Neely Dorm To Get Miles Of Drapes

SIU soon will purchase enough drapery material to reach from Carbondale to Murphyboro for the windows in the University Park dormitories.

C. D. Muir, interior designer for the University architect's office, said it will take four and a quarter miles of drapery material alone for the 17-story Neely Hall. About four more miles of material will be needed for the men's dormitories in the project.

May said the drapes will come in six basic shades of blue, green, red, and yellow. In the tower they will be hung so that alternate stripes of color are visible from the outside, running the entire height of the building. Since the exterior of the tower itself is unfinished concrete, the curtains will provide the main decorative element.

Furniture is already ordered for the 46 rooms in the tower and 52 in the three other halls. That totals up to some 1,441 beds and an equal number of desks, chairs, and four-drawer chests.

Each floor will have three men's students, and two-three-story units for men, are scheduled to be opened in September. Another hall for men will be completed by the winter term.

Gunk, 7th of July Celebration
Enliven Lake Geneva Campus

(Evelyn Augustin, an SIU junior majoring in journalism, was one of a group of college students selected to work at an unusual summer camp. This is a second of a series of reports on life at the camp.)

By Evelyn Augustin

What? You didn't go to the Seventh of July celebration? And you didn't know about the gunk sale? Then I'll bet you missed the discussion on Playboy philosophy, too.

Pardon me? Oh, you were rehearsing for "South Pacific." Well, that's what you get for being a star.

And that's what you get for not working at George Williams College, Lake Geneva Campus, in Wisconsin.

The Employees' Association, composed of staff members, sponsors more than enough activities to occupy the leisure of all the workers on campus. Social, as well as educational, programs are scheduled every night.

The Seventh of July celebration was a dance with a small admission charge to raise money for the association's treasury. Refreshments were provided and entertainment was offered by a group of folk singers, otherwise known as fellow employees.

The gunk sales are not unusual as name implies. Gunk in coffee and lemonade sold at the four Music-by-the-Lake concerts, one of which will feature Doc Severinsen of the "Johnny Carson Show."

Discussions on the philosophy of Playboy magazine are a part of the special intercurricular program, which also sponsors group discussions on several novels. The leader of the group is the campus chaplain, who is the Employees' Association advisor.

A community-sponsored by association include sailing lessons, a talent show, sports tournaments and the production of "South Pacific," which will be August 11 and 12.

Most of the employees are working on the show as members of the cast or on the publicity, props, makeup, or sales committee.

To learn acting techniques and to get ideas for props and staging, some of the cast and crew went to Milwaukee, where the show was being presented at a theater-in-the-round.

The show includes acquiring some knowledge of theatrics, all the travelers enjoyed the performance, everyone who arrived on the day at the Wisconsin campus.

Since most of the day is spent participating in organized activities, the time an employee may call his own begins at 10 p.m. One of the favorite ways to pass an evening is to walk the shore path to either Williams Bay or Fontana. Each town is approximately one mile from the campus, but Fontana is more popular since it offers the excitement of an all-night restaurant, equipped with a jukebox. What more unusual as educational, group of folk singers, raise money for the association's treasury.

The more ambitious ones have waded around the lake on their days off. For others, the 28-mile shore path doesn't seem as inviting as a day of patch doesn't seem as inviting as a day of

Sen. McCarthy Proposes Bill To Subsidize College Costs

A bill providing a $300 annual benefit to assist college students in meeting rising academic expenses has been introduced in the U.S. Senate. Sen. Eugene McCarthy, D-Minn., one of the sponsors of the bill, said he introduced the measure because the rising cost of higher education prevents up to 200,000 high-aptitude students each year from completing their education.

The cost of a year at college has risen sharply in recent years and will continue to rise over the next ten years, McCarthy said. The McCarthy bill provides a direct $200 annual payment for any student who maintains a satisfactory standing with an accredited college or university.

The rising cost of a college education "has placed a critical burden on families of those students who can continue their higher education and prevents those who cannot from realizing their fullest capabilities and the contributions they can make to society," the Senator said.

"This Congress and the Congress before it acted with recognition of the fact that learning contributed greatly to the growth of the nation's strength and opportunities than the widespread availability of education at every level and this measure continues this concept."

Prof. Olson to Talk On Dairy Nutrition

Howard H. Olson, associate professor of animal industries, will speak to a session of the American Society of Animal Science meetings at Michigan State University, East Lansing, Aug. 1-5. He will present a report on "Dairy Feeds," dealing with recent dairy nutrition studies at SIU.

