Bus Fare Increase Advice Sought

Senate Ouster Was in Error, Davis Explains

Through an administration error last week, Keith Phoenix and Jim Nugent were ousted from the Campus Senate.

John Paul Davis, vice president of the student body, sent out letters notifying the two of their expulsion following last week's senate meeting.

Davis said that the mistake was made due to a misreading of the constitution.

The two had been expelled for missing two meetings without excuse. However, the constitution states that members are to be expelled after missing more than two meetings.

Thursday night the Senate passed a resolution apologizing for the error.

During the past week Phoenix submitted a letter of resignation to the Campus Senate.

Nugent was not at this week's meeting. This would be the second thrice-weekly meeting which he missed and would then be brought under the expulsion rule.

Elections for the vacant posts will probably be held within two weeks.

The Senate asked that their apology be made public and be carried in the Daily Egyptian.

Team Snowbound, Richmond Cancels

The varsity basketball game between SIU and the University of Richmond, which was to have been played Thursday night, was cancelled because of weather.

The Richmond team was to have flown here, but the fall of almost a foot of snow forced the closing of the Richmond airport.

Richmond was also scheduled to play Kentucky Wesleyan at Owensboro, Ky., tonight.

No plans have been made to make up the game. The SIU freshman game with the University of Tennessee, Martin Branch, was played in the Arena as scheduled.

Major-Events Fee Set for Parking

A flat rate of 25 cents will be charged for parking in the University Center parking lot when large campus functions draw down city from the lot, according to Clarence G. Dougherty, director of the University Center.

"We have found that it is easier to charge drivers when they come into the lot," said Dougherty. "This alleviates the jam-up when they all try to exit and pay at the same time."

The special 25-cent rate has been in effect for football games for several years, Dougherty said, and will now be extended for all large campus functions and athletic events.

"The new system is mainly a matter of public relations," said Dougherty. "We hope this will speed traffic up to a normal rate and also keep the temper of the drivers down."

The new rate is strictly for special functions and does not apply to normal use of the parking lot. The regular rate is 10 cents for each hour after the first hour, which is free.

Proceeds from the parking facilities are transferred to the University Center income fund to be used for general operations and payment of debts. The lot was built with University Center funds.

Questionnaires Offered Students

Students will be asked next week to fill out a student government questionnaire about the campus bus service.

Forms will be available on the buses, at the information desk in the University Center, and at the student government office. Room F in the center.

Students will be asked if they favor a five cent increase in the fare, raising the total to 15 cents.

All students are eligible to fill out the forms.

They may also express their opinion about the sale of weekly and/or monthly tickets for an unlimited number of rides.

Those who complete the questionnaire may also express their opinions about the bus service time schedule and the routes. Space will be provided to make suggestions on these questions.

Bard Grosvenor, member of the Campus Senate communications commission, said the forms are being made available "in an attempt to provide a better and more economical service."

The questionnaire notes that the bus service is operated at a loss of $1,380 for the fall quarter.

Buses run from various points on campus to off-campus housing and shopping areas.

The questionnaires should be returned to the bus drivers or to the places in the University Center where they were obtained.

The Campus Senate is also planning a retreat at Little Grassly Lake to work on a plan for restructuring student government for the Carbondale campus.

The retreat is scheduled for Feb. 12. About 40 people will attend. The group will leave from the University Center around 8 a.m. and return about 6 p.m.

On-campus and off-campus student leaders and administrators will be invited.

Student Body President George Paluch said earlier this month that he was interested in restructuring student government along on-campus and off-campus lines.

Gus Bode

Gus says one good thing about not being able to find out date of June Commencement is that Selective Service is just as confused as he is.
Social Fraternities Extend Bids To 165 in Annual Winter Rush

Pledges were extended to 165 men to join six of SIU’s eight social fraternities during winter rush, which ended last week. The new pledges are:

Delta Chi
Colline Bruser, Steven Coy, Gerald Ferrick, John Eberson, Randall Grear, Bernard Haag, George Hanta, David Harry, Bruce Herrick, Donald Kapral, William Kelley, Kent Kimball, Daniel McDonald, Joseph McLaughlin, Michael Mushogev, Terry Neubauer, Robert Niemann, Edwin Ray, Bruce Rowe, Eugene Sawatski.

Sigma Pi

Phi Sigma Kappa
Denny Freeman, James Aabdie, Art Schleskie, Roland Gll, Jerry Bluman.

Charles Le Brian, James Greer, Bob Green, Mike Marjiewski, Tom Kohl, Dan Fields, Joe Henson, Jim Lacy, Dennis Falcon, Jeff Carnal, Pete Peterson, Barry Clifey, Norman Giseh, Alb. M. Weckbern.

James Jameset, Edward Thahal, David McCameron, Thomas Wilhelm, Gary Budington, Andrew Ditworth, Chuck Mandiles, John O’Rourke, Larry O’Reilly, Jim Ehlers and James Hack.

Theta Xi
Bob All, Bob Bartholmew, Bob Bishop, Rick Cadwall, Tom Gattin.

