Big Snow Disrupts Mail Service

All third class and bulk mail service to Carbondale from the Chicago area is snow-bound, according to Carbondale assistant postmaster, said Monday.

Daily arrival of a flexivan, convertible rail flatcar-truck trailer, has been disrupted since Thursday, Dillingar said. First-class mail has been arriving late from Chicago and points north, he added.

Dillingar said that this was the first time in his 32 years with the local post office that mail service from the Chicago area has been disrupted to this degree. He said that it was not known when normal scheduled arrival of the flexivan would resume.

All air mail service has been routed to Chicago by train, he added.

A spokesman for the Illinois Central Railroad said ticket sales from Carbondale to the Chicago area had increased considerably during the snow storm, increased passenger service was believed due to the interruption of air service and closing of highways, the spokesman said.

The spokesman said that an existing 35 mile railroad telephone lines had been knocked out of service by the storm.

Trains are now running about one hour behind schedule coming out of Chicago, the spokesman said. The first day of the storm, buses arriving in Carbondale from the Chicago area were delayed up to 12 hours.

U-School Grades 7-12 to Be Dropped

City Manager Quizzed About Cooperation

Members of the Citizens of Carbondale urged pressure on City Manager William C. Norman for an opinion Monday night on cooperation among himself, members of the City Council, and the mayor, Norman said he could not comment.

Robert S. Henderson, chairman of the group which has drafted a platform and endorsed candidates for the coming city election, said he was asking Norman for the statement because of statement made by Illinois State university, and City Council and an editorial in the Daily Egyptian. The queries came at the regular meeting of the City Council.

Norman declined to comment and the editorial asserted that Norman had not received full cooperation from Mayor D. Blaney Miller and council members Frank Kirk, William Eston, Joseph Ragland and Gene Ramsey, Miller, Ragland and Ramsey were cited by the Citizens for Progress group.

Norman declined four times under questioning to comment on whether or not he is receiving cooperation.

He explained that the city manager was not available to comment on any statement made by Illinois State university, and City Council and an editorial in the Daily Egyptian. The queries came at the regular meeting of the City Council.

Legal Remedy Doubtful

Residency Requirements Bar Students From Voting in Carbondale Elections

By John Epperheimer

Most 21-year-old students will not be allowed to vote in the Carbondale city primary and election in the next two months. And if they protest, they won't have much of a legal leg to stand on.

That's the opinion of two area lawyers, and the legal precedents they cite seem to back them up.

John Gilbert of Carbondale, a state senator, and state's attorney Richard Richman said detailing residency requirements as far as students are concerned is a matter of intent.

Most students who are 21 can fulfill the stated requirements of living in Illinois for 1 year, the county for 90 days and the precinct for 30 days.

They must intend to make Carbondale their permanent home and intend to make their living here to be eligible to vote, according to Richman and Gilbert.

"I think there is a presumption in the law that students of University community cannot vote in general," Richman said.

That is because they regard their hometown or their parents' home as their residential area although they may live in Carbondale during most of the year, Gilbert said.

Richman cited the case of Anderson vs. Filer in the Illinois Supreme Court in 1925 as the leading student voting case in Illinois. This case established the test of intent.

Religious Affiliation
Subject of Inquiry

By Kevin Cole

Campus Senate has assigned a committee to undertake the complex question of recognizing religious organizations.

The committee, headed by Senator Al Blumenthal, will investigate Senate recognition of organizations with claims of an exclusively religious affiliation.

The investigation comes in the wake of a long battle in the Senate over whether to recognize Officers’ Christian Union.

The OCU is a campus chapter of a national Christian-military organization. Organizations must petition the Senate to be eligible for travel fund allocations and use of University facilities.

Senate approval depends largely upon the degree to which the organization's constitution coincides with University and Senate policies.

The constitution of the OCU has not been approved by the Student Activities Chapter, according to Sen. Al Blumenthal.

Though the OCU has changed its constitution several times, some senators still object to 700 Paychecks

Still Unclaimed, Office Reports

About 700 student paychecks are still unclaimed at the Dining Services Office, according to Jack Groves, graduate in the office.

Most students who had check due have picked them up, Groves said, but the others are still unclaimed, Groves said.

The unclaimed paychecks range from the pay period of April 21 to Jan. 7, 1967. Student workers may pick up their checks at the Dining Services Office, located in the rear of the Bursars Office, during the regular office hours of 8 a.m. and 5 p.m., Monday through Friday.

Groves said the main reason for the unclaimed checks is the students’ unawareness of the U-mandated pay period system.

Play Reservations Available for ‘Pan’

Reservations for the play “Peter Pan” can now be made at the University Theatre box office in the Communications Building Monday through Friday between 10 a.m. and noon and 1 and 4 p.m. Performances will be presented Feb. 10, 12, and 16. Reservations can be made by telephoning 3-2555. All seats will be reserved.

DAILY EGYPTIAN

Published in the Department of Journalism February 6, 1967, the Daily Egyptian is published every school year, except during University vacation periods.

