Budget approved, but with exceptions

By Marty Francis

The Carbondale City Council approved Tuesday night the 1970-71 operating budget with qualifications stating that no new positions or expenditures be authorized until further review and consideration.

Approval came after discussion of the budget during a public hearing in which several questions were raised.

Bill Colp, 1210 Carter, called the budget a "self-generating monster," and pointed out several matters which he considered to be the errors that caused the budget to be out of balance by over $718,000.

Colp's charges against the budget brought response from Councilman Hans Fischer who asked that a basic reconstruction of the budget be made.

Fischer also asked that the city "creatively seek new sources of revenue," and new legislation concerning impacted cities.

Another major concern expressed by Fischer was the amount of money that is transferred from the Utility fund to the General fund for the purposes of payment of services to the utilities.

Fischer said: "Quite exorbitant the utility fund for general fund expense and get the Water Department out of City Hall."

Councilman William Eason said that it was not feasible to ask for a basic reconstruction of the budget at this late date and made the motion to accept the budget with certain qualifications to be reviewed with priority being given to get back the transfers from the General Fund to the Utility Fund.

At press time the Council had recessed into closed session to discuss a personnel matter involving William Burns. Carbondale Mayor David Keene announced Tuesday that he had fired Burns from his position as commissioner of the Community Conservation Board and as member of the board of the educational center. Keene said the cause for dismissal was an agreement which Burns had submitted to unionize the CCB staff including himself.

Polling places set up for all-campus elections

Eleven polling places have been established to accommodate those casting ballots for today's student government elections, according to Rhonda Starren, elections commissioner.

Polling places include the front of Morris Library, outside the Oasis in the University Center, in the breezeway of the Education Building, in the front of the Home Economics Building, in Centennial Hall at Thompson Point, near the Health Service Building, in Trueblood Hall in University Park, in Grissell Hall at Barrely, in the U-Library, in the Center and Home Ec., and in the SI Airport Bus Terminal.

Polls at VT and the airport will be open from 9 a.m. to 3 p.m. and those at VT and the airport will be open from 9 a.m. to 6 p.m.

Gus says vote—or at least another day will go by as the check out machine in the library displays his ID card.
**School bill proposes flat increase**

SPRINGFIELD—The Illinois House Education Committee approved by a 22 to 2 vote Thursday a state school aid bill which clashes with the position of the Board of Education of the State University System of Illinois.

Rep. Charles W. Claibough, R-Champaign, chairman of the Illinois School Problems Committee which drafted the bill, said it would cost $13 million more than Ogilvie’s plan.

One of the chief provisions of the bill would give school districts a flat 10 per cent increase over the state aid received in the 1969-70 school year.

Claibough’s bill calls for a $733 million appropriation. The measure makes no change in the property tax rate which local districts must levy to qualify for state aid.

Ogilvie has proposed the rates be hiked to 94 cents per $100 valuation for districts operating separate grade schools and high schools, and to $1.15 for combined districts. Present rates are 90 cents and $1.08.

Claibough said one major effect of his bill would give high school districts about 25 per cent more in state money than they now receive.

One of Ogilvie’s recommendations—ruled out in Claibough’s proposal—would give aid on a sliding scale, geared to sparsely populated school districts. Claibough said such a provision would not promote desired school consolidation.

The Claibough measure can be called a “flat grant” system under which no district would increase less than $46 and none could go up to $120.

Clai bough said flat grants, retained in Ogilvie’s program, are “a budgetary device of high quality.”

The change in the Illinois school formula, the state makes up

Yogi to speak

Indra Devi, California yoga expert, will discuss and demonstrate yoga at 1 p.m. May 7, at the SIU Arena. Mrs. Devi, known as the “First Lady of Yoga,” began the study of yoga because of a nervous heart condition.

The techniques described in her latest book, “Renew Your Life Through Yoga,” were applied at a Dallas factory. According to an executive president of the factory, the technique increased production by 100 per cent and reduced absenteeism to a minimum.

Mrs. Devi owns a yoga school in Los Angeles. Her school has attracted many new leaders including Gloria Garbo, Gloria Swanson, Jennifer Jones, Mala Powers, Tina Louise, Robert Ryan and many others.

Orientation program offered

Blind handicapped students will have an orientation program for the first time beginning summer quarter, according to program coordinator. The orientation program will consist of advisement, scheduling, giving the students a view of college life and getting their books. "Students have to wait for almost a week to get their books," Rhodes said. The program will also offer a non-take course and for the first time, the blind students will be given a Braille map of the campus.

Students will be shown on and off-campus for the first time housing facilities and will get a chance to see what the classrooms are like. They will also meet their instructors. "This program is experimental and is only for blind students in summer quarter," Rhodes said, "but if it works out, there may be a wheel chair orientation program for the fall quarter.

"The program is long overdue," Rhodes said, "for the blind student had to do it before by trial and error."
Student Senate candidates express views on issues

Brush Towers

Peter Mueller
(Freshman, Lincolnhaven, Action Party)

Don Patchett
(Sophomores, Detroit, Mich., Action Party)

We intend to bring to life a dead Senate. We will do this by working according to the Action platform. We are not politicians and we are not out to be something to the average students that we are. Being average students, we understand the needs of our fellow students and we will use Action and reason to work these needs out.

Jim Peters
(Student’s Party)

In any situation where business is to be conducted by several groups, it is inevitable that in order to achieve a goal, the different groups must work together. Such is the case of our student government. Cooperation is a key word in running an organization, and it is my opinion that much more and better cooperation is needed if we want to have a smooth running student government. We are all students and above all, human beings. Let us not forget this when we are working in our student government. 1970-71 will bring new issues and new students and we should represent the student body, if there was more cooperation. We are all students and above all, human beings. Let us not forget this when we are working in our student government. 1970-71 will bring new issues and new students and we should represent the student body, if there was more cooperation.