The Master of Ceremonies is Bob Taylor, who was employed by WGL-AM in Harrisburg. Performers in the show are: Karen Cronk, vocalist; Jerry Deller, folk singer; Ginger McGimmy, comedy pantomimist; the Moody Two, folk singers; Joe Sheridan, soloist; Rosemary Smith, vocalist and pianist; and Sharlett Kay Wolfe, soloist.

Are There: "The Hoax of the Carduff Giant" is another look at the farm near Carduff, N.Y., where the mysterious giant allegedly was found in 1870.

TV Film Explores Iron Curtain Area Children's Attitudes

A comparison of attitudes of children on both sides of the Iron Curtain will be made on "Interets: Children of Revolution" at 7:30 p.m. today on WSHU-TV.

Czechoslovakian and Austrian children are the subjects of this unusual filmed report.

Daily Egyptian Classified ads

pack a big wallop.

Just one dollar places a classified ad of 20 words into a whopping big audience...well over 20,000 people during the regular school year. A giant summer audience too. It stands to reason that if you have something to buy, sell, rent or trade—from automobiles to houses to part time typing—you best bet is to advertise in the Daily Egyptian. Count on quick, efficient results though...these classified ads pack a big wallop.
Shrewdness, Cynicism—Keys to Presidency?

How They Became President.
How They Became President.
How They Became President.

Randolph H. Nelson

Randolph H. Nelson is not given systematic treat­ment. In addition, Professor Cornell performs several tasks: he provides more definitive interpretation than they receive. For example, he has also demonstrated that some columns are not necessarily public opinion.

Professor Cornell closes on the high note in which he began, that "More than ever before, the times demand leadership. Perhaps more than ever before the strong President will be the ablest leader of public opinion."

Shrewdness, Cynicism—Keys to Presidency?

People With Dentures Don't Have to Pray

And Then I Told the President

A hazard of Washington politics in columns these days is that things are so ridiculous that either they should have a tendency to laugh at them, or probably none is more laughed at than Art Buchwald. For example, not long ago in one of his columns he wrote about "overkill," the absurdity of overexerting the human race several times over, Buchwald warned us that "the targets to fit our bombs." Even Buchwald's comments on a sobering issue like the two Chinas drew a few chuckles, though not many from government officials:

"There should be a third China set up somewhere—maybe Luxembourg or Switzerland—which would have nothing to do with the other two Chinas. This would be Neutralist China...In this way, we wouldn't have to hurt anybody's feelings by choosing between Communist China and Nationalist China...we could choose two columns. A rather than one from column B."

And on the FBI: "He (J. Edgar Hoover) is a mythical character, a man who appears in the Reader's Digest, and over the years he has become such a legend that no President has dared reveal the truth."

On the Civil Rights movement: "A day will come when this man is no longer laughed at."

Once in a while, like any card-carrying columnist, Buchwald gets carried away, but it usually comes up with a "scop." Even then he's laughed at. Even when he found out how Humphrey was chosen to run with Johnson: "One day, while he was eating lunch with Mrs. Johnson, she said to you, Lyndon, we owe the Hubert Humphreys of this world money."

"Ah, don't have time to have dinner with the Humphreys, but decide on a cockeyed son, John Bird, Ah'll make it up there some day."

Another ticklish issue was prayer in school. Again no prayer had any effect on the students, half the class used prayer and the other half used another brand, it was discovered that the half that used prayer had far less cavities and were happier than those who didn't pray.

And when he spoke out about TV election forecasts, again few persons said he was wrong. "You haven't heard? I said. "CBS has declared Goldwater the winner. There's no sense in bothering to vote now."

Some, in defiance, went to the polls.

As a Washington columnist, Buchwald has been laughed at by the Reader's Digest, and over the years he has become such a legend that no President has dared reveal the truth."

Shrewdness, Cynicism—Keys to Presidency?
WASHINGTON (AP) — Air Force F-4C Phantom jet fighter bomber, out of an attacking force of eight, was downed by intense antiaircraft fire, U.S. soldiers said.

Two pilots were seen parachuting, the Defense Department said. Radio Hanoi reported that six U.S. planes were shot down and that three pilots were captured.

The Pentagon announcement came three days after an Air Force F-4C Phantom jet fighter bomber was downed in a raid near Hanoi.

At the time, the Defense Department said there were indications that the phantom was struck by a ground-to-air missile. Also, Secretary of Defense Arthur Sylvester confirmed this Tuesday.

The raid Tuesday was aimed at two previously undiscovered, well-guarded, single-engine, low-flying American aircraft used by site personnel. Three pilots were seen parachuting, the Pentagon said, used semimobile equipment which could be installed in less than half an hour. Air pilots were seeing the area.

