Graduation to Be 7:30 p.m. Friday

Program Set
To Welcome
Foreigners

A 10-day preparatory pro-
gram has been planned for new
students. The sessions, which
will begin Sept. 8, are designed
to acquaint them with all
aspects of student life at SIU and the
Carbondale area.

The program will begin with a
banquet in the University
Center with introductory re-
marks by Clarence Hender-
shot, director of the Inter-
national Student Center, and
an address by Oliver Caldwell,
dean of the International
Services Division.

Mayor D. Blane Miller will
welcome the students to the
city.

On Sept. 9, Dr. William T.
Clarke, a physician at the
Health Service, will speak to
the students on its services.
His talk will be followed by
a visit to the Health Service
where the foreign students
will be given tuberculin tests.

Other sessions during the
orientation period will include
a multiscreen slide presenta-
tion about the campus. The
series is designed and pro-
duced by the SIU Department
of Cooperative Research and
Design.

Mrs. Anita Koo, off-campus
counselor for Chinese stu-
dents, and Mr. C. B. Farouk,
a resident counselor at
Thompson Povey, will speak to
the students on housing
areas and facilities on the
campus.

The Rev. Ruben Baerwald,
residence director of the
Lutheran Student Foundation,
and the Rev. W.G. Foote, presi-
dent of the Carbondale Minis-
terial Association, will intro-
duce the foreign students to
the religious foundations and
facilities offered to SIU
students.

During the second week of
activities, Charles Lange,
chairman of the Department
of Anthropology, will speak to
the students on "Understanding
a New Culture."

On the same day, a sym-
posium of foreign students

Today's Newspaper
Is Summer's Final

Today's edition is the last
the Daily Egyptian will publish
this quarter. The first edition
for the fall quarter will be
Sept. 21.

Gus Bode

Gus says he's not going to be
at McAndrew Friday night be-
cause graduations always
make him cry.

ME TOO, DADDY—Eight-month-old Gigi Ra-
petti wants to get into the act as poppa Ed
Rapetti, a graduating senior in journalism,
tries on the academic robes in preparation for
the "big night" Friday. Commencement cere-
monies will be held at 7:30 p.m. in McAndrew
Stadium. (Photo by John Born)

Here's a Sample

There Are Often Losers, But Remember,
For Each One, There's Also a Winner

By Ed Rapetti

Nobody loves a loser. But, fortunately, for every loser there's usually a winner. Here's a sample of what we mean.

A loser is the guy who takes an LSD "trip" and ends up in Carbondale. The winner is the guy who takes the "trip" and wakes up on the Rivers.

The loser is the guy who signs up for Advanced Weightlifting. The winner is the 299-pound brute who signs up for Home Ec for Men.

The loser is the coach who accepts an offer from another school then finds out that his old school had just doubled his salary and given him $100 g's for athletic scholarships. The winner is the coach's as-
sistant.

The loser is the student who just got married to bear the draft and then found out he is 4-F. The winner is the guy who just found out he is 4-F...period.

And finally, the winner is the guy who is graduating this term, and the losers are the faculty who have to stay and convert the incoming bumble-
heads into budding Einsteins in just four years.

Graduate Education Is Commencement Topic

Milton T. Edelman, as-
ssistant dean of the Graduate
School and professor of eco-
nomics, will give the com-
mencement address at the 1966
summer graduation ceremony
at 7:30 p.m. Friday in Mc-
Andrew Stadium.

Edelman, who has served on
the SIU faculty for 15 years,
will speak on "Graduate Edu-
cation: Symbol or Substance?"

Since 1950 Edelman has been a member of the Department of Economics faculty. How-
However, in September, 1965, he
began work with the graduate
school.

During his stay at Southern,
Edelman has been on two sub-
stantial leaves. The first was
as visiting professor of in-
dustry relations in 1957 to
the Bologna Center of John
Hopkins University in Bolog-
na, Italy.

In 1964 Edelman was on
another sabbatical to do re-
search in Israel. The summer of
1964 he served as visiting
associate professor at the
University of Illinois.
Baptists to Hold Retreat; Leaders to Plan Activities

The executive council of the Baptist Student Union at SIU will hold a weekend retreat, Sept. 16-17, at Lake Salato-veka, Pinckneyville, according to the Rev. Robert C. Plisco, pastor of the Baptist Student Center.

