Jean-Leon Destine and his Haitian Dance Company will perform on campus Nov. 7. The "Caribbean Festival," that Destine and his group present will be sponsored by the Women's Physical Education Department with the University Lectures entertainment committee, at 8 p.m. in Shryock Auditorium.

A native Haitian, Destine was among the first to recognize the Voodoo (correctly, Voudon) dances as great art. Eventually he was admitted as a student and disciple, and under the tutelage of a Voudon priest learned the philosophy of the ancient, superstition-laden belief.

For outstanding services in interpreting the arts and lore of his people, Destine was honored by "l'Officier Humeur et Morale," the highest honor Haiti has bestowed on an artist.

Although the drum is the most important in Haitian folklore, many other instruments accompany Destine's dance, including the vaccine (bamboo trumpet), rattlechat, acou, tambourine, flute, bells and other percussion.

The dazzling drummers featured in his company are Alphonse Cimber and Jacques Succis, Haiti's most celebrated percussionists, who not only participate in Destine's music, but also offer a "Drum Conversation" duct.

Destine himself played the title role in the prize-winning film "Witch Doctor."

'Some Classes Out Saturday' Saturday's class schedule will follow the same pattern used for previous Homecomings, Robert A. McGrath, registrar, said.

Classes which meet only on Saturday mornings will meet as usual, McGrath said.

But those classes which meet during the week with one class meeting on Saturday will not meet this Saturday.

Students are reminded that the only classes dismissed Friday will be those taught in the College of Education. Classes are being dismissed in order to permit faculty and interested education students to attend a meeting of the Southern Division of the Illinois Education Association in the SIU Arena.

All other Friday classes will meet as scheduled.

'Sigma Xi to Hear Research Director' Samuel A. Ajl, director of research at the Albert Einstein Medical Center in Philadelphia, will speak at 8 p.m. today in the Agriculture Seminar Room.

The lecture, sponsored by Sigma Xi, scientific fraternity at SIU, will deal with "The Biochemistry and Physiology of Microbial Toxin."

Ajl, a native of Poland, has had a distinguished scientific career. He served first on the faculty at the Washington University School of Medicine in St. Louis and later as chief microbiologist in the chemical section and assistant chief of the Walter Reed Army Medical Center in Washington, D.C.

'Witch Doctor to Perform Nov. 7' "King Menes' Crowns Queen Tonight"

'Freshman Convocation Today Will Feature Concert Pianist' The glittering crown will be placed on her majesty's head by the mysterious King Menes, in ceremonies drawn from the traditions of ancient Egypt.

Selection of the queen was made by 600 students who voted in the recent election, but the winner's name will not be made public until the moment she is crowned.

"The idea is to select a new queen every year because it is an integral part of our Homecoming program," said Barbara Zettler, organizer of the Homecoming committee.

"Witch Doctor" was released in 1970 and the film won the 1971 Cannes Gold Mouse Cage Award for Best Film.

The glittering crown will be placed on the majesty's head by the mysterious King Menes, in ceremonies drawn from the traditions of ancient Egypt.

Selection of the queen was made by 600 students who voted in the recent election, but the winner's name will not be announced until the moment she is crowned.

The five finalists are Diane C. Blakely, the student body president; Saluki Hall, junior of Lincoln Park, who was selected by the faculty as "outstanding student" of the week; Robert W. Potach, sophomore of Mattoon, who was selected by the student body as "outstanding student" of the week; Karen D. Tumbleton, senior of Mattoon, who was selected by the faculty as "outstanding student" of the week; and K. E. Wood, junior of Small Graysville, who was selected by the student body as "outstanding student" of the week.

"The queen and her court will also participate in tonight's ceremonies, including two attendants, Linda Thornburg and Carol Grigg," Zettler said.

A reception for the queen and her court will be held at 5 p.m. in Room H of the University Center.

"Students may purchase copies of the directory for $1. All University offices will receive copies this week," officials said.

A spokesman for Systems and Procedures, which coordinates the planning and distribution of the directory, said that more than an adequate number of copies has been printed.

The directory, bound in a bright red cover, contains a listing of the names, addresses and phone numbers of students and faculty on both SIU campuses. The directory is divided into four sections, each printed in different colors: green, blue, yellow and white.

Students can be seen squinting their eyes to see if their names have been correctly listed, then to search for information concerning their boyfriends or girlfriends.