Reporting of the Johnson administration have withdrawn. This left them balloting among 298 members of the House of Representatives. They do not "relate to critical things:"

Johnson Picks a Republican
As His New Welfare Secretary

WASHINGTON (AP) — President Johnson has named John W. Gardner, a Republican, as his new welfare secretary. Gardner is a lawyer, and was associated with the Carnegie Corp., a foundation which administers philanthropic fund set up by the steel magnate Andrew Carnegie.

As chairman of a presidential task force, he helped Johnson's proposals to Congress in the field of education. Taking note of that service, Johnson said Gardner "helped plant the seed-bed of educational harvest produced by the 88th Congress."

Johnson named Celebrezze to the 6th U.S. Circuit Court of Appeals, which is based in Cincinnati, Ohio. After three years at the Department of Health, Education and Welfare, the 54-year-old Celebrezze thus will return to the state where he began his political career.

He will fill a vacancy created by the resignation of Judge Lester L. Cebb. The judgeship pays $33,000 a year, the Cabinet post $45,000.

When the late President John F. Kennedy named him to the cabinet, Celebrezze, a native of Anzi, Italy, was serving his fifth term as mayor of Cleveland, Ohio.

Johnson Urges Nuclear Halt
GENEVA (AP) — President Johnson said Tuesday the survival of mankind requires a halt to the spread of nuclear weapons.

In a message to the resumed U.N. disarmament conference, the President said "the waving power of our weapons is beyond the reach of the imagination and language alike. Hell alone can describe the consequences that await their full use."

Johnson said he has instructed the American delegation to pursue "as its main objective, in an attempt to reach agreement with the Russians, to seek agreements that will limit the perilous spread of nuclear weapons and make it possible for all countries to refrain without fear from the nuclear arms race."

"To work toward the effective limitation of nuclear weapons and nuclear delivery systems so we can diminish present danger as well as prevent expanding peril.

"To work for a study, comprehensive test ban treaty."

The Soviet Union, however, said it would cooperate, with Soviet negotiator Semyon K. Tsaraphkin asked the Western powers to declare themselves willing to put limits on nuclear weapons.

Salukis Add 5 Foes; 13 Lettermen Return

The baseball season is just a little more than half over, but in 10 or 10 more days it will once again be sharing the sports spotlight with football.

The annual College All-Star football game, which will be played Aug. 6 in Soldier Field, Chicago, will open the professional football season. The College Bowl trophy, the Football League Champions, who will furnishing the winner, will not have to worry about finding individuals who can plan offense and defense equally well.

The Salukis will have a host of sophomores in the starting lineup, but Shroyer still thinks the team will surprise a few clubs.

Of the almost 50 players that are expected to report Sep. 1, only 13 are returning letter-winners and only three of those return to the backfield, a spot which causes Shroyer concern because of the lack in experience and depth.

Quarterback Jim Hart, who owns just about every Iowa passing record, will once again handle the offense. Under Shroyer's new offensive setup this year, the Wing T, Hart will be doing much less passing and more handing off to his speedy backs. The three expected to be sophomores halfbacks are Arnold Keo, Hill Williams and senior back Monty Rifer.

Shroyer is especially high in this backfield and imination that looked impressive in the Spring's intrasquad game.

Besides Hart at quarterback Shroyer has Doug Mougey, a junior who played mostly defense last year. Mougey passed and ran the B-team in an upset victory over the A team in the annual spring intersquad football game.

The offensive and defensive linemen which are expected to be the Salukis' strong point this year, will be sprinkled liberally with sophomores.

The Saluki lineup will be relying on quickness and speed rather than size, although sophomore tackle Al Jenkins at 267 pounds is the exception.

1965 Schedule

Sept. 18 State College of Iowa. 7, State College 0.
Sept. 25 Louisville State 13, Louisville State 2.
Oct. 2 Youngstown State 24, Youngstown State 0.
Oct. 9 Lincoln H 12, Lincoln H 6.
Oct. 16 Drake 0, Drake 0.
Oct. 23 Wichita State 19, Wichita State 0.
Oct. 30 Tulsa 35, Tulsa 0.
Nov. 6 Northern Michigan State 13, Northern Michigan State 0.
Nov. 13 Ball State 7, Ball State 0.
Nov. 20 Southwest Missouri State 16, Southwest Missouri State 0.

All games except the homecoming game with Tulsa and the final game with Southwest Missouri will be played at night.