Barbara Reynolds
(Sophomore, Pueblo County, Action Party)

I am running for the Student Senate because I believe the platform of the Action Party can help students obtain a good education in this college time. I am a member of Alpha Lambda and was on the Dean’s list for that quarter. I was active in student government in my high school and was also involved in the Girls Athletic Association. Upon entering SIU I became a member of the Women’s Liberation front and have worked on various projects. I think that the platform of the Action Party is excellent and if elected, I pledge to do my utmost to advance it in the Senate.

Paula Squeri
(Chicago Heights, Student’s Party)

Involvement, this is one word in which I am able to summarize what I believe in. For example, I hope to encourage students to become involved. Yet, in order to do anything a student must know what is happening. It is not as easy to become informed as it should be. It is the responsibility of the student government to inform the student body of those areas available to the student for involvement. I hope to fulfill this responsibility. Many students are willing to take part in certain activities, yet, they are hindered due to lack of the necessary knowledge of student programs. It is my intention to encourage the student government to inform the student body.

Commuter

Larry Busch
(Sophomore, Florence, Mo., Majority Party)

As a candidate for senator, I am primarily concerned with the communication that is necessary for any student government to be effective. I feel that communication involves not only talking, but listening. Student government must learn to act directly as a student body and the student body needs information in an orderly manner with the administration. Similarly, the administration must learn to comply to the needs of the student body. Student government must learn and willing to accomplish these goals and to be ready to your future problems if you vote "us" on.

David Fozard
(Junior, Marion, Majority Party)

I am a Junior living in Marion, majoring in Political Science. My reason for running for senator is that candidates are now in a great need of responsible representation. For too long, people have claimed to represent the commuter district while disregarding commuter problems after assuming office. Commuters have different priorities than do resident students. Proper representation can be obtained and, with the United Student Communication, can develop into a responsible student government and the administration.

Charles M. Gibbons
(Sophomore, Highland Park, Action Party)

With this letter I publically accept the endorsement of the Action Party. I pledge to enact the platform of the Action Party. Student government in its present form is ineffective as a strong voice for the student body of SIU. The program that the Action Party proposes is indeed "the logical alternative" to the present form of student government. I believe that change can be enacted at a much faster rate and the student government can become a reality rather than a dream. I urge you to support candidates and platform of the Action Party, that responsibility can become a reality.

Wade Huddings
(Freshman, Marion, Independent)

As I see it, now is the chance for the majority of students to stand up and make known their wishes. These wishes and views have been neglected too long. As student senators we could represent the ideas and beliefs of the commuter. My vote would never be in the way of spending the money of those who voted for me for things not sponsored by or beneficial to the commuter.

In short, rather than be controlled by a patronizing group for the welfare and beliefs of the commuter, I only ask that students control the power of student government back to the majority.

Kathleen "Cas" Van Der Meer
(Senior, Chicago, Action Party)

Student government at SIU has been ineffective. This was primarily due to the abrasive attitudes of the student government leaders. Although the Action Party is generally populated with Kennedy-McCarty liberals (with a few Young Republicans added here and there) the leader of the SJDG, if I do not find it impossible to work with them, I believe that their platform is one of the few, new ideas that I have seen on campus. Therefore, I believe that, even though our views may differ, I am interested in the same goal—student’s rights.

George Camille
(Junior, Newton, Action Party)

As one of the authors of the Action Party platform, I believe that students must not only vote for a new administration but a new form of government. The Academic Senate is a program which has worked at other universities, and it can work here at SIU. As a government major concentrating in pre-law, I am an ardent supporter of the coed study hours program and member of the Consumer Price Committee. I believe that I can help institute the Action Party platform, and it’s revolutionary form of government. If elected, I work to return sanity and responsibility to student government.

Mic Kawula
(Junior, Gravina City, Action Party)

I am a 20-year-old junior majoring in government and I strongly believe that the University should avoid the majority of the student. To assist this development the only council that must be made is that college students are not, and should not be treated as much. The student government needs to be changed and the implementation of these changes can begin. A new council must be established soon, under-graduate, graduate, and faculty council have representation. I will work to enact the platform of the Action Party and try to make the idea of an "Academic Council" useful to the student.

Bob Prince
(Junior, Harris, Majority Party)

Probably the most troublesome problem we face is the lack of housing particularly to new dorm students. It’s time students became aware of their rights. They have to know what we stand for. I feel action should be taken to tighten the requirements of Off-Campus Housing, approval granted by the university. This can be accomplished through the influential steps of the academic administration in combination with the support of the student body.

Allyn Joyce Trott
(Sophomore, Carterville, Majority Party)

I am a sophomore majoring in Interior Design at SIU. As a member of Housing Commission of Housing pertaining especially to new dorm students. I feel action should be taken to tighten the requirements of Off-Campus Housing, approval granted by the university. This can be accomplished through the influential steps of the academic administration in combination with the support of the student body.

East Side Non Dorm

Doro Bowers
(Junior, Nacoma, Majority Party)

I am a Junior majoring in Spanish seeking representation for East Side Non Dorm students. My interest in the form of your Senate representative is to improve communication between you and the student government. I feel that the administration will not only listen positively toward the proposals of the Majority Party, it is possible that we can accomplish these goals through a better and/or bus services to outlying parking lots.