The student leaders will plan the coming school year’s program during the retreat, the Rev. Mr. Plisco said. The organization’s 1966-67 calendar lists such activities as BSU rally, summer missions conference, visitation to new students, visitation to churches, BSU state and regional conventions and conferences, social activities for international students, leadership training conferences, Christmas parties, chapel services and other special events.

The Rev. James Ponder, pastor of the First Baptist Church in Carmi, and the Rev. Lee Swope, interim student minister, will be the main speakers at the retreat. Miss Stearns, minister of music at the First Baptist Church in Herrin, will conduct the music and direct the chapel singers, a choral group composed of Baptist students.

Floyd Patterson of Columbia is president of the executive council. Other officers are:

Kenneth Burtynsky, chairman of Interfaith Council, Rev. Turner, missions chairman.

Paul Hicks, international students chairman.

Jennifer Helm, social co-chairman.

Phil McKown, vice president.

Raymond Wheatley, missions co-chairman.

Judy Boes, secretaty.

Ella Gunner, "Beacon" editor.

Mike Marks, social co-chairman.

Lydia Elam, missions co-chairman.

Alan Miller, Interfaith Council co-chairman.

Study Projects

Farmers attending the second Agronomy Field Day at SIU's Southwestern Farm Research Center in St. Clair County Thursday will see the effect of several fertilizer and herbicide experiments on corn and soybeans.

George Kapusta, supervisor of the Center, says improved moisture conditions at the location have the crops in good condition. Some of the current study projects are: the effect of new nitrogen and phosphorus fertilizer carriers on corn, how rates and times of application of nitrogen affect corn; the weed control effectiveness of direct-spray herbicides on corn; narrow-row and high population planting of corn; how potash and starter fertilizers work with soybeans.

What happens when different kinds of herbicides for soybeans are worked into the soil; what nitrogen fertilizers do to soybeans; tests of soybean varieties and work on disease and seed quality in soybean. Tests of some of the Sudan grass and sorghum hybrids and the effect of fertilization of Sudan grass also will be observed.

Recent improvements in the physical facilities, such as new laboratory facilties, the Class A weather bureau station and special equipment for field and plot work will be seen during the program. Some出自 from the U.S. Department of Agriculture and SIU's School of Agriculture will be on hand to discuss the experimental work.

The Center is south of Illinois 101, opposite the south gate of Scott Air Force Base. The program will begin at 1:30 p.m. at the Center headquarters.

Well, Gang, Here It Is Again — Hours for Library, U-Center

Campus offices will maintain their regular hours during the quarter break, but there will be special hours for Morris Library and the University Center.

Hours for the library will be from 8 a.m. to 5 p.m. on Monday through Saturday and from 1 to 5 p.m. on Sunday. Circulation will be the only service provided on Sundays.

The reserve reading room will be closed Friday and will not open again until Sept. 21.

Entrance to the library will be only through the south doors on Saturdays and Sundays. On Labor Day, the library will be open from 8 a.m. to 5 p.m.

Some sections of the University Center will remain closed until shortly before the beginning of New Student Week. Included are the bowling alley, the Olympic Room and the Oasis.

The bookstore will be closed on Sundays and Labor Day, but open other days from 8 a.m. to 5 p.m. except Saturday when it will open at 8 a.m. and close at noon.

The information desk will open at 7 a.m. each except Sunday when it opens at 11 a.m. Closing times at the desk will vary from 6 o'clock most nights to midnight Sept. 17.

The cafeteria will be closed Sept. 4 and Labor Day, but will be open every other day from 7 a.m. to 6:30 p.m. except weekends. Hours will be from 4 a.m. to 1:15 p.m. and 5 to 6:30 p.m. on Saturdays. Sunday hours will be from 11 a.m. to 2 p.m. and from 5 to 6:30 p.m.
The Art of Victory

The Art of Victory: The Life and Achievements of Field Marshal Count Charles de Suvorov

Reviewed by

OSCAR W. KOCH

With a degree of great pride in the accomplishments of his Third Army, General George S. Patton Jr. must have thought entirely in jest that Julius Caesar would have had a tough time being brigadier general in his army. Had he read or heard of the life and work of the commander of the Russian Field Marshal Suvorov, he might have changed his mind.