Although bigger type is used for previous Homcoming shows, Friday night at the arena, Dave Brubeck and Allan Sherman will be the featured entertainment.

The Student Activities Office also announced that tickets are still available for the Homcoming dance.

Tickets are on sale at the information desk in the University Center.

APO's Second Bonfire Burned; 1st Overruled: Too Flammable

Approximately 120 man hours went up in flames at Wednesday night's homecoming bonfire.

That is how many hours Alpha Phi Omega, service fraternity, spent constructing the bonfire material. The fraternity men began working on the project Saturday night, with railroad ties donated by Illinois Central Railroad as chief material. When they had finished the structure, they were told by Saluki patrolmen that railroad ties could not be used this year because they are too hard to extinguish.

WHAT'S UP? - Hundreds of students in the Thompson Point area Tuesday heard a screaming sirens and witnessed the scene above in which event. Thomas Leffler, SIU security officer, chased played the role of the driver. This photo taken by Richard Kolb was finished in seven minutes.

Freedom Committee, Hockey Club to Meet

Homecoming goes into full swing with the coronation of the 1964 Homecoming queen at 7:30 p.m. in Shryock Auditorium. After this pageantry, a reception for the new queen will be held at 9 p.m., in Ballroom D, University Center. The Community Development Conference continues today in the West Bank Room of the University Center. Scott Morrison, concert pianist, will be presented at today's convocations at 10 a.m. and 1 p.m. in Shryock Auditorium.

Inter-Varsity Christian Fellowship meets at 11 a.m. in Room B, University Center.

Women's Recreation Association's hockey meets at 4 p.m. in the women's small gymnasium. There will be WRA swimming at 8:30 a.m. at the University Pool.

Interpretor's Theater meets at 9 p.m. in the auditorium.

The Student Non-Violent Freedom Committee will meet at 7 p.m. in Room D, University Center.

Southern Players meet at 7:15 tonight in Room 304, Old Main. Sigma Xi will hold a lecture at 8:30 p.m. in the Seminar Room of the Agriculture Building.

The WRA Archery Club meets at 7:30 p.m. in Large Gymnasium.

University Center Programming Board's Educational Cultural Committee meets at 8 p.m. in Room B, University Center.

The Homecoming House Decorations Committee meets at 9 p.m. in Room D, University Center.

The UCBP Special Events Committee meets at 9 p.m. in Room C, University Center.

Music of Masters

On Radio Today

Music by Brahms, Sibelius and Milhaud will be featured on Concert Hall at 3:30 today on WSIU Radio.

Other highlights:

10 a.m. The Story Behind the Theater. Will Armstrong and Mary McKinley discuss the "Set and Costume Designers." 12:45 p.m. Page Two: Editorials from leading American newspapers.

1 p.m. Reader's Corner: James Mason reads the poem of Robert Browning.

2:30 p.m. Flashbacks in History.

8 p.m. Special of the Week: Talks by and interviews with government officials, prominent foreign visitors and outstanding individuals from all walks of life.

Halloween Parade

Set for Saturday

The Halloween parade for elementary and children of Carbondale will begin at 7:30 p.m. Saturday.

The parade will form at the corner of Illinois Avenue and College Street at 7 and proceed north on Illinois Avenue to Monroe Street and west on Monroe to the P.N. Harris parking lot.

The grand march and judging of costumes will be held at the Harris parking lot. First, second and third prizes will be awarded for the prettiest, ugliest, most comical and best-costumed pair.

The parade is sponsored by the Carbondale Park District and the Kiwanis Club.
Russia Pulled Sly One With Voskhod
3-Man Ship Is Space Race 'Tortoise'

By IRA C. EAKER
The Daily Morning Journal, USAF, Retired
Copley News Service

WASHINGTON—On Oct. 12, 1968, the final day of the space race, the spaceship Voskhod hit the headlines, the Soviets at last "outdistancing" the Americans.

For more than a year our space forces had been engaged in a space race which they had been losing. But on this day, the Americans improved their space program and found that Soviet space efforts had not failed them. And on this day, for the first time, there was evidence of increased emphasis.

While Voskhod was still in orbit, our scientists and military leaders began evaluating the purposes and accomplishments of the enterprise.

And recent events of the first 3-man space flight are not yet available—the Russians are keeping them secret. But one thing is clear: There is a difference of opinion as to whether the Russians have lost the space race. There is also a difference of opinion as to whether the Russians are now gaining.