The Daily Egyptian is an independent, student-run newspaper published by the student organization “Media Eugenics,” with legal authority for the University of Illinois at Carbondale, Illinois. The Editors and the Board of Directors are responsible for the views expressed in this newspaper.

Chicago's weekend snowstorm turned an SIU student's ordinarily eighth-hour trip home into a two-day struggle. Lois Henning, a graduate student employed in the Division of Community Development, arrived by train in Carbondale 2 1/2 hours late Thursday night. Because of the snow, she was startled to see so much traffic on the South Outer Drive. The traffic, she later learned, consisted of approximately 4,000 cars, trucks, buses and snow plows which had been abandoned. She waited for more than an hour for a commuter train at the 12th Street station. None came.

Motels and hotels in the immediate Michigan Avenue area were filled and customers quickly used the bar and restaurant supplies. A passenger car rammed a police cruiser. Chicago Transit Authority buses stalled in the street and emptied their passengers. Taxi drivers walked. She finally took a subway train to the Near North Side late Thursday night. The Near North, normally a lively, swinging section of Chicago, was white and still.

Division Street, too, was silent and deserted. Miss Henning walked down Dearborn Street, alone and unhindered by traffic.

She reached her parents' home, 25 miles north of Chicago, on Saturday but had to leave again on Sunday.

"Chicago didn't swing this weekend," she said, "it walked and smiled through a memorable snowstorm."
LITTLE MAN ON CAMPUS

The Department of Geography will present a lecture from 8 to 10 p.m. today at the Morris Library Auditorium. The Redmond Club will meet from 7 to 9 p.m. in Room 207 at the women's gym.

The WRA Modern Dance Club will meet in Room 208 at the women's gym from 7 to 9 p.m.

The noon movie will show a film from 12:10 to 1 p.m. at the Morris Library Auditorium. Alpha Kappa Phi will hold a reception from 9 to 10:30 p.m. in the University Center Ball Room.

The French Club will meet at the Agriculture Seminar Room from 8 to 11 p.m. The Performing Arts Club will meet in Room C at the University Center at 8 p.m.

The International Relations Club will meet in Room E at the University Center from 7:30 to 9:30 p.m. The Student Council will meet in Room 207 at the University Center from 7:30 to 9:30 p.m.

Future Farmers of America will meet in Room 225 of the Agriculture Building from 7:30 to 9 p.m.

International Varsity Christian Fellowship will meet in Room C at the University Center from 4 to 4:30 p.m.

A McKnight Lecture will be presented by Dr. William H. McMath in Room 102 at the Agriculture Building from 7:30 to 8:30 p.m.

International Varsity Christian Fellowship will meet in Room C at the University Center from 4 to 4:30 p.m.

Sigma-Delta Chi will hold a reception on Saturday from 9 to 10:30 p.m.

The Iota Xi Chapter of the National Honor Society will hold a reception for the Theta Xi Fraternity from 9 to 10:30 p.m.

President of University Senate will meet in Room C at the University Center from 7 to 8:30 p.m. Phi Sigma Kappa social fraternity will practice for the Theta Xi Variety Show in Room 102 at the University Center from 7 to 8:30 p.m.

Opera rehearsal will begin at 6 p.m. at Muckelroy Auditorium.

Arab students will meet in Room 102 at the Home Economics Building from 1 to 2 p.m.

U-School’s Closing
Not Easy Decision

It was announced last week that the University administration is discussing the possibility of closing down grades 7 through 12 of the University School.

This isn’t how it was originally planned. Initially, an announcement was to have been made last week telling all concerned that the University School, grades 7 through 12, was to be closed.

However, this information got out prematurely. And word soon got back to the administration that the announcement had best be halted.

The result of such a move on the Carbondale school district would be, of course, disastrous. Board members were so opposed, however, that the facility would remain open.

And if the decision to close the school was made, they would be given a year’s notice in which to prepare for the influx.

This prompted one member of the board to say last week “We’ll crucify MacVicar.”

Robert W. MacVicar, vice-president for academic affairs, holds the opinion that the University School doesn’t justify its expense.

Three questions are involved in the matter. 1. The basic question of whether or not the facility should be closed at all. 2. What is the University School’s obligation to the community? and 3. What is the procedure in reaching such a decision.

As to the first question, it may be an expensive school to run. And its purpose of being a training school for student teachers has ceased to exist.

But it is considered a laboratory school. And it would seem that the research being conducted at the University School would be reason enough to retain it.

Three experimental projects presently are being carried out. Use, a them, the Comprehensive School Mathematics Project, has been hailed as one of the most exciting and worthwhile education programs now being conducted. The program has merited international praise.

The concept that a university has an obligation to the area in which it is located has been the philosophy under which this school has operated.

It has helped out in everything from testing top soil to working on St. Louis’ air pollution problem. And yet it would dump 300 kids from the University School in the lap of the Carbondale Board of Education. The only result possible is that it will work an undue hardship on the taxpayers of the community.

