THE BOOK OF THE DEAD

"Very timely and will be received with delight in many quarters... We congratulate all interested in Egyptian literature upon the opportunity of securing at least this intensely interesting and valuable memorial of the religious beliefs of a great and a vanished people."—Seminary Magazine.

"A reprint in handy form of the third volume of Dr. Budge's elaborate edition of the Book of the Dead. The learned world is by this time pretty well agreed as to the value of this translation, and one can only express gratitude to the publishers for bringing it within the reach of many whom the high price of the former volume would have prevented from possessing it."—American Journal of Theology.

"Everything has been done here to present to the English reader the Egyptian funeral texts in a complete and thoroughly intelligible form: and all but specialists on Egyptian studies will find it to their profit to procure the present admirable edition."—Presbyterian and Reformed Review.

THE OPEN COURT PUBLISHING CO., CHICAGO,

A History of Egypt

Vol. I. Egypt in the Neolithic and Archaic Period.
Vol. II. Egypt under the Great Pyramid Builders.
Vol. III. Egypt under the Amenembats and Hyksos.
Vol. IV. Egypt and Her Asiatic Empire.
Vol. V. Egypt under Rameses the Great.
Vol. VI. Egypt under the Priest Kings and Tanites and Nubians.
Vol. VII. Egypt under the Saites, Peralans and Ptolemies.
Vol. VIII. Egypt under the Ptolemies and Cleopatra VII.

"The publication of this work, certainly the most complete and exhaustive English history of the Egyptian Kingdom from the earliest times which we possess, may be said without undue eulogy to mark an epoch in Egyptological studies in this country."—Glasgow Herald.

"In these volumes we have a graphic history of the period written from a careful study of their monumental records that have survived the downfall of the nation. They are indispensable to the student of those ancient times, and will make the history of the Old Testament seem more real."—Syracuse Messenger.

HERBERT SPENCER.
1820-1903.

Frontispiece to The Open Court.
HERBERT SPENCER.

Born April 27, 1820, died December 8, 1903.

BY THE EDITOR.

Mr. Herbert Spencer's life is concluded. He died during the last month at the advanced age of eighty-three years. And how happy was his fate! He was permitted to work out his philosophy in all its details and he witnessed its gradual spread over the whole civilized world. Not the least part of his success is due to the interest that was taken in his labors by American thinkers, for he attained fame in his own country only after having found recognition abroad.

In his private life Mr. Spencer was simple and unostentatious. He did not marry and lived solely for his literary work, the furtherance and completion of which was his highest ambition.

Mr. Spencer was a most ardent advocate of evolution, and some of his disciples even declare that he was the inventor and first champion of this doctrine,—a claim which, however, cannot be maintained.

Mr. Spencer is the classical exponent of agnosticism, the philosophy of nescience which characterizes the period of transition from blind faith in authority to a world-conception based upon science. He propounded his theory of the Unknowable as a means to deny the assertions of the established religion, but became scarcely himself aware of the fact that he dug the grave for any kind of affirmation, untrue and true, wrong and legitimate, irrational and scientific, leaving nothing but negations. He cut off not only the pretensions of superstition, but also the life of all genuine knowledge. While his philosophy did not fulfil the expectation which progressive thinkers expected from it, it served the needs of
the time and created a demand for something better and higher than the self-satisfied dogmatism of tradition.

Mr. Spencer’s great merit consists in having for the first time worked out for the English speaking world the comprehensive system of a synthetic philosophy. The enthusiasm with which he devoted himself to this task, the personal sacrifices which he brought for it, and the diligence and energy which he showed in its completion, are worthy of our highest admiration.

The ideas which Mr. Spencer set forth were so novel in his English surroundings that they were felt to be revolutionary in almost all the walks of life, and his pen was trenchant whether he wrote on ceremonial institutions, on education, on ethics, on first principles and kindred questions of abstract thought, or on topics suggested by the natural sciences. If the propositions which he suggested did not always find ready acceptance, they certainly set the world to thinking and in this respect his influence was wholesome, because stimulating. In his younger days he was quite iconoclastic, but with the advance of years he grew more conservative. His disciples and admirers, of whom he has many, recruit themselves from the ranks of liberals and radicals, and mainly from the multitudes of unprofessional thinkers.

The time has not yet come for the historian of philosophy to pronounce a final verdict on Mr. Spencer’s system and adjudge its place in the evolution of human thought. He belongs too much to the present generation, and it is difficult to form an impartial opinion while the battle is raging. But that much will be granted, that most assuredly, Mr. Spencer has become a factor in the history of philosophy which none, be he his friend or antagonist, can afford to pass by unnoticed.

1 Our frontispiece, the portrait of Mr. Herbert Spencer, is reproduced from the "Philosophical and Psychological Portrait Series" published by The Open Court Publishing Company.
