middle East and Latin America it must be tripled and in Africa doubled.

Peace Corps Helps

The United Nations with its special agencies is doing a tremendous job in trying to make tomorrow brighter. Much of this work is invisible and lies in the shadow as focus usually is on UN headquarters in New York. The U.S. government sponsored Peace Corps is doing a dedicated job, too.

But in spite of these efforts, the gap between rich industrialized nations and the have-nots is widening. For many observers, the UN Conference on Trade and Development in Geneva, in 1964, served as an eye-opener of what may happen if this gap cannot be bridged.

In the fiery discussion in Geneva, many representatives accused the developed nations of overspending money on military rather than on economic assistance. The developed nations were also charged with neglecting the problems of the developing ones.

Impels to Revolt

Currently, the second UNTAG conference is meeting in New Delhi. When Mrs. Gandhi opened it this month, she said:

"Peace cannot be ensured in this world unless we erase the harshness of the growing contrast between the rich and the poor.

"Unless we sense the urgency and use our energy to eradicate the economic cause which make for conflict, men and women will be impelled to revolt, and to use violent means to bring about change."

Human needs are an estimated 2,600 calories a day. Again tonight, only 38 per cent of mankind goes to sleep nourished; for 42 per cent it is the same old growing lullaby of hunger and 20 per cent may die of hunger or disease caused by it during the night.

Yet, even they may have ended their day praying, "Give us day by day our daily bread."
Robert Ross
Banquet Talk
Will Feature
Ad Assistant

A Chicago advertising specialist will be the featured speaker tonight at the annual Advertising Recognition Week banquet at the Ramada Inn, Marion.

The 7 p.m. banquet is the climax of the 1968 Advertising Recognition Week on campus. The event is sponsored by members of Alpha Delta Sigma and Gamma Alpha Chi, national professional advertising fraternities for men and women.

The guest speaker, Robert Ross, is a vice president and assistant to Leo Burnett of Leo Burnett Company, Chicago advertising agency. Prior to his present position, Ross served as creative director for the agency.

Before moving to Chicago in the early 1960's, Ross owned and operated his own agency in New York. He is chairman of the central region of the American Association of Advertising Agencies and a member of the national board.

Speakers Program
To Sponsor Talk

By Nazi Leader

Matt Koehl, head of the American Nazi Party will speak at 7 p.m. Monday in a ballroom of the University Center. His topic will be "National Socialism vs. Democratic Decadence." His appearance is being sponsored by Student Government through its controversial speakers program.

Koehl took over leadership of the American Nazi Party after Commander George Lincoln Rockwell was assassinated Aug. 25. He previously was national secretary.

Koehl joined the Party in 1960 and was manager of the Chicago office before becoming national secretary.

A biography states that he was previously a member of various right wing organizations, but left them because he was dissatisfied with the "political cowardice and lack of uncompromising commitment to National Socialist principles..."
Kappa Alpha Psi

Sweetheart Coronation Set

Sweetheart of the Kappa Alpha Psi social fraternity will be crowned Saturday night at the 17th Annual Sweetheart’s Ball to be held at the Travel Lodge Motel in Marion.

The retiring sweetheart, Miss Hazel Scon, will crown the winner. The candidates include Sherry Brame, Sheila Brooks, Paula Cunningham, Merle Samuels and Rosalyn Garne. They are all sophomores from Chicago. Other candidates are Celestine Johnson, a junior from Chicago, and Marie Dupigny-Leigh, a graduate from Marovia, Liberia.

Tickets may be purchased from any associate of the fraternity. Transportation will be provided by SIU buses leaving the University Center. Contact the house for further information.

LBJ Submits $10.4 Billion Cities Program

AUSTIN, Tex. (AP)—President Johnson attacked "the crisis of the cities" Thursday with a $10.4-billion package of help for low-income housing and anti-poverty programs. If the program goes through in its entirety, the eventual price tag might run to $30 or $35 billion, some officials believe.

Some of the program was new, some of it old. All of it was pulled together in a massive, complicated message to Congress that was nearly twice as long as the one the President delivered on the State of the Union last month.

Again, Johnson called for boosting income taxes through a 10 percent surcharge, this time on grounds that "soaring interest rates will cripple the home-building industry." And the tax boost will help prevent this because it is anti-inflationary.