The space race is now being watched with interest. The Russians have achieved a great deal in the past year. But there is a feeling that they have lost the race.

The space race is now being watched with interest. The Russians have achieved a great deal in the past year. But there is a feeling that they have lost the race.

Florida Business Educator Is Visiting Professor Here

J. Frank Dame, Winter Park, Fla., is a visiting professor in the School of Business Education. Dame, 58, served as organizing dean of the School of Business at Florida State University, 1960-1952. A Phi Delta Kappa, Dame received his B.S. degree in 1930 at New York University, his M.A. in education in 1934 and his D.Ed. in education in 1938 at Temple University, Philadelphia.

He has served as a high school teacher in Pennsylvania; supervisor of business education in Washington D.C.; and professor at Temple University and Bloomsburg State College in Pennsylvania.

Dame was research director of the Kansas Legislative Council from 1934 until his resignation in 1963 to accept his present position at Southern. The Kansas council served as a prototype for others.

Dame's booklets, available through the Public Affairs Research Bureau, cover such topics as types of legislative council organizations, general success of the movement, a history of the Kansas council, the permanent research staff and "Some Ghosts Which Should Be Laid to Rest."

342 Foreign Students Here; Total Up 33%;

Coming from as close as Canada and Mexico or from as far away as Burundi or Malawi, Southern's international student body this year brings together representatives from 63 different countries.

Taiwan leads the list with 43 students, but Southern is second with 33 and Korea has 27 students currently enrolled.

According to the International Student Center, the total of 342 represents an increase of nearly one-third over that of last year. Of the total, 133 are freshmen or transfer students. In addition, nearly one-half of the foreign students are enrolled in graduate programs.

Foreign students' majors vary as much as their origins, but it has been found that the Chinese students tend to major in journalism, physics, and microbiology; the Korean students in business, management, and accounting; and students from Iran and India frequently major in government and geography.

The Laotian and Vietnamese governments sponsor several elementary education programs for their college youth. A number of African students are now enrolled in the School of Agriculture through a program sponsored by the African Scholaric Program in American Universities.

Southern has evidently provided a satisfactory "home away from home" for its international students; the International Student Center says it receives a number of letters each year from foreign students who have graduated or have transferred, commenting on the hospitality and friendliness of the SIU campus.

After Hours Study Gains Popularity

Morris Library's after-hours study room "seems to be popular" says Ferris S. Randall, director of the library.

The room, located in the old Textbook Service area, provides a place for students to study after the library proper is closed.

Robert Keel, circulation librarian, said the room is nearly filled until about 11 p.m., then the number of students drops to about 10.

The room, which also houses the library's two-hour reserve books, accommodates about 60 students.

Randall remarked that by the middle of November the room will be equipped with $200.00 worth of reference books which have been recommended by the four division librarians.
Supreme Court Will Not Hear Goldwater ‘Equal Time’ Bid

WASHINGTON — The Supreme Court refused Wednesday to agree to hear a Republican presidential nominee Barry Goldwater’s demand for equal radio-television time to answer President Johnson’s 15 address on world affairs.

Indications were that the Welcome Given Curt Flood Family

ALAMO, Calif. -- Negro baseball star Curt Flood and his family settled into their leased $53,000 house Wednesday after a warm greeting from their white neighbors instead of the loaded shotgun they had been warned to expect.

The St. Louis Cardinals center fielder was all smiles. His pregnant wife wept for joy.

“We think it’s so fine you are not here,’ said Mrs. Joseph Cone, a neighbor.

Virginia Loses Fight for Stay
Of Order to Remap Legislature

WASHINGTON — Virginia lost in the Supreme Court Wednesday an effort to stay a lower court’s legislative reapportionment order that would cut the terms of incumbent senators from four to two years.

But Justice Earl Warren turned down without comment a petition by State Atty. Gen. Robert Y. Button for a stay so the question could be considered by the full Supreme Court on a later appeal.

This lets stand an order by a three-judge federal court in Alexandria, Va., which on Sept. 19 ordered Virginia to reapportion both its House of Delegates and Senate by Dec. 13. The tribunal directed that both Senate and House seats be put up for election by January 1966.

The lower court followed up the Supreme Court order of last June that Virginia must reapportion its legislature as nearly as possible on the basis of population in time for the already scheduled November 1965 election.

The lower court followed up the Supreme Court order of last June that Virginia must reapportion its legislature as nearly as possible on the basis of population in time for the already scheduled November 1965 election.