The third question is possibly the most vital. How is a decision to be made arbitrarily by the University administration?

As one faculty member said, if they can close this down, there’s no reason that they can’t close down the anthropology department or the English department or another department.

The last time this move was attempted, it met with vehement opposition from all corners of the University. Yet it was planned to merely announce the closing this year without any hearings on the matter or any consideration of the objections to the decision.

It is generally accepted that the students have no hand in running the University. And it appears that the faculty has also been relieved of any decision-making responsibilities.

Tim Ayers

To the editor:

Well, there was a third day of wind and rain Thursday and the telephone service just wouldn’t take it. Dead. Of course, you’d think that a phone company that covers as extensive an area as ours does and has a brand new building downtown would be able to string their wires along the ground so that every car and dog fight knocks out the service for a day.

Maybe the craftsmanship is better in the city limits, I’m on a rural route with a 6-party line. Students have a tendency to move quite frequently making it difficult for the phone installers to keep up with them and perhaps this encourages sloppy jobs. Of course, students also have a tendency to make an awful lot of expensive long-distance calls—this is when a line can be gotten out of town.

I once read an advertisement by a phone company (it wasn’t ours) that mentioned something about “We may be the only phone company in town but we try not to charge like it.” Maybe the great General will get the message.

In the meantime I’m waiting for my lines to dry out so I can make a long distance person-to-person call to

The Ethics Committee Must Be Forceful

One of the most important new committees formed by the Eighty-ninth Congress was the House Ethics Committee. Unfortunately, it lacked the power and time to do the job for which it was created.

Recent disclosures during initiation of the Adam Clayton Powell probe have pointed to the need for such a committee.

It must not be a sham. It should be given power thoroughly to investigate alleged misconduct of House members and to recommend disciplinary action.

Representative Charles E. Bennett of Florida, chairman of the committee in the Eighty-ninth Congress has introduced a measure to reestablish the committee, it should be approved.

Jules Feiffer

These are the Bobby Twins. One is a Good Bobby. The other is a Bad Bobby. They are the same in so far as they are both boys. The Good Bobby is a Courageous Citizen. The Bad Bobby is a Scoundrel. The Good Bobby Technically is a Partisan. The Bad Bobby is an Independent. Their Parents are Civil Rights Workers. Their Grandparents are Welfare Workers. Their Great-Grandparents are Free Men.

Faculty Views Split on Vietnam Draft

By Mike Nauer

With the United States embroiled in its fourth major military conflict of the century the question of supplying manpower for an army is once again a major issue.

The growing necessity of the United States' involvement in Vietnam is central to the issue, the war has raised complaints that the draft is inequitable, unnecessary and harmful to individual class standings and enrollment reports, but they detract's advantage for his draft board that their plane give us a worse black eye in the world press we'll stop bombing them, they're willing to We need to keep our better young people in universities. In fact, they would be of more value to the service if they were to be educated and specialized before they entered, "Kennedy continued..."

Donald Winsor, director of S U Audio-Visual services, questioned the idea of just where a person is most valuable to his country, even under these testing circumstances, Indians always do their duty to the extent possible but they always recognize the presence of powerful hand of nature or God or destiny, whatever name you may have for that situation. This belief in the powerful action of God has maintained the stability of the Indian nation over centuries.

With respect to the separation of Pakistan and India, the government now recognizes that Mr. Jones that he read the history and to find out who was responsible for those actions. In those cases, even the most philosophical problems, have not neglected their materialistic life. As he says, "The plans would not have happened if Indians were worse fighting the fiscal as stated by Mr. Jones. The result of this statement has not been approved by my friend, Mr. Kumararathnam."

To know more about India and its outlook, I request my friends to look to the latest article "The Indus Waters Treaty and Pakistan: An In-depth Analysis" in the Argentine ambassador to India during 1962-64, a well known scholar and historian of Latin America. It is published in the magazine "Indian and Foreign Review" dated Jan. 1, 1967, which is available in the 3rd floor of Morris Library.
Infantry Sweeps 'Cong' Heartland

SAIGON, South Vietnam (AP)—The U.S. Army rounded out its Mekong River delta fighting force Monday with the landing of the final unit of the 15,000-man 9th Infantry Division on Vietnamese soil. The division's mission is to range through the Viet Cong heartland and smash the enemy's chief network of recruiting and supply.

The 3,200 men of the 9th's 2nd Brigade came ashore at Vung Tau, 40 miles southeast of Saigon, as the war continued at its stubborn pace of small, scattered actions.

U.S. Air Force 152nd bombardier hit a suspected Viet Cong base camp 16 miles west-southwest of Saigon, their closest strike yet to the capital by two miles. The raid battled waves in the city, ranged out its blacked-out windows.

The U.S. Command said the strike was aimed at the Viet Cong's 165A Regiment. Ten days ago, South Vietnamese airborne troops reported killing 117 men of that regiment in two clashes.