Suvorov is portrayed in this book which he might have added that Suvorov might have been an easier time. With the unearthing of the greatness of this field commander, The Art of Victory Patton would probably have reserved a place for him on his first crack tactically.

In other respects, Suvorov probably would have fallen by the wayside. His mannaners of dress, his temperament with the troops, his early revolt against the officer class to which he belonged, would probably have disenchanted him.

But tactically—there was a man after Patton’s heart. Suvorov’s concepts and principles were then as novel as were his techniques. He believed in speed, decision and rapid estimates of the situation. His byword was surprise. Characterized as flashing to the point of recklessness his mobility lay: 600 miles in the dead of winter with the impediments of the day, in 30 days; 360 miles in 12 days performed in two echoes by riding his enemy’s rear guard and forcing him to a standstill.
The Art of Victory

189-1925, which he published in his book, Hugb Dalziel Duncan cites in her latest book on antiques. She calls items of this period as "antiques." As the stocks of earlier hand-crafted articles rapidly disappear, those of the later period are becoming more prevalent in the antique shops.

In this book she has made an honest effort to evaluate the art glass, the china, the bric-a-brac, the jewelry, the clothes of our present day. The results of her research are obtained from her own childhood, from other antiques experts, from antiques experts, from the people who dwell in the antique shops. The author believes that this book will be of benefit to the antiques collector.

The author believes that this book will be of benefit to the antiques collector.

The book is readable and entertaining. Mrs. Cole is an authority on antiques (both English and American) as well as to the layman.

The book is very useful as a reference book. This photographic guide is in the photographic record of the buildings because it is also a reference book to the builder and architect.

The city of Chicago is unique in the sense that it is the place of the first and the most important era of our country’s architectural development that is known as the Chicago School.

In his introductory remarks in The Science of Architecture, an authoritative outline the principles of the Chicago School, and Carl W. F. Kraft in his book, Chicago: The Practice of the Chicago School, give the reader a comprehensive view of the subject in an authoritative manner. These brief but descriptive notes present the various facades of the Chicago School in a single volume. The casual tourist and casual observer of architecture can enjoy its development.

The book is well presented and the photographic record of the buildings is outstanding. It is of interest to students of architecture, as well as to the layman, to be able to see the architectural drawings of an important and of the most important architectural pieces.

Thelma A. Mathis

Grecian Colonies Through History

Reviewed by

THELMA A. MATHIS

Helen Hill Miller, a graduate of Bryn Mawr, has a diploma from Oxford and a Ph.D. in political science from the University of Chicago. She is the author of other books on Greece.

Miles Miller writes with speed covering an abundance of material with so few words that the reader becomes fascinated almost overwhelmed by her style.

The writing of sculpture, architecture, and pottery is of great enthusiasm equal to her interest in political history and geography.

The description are exactly clearly but it is a great help that she has superb photograph of the entire piece and not just a portion which have been standing so long.

The reader feels the weight of the underground walk begun in the Bronze age when the miners died and lived without seeing the sun.

A political discussion in the 5th century Athenian assembly could very well re-produce the feelings of the audience.

The statement that nothing escapes the author from the very ancient to the present. An 11th century manuscript from Florence, accounts the death of Aeschylus from a sea gull. It broke clams from the shell by dropping them on marble and mistook Aeschylus head for a dead murex.

There are contracts of pace and at times there is quiet, such as waiting in the conning light for the honeycomb of the Spongita temple with the white daisy stylobate.

The book is interesting and entertaining: it could also be used as a reference book.

A New Housing Facility serving the needs of more than 500 human beings

THE THEORY OF WALL STREET QUADRANGLES

Wall Street Quadrangles is owned and managed by a student for the benefit of students and is established upon the following principles:

1. Respect and protect the privacy and individuality of each and every resident.
2. Provide each student with 250% more living space than maximum competing standards.
3. Furnish the finest in interior residential furnishings—not cheap, lifeless carpeting and drab institutional decor.
4. Make living at Wall Street Quadrangles so attractive that a prospective tenant might even think about cutting down on his drinking in order to pay the rent.