Newman Club Sets International Night
The annual international student program is set for 8:15 p.m. Wednesday at the New­man Center.

The program will include games, dances and performances performed by SIU students from other countries.

John A. Anaiza, a graduate student from Nigeria, and Frances R. Williams, a pre­medical student from British Guiana, will be masters of ceremonies.

Refreshments will be served.

Gary Gounard, Dave Christensen, John Collins, Mike Coulter, Corbin Horton, Don Glenn, Ron Glenn, Steve Goebel, Doug Hartman, Larry Haynes,
Ron Hron, Dan Hutchcraft, Mike Jackson, Mike Johnson, Barry Kozloff, Russ Laws, John Lee, Don Mardall, Terry Missal, Mike Moore.

Mike Muller, Edward Radkey, Doug Ray, Chuck Sandberg, Don Schlott, Ned Schmidt, Gerald Selv and Jim Shafter.

Phi Sigma Tau

William Quinn, Barry Kaiser, Thomas Locher, Michael Lehmonier, Curt King.

Jerald Fossum, Raymond Bogdan, Robert Cswick, Rodney St. Aubin, Terry Phillips.

Larry Katasian, Robert Rudley, Steven Leake, Thomas Stegeman, Sean Madura, Bill Gunnell, Robert Carter, Alfred Wiom, Stephen Luck and Mark Shifrock.

Tau Kappa Epsilon
Cliff Albion, Jonoth Thorson, John Bovin, Ronald Borgmann, Paul Brown, Dave Butterick, Nick Cancio, Thomas Comer, Keith Christer, Dan Domilek, Michael Durf, Bob Edgar, George Erb, Ralph Galley, Ray Glass.

George Haenisch, Paul Hess, Rick Hiselman, Bob Kanne, Robert Kimball.

Dave Kramer, Keith Leigh, Scott Lesner, Terry McCarthy, Tosh McIntosh.

Durrel McKissic, Ken Mueller, Edward Lichtenberger, James Oettle, John Phillips.

Phillip Reynolds, Fred Shapiro, Bob Sheldon, Donald Stevens and Richard Wood.

Activities

Psychology, Physics
Colloquium Planned

A physics colloquium will begin at 10 a.m. today in Room 308 of Parkinson Laboratory.

The Moslem Students Association will meet at 2 p.m. in Room H of the University Center.

Angel Flight will meet at 4 p.m. in Room H of the University Center.

Women's Recreation Association house basketball will begin at 4 p.m. in the Large Gym.

A psychology colloquium will begin at 4 p.m. in the Seminar Room of the Agriculture Building.

The Aquettes will meet at 5:45 p.m. in the University School Pool.

Monday's program will present the musical comedy, "All Hands on Deck," at 8, 9, and 10 p.m. in Furr Auditorium in the University Center.

Opera Workshop rehearsal will begin at 6:30 p.m. in Shryock Auditorium, Inter-Varsity Christian Fellowship will meet at 7 p.m. in Room C of the University Center.

Intramural recreational swimming will begin at 7 p.m. in the University School Pool.

Open House Sing
Will Be Format
For Hootenanny

A campus-wide hootenanny, "Hallelujah—a Hootenanny," will be held at 7 p.m. on Feb. 12 in the Family Living Lounge of the Economics Building.

Groups or individuals who want to perform in the hootenanny should sign up in the Student Activities Office before noon on Feb. 5.

Everyone is invited to attend and sing along with only those who sign up will be allowed to perform. The event is being sponsored by the hootenanny committee of the University Center Programming Board. Chairman of the event is Robert N. Wildrick.

Law School Test

Slated on Feb. 12

Friday is the last day to register for the law school admission test to be held on Feb. 12.

Students may obtain registration forms and information booklets at the Testing Center, the registration forms must be mailed to the Educational Testing Service, Princeton, N. J., on or before Friday.

Today's Weather

COLD

Continued cold today with the high in the 30s. The record high for this late date is 64, set in 1914 and the record low is 25, set in 1940, according to the SIU Climatologist.

Recording of Fingerprint Aides Interests of Law Abiding Citizens

By Jenkin Lloyd Jones

Three weeks ago the mutilated and bullet-punctured body of a young man was found in a snowdrift near Elko, Nev. The body was also stripped. The marks of identification—a blue and red tattoo reading, "Born to Raise Hell."
The Frenchman, Alfonso M. Cerda of the FBI, did the identification 87 years ago with the discovery that the dimensions of major parts of the skeleton do not change during the adult life; that if 11 measurements are taken the chances of finding another human being of the same proportions drops to one in 4,991,504; if 14 measurements are taken the figure is one in more than 286 million. And, as Cerda’s measurements were confined to the body, it may be assumed that the same proportions drops to one in more than 286 million.

Sheriff James C. Harris of modern Elko went to his problem with the positive identification of the victim. He took the fingerprints of the man’s victims, the Federal Bureau of Investigation. Within two days he knew that he would have his positive identification or be faced with murder by a man who had been examining missing person reports.

For a long time J. Edgar Hoover has been trying to sell Americans on the wisdom of the fingerprint identification policy. let every American have his fingerprints taken from his hand. or leave fingerprints are-and let him use his geography.