Marieli Favoro
(Junior, Washburn, Action Party)

The new non-dorm statement of the Action Party are both interesting and exciting. As a woman I can appreciate the idea of a women’s dorm in the field of birth control and abortion. As a student I can appreciate that student’s rights are also human rights, and I can see that the formation of a new council to deal with this issue can be helpful. I support Action Party because I believe they have the ideas and personnel to achieve their goals. If I am elected I promise to work for the fulfillment of these goals and is I

Thompson Point

Janet Lee Brown
(Freshman, New Lenox, Unity Party)

Nancy Vencius
(Freshman, New Lenox, Unity Party)

I am a Party does have something to offer Thompson Point. Our concern is the growth of students. With concerned senators who have lived and grown at SIU for many years now, we feel your problems because they are ours. Also, we can expect uncompromising commitment to our community and supporter Thompson Point. There is no compromise when it comes to principles. You, as a student, have a right to make your voice heard. With Unity Party working (Continued on page 6)
Platforms Stated

with a word for you on the Platforms of today.

VOTE

Gene Sinclair
(Sophomore, Thunder, Student's Party)

As a candidate for senator from the
North Side, I envision a major concern is to serve the students of Thompson Point and to accurately reflect their views on the Senate. I will be a candidate for the Student's Party and I hope that the Student Senate and the SU administration by means of constructive compromise can solve problems which often results in hurt feelings.

Tom C. Stenger
(Freshman, Pierce, Minority Party)

In seven months at SU I have heard our student government referred to as a joke, a farce and a circus. For this reason I would like to urge not only Thompson Point residents but students to do two things: First, on Wednesday, VOTE — electing concerned people to guide you through a scathing year in your responsibility. Second, don't be one who "hears what he wants to hear and disregards the rest." Listen to all the candidates and elect those you feel best qualified. The catchphrase, luncheon promise and campaign by one candidate by no means assures you of a smoothly run organization. The task of our leaders is an important one ... we'll do a good job if you will.

Jim Sturzem
(Freshman, Effingham, Student's Party)

I believe my first priorities are Thompson Point and the residents there. An important issue I think Thompson Point is our check cashing service. It is now only for "emergencies," and our campus can do a lot better. Right now, it is at Woody Hall, it would be more convenient for Thompson Point residents to have an expanded service. Furthermore, the "Serve the People" program should be separated from student government. It should not just be an activity, but a student-oriented project which means self-sustaining. In conclusion, all I ask is to bring all the students together through the Student's Party.

Ken Walk
(Freshman, Intermidiate)

I believe a work in the student government, wanting a student voice in the University exists for the benefit of each other. Therefore, I plan to work together. I believe this can be done.

If elected, I plan to give the students the responsibilities which are now done in open house program, a complete report on the campus, and other major issues and a voice the University Administration can hear and understand.

University City

Bill Adler
(Sophomore, Chicago, Student's Party)

As an agitator, I will not support the platforms of the Unity Party because I believe in progress. I will take a stand to assure the rights of the students to receive an education without the fear of the University for the benefit of each other. Therefore, I plan to work together. I believe this can be done.

If elected, I plan to give the students the responsibilities which are now done in open house program, a complete report on the campus, and other major issues and a voice the University Administration can hear and understand.

University Park

Chuck Hutchcraft
(Sophomore, Sullivan, Action Party)

I believe a university that students use have a definite and unique responsibility. What we students must have is self-de-termination of our lives — including the education of our students. In my future I would also like to see the establishment of a city council for the students to adequately present their problems to the University. I have had experience in government, being the president of Boomer II, and I have closely followed the campus student government as a reporter for the U-Park News.

The Action Party has, unlike other parties, a concrete plan to accomplish the needed student programs. The idea of an appointment to the General Assembly that the people have a voice of the total student body, to provide a force for power. 

(Sophomore, S. J. U. Action Party)

I am a junior majoring in public relations at the University of the Public Relations Club, and I have been a member of the SU administration by means of constructive compromise can solve problems which often results in hurt feelings.

Leslie A. Trotter
(Junior, Carville, Unity Party)

Authorization to almost any form of discouragement, if it does not completely smoother, independent judgment on the part of individual citizens. A free society by necessary foundation upon freedom. Free inquiry, of course, presupposes the conditions of free speech. I feel there is a need of Thompson Point residents to make the University more responsive to the students and the community. The University cannot be a stronghold for detained intellectualism. It must become a place for student interest and not remain a liability. Students have to be recognized by the University as human beings who can communicate to the University, command authority programs to fight poverty among, review of General Studies' requirements programs, a freeze on all future tuition hikes until further investigation, open housing possibilities. 

(Intermediate, Action Party)

When approached by the various parties who wanted to start a new independent candidate status to their party banner, I shifted through the rhetoric and chose the "logical alter-ego" to the "Oregon" platform. The Action Party platform speaks for itself as being a total new approach to student government. As a member of the Young Democrats and the Illinois Young Republicans, I believe in the Office of the University as a human being who can communicate to the University, command authority programs to fight poverty among, review of General Studies' requirements programs, a freeze on all future tuition hikes until further investigation, open housing possibilities. 

Ken Nygaard
(Chicago Heights, Action Party)

Student government today is strained to the point of near collapse. To revive this problem, I believe, is to directly change it. I believe we must work toward three goals: RIGHTS, REPRESENTATION, and RESPONSIBILITY.

We face a time when students must be treated as an integral part of the University rather than as servants to a system, which polarizes administration and students. If each side is to have a fair hearing, students must be respected as an equal body before administration. We must be given to the University by both administrators and with students.

Vocational Technical Institute

John Hamilton
(Junior, Pauline, Majority Party)

I am a junior here at GIT majoring in Retailing. Needless to say, I am aware of the immense needs of all GIT students. As a Majority Party member, I can guarantee that GIT has already been taken by the party to carry out our promise in office (in regards to correcting the increasing segregation within GIT).

West Side Dorm

Ben Bedron
(Junior, Evergreen Park, Action Party)

The Action Party is dedicated to responsibility and to the rights of the student. I believe the students are sincere in their wish for a better student government, and I think there is a possibility of organizing a government that will be effective and efficient, to work with the other members of the Action Party and try to represent the students and their ideas to the University. I am a member of the Young Republicans in Chicago, and last quarter, I campaigned that would put me on the Democrats list. I believe it is possible to get things done and would like a chance to work for the students.