Johnson also asked Congress for a new housing and urban development act that would write "a charter of renewed hope for the American city" and set a goal of building 26 million new homes and apartments in 10 years. He said, "This will meet a serious national need."

Six of the 26 million homes would be subsidized by the government, in part at least. They would replace what the President called "the shamefully substandard units of misery" where more than 20 million Americans live. Private industry would get documents to build the other 20 million units.

One facet of the presidential program for cities is aimed at "red lining" practices by which some insurance companies mark off slum areas and refuse to insure property and businesses of the residents.

Johnson called for companies and states to set up pooling arrangements to spread the risks.

McNamara Makes Public
Tonkin Gulf Testimony

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara ordered Pentagon security censors Thursday to clear rapidly his controversial testimony on the 1964 Gulf of Tonkin incidents for prompt public disclosure.

Sen. J. W. Fulbright, D-Ark., chairman of the Senate Foreign Relations Committee, urged speedy release of the transcript of McNamara’s give-and-take with senators over the questioned North Vietnamese attacks on two U.S. ships.

The incidents prompted the United States to launch reprisal air attacks on North Vietnamese bases and were a prelude to major U.S. intervention in Southeast Asia.

McNamara presented a prepared, 21-page statement to the Senate panel Tuesday, but Fulbright said later the defense chief failed to demonstrate the American ships were attacked Aug. 4, 1964.

As is routine, the transcript of McNamara’s answers to questions had to be submitted through the security review process to glean out intelligence.

McNamara directed that it be sanitized “on an expedited basis.”

Brass Questions Value
Of Khe Sanh Bombing

KHE SANH, Vietnam (AP) — Some U.S. Marine officers question the effectiveness of the massive aerial bombing campaign that is supposed to give them the upper hand against a 40,000-man enemy force encircling this combat base.

Despite what the Air Force calls the greatest bombing campaign in history, Communist truck convoys still are moving through Laos and into South Vietnam with ammunition and supplies for the North Vietnamese forces.

Supply trucks have been spotted as close as two miles from the Khe Sanh base. Scat-built tanks also have been seen in the same area. Some have been destroyed but many remain.

Aerial bombardment and re-supply of the encircled base is the cornerstone of the U.S. Command’s defensive plan for the Khe Sanh area where 5,000 Marines and 500 South Vietnamese troops are dug in.

We have been a major factor working against the Air Force, Marine and Navy planes attempting to support Khe Sanh. During one four-day period, no bombers could make visual runs in the area. They were forced to bomb by radar based on sketchy intelligence.

The Pentagon said the transcript was received at 10 a.m. Thursday and a team of security review specialists went to work on it immediately.

“The security review process will be completed today so that the entire transcript, with only the deletions necessary to safeguard intelligence collection, can be released promptly by the committee,” a Defense Department statement said.

However, the actual release time will be set by the committee.

A committee source said the transcript will not be released before next week, after committee members have had a chance to review it.

McNamara gave rather elaborate detail in his prepared comments as to whether the Aug. 4 attack on the U.S. destroyers Maddox and Turner Joy had indeed occurred.

This, a second incident, was a key one. McNamara said the administration had not re-called against the North Vietnamese when, two days earlier, the Maddox was attacked because “we believed it possible that it had resulted from a miscalculation or an error in action of a local commander.”

Fulbright said, however, that McNamara and McGeorge had engaged in “selective declassification” of certain secret information to show only one side of the story.

Is There Really a Colonel Sanders?

Many people who are regular consumers for “finger lickin’ good” Kentucky Fried Chicken have asked if there is a real live person who is Colonel Sanders. The answer is “yes”! He is the only living food image in the country.

Many food companies have used images to trade mark their product—Aunt Jemima, Col. Morton, Betty Crocker. Ann Page is no different. But Colonel Harland Sanders is really unique because he, unlike the others, is a self-styled Colonel. He lives in a beautiful colonial Kentucky home in the heart of the Blue Grass State.