The command gave this rundown of activity elsewhere:

Protests Turn To Violence In Spain

MADRID (AP)—Spanish student and worker protests over police arrests on snowballed Monday into a violence-strewn problem for the government of Gen. Francisco Franco.

At Madrid University, where students and security forces clashed in a pitched battle of stones and clubs, more than 1,000 students were detained. At least three foreigners were reported injured and some of the protesters treated for minor cuts and bruises.

Sato's Democrats Kept In Power By Japanese

TOKYO (AP)—Prime Minister Eisaku Sato's pro-Western Liberal Democratic Party has returned to power, his pro-Political Socialist opponents have suffered a severe setback, and a new third force has emerged in Japanese politics.

These developments stood Tuesday in final returns in Sunday's general election to a new House of Representatives.

For sato is a possibily curricular period for U.S-Japan relations, with the American-Japanese security treaty due to come up for review in 1970.

Aftermath of Apollo Tragedy—This is a picture of the spacecraft that was engulfed by flames on its launch pad killing the three astronauts inside. (AP Photo)

On Apollo Tragedy

Secretly Continues

CAPE KENNEDY, Fla. (AP)—A board of inquiry Monday threw a secrecy cloak over its investigation of the flash fire that killed the three Apollo astronauts.

As the board met, the National Aeronautics and Space Administration continued to issue puzzling, contradictory statements on whether the spacecraft was on internal or external power at the time of the fatal mishap.

And an old argument was revived over whether the United States should continue to use pure oxygen in its space ships or switch to a two-gas system.

An oxygen-fed fire raged swiftly through the Apollo 1 cabin during a test on the launch pad Friday, killing Air Force Lt. Col. Virgil I. Grissom and Edward H. White II and Navy Lt. Cmdr. Roger B. Chaffee.

Members of the board of inquiry were at Cape Kennedy Monday to bid farewell to the astronauts.

It’s Cold Everywhere—The people in the Midwest that were hit by the weekend snowstorm, from Texas to Ohio, are mudding up grit and salt to clear the streets. A heavy snowfall is expected in the region.

Mao Admits Followers Are Divided

TOKYO (AP)—Mao Tse- tung’s leadership, rocked by weeks of civil strife, admitted Monday its followers were divided, and called for a shift in strategy—a “great alliance” to end China’s “bitter class war.” The official People’s Daily said “petty bourgeois ideol­ ogy” exists among followers.

WASHINGTON (AP)—Pre­ sident Johnson asked Monday for an all-out effort against air pollution. He said the prob­ lem was growing worse and endangering the nation’s health. The economic loss from air pollution amounts to several billions each year. Johnson called in a special message to Congress.

“Football and even snow are not as popular as the big four—baseball, basketball, hockey, and football.”

Morden Sold

You’ve heard of the “golden age” of real estate. In the last few years, the market has been flooded with new developments, and prices have soared. But have you heard of “morden sold”? It’s a hot new trend in the real estate market.

NOW YOU HAVE HEARD OF THIS KIND BUT WERE YOU EVER LUCKY ENOUGH TO GET THERE FIRST?

Beautifully appointed eight room home, four or five bedrooms, Formica, 11 bath, Southwestern location, hot water heat, air con­ ditioning, brick and alumi­ num exterior, attached garage, completely furnished and ready for shop­ ping. This recently redecor­ ated home contains 2083 sq. ft. of living space and the owner says it goes for $79,900. You think you’d agree it’s worth every penny of that amount.

NOT FOR YOU

Unless you are the rare family that is absolutely meticulous about every last detail, this magnificent tri­ level, located in Southwest Capetown, with its four bed­ rooms, family room, two baths, built-ins like you’ve never seen before, and with the floors that actually sparkle, the cleanest most im­ maculate living space you’ve ever seen and priced at just $24,500, you probably won’t agree. But it’s there while there is still time.

This is stealing

but owner says he won’t press charges if you walk away with this three bedroom brick and aluminum, two year old beauty located in Oakland Manor on a nice corner lot at $19,500.

The following admissions and dismissions of patients were reported over the weekend:

**Health Service**

Admitted: Monty Wilson, 830 W. Sycamore, Nursing Home, 708 E. College, John Dotten, 707 S. Burlison; Larry Smummet, 506 S. Poplar; Laverne Bradley, Woody Hall.

Discharged: Owen Birts, Southern Hills; Carol June Stanley, Murphyboro; Joseph Sivonkai, 716 S. University; Sandra Cofvin, 500 W. Wall; Kathleen Jung, Neely Hall; Leon McCleary, Anna; Monty Wilson, Laverne Bradley.

**Harpers**

To Accept Post

Robert A. Harper, professor of geography and former department chairman, has submitted his resignation, effective at the end of the 1967 summer term, to become head of the geography department at the University of Maryland in September.

Harper has been a member of the SU faculty since 1950 when he received his doctorate at the University of Chicago. He succeeded Floyd Cunningham as chairman of the department in 1955, serving until last July when he requested reassignment to teaching and research. He was succeeded by Frank H. Thomas.