In fact, the Wall Street Quadrangles residences reflect this theoretical framework:

1. Co-educational living on a sensible basis.
2. Unusual bi-level suites—not 7'x10' cubicles
3. Plush wall to wall carpeting, deep walnut paneling, complete commissary, and recreational opportunities.

WALL STREET QUADRANGLES Winner of national acclaim for excellence in design and the proud possessor of an unblemished local reputation.

WALL STREET QUADRANGLES is superior in every respect to Carbondale's norms—but don't ask us to talk to the student who lives there.

Located on Wall Street 2 blocks south of Park Street, adjacent to the Campus.

Copters Whirl Against VC In Skirmish Near Saigon

SAIGON, South Viet Nam (AP) - Aerial flares lighted the sky Tuesday night above a skirmish zone three miles south of Saigon, U.S. helicopter gunships whirled into action against a Viet Cong squad that attacked a South Vietnamese military outpost. There was no immediate word about casualties on either side, The Viet Cong set off another mine in the intensified war on the waterways but missed their target, a U.S. Navy patrol boat cruising the Co Chien River 35 miles southwest of Saigon. It was the fifth such strike at allied vessels in eight days. The U.S. Command said the explosion, and an accompanying flurry of about 100 shots from the bank, caused neither damage nor casualties. The Americans shot back with un- determined result. They had slowed to check on an empty sampan floaking in the river. The mine exploded between the two crafts, sending a column of water 90 feet into the air.

Seeking to cut down such harassment, the U.S. Navy for the first time sent its own helicopter gunships aloft to support the river boat fleet. Navy crewmen headed by Lt. Cmdr. William A. Rockwell of Chula Vista, Calif., took over armed UHls from veteran Army teams after training aboard the dock landing ship Tortuga, a helicopter base.

Six tugs and other salvage craft towed one victim of the mines down the Saigon River to coastal Vung Tau for repairs. This was the Baton Rouge Victory, a 7,605-ton U.S. freighter holed by an explosion that killed seven crewmen as it was nearing Saigon last Tuesday on a voyage from San Francisco with war supplies.

The crew of a South Vietnamese landing craft suffered several casualties, a government minesweeper was sunk, and a U.S. minesweeper narrowly escaped in later incidents the Communists stirred up to impede allied river traffic.

Farm Product Prices Increase by 2 Per Cent

WASHINGTON (AP) - The Agriculture Department reported Tuesday that Farm product prices increased by 2 percent between mid-July and mid-August.

This put the farm price level 9 percent above that for August last year, the Rues Committee to provide for the House to vote its choice between the two bills - provided he assured the right of a roll call that would put every member on record. The Rules Committee indicated it would provide for this.

The committee sent the bill to the House under these terms. Speaker John W. McCormack, D-Mass., said it will probably be scheduled for consideration next week.

The hearing came just after the interest rate issue triggered a public disagreement between President Johnson and former President Harry S. Truman.

Johnson said he, like Truman, is concerned over high interest rates, but cannot agree with the former president that the economy is in danger of recession or depression.

One part of Johnson's statement, however, could be read to suggest possible action beyond the limited interest control bill. He said, "We need to find better ways to restrain inflationary pressures than by resort merely to the high interest rates we have been witnessing."

Johnson has said repeatedly he would ask for a general tax increase if inflation threatened to get out of hand. But until Barr spoke up Tuesday, administration officials have been concentrating less in recent weeks about any early prospect of tax legislation.

Cambodia Greets Charles de Gaulle

PHNOM PENH, Cambodia (AP) - President Charles de Gaulle of France was welcomed to Cambodia Tuesday as a fighting ", to aid the unfortunate Vietnamese people stricken by the cruel, unequal and unjust war which is imposed on them. CAMPUS SHOE CLINIC

LARKIN WILLIAMS ENJOYED CAMP FOOD.