In franchising his “Kentucky Fried Chicken,” his own secret recipe was franchised to restaurant operators and he personally trained the United States and demonstrated exactly how to prepare his “finger lickin’ good” chicken. He showed them how to use the special colonel’s U.S. Grade A Government inspected chicken, to inspect, clean, and tenderize the birds. He showed them a pressure fryer, for consistent cooking and minimum preparation time, a special fryer, with special fat and spiced fry mixture which guarantees the flavor of his chicken. The Colonel still drops in at various locations throughout the country, samples the chicken to make sure it is kept exactly right—the way he uses to make it—then passes himself along.

SIU Business Group Hosts Regional Meeting

Representatives of 21 campus chapters of Alpha Kappa Psi, professional business fraternity, are attending the midwest regional fraternity conference which started Thursday in Carbondale. The SIU chapter is serving as host for the meeting which will end Sunday.

The theme of the conference held at the Holiday Inn will be "Expanding Business Dimensions of the '70's," according to James Wilson, program chairman of the event. The main speaker, Robert O. Poli, vice-president of the LaSalle National Bank, Chicago, will direct his talk to the theme, Wilson said. Poli will also be initiated into the fraternity as an honorary member, Wilson added.

The main business of the conference will be the election of the regional officers, the presentation of the "Regional Efficiency Rating Award" and the discussion of questions of policy relating to the fraternity. The efficiency award will be presented to the chapter selected by the national headquarters for having attained the highest efficiency rating for the activities in which the chapter participated during the 1966-67 school year.

The SIU chapter, founded in 1949, won the regional award from 1962 through 1964 consecutively and was judged number one in the nation in 1965 and 1966, Wilson said.

How Many Elements?

SIU Education Group Working Extra Hours

Members of SIU's education team in Vietnam, reported safe a week ago, have joined government employees, both American and Vietnamese, in working a seven-day week during current battles in Saigon.

This information was received in letters to Fred Armistead, SU associate professor of education who is an advisor in the International Student Center. Armistead returned home in the summer of 1967 after spending six years as an educational advisor in Saigon.

Letters arrived from William F. Wetherington, deputy chief of the SU party, and a young Vietnamese woman, Vy Thuy Ninh, an interpreter for the team who has plans to enter school at SIU this summer. Her study will be supported by a $300 scholarship from the Carbondale Kiwanis club, and by contributions from team members and others.

The seven-day week was necessitated, one letter said, by pressure of a heavy work load, a desire to have per-

Dwinger to Speak

At Math Meeting

Philip Dwinger, professor of mathematics at the University of Illinois, Chicago Circle campus, will speak on "The Amalgamation Theory" at a mathematics colloquium at 4:15 p.m. Today in Room A422, Technology Building.

The Department of Mathematics of SIU, assisted by the Office of Special Meetings and Speakers, will sponsor the colloquium. An open house will be held at 8:30 p.m., Friday, at the Lawrence Kuiperses, 904 Taylor Dr., Carbondale.

Why A Gant Shirt?

Because a Gant shirt is more than something to hang a tie on. It's a stimulant to make you feel good, look good throughout the day.

Because a Gant shirt—from its softly flared button-down collar to its trim Hugger body—is tailored with singular precision.

Because the fabrics in Gant shirts have a certain gentlemanly manner, are exclusive and wear superbly.

This is why we carry a complete selection of Gant shirts. It's also why men of impeccable taste turn to us for Gant.

Seminar on Banking Future To Feature Chicago Officials

Two top officials of the LaSalle National Bank of Chicago will be featured in an SIU School of Business Seminar on "The Future of Banking" from 3 to 4:30 p.m., Friday in conference room 111 of the Classroom building.

To participate are Milton Darr, president, and Robert Pohl, vice president, of the Chicago bank. Dean Robert S. Hancock of the School of Business has invited all faculty members and interested students to attend all or part of the program and take part in a question and answer session. Edward L. Winn, associate professor of finance, will moderate the discussion.

Darr, born in Oak Park, joined LaSalle National in 1940 as assistant cashier and was elected president in 1964. He has been active in banking activities.

Pohl is in charge of marketing, research, and development at LaSalle.

Thinclads Eye Conference Championship

A first place finish will be a distinct possibility when Coach Law Harring and his indoor track team journey to South Bend, Ind., for the Central Collegiate Championship Saturday.