Current members of the House of Delegates were chosen in 1963 for two-year terms. The lower court said “orderly procedure” would suggest that the members continue until expiration of their terms in January 1966.

But the incumbent senators, also chosen in 1963, were elected to four-year terms. The lower court said there is “no warrantable foundation for permitting them to be saved beyond January 1966.”

Button told Warren that no action by the U.S. Supreme Court had ordered a state legislature to limit the terms of its members. He said the Supreme Court had allowed members of both houses of the Maryland Legislature to stay in office until 1967 and Button asked that Virginia’s get similar treatment.

The petition said the Federal Communications Commission’s order denying Goldwater equal time was “erroneous and without foundation or basis in law.”

But Goldberg said he considered the case not as a “political” but as a legal one and declined to act.

But Goldberg said he considers the case not as a “political” but as a legal one and declined to act.

Supreme Court will not hear Goldwater’s request for equal radio-television time to answer President Johnson’s 15 address on world affairs.
Viet Express Regret

Saigon Admits Planes Strayed into Cambodia

SAIGON, South Viet Nam—Cambodia won ammunition Wednesday from Saigon for its propaganda campaign against U.S. and South Vietnamese armed forces trying to root out Communist Viet Cong bases along the Cambodian-Vietnamese frontier.

A U.S. Embassy spokesman announced the unarmed U.S. Air Force E-23 transport was strafed over Cambodian territory in foggy weather. He said the United States regrets the intrusion.

The crash killed eight Americans who were aboard the transport on a supply-dropping mission. Guerillas were found to have looted the bodies of personal effects and to root out bodies of personal effects and to root out.

The spokesman said there also is a possibility that three armed helicopters in the recovery operation crossed the frontier. Fired upon by a hostile ground party near Dak Dom, they returned the fire.

Reassured Him

Gomulka Says Kremlin Bosses Reassured Him

WARSAW, Poland—Back from a meeting with the new Kremlin leaders, Wladislaw Gomulka declared Wednesday the Soviet party leadership accepted Nikita Khrushchev's resignation, "having proper grounds to do so."

The Polish party leader then expressed a hope that the rift in world communism could be healed.

He described the Kremlin shake-up as in accordance with "Leninist principles of interparty unity" and said Polish-Soviet cooperation will be strengthened.

Gomulka was one of the leaders who had praised Khrushchev after his downfall was announced to the world Oct. 15. Apparently, Poland, like other Eastern bloc nations, feared that the Kremlin shake-up might portend a trend back to tighter control from Moscow as at the days of Stalin.

Gomulka met at the border last week with Khrushchev's successors, Party Secretaries Leonid I. Brezhnev and Premier Alexei N. Kosygin, who have been trying to reassure the restless Eastern bloc.

San Francisco Bullet

Eisenhower Leaves Hospital Today

WASHINGTON — Former President Dwight D. Eisenhower — back in good voice after a bout with a respiratory ailment — will leave Walter Reed General Hospital at 9 a.m. today, Army spokesmen said Wednesday evening. The 74-year-old five-star general entered the hospital Thursday because of a moderately severe inflammation of his windpipe and bronchial tubes.

In Rayland, they returned the fire.

Ex-Judge Burton Is Dead; Was 76

WASHINGTON — Harold Hitz Burton, retired Supreme Court justice, died Wednesday in George Washington University Hospital at 94 years old.

Death came at 4:00 p.m. The justice had suffered from Parkinson's disease -- a nerve ailment -- since the time of his retirement from the high court in 1958 and doctors attributed his death to this, along with the complications of kidney failure and pulmonary trouble. The justice had entered the hospital on Oct. 7.

Burton was a former mayor of Cleveland and served as Republican senator from Ohio from Jan. 3, 1941, to Sept. 30, 1964. He was a senator when appointed to the Supreme Court by President Harry S. Truman. He served on the court for 13 years, from Oct. 1, 1945 to Oct. 13, 1958.

WIU Voters 'Elec'

Johnson, Percy, Too

MACOMB, I1. — Students at Western Illinois University gave overwhelming majorities to President Johnson and Charles H. Percy, Republican gubernatorial candidate, in a mock election Tuesday.

Johnson received 1,626 votes to Republican Sen. Barry Goldwater's 116. The gubernatorial vote was Percy, 1,099 and Democratic Gov. Otto Kerner, Sr., 594.