(Richard Howard
(Freshman, Lincolnwood, Unity Party)

I feel the main problem on our campus is factionalization, as students are still too caught up in our little groups and separated by petty differences. We are all held together by a common bond. We must overlook our petty differences and begin to look towards our common goals. It seems to me that the right time to take action was to own, and drive to the University. I want (34 hr. co-ed dorms) and simple living, to unite our students to work for our rights, and make GIT a better place to live.

Susan Wilmouth
(Sophomore, Hyde Park, Student's Party)

Student body governments are instituted in an attempt to protect the rights of the individuals and to promote the good of the whole. There is a flaw within the Student Senate which hinders the purpose for which it was founded. I am embarrassed by which student rights may be justly protected.

I promise you as your student representative, it is my purpose and reason for running. People will make the correct choice.

West Side Non Dorm

Keith W. Cutts
(Junior, Evergreen Park, Action Party)

I am running for the senate from the West Side Non Dorm. I am majoring in Government and philosophy in the Illinois Young Republicans for the past two years. In that period of time I have worked in several campaigns, and for a student council. I have also worked with the Illinois State Young Republicans.

I am presently serving on the off-campus Judicial Board, and I feel the experience I have gained from these positions will add to my ability to deal with campus problems and work effectively with both administrators and with students.

Steven Levine
(Junior, Mt Vernon, N. Y., Independent)

In order for student government to function as a representative body, it must unite, not divide the student body. My main concern will be for the interests of the district and the students at S U. All students black, white, and yellow come together.

The issues are clear, student representation of the Illinois Young Republicans, combatability action programs to fight poverty amongst, review of General Students' requirements programs, a freeze on all future tuition hikes until further investigation, open housing possibilities.

Ken Nygaard
(Chicago Heights, Action Party)

Student government today is strained to the point of near collapse. To revive this problem, I believe, is to directly change it. I believe we must work toward three goals: RIGHTS, REPRESENTATION, and RESPONSIBILITY.

We face a time when students must be treated as an integral part of the University rather than as servants to a system, which polarizes administration and students. If each side is to have a fair hearing, students must be respected as an equal body before administration. We must be given to the University by both administrators and with students.

Edwin Thomas Pawlish
(Junior, St. Louis, Majority Party)

I am a Junior, majoring in Industrial Technology at the University of Illinois, where I have been active in debate, speech and student government in high school and presently hold an executive position on the Illinois Young Republicans' committee. Professional Musicians Fraternity. With these and other leadership roles, I shall actively represent the students of my district and promote the goal of insuring our attainment of an unequaled, meaningful higher education. I will do this by coordinating the present structure of the present structure of the administration, and the majority of the students' interests.

Steve Thomas
(Sophomore, Chicago, Student's Party)

Student government at GIT can be effective and responsible. A student government which has the support of the students must act as the representative of the student body on issues of the University. It can be more influential with the administration. Through the use of referenda and open forums, more effective participation may be reached. I support the concept of an academic council incorporating existing student, graduate and faculty councils. This would be one way of "getting it together", in the university community.

Daily Egyptian, April 29, 1970, Page 5
At University Center

New wing taking shape

(Continued from page 1)

It's difficult for the University Center Director's Office to predict when the whole building will be completed. Estimated indicate the upper floors will be ready by fall, with the lower portions of the southern side of the building to be ready sometime next year, barring construction difficulties.

June grades returning for a visit next year won't even recognize the old Magnolia Lounge or the cafeteria—everything in the existing building (carpet, walls, furniture and fixtures) will be either changed or renovated.

Daily Egyptian April 29, 1970, Page 7
The final sessions of the Chicago Tribune Writer Platform and Film Festival will be at 1:30 p.m. and 7:30 p.m. today in the University Center Ballrooms.

SIU part of committee to study East Europe

SIU is one of 10 universities participating in the Eastern European and Russian Committee which was established in Bloomington this week. The committee includes all disciplines with interests in the Eastern European area.

Its first objective will be the exchange of lecturers and professors within the founding schools and universities in Eastern Europe. Conferences and institutes are in the future. The committee hopes to establish a study center in Eastern Europe for the benefit of American students.

The committee includes SIU, Illinois State University, Northern Illinois University, Western Illinois University, Indiana State University, Ball State University, St. Louis University, Loyola University of Chicago and Georgetown University of Washington.

The committee is an affiliate of the Associated Universities for International Education, which is establishing a tropical studies group.

Pink Follies will be featured

The Doctors Hospital Pink Follies and the Murphysboro Children's Center will be featured at 10 p.m. on today's Kaleidoscope on WSIU-TV, channel 2.

Mrs. Willian Levelander and Frank Morehouse will discuss this weekend's Pink Follies, designed to raise money for the Doctors Hospital.

Give Mom a Big early

And make Mother's Day last longer. Call or visit at FTD florist today. And order a Big- by- Bouquet to arrive early. He'll send it across the street. Or country. A special arrangement. For a very special mother. Yours.

Hearing ‘a waste’: Kost

(Continued from page 1)

Taking into consideration that the cars must slow down five miles an hour when turning into the parking area, Loneran estimated that there would be a 5 mile backlog of traffic in both north and south lanes. He estimated women mean cars would be backed up almost to the edge of Carbondale to evidence.

Attorney J.C. Mitchell quoted Loneran on this issue. Loneran qualified some of the statements concerning the number of entrances to the parking lot and amount of traffic control.

Variables to be considered in estimated parking and traffic problems, Loneran said, would depend on arrangement of entrances, condition and narrowness of the road.

Loneran, commenting on the present condition of the parking area, said if 10,000 cars would drive over unimproved entrances, the amount of pressure would result in a trench deep enough to hold a tank.