If the Copley News service is not going to ask, what is the use of it?--Copley News Service.

Sakhalin Not Part of Asia

To the editor:

On Page 8 of the Jan. 21 Daily Egyptian appears an interesting map of the "lost territories" that Red China wants. It is possible that extreme upper right appears an uncharted area labeled "Sakhalin."

If the Copley News Service asks the same question as Copley just doesn't know his geography.

Sakhalin is not on the main-land of Asia at all. Sakhalin is an elongated island, off the coast of the southern Soviet "Maritime Province."

Sakhalin was not taken from China. It was taken from Japan. As a result of the Russo-Japanese War of 1904-05, Japan occupied Sakhalin and also took the southern half of Sakhalin Island.

The region which Copley News Service has labeled Sakhalin is in the Trans-Mongolian region, north of the Amur River.

I don't know whether Imperial Ching Dynasty China ever occupied this island, but Japan certainly did. Ask Copley about this.

By David T. Ray

Let Those Without Sin Cast the First Stone

To the editor:

From evidence of Wednesday's Daily Egyptian, the critics have "obtained their pound of flesh," Mrs. Meyer's second letter could not be more apologetic or humiliating.

I wonder if the rest of us would be just as willing to admit that our reactions of "vengeance" during the past two weeks have been anything but Christian attitudes. I certainly did not agree with the views expressed by Mrs. Meyer in her first letter, but I just am firmly believe that one does not right one wrong by committing another-and the efforts to "ride the Meyers out of town" were surely not conceived in Christian love.

Hopefully this incident has resulted in honest evaluation of ourselves and our community. Hopefully, we shall not let matters remain as they are.

One of life's briefest moments is the time you began to read the sign on the freeway and realizing you had just missed the offramp.—Denver Post.
Famine? Backward?

Puzzle Still Unsolved

On ‘Egypt’ of Illinois

Paul M. Angle

In Chicago History

Editor’s note: Paul M. Angle is editor of the publication of The Chicago Historical Society.

Point Two, the alleged similarity between southern Illinois and the delta of the Nile, is sheer nonsense. The Nile delta is 150 miles long and 120 miles wide. The alluvial tip of Illinois extends only 25 or 30 miles northward from the junction of the Ohio and Mississippi rivers. The Illinois Ozarks occupy a far larger part of Egypt than the small flood plain.

We come to Point Three, which holds that the name originated in the intellectual darkness of the inhabitants. Again we marshal a few dates.

After the founding of the towns with Egyptian population—Sparhawk’s Landing, about Karnak—Alton and Vandalia are not in southern Illinois and the delta of the Nile, is

In Point Four. which we dodged the first time around. We quote a footnote in Davidson’s “History of Illinois:”

In this connection we have two possibilities. The first explanation falls apart when one considers that these ventures drew most of their support from the southernmost part of the state, simply because that is where most of the people lived. The biblical reference is to the famine that struck the Mediterranean world while the tribe of Jacob resided in Canaan. Hearing of their plight Jacob’s son Joseph, who held a high place at Pharaoh’s court, sent money and raiment and “ten she-asses laden with corn and bread and meat” to Jacob so he could lead his people to Egypt and eat “the fat of the land.”

Admittedly, the stories of Robertson and Duff do not rank high as historical evidence Accounts written long after the period with which they deal are always suspect. Moreover, there is a discrepancy in dates, with Robertson dating 1831 as the lean year and Duff specifying 1832. Of course, the latter seems the more likely. In 1831 there were few settlers in central Illinois, and a lean year would not have caused more hardship than pioneers were accustomed to. By 1832 the central part of the state had become populous and a crop failure would have caused more hardship than pioneers were accustomed to. Besides, the severity of the winter of 1830-31 and its baleful effects are matters of historical record.

At any rate, unsatisfactory as these reminiscences are, they are far more reasonable than any of the other explanations of the origin of “Egypt.” In this connection we have two parts in junction:

1. Do not, please, refer to the southernmost quarter of Illinois as “Little Egypt.” “Little Egypt” was a dancer reputedly of some seductiveness, at the World’s Columbian Exposition.

2. Pronounce the name of Egypt’s main city correctly, that is, as the residents do. It is neither kiro nor karo. It is kare-o, as in corn syrup.

Has No Counterpart

In Little Egypt
Aid to Retarded
To Be Discussed
Manny Sternlicht, associate professor of psychology at Yeshiva University and principal psychologist at the Will- lowbrook (New York) State School for the Retarded, will speak here on Jan. 31 on insuring success in counseling and psychotherapy with the retarded.

The orientation session will be held at 7:30 p.m. Monday in the Home Economics lounge.

Sternlicht received his Ph. D. in clinical psychology from Yeshiva University in 1960. His interest and writings have centered on the applicability of psychotherapeutic techniques to mental retardation.

Exam Scheduled
For Postal Work
The Post Office Department has announced that it is now accepting applications for summer employment.

The applications for temporary employment at $2.37 an hour are available at the University Placement Service or at any post office. A one-hour written exam will be given. Applicants will be furnished with the time and place of the exam. Those who qualify will be given a list of post offices needing summer help.