Harring, whose squad finished third in the conference championships, said that Notre Dame and Western Michigan are the teams SIU will have to be concerned about. South Bend has been a member of the CCC, which holds a meet annually, for over 60 years.

"It will probably take about 26 or 35 points to win the meet," he added. "The kids will have to be tough, but I think we’re going to score somewhere in the vicinity, the freshmen come through.

Four events have been added to the championships, two of which Southern has a good chance of winning. Added were the distance medley relay, a two-mile relay, the 35-pound throw and the triple jump.

John Vernon, who paced a 51-foot jump at Louisville’s Mason-Dixon Games last weekend in his good attempt to finish first in the triple jump event.

Mark Cox has thrown the 35-pound weight well recently, and in the Mason-Dixon Games, he had several scratches over the 50-foot mark.

High jumper Mitch Livingston will be going for his third straight Central Collegiate title. Livingston won the event last year, and weighed in at 6-1/2 and leap and this season he’s accomplished 6-8.

SIU’s 440 record holder, Robb MacKenzie will also be defending a Central Collegiate title. He won the 440 last season with a time of 49.1 and this year he’s been clocked at 49 seconds. Participating with MacKenzie in the 440 will be freshman Richard Lieschek.

Gymnasts Avenge

Hawkes Against Central

Few of the athletes will come through.

Individuals will come through. "Coach Harring must have a grin that seemed to cover his entire face.

The victory meant more than raising the overall record for Big Ten. It averaged an earlier loss to Iowa that had snapped a 66-day winning streak.

Iowa’s record in now 10-1.

Meade had stated before the meet that the pressure would be on Iowa to repeat its earlier pressure was on Meadi. "When they win, he indicated that the Hawkeyes had not held under the pressure.

He indicated that Iowa’s breaking point may have been on the sidelines, where in the earlier meeting the Hawkeyes had run up high totals.

Iowa could muster only a 27.60 team average in the seven events that it had won last week.

Iowa scored only 5.3 points less than it scored in the Arena two weeks ago.

Marc Stoltman and Keith McClean were the only Hawkeyes that scored above 8.0 points. McClean scored 8.45.

Southern on the other hand rebounded from poor performances in the first meeting, in which they scored only a team average of 24.05, to score a respectable 26.35 on the scoreboard Wednesday.

The Salukis also improved in the high bar, moving from 9.25 to 9.70 in the two meets.

"There were no individual stars," Meade said, "the whole team was great.

"Larry Glause did a fine job in vaulting," Meade said, "as he scored an 8.6. He also did well in floor exercise and should help in the future in that event." Glause had been inserted into those two events for the first time by Meade.

"I always like to throw the new boys in under pressure," Meade said, "because this is where they’ve got to prove themselves.

Last year it was the same for Gene Kelber in floor exercise when I threw him a gauntlet Michigan State in a big meet," Meade recollected. "Kelber didn’t really have much of a chance, but I told him this was it, and he came through for us."

Kelber is now the top man for the Salukis in floor exercise, proving it against Iowa as he score 9.25 to win the event.

The Salukis captured three firsts: Kelber in floor exercise, Dale Hardt intsrampol and Paul Mayer tied for first with Neil Schmidt of Iowa on the parallel bars with a 9.45.

Southern trailed at only one point during the meet, following still rings by a score of 8.15 to 80.85.

SIU came back in tramp though, to take a 107.95 to 106.75 lead.

Iowa could score only 25.60 on the trampoline.

The trampoline score was also in sharp contrast to the first meet when SIU scored only 25.15 and the Hawkeyes scored 26.05, well above their average.

Coach Meade would like to savor this victory for a while, but the Salukis have two dual meets this weekend, against Colorado tonight and Air Force Saturday, both will be on the road. Meade expects little trouble in winning the two meets.

"We should close our dual meet season with four more victories," Meade said.

After the weekend meets, SIU faces Indiana State March 1 and Illinois March 8.

"That will give us five victories in a row," Meade said. "We’re going to be competing in another 68 dual meet victory streak.

Salukis, Aces Renew Long Rivalry Saturday

By Dave Palermo

While Southern's chances of nabbing an NIT bid are practically nil, the season is far from over with Saturday's invasion of Evansville.