Other major state races were won by Democrats.

WIU voters also gave Johnson and Percy mock election victories Tuesday. Democrat Paul Powell won out over Republican Elmer Hoffman for secretary of state in a — only other race.
Pitkin's 'Computer' Adds Life to History

President of Illinois Historical Society Is Tireless Researcher

After one of William Pitkin's history classes recently a graduate student compared his mind to an electronic computer.

"Mention a date or a fact and you can almost see his brain light up and start sorting historical data connected with the time or event," the student said.

Another agreed but added: "There is a big difference, though. He manages to put student life into it. To make it timely and interesting and most of all to make you want to go out and read everything you can on the subject. You don't get that from an electronic computer.

Pitkin, an associate professor of history and the newly elected president of the Illinois State Historical Society, would have modestly disclaimed the comparison had he overheard the conversation. He probably would have turned at his lower lip pensively as he frequently does and said, "Well now..." and gone on to recall an incident in history to make a comparison.

To say that history is Pitkin's whole life would, of course, be overrating the case, but it certainly accounts for a great deal of it. Even if he wanted to, he just couldn't leave his subject in the classroom when the dismissal bell rings.

Although he has been a teacher and historian some 40 years, he still spends more time reading and studying in a week than any dozen students. When he is not in class you generally find him perusing the stacks in Morris Library in search of an elusive historical fact, or closeted in his carrel reading, making notes or writing.

And at home, where his study is overflowing with books, largely of an historical nature, he is usually at work researching or writing on an historical paper. He is doing "homework" for next day's class, although he has taught the course for years. Vacations for Pitkin and his wife, Minnie, a librarian in the Normal National Library, are few.

"We just manage to get away from the books," Pitkin said. "I'm interested in history too, especially Illinois history.

She Spots Markers

On their motor trips, she serves as a spotter for historical markers, just in case the owner doesn't have time to stop and read it.," Mrs. Pitkin said.

Pitkin's election as president of the Illinois State Historical Society is a fitting reward to a man who has devoted himself to the study of history in general, and Illinois in particular.

A graduate of the University of Illinois at Urbana-Champaign, he has traveled the state countless times in search of clues that will help fill in historical pictures of the state. He has spent uncounted hours digging through historical records, checking with the state's historical journals. And he has written numerous historical articles.

Most of these articles are written by junior and senior historians. Pitkin, however, regularly publishes articles written by historians and teachers.

He has contributed to scholarly journals such as the Illinois State Historical Society's 'History,' "I think it is an excellent thing for a society such as this to honor a man from the academic field as its chief officer," Clufford said. "It is a personal pleasure to know that a professional historian is functioning as the society's president.

Pitkin, by nature, is soft spoken and gentle in manner. He doesn't go in for classroom dramatics or attention-getting gimmicks. He is a scholar who knows scholars aren't born, they are made.

Delta Zeta Chooses Woman of the Year

Helen Neal Radke, noted educator and president of the Normal School's alumnae association for the year 1963-64, has been named Delta Zeta sorority's woman of the year for 1964. She became a member of Delta Zeta at the University of Washington, Seattle.

Announcement of the selection was made simultaneously throughout the nation Saturday at Delta Zeta collegiate and alumnae chapters celebrated the 62nd anniversary of the sorority.

The Carbondale alumnae chapter and Gamma Omega collegiate chapter at SIU observed the anniversary with luncheon and Founder's Day service at the chapter house.

Miss Imogene Becker, mathematics instructor, was program chairman for the event. Toastmistress was Mrs. Wayne Hutchinson of Marion, president of the alumnae chapter.

Diversity Rife In Plans for Homecoming

Homecoming week is in full swing and students have made plans for the gala weekend which accompanies a homecoming.

Students' plans range from going to the stage show and dance, to, of all things, staying home and studying.

Jerry Looft, a junior with an undecided major, came up with perhaps the strangest idea for the weekend. Jerry is going to shun activity on campus and go duck hunting.

Some students, such as Mike Levin, a senior majoring in psychology, will have to work all weekend and miss the entire program.

Craig Rasmussen, a freshman majoring in sociology, will also be working, although his job won't require much painstaking labor. Craig will work at the game and the stage show.

Bonnie Burns and Carol Wolfe, freshmen majoring in nursing, will stay home and study this weekend.

Of course, the fortunate students will be taking in the color of Homecoming. Shelejgh Clutts, a sophomore majoring in home economics education, will attend the game and the stage show.