In the afternoon session, the plaintiffs called Charles Degendorf, former public information director for Harperlee and took his deposition.

In the deposition, Degendorf said he had sent eight news releases to news media in the 12-14 state area within a 200-300 mile radius of Carbondale.

He said he did not recall specifically the stations and newspaper contacts, but he did name a few including major Chicago and St. Louis newspapers and KOKX, KMOX and WLS radio stations.

The plaintiffs used the deposition to determine the extent of Harperlee’s public relations operations in order to establish whether or not Harperlee intended to achieve

Judge supported

WASHINGTON (AP)—Judge Harry A. Blackmun received the enthusiastic support of the American Bar Association Tuesday at a Senate Judiciary Committee prepared to open hearings on his nomination to the Supreme Court.

Following an investigation billed as objective, the ABA’s standing committee on the federal judiciary testified in a letter to Sen. James O. Eastland, D-Miss, that Blackmun “meets high standards of professional competence, temperament and integrity.”

Where two prior nominees failed, the 61-year-old federal appeals court judge apparently faces a trouble-free hearing. Committee approval and Senate confirmation may be with as that accorded Blackmun’s boyhood claim from Minnesota. Chief Justice Warren E. Burger, Chairman Eastland has only one witness on his side for the hearing, Blackmun himself.

Last June 3 Burger testified and was approved unanimously by Eastland’s committee all in one day. The Senate completed confirmation, 74 to 3, Tuesday. Burger and Burger was sworn in chief Justice June 23.

The fate of President Nixon’s next two nominees for the court was entirely different. Judges Clement F. Haynsworth Jr. and G. Harrell Carwell, both high-profile hearings and then were rejected by the Senate.

their stated goal of 100,000 attendances at the festival.

Then promoter Harold Calhoun was called by the plaintiffs.

Calhoun was questioned by attorneys John Fetrich and James Wham for two hours. A calm was appointed mainly on the site of the fest and on the degree of preparedness of the site.

Wham asked Calhoun if the proposed hospital for the site was built, if any doctors or nurses are under contract, if sanitary facilities are required.

To all of the questions, Calhoun answered negatively, except to say that Harperlee does have one doctor under contract.

Calhoun repeatedly pointed to the fact that Harperlee has abandoned the old plan calling for 100,000 attendees, and said that the “new plan” calls for a slightly smaller format, with no food facilities on the premises.

When this “new plan” was rejected by Fetrich, promoter Charles Notarius left for the Harperlee offices to bring a story to court. However, the afternoon session ended before this document could be entered into evidence.

SPORT SHORTS

To play
pro golf...

By James Meyer

How good do you have to be to play golf for a living? . . . Golfer Lloyd Mangum once said that anyone who is thinking of turning pro, and expects to make a living out of playing golf, should be able to shoot 68 or better every time on his home course and be able to beat everyone in his immediate area. . . . Otherwise, forget it... That indicates how really good the golfers on the pro tour are.

It’s a little known fact that Don Shula, who was recently named the new football coach of the Miami Dolphins, has the best record of all big league professional football coaches. Shula has won 74 games and lost only 24. That’s a better record than Vince Lombardi or any other pro coach.

Here’s a baseball record that just doesn’t seem possible, but it’s true .... The St. Louis Cardinals with the best of 1968 but only three home run ALL SEASON .... Fruit that there have been times in baseball history when one player hit three home runs in one game— but imagine this is a whole team that totaled only three home runs all year. . . it’s hard to believe but it happened.

I bet you didn’t know that college graduates have longer life expectancy— lower death rate and are living 7-9 years longer on the average than non-college men. The lowest death rate of college men makes possible broader benefits and greater cost savings in college life policies. This certainly makes good sense. . . doesn’t it?
Tuition raise rally set

A rally to protest Gov. Richard B. Ogilvie’s proposed tuition increase is planned on campus May 6. Students from eight Illinois universities met in Springfield Monday to plan a statewide organization to oppose the increase.

The purpose of the meeting, according to Roger Leisner, one of the three SIU representatives, was to discuss the tuition increase.

The approximately 25 persons in attendance named their group the United University Community Against the Tuition Hike, Leisner said.

At the meeting four statewide demands were drawn up which will be presented to the legislature and eventually to the Constitutional Convention:

1) No tuition hike (ever)
2) Salary increase for faculty and civil service workers
3) Education to be made a right, not a privilege
4) Corporation taxation for higher education

One local demand was also proposed, according to Leisner, that either impaction aid or assimilation should be implemented.

A tentative timetable of action was planned by the group:

May 6 A local rally will be held on the SIU campus. Leisner said telegrams are being sent to the governor, lieutenant governor, Carbondale’s local representatives and senators to appear at the rally.

May 8 The next meeting of the statewide organization will be held in Springfield to organize the Education Day rally.

May 14 A Statewide Education Day rally in Springfield is being planned with representatives from Illinois universities.

Mexico study program offered

The UIU will offer a special study on psychological problems of behavioral disordered Mexican-Americans children this summer in Mexico.

The program, which will be open to undergraduate students in a select group of Juniors and Seniors, will explore conflicts between the Mexican culture and the Mexican-American culture in the United States.

The Institute sessions will begin June 12 at the University of Veracruz, will be directed by James Crowners, chairman of the UIU Department of Special Education.

The Institute will begin June 22 at Dallas and move into Mexico for the following day. Institute sessions will begin June 24 at the University of Veracruz.

Designers to talk

Harold Growowsky, instructor in design, and Larry W. Busch, graduate assistant in design, will be special guests Sunday on "The Chancellor's Report" as seen Sunday at 6:45 p.m. on WSUI-TV, Channel 8.

Growowsky and Busch will be talking about the classroom of the future with program hosts Chancellor Robert W., Mac Viva and Ed Brown of the Department of Radio Television.