Applicants must be 18 before their first day of work. The son or daughter of a post office employee will not be allowed to apply for these positions.

Model U.N. Plans
Training Session
The third training and orientation session of the Model United Nations will be held at 7:30 p.m. Monday in Davis Auditorium of the Business Education Building.

Students taking Government 321 for credit are required to attend. All U, N. delegations must be represented by at least one delegate.

Sunday in Shryock
Werner Will Be Piano Soloist
With Southern Illinois Symphony

Kent Werner, instructor in music, will be the piano soloist with the Southern Illinois Symphony Sunday in Shryock Auditorium in the ensemble's performance of Persichetti's Concertino for Piano and Orchestra.

Other selections on the program will be the second suite from Prokofiev's "Romeo and Juliette" and Brahms' Symphony No. 3 in F major.

Conducted by Warren van Bronkhorst. associate professor of music, the area symphony is composed of more than a dozen area musicians, a dozen faculty members and about 45 students. A number of faculty wives who are musicians are members of the symphony, as well as musicians who are employed on the University faculty in non-music departments. Two high school students are participants.

Principals for the various sections of the orchestra are John Wazxon, assistant professor of music, concertmaster; Ann Sparbeck, a wife of a faculty member, principal second, violin section; Thomas Hall, assistant professor of music, viola section; Peter Sparbeck, instructor in music, cello section; Jacques Gray of Carbondale, student, bass section.

Carrol van Bronkhorst, wife of a faculty member, flute section; David Harris of Col- linsville, student, oboe section; Robert Rosen of Stelbyville, bassoon section; George Nadal, instructor in music, French horn section; Larry Franklin of Louis- ville, graduate assistant in music, trumpet section;

Charles Danzer of Urbana, student, trombone section; and Michael Hanes, band director, percussion section.

The concert will be presented at 4 p.m. The public is invited to attend without charge.

Moss’s New Book Acclaimed
As Composition Breakthrough

Sidney Moss, professor of English, recently published a book "Composition by Logic." The book is reported to be the first major breakthrough in the teaching of English composition in the last 70 years.

Among the innovations in Moss's book is a switch from the traditional methods of discourse (argumentation, exposition, narration and description) to why, what, how and compare-and-contrast topics with their variations.

His book introduces elementary symbolic logic and set theory to help simplify explanations. It also has a series of problems and exercises to help the students work on the problems under examination.

Moss has also provided model essays that illustrate the principles under discussion.

Other books that Moss has written are a standard book on Allen Poe's "The Government’s Literary Battles," and a novel, "They Shall Not Fall," of which he was coauthor.

He also contributes regularly to learned journals. His articles have appeared in American Literature, College English and the American Book Collector.

Fraternity Holds
'Dance for Dimes'
Kappa Alpha Psi social fraternity is sponsoring a "Dance for Dimes" tonight for the March of Dimes.

The dance will be held at Small Group Housing No. 112 from 8 p.m. until 12:30 a.m.
Management Society Gives $800 to School

The Society for the Advancement of Management has presented a check for $800 to Robert E. Hill, dean of the School of Business, to be used for School of Business activities.

Forestry Majors Cited for Work

Four SIU forestry students have received "outstanding" performance ratings from the U. S. Forest Service for their work last summer in the Pacific Northwest Forest and Range Experiment Station with headquarters at Portland, Ore.

In a letter to Dr. W. Bosley, professor of forestry, Charles J. Petersen, assistant director of the station, said the fact that four of six SIU forestry students holding summer positions in the Pacific Northwest received outstanding ratings is a credit to the University.

Summer employment in forestry is encouraged as part of the professional training in Southern's four-year degree program in forestry.

Paintings Exhibited By Art Instructor

An exhibit of paintings by Vincent Di Mauro, instructor in art, opened Sunday in a new Carbondale gallery, Aesthetics Unlimited., at 217 1/2 W. Main St. The exhibit will run until Feb. 5.
Viet Cong Losses High in Scattered Skirmishes

SAIGON, South Viet Nam (AP) - The allied post-truce offensive began showing results Thursday. Vietnamese officers announced 195 Viet Cong were killed, 123 captured and 195 suspects rounded up in a series of engagements in widely separated sectors.

There were blows, too, at the war potential of the Communist Viet Cong. The Viet Cong have been odd in a series of engagements since the end of the lunar new year ceasefire Saturday.

U.S. Air Force fighter-bomber pilots apparently hit a fuel dump in a raid on a Viet Cong center 170 miles southeast of Saigon. They said their bombs set off three secondary explosions that shot flames and black smoke hundreds of feet into the air.

Men of the U.S. 1st Infantry Division unearthed a primitive Communist army factory near a Viet Cong-con- trolled area.

U.S. Marines inflicted and took casualties in scattered clashes. A military spokesman said the Viet Cong were killed and captured and seven enemy soldiers were taken.