City Council Plans Street Barricades For School Safety

Barricades will be erected on High Street at the intersection with Springer Street every school day from 7:45 to 8:15 a.m. and from 6:15 to 8:45 p.m., because of action taken at Tuesday night's Carbondale City Council meeting.

Concern for the safety of students from heavy traffic using the street when they are boarding and departing from buses was said to be the reason for closing it to private traffic during these times.

The barricades are to be operated by school personnel and will be open only to residents of High Street, visitors to such residents and cars having a valid reason for using the street.

By this action people parking their cars on the north side of High Street will have to use the high school lot in the future. In this way, visitors to the residents of High Street will be able to use parking spaces on the street, the use of which had been limited.
4 Injured Salukis Mending, Might Be Ready for Eagles

The word out of North Texas State University this week is "dismal," but things are just about as gloomy in Southern Illinois as the Salukis fight off injuries in preparation for their Homecoming.

The Eagles are locked in a frustrating chain of three straight losses and the Salukis are battling off a series of injuries. However, the Salukis feel the Eagles may lack the depth that can cause them to struggle.

Eagle coach Jerry Hart said Thames went to the doctor Tuesday night, but he had not received any word as to Thames’ condition by Wednesday morning. Meanwhile, back in Denton, Eagles coach Odus Mitchell is having his problems too. The Eagles have lost close contests to West Texas State, New Mexico State and the San Diego Marines. Mitchell feels his team should have, or at least could have, easily won all three.

"What’s bad is the way we’re losing them," said Mitchell. "We’re just losing them down somewhere and fail to score over and over again."

In the 16-3 defeat at San Diego last week, the Eagles pushed to the Marines’ 6, 3, 7 and 12 - yard lines without scoring. Cumulative statistics in three games may point out the Eagle defensive lapses.

Opponents have averaged 18 first downs per game, 37 pass completions -- good news for Saluki quarterback Jim Hart. Hart said Thames went to the doctor Tuesday night, but he feels his team should have, or at least could have, easily won all three.

"What’s bad is the way we’re losing them," said Mitchell. "We’re just losing them down somewhere and fail to score over and over again."

In the 16-3 defeat at San Diego last week, the Eagles pushed to the Marines’ 6, 3, 7 and 12 - yard lines without scoring. Cumulative statistics in three games may point out the Eagle defensive lapses.

"What’s bad is the way we’re losing them," said Mitchell. "We’re just losing them down somewhere and fail to score over and over again."

Sports Groups Are Warring Again Over Amateur Policies

Boydston Complains AAU Fails to Promote Gymnastics

The cold war is over. The war has been broken and now the real battle begins—a truce that has been terminated now that the Olympics are over, the Associated Press reported.

The AAU (Amateur Athletic Union) and the NCAA are at each other's throats over the all-around good play, is a virtually unbeatable combination that explains why Nebraska is now the major college in gymnastics.

Boydston wrote the letter as a result of the United States recent showing in gymnastics in the Tokyo games, where the U.S. did not win one of the medals awarded to both men and women.

"While the results from the recent Olympic Games," Boydston began his letter, "the United States must improve its domestic gymnastics program, compete against the greatest gymnastics program in the world internationally." The SIU athletic chief pointed out to Mahoney that the U.S. has not won a gold medal in Olympics gymnastics competition since 1932. The United States' failure to win any medals in Tokyo "indicates the AAU's failure in advancing and promoting the sport," continued the letter.

"This year's U.S. gymnastics team did not even come close to winning a medal. Marcelo Sakamoto, a 17-year-old Los Angeles high school student, was the number one U.S. finisher but he wasn't even in the top 20. Randy Mitchell of SIU finished 32nd, Dave McClemens, an SIU coed, was first among the U.S. women. She could do no better than 34th.

Boydston went on to say in the one-page letter, "Despite the AAU's constant threats and ineligibility rulings, the USGF already has done more to improve and promote gymnastics in the USGF's two-year history than the AAU has accomplished in the last two decades."

An NCAA spokesman told the Associated Press Tuesday, "There are no more rules, unless the government steps in again, I think it's going to be more talk than talk is going to happen.

The NCAA spokesman was referring to the federal government's intervention in the long NCAA-AAU feud which was temporarily terminated after the late President Kennedy asked the late Gen. Douglas MacArthur to step in. Boydston's letter formally requested the "AAU to abandon its policy of harassment and join in the greatest and most progressive gymnastics program in the history of the United States.