Music Department to present 4 concerts as part of series

The UIU Department of Music will present four concerts Thursday through Sunday as part of its 1969-70 series. A collection of pieces ranging from "Music for Percussion" to a "Walt Disney Suite for Brass" will be presented at the Faculty and Student Composition concert at 8 p.m. Thursday in the old Baptist Foundation Chapel.

The next presentation will be a Recorder Sonata concert at 8:30 p.m. Friday in the Luther Center Chapel. The concert will be under the direction of Wally K. Morgan. Pieces by eight composers will be presented with a premiere performance of "Two Pieces" by Ernest Shalt.

Saturday the Senior Recital will be presented in the Old Baptist Foundation Chapel. Performers will be Thomas Goux, baritone, accompanied by Brenda Irvin on piano and assisted by John Gibbes, rec., Cellist for the recital will be Wesley T. Retzer accompanied by Reatta Own on piano.

Concluding the series at 8 p.m. Sunday in the Home Economics Auditorium will be the University Women's Ensemble.

Conducting will be Charles G. Taylor. Solists for the concert will be Brenda Brown, soprano; Betty Garrett, alto; and Catherine Waski, alto. The octet"Stabat Mater" by C.P. Kerle will be the featured presentation.

Gillespie featured in concerts

Jazz trumpeter Dizzy Gillespie, whose horn points skyward, will appear in two free concerts Thursday.

At 1 p.m., he will appear on the University Convocation program in the SIU Arena. The program will be followed by a coffee hour at 2:15 p.m. in the University Center River Rooms.

From 8 to 10 p.m., he will lead an open-air concert in the gasay area northeast of University Center. In case of rain, the concert will be moved to the Roman Room.

Professors continue schooling

SIU is sending some of its professors to school to learn a special kind of "language" that will open potential broad vistas of problem solving with the aid of computers.

SIU Provost Delroy W. Morris and Graduate School Dean Herbert H. Rosenzain sponsored a three-day seminar for 40 professors from a wide range of fields at the University's Carbondale and Edwardsville campuses.

Joe H. Ward Jr. of San Antonio, nationally known expert in the field of creating mathematical models to solve problems with the aid of computers, was the instructor.

The course in computer-aided problem solving is being supplemented by a series of one-a-week seminars at the Carbondale and Edwardsville campuses. The professor-students will be supervised by Francis J. Kelly, Donald L. Boggs and Keith A. McNell, SIU staff members who have written a book, "Research Design in the Behavioral Sciences-Multiple Regression Approach," published by the SIU Press.

The seminar leaders will be assisted by University Computer Center Directors Thomas D. Purcell and John F. Lindsey Jr., assistant to the president.

Folk music duo to appear at SIU

If folk music is your pleasure, you should enjoy Fauns and Debolt. This duo is the next attraction to appear on the SIU Coffeehouse Circuit May II-16.

They are the fourth in a series of guests to appear at SIU, according to a spokesman for the Student Activities office.

The first performance will be from 8:30 p.m. to 10:30 p.m. May II in the Roman Room of the University Center.

Senior to give organ recital

Stephen Hamilton, a senior at SIU, will present an organ recital at 2 p.m., May 18 at the First United Methodist Church.

Hamilton, from Boone, Iowa, is a scholarship student of Marianne Webb, assistant professor of music at SIU. He has performed in master classes conducted by guest artists Arthur Poletz, Mildred Andrews, Catherine Cruizer and Jean Langlais.

Winner of President Foundation scholarships in 1967, 1968 and 1969, Hamilton currently holds a Merit Scholarship. He serves as organist at First United Methodist Church, has played for the Unitarian Fellowship and was organizing student for the Lutheran Student Chapel of St. Paul the Apostle in Carbondale.

Sub-dean of the Southern Illinois Chapter of the American Guild of Organists, Hamilton will perform works by J.S. Bach, Cesar Franck and Marcel Dupre.

Give your contact lenses a bath tonight

In order to keep your contact lenses comfortable and convenient as they were meant to be, you have to take care of them. But until now you needed two or more separate solutions to properly prepare and maintain your contacts. Not with Lensate. Lensate is the one lens solution for complete contact lens care.

Cleaning your contacts with Lensate retards the buildup of foreign deposits on the lenses. And soaking your contacts in Lensate overnight assures you of proper lens hygiene. You get a free soaking case on the bottom of every bottle of Lensate.

It has been demonstrated that improper storage between wearings may result in the growth of bacteria on the lenses. This is a sure cause of eye irritation and in some cases can endanger your vision.

Bacteria cannot grow in Lensate which makes it sterile, self sanitizing, and antiseptic.

Just a drop or two of Lensate before you insert your lens, coats and lubricates it allowing the lens to float more freely in the eye's fluids. That's because Lensate is an isotonic solution which means that it blends with the natural fluids of the eye.

Let your contacts be the convenience they were meant to be. Get some Lensate, from the Munroe Company.
Hospital facilities grow to house 'new arrivals'

The new addition to Doctora Memorial Hospital will soon be the center of other "new arrivals" in the Carbondale area—babies.

According to John D. Taylor, acting administrator of the hospital, the new wing will not only be a replacement for Hidden Hospital, which will soon close, but also as "a facility capable of expanding the population of Carbondale." Taylor said the four-story addition will open in September. As for expansion he said, "The building is designed so that three additional floors can be built on as needed."

Costs for the extended facilities will be $2.6 million. Of this amount, $450,000 has been furnished by the Hill-Burton Fund, a federal agency for all hospitals.

The first floor of the addition will be for supply and storage of medical equipment. The second floor will be for conference rooms. Expectant mothers and new mothers will find nursery rooms complete with color TV and carpeting.