Harper will be director of Southern's summer geography institute for junior and senior high school teachers. The Harper family will leave for College Park, Maryland, about the end of August.

**Sisney Services**

**Scheduled Today**

Mrs. Stella B. Sisney, 82, of 411 W. Sycamore St., Carbondale, died at 10:45 p.m. Sunday in the Jackson County Nursing Home.

The funeral will be at 4 p.m. today at the Van Natta Funeral Home. The Rev. Willard Foote will officiate.

Mrs. Sisney is survived by her grandson, Paul Sisney, an SU student.

**Stanley Walker Dies; Funeral Set Today**

Stanley O. Walker, 50, of DeSoto died at 8 a.m. Sunday at Holden Hospital.

The funeral services will be held at 2 p.m. today at Van Natta Funeral Home. TheRev. William Foore, DeSoto, will conduct the services. Interment will be at DeSoto Cemetery.

**over-night case**

**Carbondale, Hospitals, Health Service Report Active Weekend**

Culp, William Morgan, Carbondale; Carol Stanley, Carbondale; Clarence Cox, Marion; Agnes Prippe, Mounds; Dana Romans, Carbondale; Helen Burger, Carbondale; Cheryl Perrett, Mounds; Claude Wheeler, Murphyboro.

Discharged: Mrs. Ray Carrell, West Frankfort; Sarah Hinkle, Carbondale; Jean Heumann, Du Quoin; Jacob Goro, Carbondale; Ira Dillow, Anna; Samuel Davis, Murphyboro; Jesse Childers, Murphyboro; Mrs. Ira Cox, Carbondale; Kendall Dobbs, Carbondale; Mrs. William Brandon, Carbondale; Mrs. Carl Cofrol, Carbondale; Mrs. Denver Crews, Carbondale; William Buxard, Carbondale; Lola Lindsey, Hurst, and Lawrence Snyder, DeSoto.

**It's trade-in time for tired old myths.**

Like the one about business. Especially big business. That it is beyond the rugged individualist's wildest dream to enter the holy of holies because he'll lose something that's very sacred — like his independence.

Sure, it can happen. If a guy or gal wants to hide, or just get by, or not accept responsibility, or challenges.

We're not omniscient enough or stupid enough to speak for all business, but at a company like Western Electric, bright ideas are not only welcome, they are encouraged. And no door is shut. Create a little stir, go ahead, upset an old appletome (we replace shibboleths at a terrific pace — we have to as manufacturing and supply unit of the Bell System — in order to provide your Bell telephone company with equipment it needs to serve you.)

There's an excitement in business. True, we're in it to make a profit, but working to find new and better ways to make things that help people communicate is very rewarding and satisfying. Did you ever hear of any company like Western Electric, bright ideas are not only welcome, they are encouraged. And no door is shut. Create a little stir, go ahead, upset an old appletome (we replace shibboleths at a terrific pace — we have to as manufacturing and supply unit of the Bell System — in order to provide your Bell telephone company with equipment it needs to serve you.)

**bottle of Lensine**

A removable contact lens carrying case. Lensine by Murine is the new all-purpose solution for complete contact lens care.

It ends the need for separate solutions for wetting, soaking and cleaning your lenses. It's the solution for all your contact lens problems.
Grades 7-12 To Be Closed At U School

(Continued from Page 1) tion of a small high school would seem questionable unless it could be transformed into a research and experimental school," MacVicar said.

This changeover was not possible because of the denial of necessary funds by the higher board, MacVicar continued.

Charles J. Lerner, president of the Carbondale Community School District, said the transfer of students to the Carbondale school system "could result in considerable long-range benefits to the Carbondale system."

He said although the added enrollment may pose problems, he is counting on support from the University. Lerner said the physical problems will be eliminated with the opening of the new high school east of town in the fall.

In response Martin, superintendent of the grade school district, was less optimistic. He said the additional enrollment will create problems because of the additional cost, scheduling and the different teaching philosophies of the two schools.

Martin said biennial operating funds were levied last fall and his system will have difficulty acquiring the additional funds. He said the 82 additional students may require adding four or five more teachers to his staff.

Martin said that because of the different teaching philosophies, the public school might encounter some disciplinary problems. He said he believed students in the University School enjoyed more freedom.

Martin said he had hoped there would be a gradual transition in the transfer of the students.

Speaking of the effect on the teachers, MacVicar said only three teachers who have accrual tenure will be retained and re-enrolled within the University.

MacVicar said the space opened up at Pulliam Hall by the transfer of students will be used for special education classes, research and clinics. The laboratory school for grades one through six will be continued, he said.

Chemistry Seminar

James Tyrrell of the National Research Council, Ottawa, Canada, will deliver a seminar to the Department of Chemistry at 4 p.m., today in room 204 Parkinson entitled "The Dipole Moment of the First Triplet State of Formaldehyde."