The letter invited Mahoney and the AAU representatives to meet with representatives of the USGF at the SIU Springfield Hotel Saturday, 5, to possibly form a policy concerning the two factions.

When the NCAA Council meets this weekend "they and their AAU representatives will have a policy, a guideline, some way to state their policy should be noteworthy," the NCAA spokesman added.

The U.S. and the AAU-USGF set-up works like this:

The AAU holds the inter-Collegiate League for the promotion of amateur sports in this country. The NCAA and the USGF, which represent the nation's colleges and their athletes, feel they should have a greater voice in the administration and sanctioning of their athletes in international competition."That, essentially, is what the fight is about," explained Bob Green of the AP.
NEW YORK (AP)—Lucius Jackson must have brought some of that Olympic good- will back from Tokyo with him.

Jackson, the 6-foot-9 star of the U.S. basketball championship game victory over Russia last week, exhibited peace-loving tendencies in his first National Basketball Association game Tuesday night.

They came during a flight that erupted between Jackson's Philadelphia teammate, Dave Gambee, and St. Louis' Charley Vaughan. When Gambee and Vaughan started swinging at each other at one end of the court, players from both benches rushed to join in.

Not Jackson, though. "I was watching. I was thinking about the only time during the game, though, that Jackson stood around.

"I was standing there when an American College made his presence felt, particularly under the boards in Philadelphia's 100-81 victory over the previous unvanquished Bears. Jackson scored only 10 points but grabbed 14 rebounds, high in the contest, in Michigan's line problems have evaporated.

Alabama over Mississippi State; Alabama has a trio of first-rate quarterbacks in Joe Namath, Steve Sloan and Wayne Trimbly.

Nebraska over Missouri; In all probability, the Big Eight title goes to the winner.

Louisiana State over Mississippi; The home field gives LSU a tiny edge.

California over UCLA; Craig Morton is one of the season's best passers.

Florida over Auburn: A tight squeeze.

Education Group Re-Elects Officers; Tuttle President

Officers and directors of the Educational Council of IIU, Inc., were re-elected at the annual meeting of the council.

Those re-elected: President, Dr. W.D. Tuttle of Harrisburg; first vice president, George Dodds of Marquette; second vice president, Jerry West of Illinois; first secretary-treasurer, Cal Harris of Illinois; second secretary-treasurer, Fred Bissinger of Maryland; directors—District I, Mr. Paul Hagan; District II, Tom Burdin of Waterloo; District III, Melvin Farlow of Massachusetts; District IV, Gail Hines of Albion; District V, Martin Schaeffer of Chicago; District VI, Norman Moore of Carbondale; District VII, J. W. Farley of Eldorado; District VIII, Mrs. Helen Rodgers of Cairo.

The Educational Council was formed in 1949 "to do all things necessary for the improvement of college education in Southern Illinois," its activity, in the 31 southernmost counties of Illinois, includes promoting special education, alleviating school dropouts, and helping with teachers recruitment, outdoor education, good roads projects.

NBA Shooters Get Head Start

NEW YORK (AP)—All those old familiar names are there in the National Basketball Association scoring statistics released by the league Wednesday. "All of them but one.

You can't help noticing the absence of Wilt Chamberlain's name. The 7-foot-1 San Francisco star hasn't played any games this season, because of a stomach disorder.

Wilt's illness has left the field wide open for the rest of the NBA shooters. And they'll need as big a lead as they can get because Chamberlain is expected to return to action this weekend.

While the Warrior star was convalescing, Jerry West jumped off in front in scoring with 122 points for a 30.5 average. Baltimore's Balle Howell is second with 11 and a 23.2 average. Figure includes games through Monday.

Nate Thurmond, who 1.51 shooting average to lead that department an Adrian Smith of Cincinnati tops the foul shooters with 18 of 19 for .947.

Navy Midshipmen Down Boston College, 64-55

Annapolis, Md. — From the words of their coach, Docover is a defensive-minded unit.

That was about the only time during the game, though, that Jackson stood around.

"I was watching. I was thinking about the only time during the game, though, that Jackson stood around.

"I was standing there when an American College made his presence felt, particularly under the boards in Philadelphia's 100-81 victory over the previous unvanquished Bears. Jackson scored only 10 points but grabbed 14 rebounds, high in the contest, in Michigan's line problems have evaporated.