A survey sponsored by the U.S. military mission was reported to show the Viet Cong were now having trouble getting volunteers and were relying almost entirely on administration to keep their war going. The group of social scientists conducted the study among 500 prisoners of war captured by U.S. forces from Viet Cong-controlled areas.

The allied post-truce offensive began showing results Thursday. Vietnamese officers announced 195 Viet Cong were killed, 123 captured and 195 suspects rounded up in a series of engagements in widely separated sectors.

There were blows, too, at the war potential of the Communist Viet Cong. The Viet Cong have been odd in a series of engagements since the end of the lunar new year ceasefire Saturday.

U.S. Air Force fighter-bomber pilots apparently hit a fuel dump in a raid on a Viet Cong center 170 miles southeast of Saigon. They said their bombs set off three secondary explosions that shot flames and black smoke hundreds of feet into the air.

Men of the U.S. 1st Infantry Division unearthed a primitive Communist army factory near a Viet Cong-controlled area.

U.S. Marines inflicted and took casualties in scattered clashes. A military spokesman said the Viet Cong were killed and captured and seven enemy soldiers were taken.

A survey sponsored by the U.S. military mission was reported to show the Viet Cong were now having trouble getting volunteers and were relying almost entirely on administration to keep their war going. The group of social scientists conducted the study among 500 prisoners of war captured by U.S. forces from Viet Cong-controlled areas.

Indianapolis Blasts Injure Nine Persons

INDIANAPOLIS (AP)—Nine persons were injured as three explosions rocked a west side neighborhood here before dawn today in a 21-degree weather.

Three homes were destroyed by blasts a little more than an hour apart, and another was damaged by a gas-fed fire. A fifth home was damaged slightly by a crumbling wall.

About 60 persons were evacuated, going to nearby fire stations or homes of relatives and friends.

"It was a miracle no one was killed," a fireman said.

The first explosion shattered the home of Lorinda Pearson, 62, whose husband died about six months ago.

The first explosion was felt on the face was against the ceiling, she said.

The second occurred in the home of Loretta Pearson, 62, whose husband died about six months ago.

The first explosion was felt on the face was against the wall, she said.

Only the charred cavity of her bedroom remained. She was hospitalized with a leg injury.

Flames spread to the adjacent home, but all five occupants escaped unharmed.

"It looks like gas leaks to me," said Capt. Emery Curl of the Wayne Township Fire Department.

Fire Lt. Claude Gam said gas apparently was seeping through the soil.

"There was a blue flame all over the grass," he said. "And a four-foot flame was spouting from the gas cutoff valve at the curb. It looked like a yard light.

An hour and 15 minutes later nearly simultaneous explosions ripped through two frame homes directly across the street.

Jury Still Out in Krebiozen Case

CHICAGO—The jury in the case of four men tried on charges of conspiracy and fraud in handling Krebiozen received more pencils Thursday.

The jurors asked for more, and Deputy Marshal Eugene Biezel delivered a package of 50 new sharpened pencils.

There was no elaboration on word of the request and delivery, and no indication of how deliberations were going.

The seven women and five men on the panel had been considering a verdict or delay for 18 hours and 14 minutes when they recessed for lunch.

They received the case at 4:53 p.m. Tuesday.

The defendants are Dr. Andrew C. Bly, 72, a physiologist who is the chief scientific sponsor of Krebiozen, a drug given many cancer patients; Dr. Stephen Durovic, 60, a former Yugoslav physician who developed the substance; Drs. Vaughn Brown, 64; and Dr. William R. Phillips, 52, a Chicago physician who has administered the drug.

The trial—the longest in Chicago federal court history—ends its ninth month Friday.

The government has maintained that Krebiozen is worthless in the treatment of cancer. The defense has contended that it is an agent in the management of growths that has benefitted some people who suffered from cancer.

While the jurors deliberated, some cancer patients—mostly women—waited in the corridor outside the courtroom to get news of a verdict.

Some of them attended the long trial.

One patient asked a newsman if a conviction verdict would halt further manufacture of Krebiozen immediately. He did not have an answer.

The Food and Drug Administration stopped interstate shipment of the drug. But there is no legal limitation on its use in Illinois, the source of the supply.

One woman told a reporter she had received her first shot of Krebiozen Thursday night from Dr. Phillips, who sees patients at night.

King Discusses Plans For Chicago Campaign

CHICAGO (AP)—The Rev. Martin Luther King Jr. Thursday he wants to avoid violence in Chicago demonstrations but that civil disobedience may be necessary.

King, who is organizing for a campaign against Chicago slum conditions, told 60 police officials:

"We're not coming here to tear up Chicago but to rebuild it.

"We want it to be a non-violent movement through and through.

"But later, at a news conference, he stated:

"It may be necessary to engage in acts of civil disobedience in order to get attention to the problems.

"He said that he would let police know in advance of all activities.

The session with Sups. O.W. Wilson and other police officials was closed. But reporters, listening at a ventilator in the auditorium at police headquarters, heard parts of King's 40-minute, lecture-style talk. Then he joined the officials in a brief question-and-answer period.

King, president of the Southern Christian Leadership Conference, was heard to say that the "social revolution in this country" will require "a great deal of understanding by police.