The Alumni Family Vacation Camp, in its last week at Little Grassy Lake, operates on the idea that if the kids are busy and in good hands, parents can really enjoy their own vacation.

Many activities are available to the children, some pictured here. Others are horseback riding, hiking, horseshoes and archery. Parents may enjoy also these activities, or they may—as many chose to—just relax and do as little as possible.

This year marks the ninth season that SIU alumni have come to Little Grassy for vacations.

Many alumni arrange their vacations so they may hold reunions with former classmates and friends.

The program is held for four weeks each summer and is open to all members of the Alumni Association, including faculty members.

Football Sale: "Rebuilding for New Season"

By Mike Schwebel

Strong on catching, weak on throwing makes balls questionable in between to be the position of the 1964 football. Southern will be the count down begins for collegiate competition.

Under first-year Head Coach Bill Ransburger, Southern will open at Sept. 17 against Wichita State University under the lights of McAndrew Stadium.

Following the opener will be the Southeast Nebraska Game as the Salukis hope to improve on a 1963 mark of 2-4.

"Rebuilding" is a word that depicts the coming year. Southern could not expect a winning season, and it is the word the Salukis must carry at this stage of the game.

On the prospects aren't that bad for ISU, with 21 lettermen returning to go along with 45 sophomores and five freshmen that are proven ball-hawks.

John Ference and Tom Mauck are back with Massey returning after a year as a sophomore.

The team has added depth at the end positions, and the problem now is to get some consistency in the passing department at quarterback.

One of four quarterbacks must come through to win a stable spot at quarterback.

The foursome are Doug Mougey, Tim Kelley, Tom Calabria and Walley Agow.

Mougey has the experience and should be the first among the four to be the starter against Wichita, but the senior signal-caller will have to fight to hold his spot.

Kelley, a promising sophomore, will be the biggest threat to Mougey. The offensive line will be somewhat experienced, and could be the key to the Salukis' scoring punch.

Ralph Galloway, at 230 pounds, was a starter last season at left tackle, and should hold the job this year.

At the end positions, Ference and Massey aren't the only returning lettermen returning to.

Jim Anderson, displaying good speed and fine hands in sprinting practice, may team with Massey on the offensive unit.

Bill Blanchard, Bill Hols and Charles Tuley give Southern a fine depth in the strongest part of the club.

41st Hambltonian

To Be Run Today

At Du Quoin Fair

The 41st running of the Hambltonian will be held this afternoon at the Du Quoin State Fair. The class-three-year-old trotters is the second of the three main racing card starting at 1:30 p.m.

There will be 12 trotters in the Hambltonian, with the starting price.

The winner's share is over $20,000.

About 5,000 tickets are still available at $3 and $4 each. The 1:30 p.m. finish will be shown on the 9 a.m.

There is no heavy favorite for the race, but the leaders are expected to be Carlisle, Korea Way and Polaris.

In the backfield, Southern appears weak on paper.

Doug Mougey is a sophomore, will have the lack of experience facing him as he starts at one of the halfback spots.

"Eddie" Richards, likely to start at the other end, will be moving from a starting defensive back last season to the offensive unit.

Bill Williams, a 6-0, 190-pounder, took over as fullback position last season as a sophomore, and will hold the spot again this season.

Williams is a capable runner, but there is a lack of depth behind him. If he can stay healthy during the campaign, the position should be at least adequate.

Mougey, for his part, Ransburger will have five returning lettermen who are tabbed as starters.

Defensive tackles on the first unit should be Willie Williker, and Larry Wolfe, both lettermen.

At 245 and 218 pounds respectively, the positions seem fairly sound.

Guards Bill Sanders and Blanchard at defensive end positions.

Second-year man Tom Wirth will team with the experienced Gus Heath at defensive end. Halfback, and veteran Norm Johnson should handle the safety spot for the year.

Wichita, which last season shut out the Salukis 27-0, is also expecting a "rebuilding" year with Coach George Karra, a defensive specialist before joining the Shockers.

Wichita, which last season shut out the Salukis 27-0, is also expecting a "rebuilding" year with Coach George Karra, a defensive specialist before joining the Shockers.