TURN ON TOMORROW

Feel like being one of the brains behind the coming gas turbine age... or helping to develop a new aircraft alloy... or finding out how to feed 4 billion people? Try your genius at International Harvester, where computers and research are as familiar as tractors and trucks. We are a company that supplies mechanical power to a world that is increasing its population by more than 50 million a year. Our horizons are unlimited. But our immediate job is to attract young people who can match their strides with today's outrushing technology. We have openings in research and development, design and testing, manufacturing and sales.

We intend to offer the best combination of opportunity, responsibility and individual treatment. International Harvester is a 2 billion-dollar plus annual business. We are the world's largest producer of heavy-duty trucks, a major producer of farm and construction equipment, an important steel manufacturer. Join POWER and the people who provide it are our lifeblood. We need talented and imaginative graduates in liberal arts, accounting, chemistry, mathematics and business administration, as well as engineers. "We probably need you."

Three Programs Remain

Celebrity Series in Red, May Discontinue Shows

By Shirley Rohr

Celebrity Series, a variety of cultural programs offered to SIU students and the people of Southern Illinois, is losing money in its first year on the Southern campus.

Paul Hibbs, coordinator of special programs, along with the Activities Programming Board and Student Activities started the series at SIU.

"Our purpose for bringing this to the campus," said Hibbs, "was to offer local students the same kind of shows that are available in big cities and on larger campuses."

It's said that box office revenue for the Celebrity Series were low so that more people might attend the programs. As an example, he said the local ticket prices are $1, $2, and $3 for individual shows, while the same presentations playing in St. Louis and Chicago are booked for $6 and $6.50.

Right now, he continued, "Celebrity Series is about $4,000 in the hole. We expected a deficit," he continued, "but we really didn't expect it to be much of one." He attributed the start of the year's financial difficulties to the program presented at SIU, "Half a Sixpence," he said, "was presented from March 1 through April 21, and we thought we would have a big turnout for both performances. It happened that we didn't have the crowd anticipated and we ultimately lost money on the show."

"The thing I can't understand," he said, "is that it is one of the best and considered one of the most publicized shows on Broadway."

Each program on the Celebrity Series is presented at two different times within one day. "To make a profit from the show," said Hibbs, "we need to sell our full house. One of the only profitable program of the series was the one featuring Ferranti and Teicher, and tickets for both of their performances were sold out."

As stated by the Celebrity Series coordinator, Hibbs, "if the Celebrity Series would continue, Hibbs replied: "Only after the last presentation will we know. Then we'll look back and see how the programs as a whole were received.""

Celebrity Series programs already presented this year include "Half a Sixpence," Ferranti and Teicher, the Martha Graham Dance Company, and "The Cambridge Circus."

Forthcoming programs yet to be presented are "Bosom and Breas" on Feb. 1, "An Evening's French" on March 31, and the Don Cossack Chorus and Dancers on April 12.

NOTE OF ADVICE

There will be a hearing before the Carbondale Planning Commission on Wednesday, February 16, 1967, at 2:00 P.M. at the City Hall on the following request.

Requoin of Mrs. John C. Lewis, 905 Taylor Drive, Carbondale, Illinois for a change in the zoning of a piece of property in the 109 St.天鹅t line of the City on the following description:

W.
sh.
N.
E.

The proposed area is one of twenty-three acres and is located in the 109 St.天鹅t line within the City limits.

1967 Ace High Used Cars

1965 Corvair Monza Sport Coupe 4 Speed 1-owner—Low Mileage $1595.00
1966 Chevelle Convertible Blue inside automatic V-8 Engine! Low Mileage Like new! $2395.00
1961 Impala 4-door sedan V-8 automatic transmission, Real sharp! $995.00
1962 Chrysler Newport 4-door automatic Power steering, power brakes $1095.00

New Location
3 Miles North Of Murphysboro E. 13-127

ILLINOIS DEPARTMENT OF PUBLIC WORKS AND BUILDINGS Division of Highways: seeking junior and senior engineering students (candidates for summer employment.)

MOSES SECRETARIAL SCHOOL: Seeking business education teachers for positions in business schools.

LEO A. DALY CO. : Seeking mechanical, electrical, and civil engineers.

LILLY INDUSTRIAL COATINGS, INC.: Seeking chemistry majors for positions as chemist-formulators in product development.

SCHOOL DISTRICT OF RIVERVIEW GARDENS, ST. LOUIS: Seeking teachers for grades one through six and secondary levels and areas of teaching.

FERGUSON-FLORENSANT SCHOOL DISTRICT, MISSOURI: Seeking teachers for all school levels on the elementary and secondary levels.

Feb. 1

MOHNEY PUBLIC SCHOOLS: Seeking teacher candidates for elementary teachers grades one through six, junior high French, junior high English, junior high mathematics, junior high choral music, junior high physical education, high school English, business, science, home economics coach and mathematics.

A delegation of a dozen faculty members and students from the home economics department in home economics will participate in the annual regional conference Feb. 17 and 18 in Chicago. An SIU student is also expected to run for vice president of the 1968 conference.