In telling reporters that civil disobedience is a possibility, King said individuals often had to break a particular law to obey a higher moral law.

"We had to do this a great deal in the South," he said.

In response to a question, he said there might be situations in which he may deem it necessary to go to jail.

"I'm prepared to go to jail in Chicago just as surely as in other cities," he said.

King said Wilson "enforced a real social sensitivity.

Wilson himself made no comment.

King plans to schedule demonstrations in March. His general targets are real estate interests and landlords in the drive for improved housing. But none has come forward with comment on the plan, possibly because he had named any specific targets.
Looking Alert Helps

If You Don't Study, Try These 10 Tips

Every student has his own method of impressing his teachers, but seldom in a continuous line of good ways to stay in school written down. Here are 10 suggestions that have been contributed by Robert Tyson of the Department of Psychology and Philosophy at Hunter College in New York City and passed along by a member of the SIU faculty:

1. Bring in any kind of newspaper clippings dealing with his subject. This demonstrates an active interest and gives him timely items to mention to the class. If you can't find clippings dealing with his subject, bring in any clippings you can find. He thinks everything deals with his subject.

2. Look alert and take notes eagerly. If you look at your watch, don't stare at it unbelievingly and shake it.

3. Don't frequently and murmur "how true." To you it seems exaggerated, but to him it's quite objective.

4. Sit in front near him only if you intend to stay awake. If you're going to all the trouble of making a good impression, you might as well let him know who you are.

5. Laugh at his jokes. You can tell if he has told one by the way he looks up from his notes and smiles expectantly.

6. Ask for outside readings. You don't have to read them, just ask.

7. If you must sleep, arrange to be called at the end of the hour. It creates an unfavorable impression if the rest of the class has left and you sit there alone, dozing.

8. Be sure the book you read during the lecture looks like a look from the course. If you do math in psychology class and math in psychology class in math class, match the books for size and color.

9. Ask any questions you think are true answers. Conversely, avoid announcing that you have found the answer to a question he couldn't answer, and to your younger brother's second-grade reader at the end of the hour. It creates an unfavorable impression if the rest of the class has left and you sit there alone, dozing.

10. Call attention to his writing. This produces an exquisitely pleasant experience connected with you. If you know he's written a bad article, ask in class if he wants it.

At the end of his listing of the hour. It creates an unfavorable impression if the rest of the class has left and you sit there alone, dozing.

"As to whether or not you want to do some work in addition to all this, well, it's competitive and up to the individual."

The seminar is expected to draw top industrial and business leaders primarily from a four-state area, but also from all over the country. At least 150 senior reservists in the Armed Services will be ordered to active duty to be allowed to attend the seminar.

The seminar will be open to the public. Registration for the program will be announced later.

McKerrow Wins Oratorical Prize

Raymone E. McKerrow has won first place and $25 in the sixth annual Flora Breniman Oratory Contest with his entry "The Hollow Men in Defense of Liberty." Second place winner was Judy Lites with her entry, "On Being Negro in America." Nina Kim won third place with her entry, "Neglected Americans."

Cash prizes for the contest, which was held Wednesday, are made possible by funds donated by the friends of the late Flora Breniman.
Carbondale Faces ‘Metropolitan’ Problems
Population Increases; Services, Traffic Get Complex

By Robert Ward

Carbondale doesn't have hundreds of thousands of people, but it has already reached a metropolitan situation.

This is the feeling of Tom Easterly, city building and zoning inspector, who said the city faces increasingly the same type of problems as those in metropolitan areas of the country.

In fact, the Carbondale City Council has written the federal government to request a block-by-block census, the type used for the nation's largest cities, because services can be better administered.

The growth of greater Carbondale can be seen not only in the population figures but have almost doubled during the past 10 years, but also can be measured in greater use of such utilities as water, the amount of sewage treated, the addition of street lights and the growing traffic problem.

Since 1960 the city has grown approximately five percent of the city's building and has almost doubled since then because of the 'surburban area' 7.3 percent, according to a Greater Egypt Planning Study dated March 1, 1965. The study shows that the city's population now stands at 34,984.

As the city grows, a commercial class is also developing. About 3,000 workers come into the city from the greater Carbondale area and another 8,000 come from outside Jackson County to work in the city and attend the University, according to Easterly.

Easterly said that in a sign of growth, then Carbondale has dormitory projects complete in the past five years. A report out of Easterly's office shows new dormitory buildings in the period totaled more than $24,000,000, including 574 new homes valued at about $7,000,000; 40 duplexes valued at $840,000; and 336 apartment buildings valued at about $1,800,000. Twenty-four dormitory structures valued at $3,200,000 were built to house 3,542 students.

The Murdale Shopping Center was built within the past 10 years, as has everything on East Main Street, east of Wall Street, except the service station east of City Market. The Southgate Shopping Center, located north of the campus, and the shops directly adjacent to it which form an area called Land Trust, also have been built recently, Easterly said.

He estimated that at least 50 percent of the city's building activity in the past three years can be traced directly to the University's growth. "Carbondale has probably been more successful than any community in the nation in building private dormitories," he said.