Along with the fact that past games between the two teams have usually resulted in hard-fought contests, the upcoming game will have a touch of revenge.

Evansville holds a three-game edge in the long-standing series, 23-20, including a 52-45 victory over the Salukis earlier in the year.

Coach Arad McCutchan credits his "Vampire Five" reserve unit with the earlier victory, but Coach Jack Hartman feels otherwise.

"I didn't think we played well in the game except for the first 15 minutes," said Hartman. "The system may give them a slight physical edge but I don't think it was the deciding factor," said Hartman.

Hartman also disagreed with McCutchan's philosophy that the reserve system causes a psychological effect on the other team. They are thinking about why the five-for-five exchange is being used, instead of what they should be thinking about.

"I don't feel it's effective in that sense," commented Hartman. "Especially when the other team is prepared for it.

In the last meeting between the two teams, the Salukis had one of their closest shootout games of the season connecting on only 19 of 58 field goal attempts for a cool .32 percentage. They held a 22-12 lead earlier in the game, and when the Purple Aces came back to tie the game, Hartman's troops failed to cash in on numerous opportunities to pull back on top.

Forward and leading scorer Dick Garrett also had an off night from the floor hitting only four of 19 shots and missing his only free throw attempt.

If Garrett comes up with his usual performance and the team could avoid another off night from the floor, the situation could be reversed.

Evansville Coach Arad McCutchan would like for Saluki fans to believe that he is more concerned with the upcoming game with Indiana Collegiate Conference foe DePauw University than with SIU.

"The big factor," said McCutchan, "is to try and take the SIU game seriously and at the same time not overlook the next game we play against DePauw which will decide the conference championship.

The Purple Aces are on an 8-3 conference record against the Tigers on March 2. A win would give McCutchan a share of the ICC title along with Indiana State.

Tuesday the Purple Aces snapped a three-game losing streak in bouncing Ball State out of ICC contention, 100-74, at Evansville. The victory increased Evansville's season record to 18-5.

"We shake off the doldrums and came alive in the last game," the veteran McCutchan said.

"The three-game loss skid included defeats to Kentucky Wesleyan and Butler and can not be considered disgraceful," he added. "But the last game of that skid was against Indiana State where we played badly. Our defense was terrible while the Sycamores' defensive game was the best we've faced all year.

A preliminary game between the two freshmen teams will be played beginning at 5:45.

DAILY EGYPTIAN

February 23, 1968

SAVING SITUATION—Evansville regulars Ken Moore (20) and Jerry Mattingly have the situation well in hand as they combine for a rebound in a game played earlier with SIU. The Salukis lost the hard-fought contest, 52-45, but will attempt to avenge the defeat Saturday at 8 p.m. when the two teams meet at the SIU Arena.

Final Playoffs Set For Intramurals

The intramural basketball championship will be played for the first time before an SIU varsity contest when the Salukis meet Centenary College March 1.

Larry Schaeke, a graduate assistant in the intramural office, said that the team will be staged at 5 p.m. "in hopes of getting larger turnouts when showing the cali-

ber of intramural basketball" played at SIU.

The tournament which will decide the two finalists get under way Sunday and will run through Tuesday.

If the 16 teams in the playoffs have perfect records, the combined record of the 16 teams is 14 wins and only one defeat. The winner of each of the 16 divisions of the four leagues are participants. The leagues are Fraternity, Men's Residence Halls, Off-Campus Dorm and Independent.

The first round pairings follow:

Sujemy Pi "A" (7-1), Frat vs. Misfits (6-1), Inc.; Forest Hall (5-4), Dorm vs. Kappa Alpha Psi "B" (7-1), "Frat vs. Indians (5-0, Ind.); vs. Vets Club (6-6, Ind.), Dribblers (5-1, MRH) vs. Bills (6-0, Ind.),

Sukes Dukes (7-0, Ind.) vs. "007" (6-0, Dorm), Fox Flash and Friends Club (0-0), vs. Lo-Lifers (5-0, Dorm), Brown Gods (3-0, Ind.) vs. Animals (6-0, MRH); Allen Hill (6-2), MRH vs. Turtles (4-0, Ind.).

Trophies will be presented to the first and second place teams and the outstanding manager during halftime of the varsity game.