At the afternoon interview, Zoning Clerk Mrs. Sue Ridley, Department of Planning and Community Services, said: "If any Home Economics College Chapter members interested in attending should contact Mrs. Sue Ridley, Department of Clothing and Textiles, before Wednesday."
Few Short Courses

Foreign Schools Grade Differently

By Barbara Leebens

Scheines, six year comprehensive school systems, British grading systems, repetition of the whole school year if one course is failed... Stranger! Not to the students from other lands who attend SIU.

Urgula Ewald of Germany said the University of Heidelberg, with 11,000 students, is operated under the semester system. Lectures are held without compulsory attendance and no questions may be asked during lecture sessions. Seminars are held for each subject and all students must attend.

According to Miss Ewald, the grading system in Germany is different from the one used at Southern, in that grades are given in number form ranging from one to six.

"If you pass a course you receive a white piece of paper called a 'Scheine,'" said Miss Ewald. "You must have a certain number of the 'Scheine' before you can take the state exam," she said.

"It is often harder for American students to pass this state test," added Miss Ewald, "because it is a comprehensive exam covering what you have learned in a certain major subject over a period of six years. The Americans are accustomed to cramming for one quarter and then never worrying about it after they have passed it for the quarter.

This would not work in our system," said Miss Ewald.

In Bolivia, colleges operate on the year system with one break of 10-15 days in the winter. Jose Luis, graduate student in English from Potosi, Bolivia, states that most Bolivian colleges are much smaller than SIU in student population.

Grading in Bolivia is based on the number system, with seven being the best possible grade, six—very good, five—good, four—fair, three to two, poor and one, failing.

Thailand has five or six universities which operate on either the American or British grading systems. American universities use letter grades, while the British prefer the percentage system.

Pairote Leetavorn, SIU sophomore from Thailand, says that a score of around 60 percent is usually passing in his country. A program similar to SIU's General Studies is used the first two years. A student then concentrates on his major area of study.

"Sometimes it takes five years for a student to pass one course in Thailand," said Leetavorn. "Each course must be passed before a student can proceed to the next requirements. And with only one test a quarter, this is sometimes difficult," noted Leetavorn.

A student from the Congo who preferred to remain anonymous stated that the schools in her native country are also based on the percentage grading system.

"It is very difficult for a person to be admitted to a university in the Congo," she said. Six years of high school study and a minimum score on an entrance examination are required.

Designer Pearce to Speak Wednesday

Designer Peter Pearce, a visiting critic in the Department of Architecture, University of Southern California, will present a lecture at 8 p.m. Wednesday in Morris Library Auditorium.

International Night Planned

The sixth annual International Night will be held at 8:15 p.m. Wednesday at the Newman Center.

All students are invited to attend. Refreshments will be served.

Master of ceremonies for the occasion is Johnathan Ngend, Kenya. Francis Williams of Guyana is the chairman of the event.

We've come a long way from this without you.

Think how far we can go with your help! Make your future with us as an Illinois Bell Communications Consultant. At Illinois Bell, you'll be where the action is. Where things are happening. Where new communications developments are constantly emerging.

And as one of our Communications Consultants, you'll help top management business men analyze their existing methods and procedures. Then using new electronic innovations, you'll design a total communications system to help them cut operating costs, increase efficiency and revenues.

You can go as far at Illinois Bell as your talents and abilities take you. For Illinois Bell is a growth company and offers almost unlimited opportunities for advancement.

So take a long look at Illinois Bell. Make an appointment now at your placement office.

Swimmers 67 Win Intramural Swimming Meet on Saturday

Approximately 100 participated in the intramural swimming meet on Saturday afternoon at the University Pool. Seven teams entered the meet. The winning team was the Swimmers 67, which competed last year under the name of Swimmers 66 and won then, too. No records were broken this year, but the winning team got a close to record time. Team results were as follows:

First—Swimmers 67, Independent
Second—Pierce First, Men’s Res, Halls
Third—Phi Sigma Kappa, Fraternity
Fourth—University Park Men’s Res Halls
Fifth—Theta Xi, Fraternity
Sixth—Phi Kappa Tau, Fraternity
Seventh—V.T.I., Men’s Res Halls

The individual winners were:

Swimmers 67 Win Intramural Swimming Meet on Saturday

Gymnasts Grab 54th Consecutive Dual Meet Win

SUU gymnasts invaded the snow-covered northland this weekend and came home with their fifth straight dual meet victory this season and their third in a row with a 180-55-160.05 rout of Mankato State at Mankato, Minnesota.

The Salukis were victorious in all four events, including the all-around which Fred Dennis won. Coach Bill Meade also welcomed back Rich Tucker, co-captain and all-around performer. Tucker competed in two events after being sidelined for two weeks with a dislocated elbow.

The meet started by taking the first three places in a flyaway. Dennis took first with a score of 9.1, followed by Steve Whitlock at 8.6 and Gene Kehrer at 8.55.