NEW YORK (AP)—Doctors patched up Casey Stengel's fractured left hip in a 45-minute operation Tuesday and predicted the Mets' manager would be able to walk within five days with the help of a cane.

Stengel, who will be 75 this Friday, probably will remain in Roosevelt Hospital for three weeks.

Whether he will be able to rejoin the club this season in doubt. Meanwhile, Wally Westrum, his 42-year-old pitching coach, will manage the cellar team.

Dr. Peter LaMotte, the Mets' medical, a team of orthopedic surgeons who inserted a metal ball in the joint of the hip.

Stengel's fracture was considered serious.

He said he used the metal ball procedure instead of a pin as a coupling device because Stengel's age and because it would enable him to walk soon.

Stengel suffered the fracture in a fall Sunday morning following a party for all the old-timers of the New York Giants and the Brooklyn Dodgers.

Asked how Stengel had fractured the hip — there have been several versions — Dr. LaMotte said: "I think he twisted his hip while getting out of a car. He complained of pain before going to bed that night and when he got up, the pain was severe."

Stengel's wife, Edna, came from their home in Glendale, Calif., to be with him.

Roberts on Waiver List

BALTIMORE (AP)—Veteran pitcher Robert Roberts, No. 10, among all-time major league baseball winners, was placed on waivers by the Baltimore Orioles Tuesday at his own request.

The move was designed to give Roberts his unconditional release.

COACH DON SHROYER WATCHES HIS PLAYERS DURING SPRING PRACTICE.
Quest for Food Sources

SIU Scientists to Give Symposium at U. of I.

Six SIU scientists will conduct a two and one-half hour symposium at Urbana next month on the potential of algae, bacteria, fungus and yeast as food sources. William D. Gray, internationally known mycologist and professor of botany at SIU, will head the panel. Other members are Walter E. Schmid, Jacob Verduin and Carl C. Lindgren in conjunction with the American Institute of Biological Sciences at the University of Illinois.

Schmid and Verduin will report on evaluation of algal culture as a source of food supply and mass culture of algae under controlled conditions. Gray will report on potential of microorganisms as food; a report by Gray and Abou El Seoud will deal with their process for producing a high-protein fungus food supplement from waste plant products.

Concluding the symposium, Lindgren will report on possibilities of industrial exploitation of yeast by-product for a large scale for nutritional purposes.

Gray said the Society of Industrial Microbiology is a comparatively young organization in which the possible application of microbiological discovery is stressed.

Recital to Feature Tuba, String Bass

Seldom heard as solo instruments, the string bass and tuba will have their chance at a student recital at 7:30 p.m. Sunday in Davis Auditorium in Wham Education Building.

Featured performers are William Jacque Gray of Carbondale, playing string bass, and Lloyd F. Collins of Festus, Mo., playing tuba. Accompanying Gray at the piano will be Mary K. Cornett of Herrin, Collins will be accompanied by Jack Ridley of Marion.

Gray will perform works by Eccles, Bach, Lorentzelti and Koussevitzky. Collins, will perform works by Severndorf and Tchererpen.

Two Assistant Deans Named For College of Liberal Arts

(Continued from Page 1)

Carl C. Lindgren, Piper said, as well as for student academic affairs, teacher training programs and liaison with other academic units of the University of Illinois.

Haddy, a native of Springfield, Ill., has received from the University of Wisconsin a master's degree, and holds a doctoral degree from Duke University.

In 1960 he was chosen by the U.S. State Department of Education to be a lecturer at the University of Kabul, Afghanistan, on a Smith-Mundt Fellowship. He has written numerous research articles, and has contributed several articles on organic chemistry to the Encyclopedia of Science and Technology.

A new system developed by Hayday for copper electroplating for the past year by the SIU Foundation.

MacLachlan joined Southwestern Illinois College in 1958 as superintendent of the school. He has written numerous articles on Indian justice, law and order for scientific publications.

Having previously been at SIU as a research assistant in archaeology in 1953, he holds three degrees, including a doctorate, from the University of Chicago.

Retail Trainees Needed for Fall

The Student Work Office is interested in interviewing SIU men who are in their sophomore year or above, including graduate students, for the fall co-op job program with Montgomery Ward & Company.

Under this program the trainees will gain insight into the retail business through actual experiences at the Centralia and Murphysboro stores of the firm.

The participants will work approximately 40 hours a week and will be paid a salary while they are taking part of the retail manager training. They also will be given other fringe benefits.

Interested students should contact Bruno W. Bierman or Fred L. Lukasik at the Work Office before Aug. 5.