Smith initiates open visitation

Smith Hall is the last dormitory at Thompson Point to initiate an open dorm visitation bill.

The petition for visitation was submitted to and approved by Will Travelstead, Dean of Thompson Point. According to Travelstead, Smith Hall's bill was the most detailed one submitted to him at Thompson Point.

Last quarter, the dorm was closed the weekend before Christmas. The bill that was submitted to and called the Board of Trustees the last quarter, G-17 called for visitation seven days a week with the doors to the rooms closed.

The open dorm visitation bill replaces G-11 and has a maximum of four days for visitation with open doors. The dorm residents decide on the days and the hours of visitation for each dorm. The open dorm visitation is now in effect campus wide on a trial basis.

Smith Hall president Donna Konanda said, "The dorm previously supported G-17, turning down opportunities to have any visitation."

The dorm's visitation will be in effect Fridays and Saturdays from 7:30-1 am. The visitation will begin this weekend.

A special feature of the second floor will be a private dining area for the new mothers and fathers.

Six new operating rooms, a seven-bed recovery room, a five-bed intensive care unit and patient rooms with TV's, will occupy the third floor.

The intensive care unit will be for surgical patients. The unit will utilize many new medical devices, including cardiac monitors, similar to those used in the coronary care unit. The cardiac monitors will record patients' heartbeatsa and transmit the signals to TV screens at a central nurses station.

The fourth floor will be completed at a later date. "Most of the medical equipment is extremely expensive," Taylor said in explaining the allocation of the funds for the addition. "For example, the lighting equipment for one operating room is costing us $20,000."

Last year, Doctora Memorial Hospital treated over 3,000 people from Southern Illinois. The addition will add 60 more beds to the 86 beds presently available.

Special invitations issued to teachers for education

A conference on instructional television to acquaint public school teachers with the services of the Southern Illinois Instructional Television Association will be held from 1 to 3:30 Friday afternoon at Carlin High School.

The evening is intended for all school personnel from the counties of Fayette, Marion, Clay, Jefferson, Wayne, Hamilton, White, Coka, Cumberland, Jasper, Crawford, Clark, Shelby, Lawrence, Richland, Edwards, Wasbush and Effingham. A special invitation to attend has been issued by Miss Lenore High, coordinator of the Association.

SITA is now in its ninth year of presenting a full daytime schedule of instructional telecasts on WSIU-TV and WUSI-TV, Olney.

Firm to design system

Herbert D. Brown, director of the Illinois Department of Law Enforcement, has announced he has signed a $12,500 contract with System-Science Development Corp. of St. Louis, to develop plans for implementing a statewide uniform crime reporting system.
Tournaments and a home run derby

In addition to the daily softball and volleyball competitions, other intramural activities include a home run derby Sunday, the basketball tournament and other intramural events and the track and field meet.

The home run derby will be conducted on the varsity baseball field from 2 to 3 p.m. Sunday. Details can be obtained in the S.U. Arena.

Soccer team downs U of I

The S.U. International Soccer Club took a lead in the third period of play that it never relinquished Saturday, downing the University of Illinois 4-0 on the S.U. soccer field.

The Salukis took a 2-0 lead in the first period when Mark Konwalewski and Luciano Fernandez slammed in goals. It was the third goal in two games for Fernandez.

The Illini team came back with two goals of its own to tie the game at 2-2 at the half.

Jean Jacques Massake assured the S.U. club of its victory and scoring two third-period goals to pace the S.U. attack. The final 4-2 margin held in the fourth period, which went scoreless.

S.U. now 2-0 in the spring season, travels to Eastern Illinois University Sunday.

WRA softballers begin competition

The Women's Recreation Association began its softball program Monday. Both intramural and varsity teams have been formed and all interested girls are still urged to participate.

Intramural competition will be held on the court near the corner of Wall and Park Streets at 4 p.m. every Tuesday.

The varsity team will meet at schools in Missouri and Illinois. Varsity practices will be conducted on Monday afternoons.

Further information can be obtained by calling 459-2397.

Handball courts now on reserve

Because of spring handball classes, conflicts with physical education classes and outside players have occasionally arisen over use of the courts.

The Department of Physical Education for Men has the following hours for the club: 9-11 a.m., Monday, Tuesday and Thursday and 2-4 p.m. Monday-Friday.

Council sponsors trip to ballpark

The Brush Towers Area Council will sponsor a two-day trip to St. Louis, Friday May 15 and Saturday May 16, to watch professional baseball games. Tickets for the game will range from $3 to $6, and can purchase during dinner hours at Grinell Hall.

The buses will leave Grinell Hall at 4:45 p.m. for the 8 p.m. game. Reservations can ride free, but the cost to non-residents attending the game is $1.50.

Animal Farm vs. Beautiful Julie Ann and Field 6, TKE vs. Phi Sigma Kappa

Sixteen-inch games include on Field 7, Green Grass vs. Quad Squad; Field 3, Pop Tops vs. Wickers; Field 4, Piquor Pukers vs. Electric Twinkle; Field 7, Alpha Gamma Rho vs. Theta XI and Field 8, Castle 1 vs. Mait-Nits.

The volleyball schedule includes six games tonight.

At 7 p.m. Court 1, Tau Sigma Kappa vs. Delta and Court 4, Sigma Pi vs. TKE Headquarters.

At 8 p.m. Court 1, QCC vs. Playboy Hall and Court 4, Chemistry Grades vs. Little Guys, Inc.

At 9 p.m. Court 1, International vs. Persian Eagles and on Court 4, Shamrock vs. Saluki Saints "B."
Baseball schedule lists wrong team

By Mike Klein
Daily Egyptian Sports Writer

When the current baseball schedule was made out, no one knew that the Salukis would host Greeneville.

"Greenville cancelled out a long time ago, probably about October," coach Richard "Rich" Jones said. "They had a coach in college on his doctor's degree at Florida State, "I don't even know who took over their program but they asked to cancel out for a year."