Southern then took first and third in the side horse. Mike Boegeker took individual honors with a score of 9.25, Mankato’s Allen Curran was second with 9.0 and SUU’s Ron Harstad was third with 8.6.

After two events the Salukis led, 52-45-47.45 and the rout continued. Dale Hardt won the trampoline event with a score of 9.0 and Hille Dvorak was second with a score of 8.65, Mankato’s Mike Zunk was third with a 7.55.

The Salukis also took the first three places in the high bar. Dennis was the victor with a score of 9.1, followed by Allen Alexander at 8.1 and Tucker at 7.85. After four events the Salukis led 102-40-89.55.

Southern won the first two places and tied for the third spot in the longhorse. Mayer’s score of 16.0 was good for first. He was followed by Dennis at 8.6 and Larry Linderd and Mankato’s Curran at 8.5.

The Salukis finished the meet by taking the first three places in the parallel bars and the first two places in the rings. Dennis was first in both the parallel bars and rings. His score on the parallel bars was 8.4 and 9.35 for the rings. Tucker and Harstad tied for second on the parallel bars with a score of 8.35 and Mayer followed this with a score of 8.15.

Joe Poliziano finished second on the rings with a 9.0 and Wayne Borkowski was third with a score of 8.6.

"The judges were scoring low. I thought the performances were as good as we had against Michigan State and in some places better," said Coach Meade.

The Salukis’ next meet will be Friday against the University of Colorado in the Arena starting at 7:30 p.m.
Southern Dunked by Tough Indiana Swim Team, 69-35

Indiana’s swimmers did what was expected. They beat the Salukis, 69-35, for their ninth straight win against Southern. It was also the 24th consecutive win for the Salukis and Mike Essick, head coach, against Tennes­

s, 52-27 against M. V. Brown.

The next game for Coach Jim Smelser’s team will be Feb. 15, when the Salukis entertain Washington St., Louis.

Chicago Sun-times Coach Nestor Meyer Coach CHICAGO (AP) — George Meyer of Chicago, coach of the 1964 United States Olym­

pic soccer team, was named coach Monday of the Chicago Montage of the North Ameri­

can Soccer League.

Meyer, 44, also coached for the past three years the U.S. World Cup team.

Dick Garrett High Scorer

Salukis Overwhelm Steubenville 77-46

By Tom Wood

Good ballhandling and shooting, a frugal defense for the home team and a frigid night on offense for the visitors, put them all together and what have you got? Saturday night's game in the Arena, which must have been a walloping long affair for Steubenville defenders, Southern won the game with a lop-sided score of 77 to 46. (Photo by Nathan Jones)

Snow Ends Track Teams' Plans for Illinois Open Meet

Because of the snow storm which hurled more than two feet of snow in parts of Northern Illinois, the Illinois Indoor Track meet was canceled.

Carbondale Keeps 5th Place Notch

SPRINGFIELD, ILL. (AP) - Undefeated Benton remained atop The Associated Press high school basketball poll, sharing the No. 1 rating for the fifth week in a row. Positions of the first eight teams were unchanged from the previous week and only minor shuffling occurred among the lower half of the top 16 teams.

The top 16 teams with won-loss records and poll points:
1. Benton 18-0 235
2. Collinsville 17-2 227
3. Rockford West 15-0 205
4. Waukegan 15-0 205
5. Carbondale 15-1 183
6. Lawrenceville 14-0 175
7. Pekin 16-1 142
8. Danville Schlarman 16-0 137
9. Quincy 15-2 130
10. Peoria Central 16-2 93
11. Normal Flossenmoor 15-2 88
12. Chicago Farragut 16-2 71
13. Springfield 16-2 60
14. Dixon 15-1 50
15. Madison 17-0 43
16. Elmhurst York 14-2 37

The meeting was to be held in Champaign Saturday but the power lines were down in that area and the University of Illinois was running on auxiliary power.

The Saluki track team was to run in this meet and were favorites to win several individual events. But SIU track coach Lew Hartzog was notified Friday afternoon that the meet would be held.

"This cancellation will hurt us because we needed the meet experience to get us ready for the Kansas meet which will be Friday," said Hartzog.

The Salukis will face the Kansas team in Lawrence, Kans., Kansas Coach Bob Timmons is expected to field a rugged team headed mainly by sophomore. The biggest name in track, Jim Ryan, will run for Kansas. Ryan owns the world record in the mile and the half mile.

San Diego State last year, Dick Garrett led all scorers with 18 points. He was followed by Clarence Smith, Ed Zstrom and Roger Bechtold with 10 apiece, Walt Frazier with nine and Chuck Benson with eight.

The Salukis reversed their slow offensive performance of Friday night, shooting and handling the ball considerably better. They played their usual aggressive defense throughout, not letting up when they grabbed a big lead early, and forced the Barons to scrap their offensive patterns and start taking the bad shots before the intermission.

Once again Saturday night's game was played in a half-empty Arena for the second straight night. The attendance at both nights combined would have barely filled the Arena for one game.