"There was a need for them, so the city informed investors that they are a sound financial investment. A city ordinance made such developments possible," he continued.

The first private dormitory

Advisement to Begin

The advisement for students in the School of Business will begin Monday and continue every day Monday through Friday from 1 to 5 p.m. at 10th St. Elizabeth St.

TRAFFIC IS A MAJOR PROBLEM

"In 1962 the building administrator's office used permits for private dormitories totaling over a million dollars in construction costs, but the dormitories were never built because in January, 1963, the University Board of Trustees announced that the campus would expand into the area where the dormitories were to have been built," he said.

The first public housing units were built in Carbondale in 1955. The Jackson County Housing Authority is one of the first in the nation to utilize the scattered public-housing concept. The city now has 120 public housing units. An eight-story high-rise for the elderly is presently under construction.

A 10-story private dormitory for women will be built across the streets.

The city is still waiting for an estimate of the cost of a block-by-block census.

"It is essential to know where the people really are, in order to determine matters like the proper size for water lines, where lighting improvements are needed, and how to administer other services," Easterly said.

Easterly speculated that there has been a 100 per cent gain in population in the past 15 months in the southeast area of the city and expects another 1,000 increase in the next 15 months. Students account for about 75 per cent of the increase, he estimated.

"A similar situation exists between Mill and Cherry and Forest and University streets," he said.

The added number of people working and living in Greater Carbondale has taxed the city's water and sewage treatment plants. Carbondale is presently furnishing water to about 35,000 people in a 7% square mile area, Easterly said.

By 1980 there should be from 70,000 to 125,000 people in the area, according to a report on the city's projected water needs prepared by Paul D. Hall, city engineer.

The area used 3-4 million gallons daily and the figure is expected to double in five years, and again in 10 years, Easterly said.

"We are in the final process of expanding the water treatment plant. We hope to complete this by September. Although there are financial limitations, a new site will be needed next. If growth estimates for Carbondale are true, we'll have to find a new water supply," said Easterly.

To add to the city's woes, the federal government has made it understood that it would have to pay the resulting bill for the work of Crab Orchard Lake, the city's principal water supply, by 1970, Easterly said.

Every three to four years a new sewage treatment line has been needed. "We have expanded on the current plant until it can't be expanded any more. There are now plans for a new site," Easterly said.

Perhaps the most visible sign of the city's growth is the increasing number of cars on the streets.

Traffic and parking problems have led to a new city ordinance that requires commercial developments to provide their own parking lots, he said.

Physical Plant Keeps

By John Clifford

It's the department's pride and joy, and most responsible for the University's cleanliness, but without the services of the Physical Plant, it would be all too evident. The maintenance men, who work on over 17 million dollars' worth of equipment, do much more than clean the buildings and grounds. The Physical Plant employs 15 carpenters, 14 electricians, 10 plumbers, 10 paintmen, two brick masons, two iron workers, a back-smith, two electricians, two steam plant and electricians, a maintenance man, and a service crew, in addition to the maintenance men who work on the buildings and grounds.

The Physical Plant does more than generate steam. Two of the men in the department are responsible for maintaining the steam system, and they do so with great care. The system is so well maintained that it never fails, even during the coldest months of the year. The Physical Plant does more than maintain the steam system, however. It also maintains the water and sewer systems, the heating system, and the air conditioning system. All of these systems are vital to the operation of the University, and the Physical Plant is responsible for keeping them running smoothly.

The Physical Plant does more than just maintain the systems on campus. It also provides services to the community outside of the University. The Physical Plant provides steam, water, and sewer services to other buildings on the campus, as well as to other buildings in the community. The Physical Plant is also responsible for maintaining the gas and electric systems in the University.

SIU, Missourians to Wrestle; Pfoor Rejoins Salukis on Mat

SIU will meet Central Missouri in a wrestling meet at 4 p.m. today in the Arena. Returning to the squad after a year’s absence will be Dave Pfoor, a 145-pounder. Pfoor was ineligible until this quarter.

The wrestlers will be appearing with Don Schneider of Maywood as captain. He was elected two weeks ago after the invitational meet at Oklahoma State.

In today’s match, a take-down, reversal or predicament will count two points in individual match scores. An escape or a penalty will count one point, and a near fall will count three points in a match score.

In team scoring, a fall will count five points, a decision will count three, a draw two, and a default one. A forfeit will count five points.

Each match will last nine minutes, divided into three periods.

On Tuesday the Saluki men will come up against the Cowboys of Oklahoma State. Oklahoma State was the host team for the invitational meet held there two weeks ago, but SIU did not get to compete with the Cowboys then.

 probable starting lineup, with SIU wrestlers listed first:
123: Dan Ross vs. Jim Cannon.
130: Larry Baron vs. Bob Gines.
137: Don Schneider vs. Steve Boozelli.
145: Dave Pfoor vs. Bill Graham.
152: Tony Kusmanoff vs. Buzz Marston.

George McCready vs. Dave Smith.

Joe Domko vs. Reg Coates.

Terry Appleton vs. Phil McCann.

Buck Deadrich vs. Gary Givens.