Last Monday, SIU's away game with Tennessee Martin was rained out. Weather permitting, the Salukis will play at Tennessee Martin today.

Hitting has carried the Salukis this season and it shows no signs of slowing up.

"They're all playing better than I had anticipated they would," Jones said. "I thought everybody had the potential to hit .300, but then three or four guys usually don't. That hasn't happened yet."

"In fact, if you look at the records," Jones added, "you'll find they've been getting their hits against the better ballclubs."

Earlier this season, the Salukis humiliated Morehead State twice, with a two-game total of 37 runs, but many of their scores were aided by errors.

Against then nationally ranked Tulsia and Mississippi Valley and present number two Florida State, the Salukis had strong hitting attacks.

Veteran Bob Blackley is leading the average parade with a .407 mark after 22 games, Dan Radison's .359 is good only for fifth on the team, but he has a high with 27 runs-batted-in.

In between are Mark Newman, .387; Jim Dwyer, .378 and Lee Stroos, .372.

Third baseman Ray Nygard is hitting .334 and shortstop Gene Rinaldi is hitting .394.

Catcher Bob Sedik is hitting at only a .222 clip, the lowest among the regulars. Last season he hit .310 in 35 games.

Jones credits the good hitting start "to the fact that we were able to get a lot of winter hitting, more than any other year. In our new batting cage on the blacktop by the Arena."

Today's sports calendar

GOLF
SIU vs. St. Louis University, Washington University and Missouri Rolla in St. Louis.

BASEBALL
SIU at Tennessee-Martin (makeup of Monday rainout)
(American League) Baltimore at Chicago (N), Milwaukee (N), (National League) Atlanta at St. Louis (N), Chicago at Pittsburgh (N).

BASKETBALL
NBA Finals, New York at Los Angeles (series tied 1-1)

SIU track team meets Illinois for dual meet in Champaign

By Bob Richards
Daily Egyptian Sports Writer

The Saluki track team will by trying to combine some quantity with quality this weekend when they meet the University of Illinois Saturday in a dual meet at Champaign.

Most of the SIU team got a breather last week but the two Saluki entrants in the Drake Relays, Obed Gardner and Phil Blackston both proved their worth, placing in the prestigious meet.

Placing fourth against an outstanding field in the triple-jump, Gardner went just under the 50-foot mark, setting 49-9. Assistant SU coach Aubrey Dooly said Gardner would have had a jump exceeding 53 feet but the Saluki freshman fouled on that effort.

Continuing to impress both coaches and fans, Blackston broke the SU discuss record for the second time in two weeks. His effort of 170-3 was good enough for fifth at Drake, and broke the former Saluki record of 166-1 1/2, set by Blackston in SU'S dual meet with Illinois State.

"We had expected Blackston to throw 170 since he has thrown over that distance in practice," Dooley said. "It was just a matter of having him throw well in competition," Dooley said.

Two weeks of no competition has hopefully allowed some of the wounds to heal for the rest of the Saluki cinder squad.

Coach Lew Hartung rated many of his top sprinters and distance men in both the Kansas and Drake Relays to allow the team to rebuild for upcoming weeks as well as the Illinois Intercollegiates and the Central Collegiates.

Last year, the Salukis (narrowly) lost to Illinois in McAndrew Stadium but the Illini have improved considerably this year in almost all departments.

Led by all-time Illini star Mike Robinson and recovering sprinter Ivory Crockett, winners of three of the first places each, SIU topped the Illini this year in the indoor Illinois Intercollegiates.

The Salukis travel to Murfreesboro, Tenn., for another dual meet.

SIU's final home meet will be May 16 against the Drake Bulldogs. Last year Drake handed SIU a heartbreaking 73-72 defeat in Des Moines.

Southern Illinois prep star to aid SIU basketball fortunes

By Bob Richards
Daily Egyptian Sports Writer

Future Saluki basketball fortunes got a boost Sunday, when Mount Vernon high school star Eddie James signed an athletic scholarship to attend SIU next year.

James is expected to sign a national letter of intent Monday when he is issued.

The 6-2, 170 pound guard helped put the Mount Vernon team into the super-sectional in the Illinois high school tournament two consecutive years.

Nate Hawthorne, the leading scorer on SU's freshman team this year, was a high school teammate of James.

Assistant basketball coach George Hubert said, "He's just an all-around basketball player. We're planning on using him at a guard, but with his jumping ability, he could go forward."

The SIU coach also credited James with excellent shooting ability away from the basket.

Averaging 21.5 points per game during his senior year, James scored a school record 39 points in a game against Carbondale this year.

Considered to be a fine student, James has an interest in computer science.

Hubert said said over 100 schools had expressed an interest in James including Syracuse, Maryland, University of Illinois, St. Louis, Illinois, Missouri, Kansas, Iowa and Texas.

Cubs downed, 6-1

PITTSBURGH (AP)—Manny Sanguillen batted two home runs and Luke Walker, Bruce Dal Canton and Dave Gustei allowed Chicago only three runs to win a seven-inning game Monday night.

Sanguillen gave the Pirates a 2-0 lead in the first inning when he cracked his second home run of the season over the left field wall, scoring behind Matty Alou who had singled. Walker left the game in the fifth inning after he loaded the bases with walks, then gave up a run-producing single to Glenn Beckert.

Dal Canton took over for Walker and stopped the threat, but left the game when he pulled a muscle, and Gustei stopped the Cubs the rest of the way.

Close call

The Saluki track team will be counting on some valuable points Saturday from junior Larry Carson when SIU meets the University of Illinois in Champaign.

Carson won the event at 1-4-6 in the Indoor Illinois Intercollegiates this year and went the same height against Illinois State (Photo by Mike Klein)