Heavyweight: Bob Roop vs. Rod Herman.

Tony Kusmanoff, SIU’s 152-pounder, tries to flip over a Miami opponent in a meet held three weeks ago.

Business Fraternity Banquet Will Honor DuQuoin’s Hayes

Twenty-five prominent Southern Illinois businessmen will be guests at Alpha Kappa Psi professional business fraternity’s annual honors banquet, to be held 6 p.m. at the Holiday Inn.

The banquet is planned to familiarize the guests with the SIU School of Business and to present Don M. Hillis with honorary membership in the fraternity.

Hillis is president of the Coca-Cola Bottling Co. in DuQuoin, president of the DuQuoin State Fair Association, and a member of the board of directors for the annual Hambletonian race in DuQuoin.

A roundtable discussion of business topics will highlight the occasion. Robert E. Hill, dean of the School of Business, will conclude the evening with remarks on the importance of good relations between businessmen and educators.

A 5:30 p.m. smoker will precede the banquet.

Betterton to Speak

Second Hoosier Raid

Ace-in-Hole Salukis Bid to "Ball Up" Ball

Southern returns to neighboring Indiana for the second night in 10 days Saturday, this time to play Ball State in Muncie.

Coach Jack Hartman and his top-ranked Salukis hope to come home victorious, as they did in their avenging victory over Evansville.

Ball State, like the Aces, is a member of the Indiana Collegiate Conference. But there the similarity ends. In 10 conference years, the Cardinals have never finished higher than second. And their troubles are continuing.

The Cardinals lost to Indiana for the second time to play Ball State. They lost to Indiana for the second time to play Ball State. The Cardinals lost to Indiana for the second time to play Ball State.

The leading scorer is forward Mack Sawyer. The 6-2 sophomore also paced the team with 194 rebounds, almost 100 more than his closest teammate can claim. He is the team's leading rebounder, despite being the smallest man under the basket in the Cardinals' front line.

Starting at the other forward will probably be either Phil Underhill or Steve Ricks. Underhill, a 6-0 sophomore, is averaging nine points a game with the varsity, after being leading scorer for last season's freshmen. Ricks, a 6-5 sophomore, is also averaging nine points.

Starting at pivot will be Dave Huth, a solid, 210-pound six-foot four-incher. Huth is averaging 10 points a game.

At the guards Coach Jim Hinga will probably start Gerald Lanich and either John Miller or Mike Sapp. Lanich, a 6-2 senior, is averaging eight points, while six-footers Miller and Sapp are averaging seven.

The Cardinals' main problem this season has been lack of experience. They have only one senior on the 13-man squad, and two-thirds of the team is sophomores. But they make up for that handicap with their depth. They have used 11 men in 13 or more games, and all but one is averaging five points or better.

Second Half Opens

Chemistry, Housing Lead In Faculty-Staff Bowling

Chemistry and Housing are tied for first place in the Faculty-Staff bowling league as the second half of the season got under way Monday night.

Four teams, Dutch Masters, Grad A's, VTI and Counseling and Testing, are tied for second place with 3-1 records.

High individual game: Jean L. Zapp, Southern Players, 207.

Theta Xi Tryouts Deadline Is Reset

The application deadline for tryouts for the 19th annual Theta Xi Variety Show has been extended to Friday, Feb. 4.

There are three categories: individual act, one to four participants; intermediate act, five to eight participants; and group act, nine or more participants.

Application blanks may be picked up at the information desk of the University Center.

Additional information may be obtained by calling 3-2325.

The show is scheduled for March 4 and 5 at Shryock Auditorium.

Aces Not Even Close

Both AP and UPI Give SIU First Place

Southern's two victories over Evansville and Tennessee State last week have given the Salukis a tight hold on the first-place position in both the Associated Press and United Press International small college basketball polls.

In the AP rankings, the Salukis collected five first-place votes and 118 points in the balloting by a special panel of 15 regional experts. The voting was based on games through last Saturday.

Grumbling had 88 points, followed by North Dakota with 80, Youngstown State and Northern Michigan 55, Points were awarded on a basis of 10 for first place, 9 for second, etc.

In the United Press International poll, the Salukis received 29 of a possible 35 first-place votes and were only 17 points shy of a perfect 350 points. North Dakota, which is now 16-2, got one first-place vote and finished 80 points behind the Salukis in the balloting. Oglethorpe, the only unbeaten team in the Top Ten, finished third. Southern plays Oglethorpe a week from Saturday.

1. SOUTHERN ILLINOIS 16-2
2. North Dakota 16-2
3. Oglethorpe 15-0
4. Central State 12-6
5. Evansville 10-5
6. Akron 10-5
7. Tennessee State 10-2
8. Grumbling 12-3
9. Valparaiso 10-3
10. Long Island 11-1

Auto Club Slates Rally on Sunday

The Grand Touring Auto Club, Inc., will stage a rally Sunday afternoon. The event will begin at 12:31 p.m.Registration is from 11 a.m. until noon.

Rallymaster William C. Hayes said the rally is a straight-time-distance event and will run about three hours.
